Bond Defeasance

In March 2015, the College issued \$12,785,000 of Refunding Bonds, Series 2015 with an average interest rate of 3.76% which, in conjunction with a debt service fund contribution, were used to refund \$1,965,000 of outstanding Refunding Bonds, Series 2005B and advance refund \$11,535,000 and Facilities Bonds, Series 2006, with average interest rates of 3.95% and 4.44%, respectively. The net proceeds of \$13,990,731 (after payment of \$109,090 in underwriting fees and other issuance costs), plus an additional \$293,236 of prior debt retirement fund monies, were used to purchase U.S. treasury securities which were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the original bonds. As a result, the bonds are considered to be defeased and the liability for the bonds has been removed from the College's long-term obligations. In prior years, the College defeased certain other bonds. At June 30, 2017, \$12,060,000 of bonds outstanding are considered defeased.
