2010-2011 Academic Calendar

Fall Semester, 2010
July 14 . . . . . . . . . . . . . . Fall registration begins for current and readmitted students
July 21 . . . . . . . . . . . . . . Fall registration begins for new students
August 27 . . . . . . . . . . . . . . Fall Semester begins
September 3-6 . . . . . . . . . No classes
September 6 . . . . . . . . . . . . . . Labor Day Holiday, College closed
September 7 . . . . . . . . . . . . . . Classes resume
November 23-26 . . . . . . . . No classes
November 25, 26 . . . . . . . . Thanksgiving Recess, College closed
November 27 . . . . . . . . . . . . . . Classes resume
December 17 . . . . . . . . . . . . . . Fall Semester ends, College open
December 23-January 2 . . . . Semester Break, College closed

Winter Semester, 2011
November 18 . . . . . . . . . . . . . . Winter registration begins for current and readmitted students
November 17 . . . . . . . . . . . . . . Winter registration begins for new students
December 23-January 2 . . . . Semester Break, College closed
January 3 . . . . . . . . . . . . . . College offices reopen
January 10 . . . . . . . . . . . . . . Winter Semester begins
January 17 . . . . . . . . . . . . . . Martin Luther King, Jr., Holiday, College closed
February 28-March 5 . . . . . Winter Recess, no classes
March 6 . . . . . . . . . . . . . . Classes resume
April 24 . . . . . . . . . . . . . . No classes
May 2 . . . . . . . . . . . . . . Winter Semester ends

Spring/Summer Semester, 2011
March 16 . . . . . . . . . . . . . . Spring/Summer registration begins for current and readmitted students
March 23 . . . . . . . . . . . . . . Spring/Summer registration begins for new students
May 9 . . . . . . . . . . . . . . Spring/Summer Semester begins
May 19 . . . . . . . . . . . . . . Honors Convocation
May 21 . . . . . . . . . . . . . . Commencement
May 30 . . . . . . . . . . . . . . Memorial Day, College closed
May 31 . . . . . . . . . . . . . . Second 10-week session begins
June 15 . . . . . . . . . . . . . . Second 7½-week session begins
June 29 . . . . . . . . . . . . . . First 7½-week session ends
July 4 . . . . . . . . . . . . . . Independence Day, College closed
July 5 . . . . . . . . . . . . . . Classes resume
July 18 . . . . . . . . . . . . . . First 10-week session ends
August 1 . . . . . . . . . . . . . . 12-week session ends
August 8 . . . . . . . . . . . . . . Second 7½-week and Second 10-week sessions end

* Classes end by this date (or before) unless specified otherwise in the class listing of the Spring/Summer 2011 Academic Class Schedule.

Greetings From President Larry Whitworth

Welcome to Washtenaw Community College. You are joining the largest population of students the College has ever enrolled. Our numbers have increased steadily over the past five years, to more than 14,000 students last fall and winter semesters. To accommodate this growth, we are expanding our distance learning programs, offering more evening and weekend classes, and exploring new locations to deliver off-site classes.

Our increased enrollment includes students just out of high school ready to train for a career or prepare for transfer to a four-year institution. We have many students who did not imagine college in their future, or never anticipated that, after a number of years on the job, they would be back in school polishing their skills or retraining for a new career. Others are here because they realize that learning is a lifetime commitment.

If you are new to the College, we offer a complete orientation program where we work with you to assess your skills, abilities and goals. Our counselors and advisors then help you build your academic plan. If you are returning to the College, you know that our faculty are excellent teachers, often bringing with them a wealth of real-world experience from their professional fields. Because our classes are small, you will receive personal support and guidance from your instructor.

The impact of the economic downturn affects people throughout the country, and Washtenaw County is no exception. As a result more people are realizing that a college education is essential to compete in this dramatically changed marketplace. Employers require their workers to be not only technically proficient, but also culturally sophisticated and socially adept. Employees must be equipped with a variety of skills they can use to adapt to multiple opportunities, because a significant number of jobs that exist today will be gone tomorrow, and many of tomorrow’s jobs do not even exist today.

Knowledge is the most valuable tool we can offer our students. On behalf of the faculty, staff and Board of Trustees, we pledge to help you become self-initiated and independent learners ready to succeed in today’s complex world.

Sincerely,

Larry Whitworth
President

College Overview

Mission of the College
Our college strives to make a positive difference in people’s lives through accessible and excellent educational programs and services.

- We provide a caring, open-door teaching and learning environment.
- We provide excellent teaching, counseling, and support services.
- We reach out to people who have limited income or other barriers to success.
- We enable people to progress in their academic and career pursuits.
- We work in partnership with the communities we serve.

We fulfill our mission by offering the following programs and services:

Occupational and Career Education: We offer certificate and associate degree programs, seminars, workshops, and courses which enable people to pursue employment or advance in a career. We develop and deliver job skills and occupational education programs in partnership with business, industry, government and labor groups.

General and Transfer Education: We offer individual courses and associate degree programs in academic disciplines which transfer to four-year colleges and universities, complement career programs, and enhance personal growth.

Continuing Education and Community Services: We offer credit and non-credit courses and programs at regional centers, at local business and community sites, and via television and the Internet. We develop and offer programs which respond to the educational needs of specific groups in the community.

Developmental Education: We offer basic courses, which strengthen reading, writing, mathematical, computer and study skills. We also offer instruction and services to people who wish to learn English as a second language.

Student Services: We offer orientation, academic skills assessment, assistance with program and course selection, financial aid, university transfer assistance, personal and career counseling, job placement, tutoring, child care, special needs services, computer and self-paced instructional laboratories, and library services.

Community Leadership: We cooperate with other community organizations in seeking solutions to local economic and social problems. As a primary educational resource in the community, we work to improve the quality of life in the communities we serve.

Values of the College

Teaching and Learning: We embrace teaching and learning as our central purpose.

Support: We make every effort to help learners achieve success.

Diversity: We respect differences in people and in ideas.

Partnerships: We plan and work together with respect, trust, and honesty within the college and with the communities we serve.

Innovation: We seek the best possible ways to conduct our work.

Vision Statement

WCC is a learner-centered, open-door college dedicated to student, community, and staff success. We offer a wide spectrum of community college services with an emphasis on premier technical and career education programs. The College staff continuously learns to improve learning.

Student Success: Our students come first. We are committed to their learning, success, and satisfaction. We strive to serve every student in an effective, caring, and supportive way. In order to enhance student learning outcomes, we engage in continuous improvement of teaching, programs, processes, and structures. We increase our accessibility by reaching learners where, when, and how they need instruction through the use of learning technologies, workplace learning experiences, and flexible scheduling of classes.

Community Success: We are committed to community learning, success, and satisfaction. WCC’s primary contribution to community success is the development of a highly skilled workforce. A strong partnership with area employers emphasizes customized employee training and rapid adaptation of WCC programs to changing job training needs. Through strategic alliances with business, government, labor, and other educational institutions, WCC increases its emphasis on applied technology education, joint technical education programs with the public schools, and basic job-training services to under-served and at-risk groups.
Staff Success: We are committed to staff learning, success, and satisfaction. As a staff, we emphasize teamwork within college units and between the units. We support our colleagues and help them to be successful. We learn to improve learning; that is, we continuously increase our capacity to meet the educational requirements of the students, employers, and communities we serve. Through staff learning, we continuously improve services at each stage of the flow of students through WCC. All staff members align their work to contribute to improved teaching and increased student and community learning.

History of Washtenaw Community College

Washtenaw Community College (WCC) was created on January 15, 1965, when the citizens of Washtenaw County voted financial support for its establishment. A board of trustees was elected and a nationwide search for administrators and faculty was initiated while a study to look for a permanent campus location was begun. During construction of the main campus, which began in September 1966, the College held classes in temporary facilities in the Willow Run area of Ypsilanti Township. On September 12, 1966, 1,200 students were enrolled in 30 different programs. The first classes were held in Willow Run in an old elementary school, a fire station, and a bowling alley. Students in automotive programs took courses in a former dairy distribution plant, while those in health programs were taught in the basement of a church in downtown Ann Arbor. In 1969, the permanent 235-acre campus opened with completion of the Technical and Industrial Building and the Liberal Arts and Sciences Building. Today, Washtenaw Community College is a major provider of post-secondary education.

College Governance

Washtenaw Community College is governed by a seven-member Board of Trustees. Collectively, the Board of Trustees is responsible for hiring the College president, making policy decisions and assuring that the College is fiscally sound. Assisting the President in managing the institution are the Vice President for Instruction; the Vice President of Administration and Finance; the Associate Vice President for Facilities, Development and Operations; the Associate Vice President for Student Services; the Associate Vice President of Human Resource Management; the Associate Vice President of Development, Grants, and Government Relations, and the Chief Information Officer. Decisions are developed with input from a variety of constituents. The College maintains several standing committees, and as needed, the administration creates ad hoc committees to explore solutions to specific questions. The College functions within a mission that seeks to promote student, community, and staff success.

Facilities

Today, the WCC main campus includes four buildings exclusively dedicated to instructional activities: the Crane Liberal Arts and Science Building, the Industrial Technology Building, the Occupational Education Building, the Technical and Industrial Building, and the Business Education Building. The Gunder Myran Building houses the Bailey Library, the computer commons, classrooms, and instructional space for Visual Arts programs. The Student Center Building houses student services, Garrett’s Restaurant, a food court, dining area, college bookstore, administrative offices, and classrooms. The Children’s Center in the Family Education Building provides care for children of WCC students.

The Morris Lawrence Building includes classrooms; an auditorium; exhibition space; conference and special event space, instructional space for art, drama, music, the police academy and public service training, business, industry, and contract training. The Great Lakes Regional Training Center houses the United Association and Journeyperson Programs. The Health and Fitness Center is the newest addition to the campus, and features environment-friendly construction as well as state-of-the-art equipment and facilities. Campus athletic fields and facilities are located near the Health and Fitness Center. The College maintains a smoke-free campus.

Meeting Rooms and Conference Services

Organized student or community groups may secure rooms for meeting by calling the Office of Conference Services at 734-644-5034. Conference Services provides comprehensive meeting and event planning for community groups, from a small retreat to a 50 booth exposition. Towsley Auditorium has state of the art audiovisual equipment, seats 470 people and is suitable for concerts, recitals, small theater productions. On-site catering is available.
Types of Study
WCC offers credit as well as non-credit courses and programs. Some students choose to attend classes for personal interest or to obtain or upgrade job skills. Other students choose to complete college certificates to become credentialed for a job or to obtain associate’s degrees for transfer to four-year institutions. WCC also offers a variety of special courses and programs to meet the diverse needs of area citizens, including employee training tailored for specific businesses and industries. The Adult Transitions Program offers GED completion classes as well as training for the unemployed – from counseling and skill assessment through actual training and job placement. Business and Industry Services at WCC works with employers to set up courses of study in order to fulfill apprenticeship requirements. In addition, the Department of Evening, Weekend, and Extension Services offers off-campus credit courses. The College’s distance learning courses, College on Demand, are taught online, which also makes it easy for students to take classes off-campus.

Degrees and Certificates
Over 2,000 awarded annually
80% of credit students pursue a WCC degree
20% work to upgrade job skills, pursue personal interests or earn transfer credits

Degrees and Certificates

Certificates and Degrees Organized into Schools
Many students begin their college experience without a chosen course of study. Instead they use their time to learn the basic disciplines such as mathematics, science, social sciences and humanities – skills they can apply to a variety of career opportunities. The Schools allow students to easily access information about potential areas of study that will prepare them for the next step in their lives – be it further education or a career. For those students who are directed toward a particular career, the Schools bring together the various certificates and degrees that will prepare them for their chosen career or one like it. Students seeking a bachelor’s degree will be best served by Transfer and University Parallel Programs.

School of Advanced Manufacturing Systems

Special Programs and Services

Adult Transitions: Community Outreach

Adult Transitions is a community outreach program that assists students who need new skills for today's workforce. It includes counseling, skill building (GED preparation) and career education. The program uses a step-by-step approach to move students from their neighborhoods to WCC and on to career paths of their choice.

Adult Transitions offers the Skill Building Program, which prepares students for the General Educational Development Test (GED). The College offers GED testing, and Adult Transitions counselors will assist students with their transition to WCC's regular college programs. The program uses an open-entry model of instruction to help tailor instruction to the needs of the students. Orientations for enrollment are available each week on WCC's main campus and Harriet Street Center.

In addition, scholarships based on financial need are available to students who enroll in Washtenaw Community College's short-term certificate programs. Some of the available programs include: Accounting; Baking and Pastry; Business Sales and Marketing; Child Development; Computer Software Applications; Computer Systems Technology; Heating, Ventilation; Air Conditioning and Refrigeration; Medical Office Assistant; Nursing Assistant Skills; Technical Writing; and Welding. Adult Transitions can also provide assistance in accessing other appropriate college and/or community resources. For a more detailed description of the short-term certificates, refer to the Curriculum section of this Bulletin.

Students should call 734-677-5006 or refer to our website at www.wccnet.edu (search GED or Adult Transitions) for more information.

Public Service Training and Police Academy

The WCC Public Service Training Program helps law enforcement, corrections, security, fire protection, and other public service agencies provide in-service training courses for their employees. Courses are developed to meet the specific needs of the agencies. They may range from one-day seminars to full-semester programs. Approval by the appropriate professional certification group is sought for all courses offered. Students who complete Police Academy training receive Law Enforcement Certification. Students who complete the Criminal Justice program requirements in addition to the Academy are eligible for an Associate in Applied Science degree in Criminal Justice Law Enforcement.

Washtenaw Technical Middle College

Washtenaw Community College charters an award winning and nationally recognized public school academy for students entering the 10th or 11th grade of high school. The program operates on the campus of WCC, where students learn how to make the transition from a high school to a college environment. To graduate from the Middle College, a student must complete both WTMC high school requirements and earn a technical certificate and/or associate degree from Washtenaw Community College. Using the concepts of mastery learning, skill-based evaluation, and a heavy emphasis on learning life management skills that support the process of learning, WTMC challenges students to take control of their educations and become leaders. Graduates of WTMC have many options including: entering the workforce directly, continuing at WCC toward an advanced certificate and/or associate degree, transferring to a four-year college, or pursuing specific technical training at a technical institute.

English as a Second Language (ESL) Courses

The College offers courses (from beginning through advanced) for students who want to learn English as a second language (ESL). These courses prepare students to enter College academic and vocational programs and to participate in the broader English speaking community. For specific information, contact the English Department at 734-973-3425.
LifeLong Learning
Washtenaw Community College extends educational resources and facilities to the community by offering non-credit courses, community outreach through courses and services offered at off-campus sites, and emeritus classes for people 65 years of age or older. A broad spectrum of non-credit classes is offered to the public throughout the year. This includes the following program areas:

- Business and Professional Development
- Computer and Other Technologies
- Health and Wellness
- Nursing, Health Care and Social Work
- Personal Enrichment and Recreation

A wide range of classes is offered in an online format. For information please visit www.wccnet.edu/lifelonglearning or call 734-677-5060.

Continuing Education Units (CEUs)

Many LifeLong Learning workshops offer Continuing Education Units (CEUs). The Continuing Education Unit (CEU) is a measure of the amount of organized study a person has completed, and provides an orderly format for the recognition and quantification of non-credit learning experiences. A CEU is officially defined as ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction. CEU’s are a nationally recognized recording device for substantive non-credit learning experiences and are an appropriate measure of in-service education and training. Courses for which CEU’s are awarded are not eligible for college credit.

Senior (Age 65+) Workshops for Emeritus Students

Special opportunities are provided by WCC for county residents who are at least 65 years of age by the start of the credit class semester. At various retirement facilities and nutrition sites throughout Washtenaw County, non-credit courses, workshops and seminars are provided with tuition waived. Registration is conducted on-site. These residents might also be eligible for tuition-free credit and LifeLong Learning classes. Some mandatory fees are required for courses. Contact the Special Community Group Education Department at 734-677-5004 for eligibility details about these workshops.

Customized Training

Credit and Non-credit for Organizations

WCC offers customized credit and non-credit seminars, workshops and classes for county businesses, labor, governmental organizations, community organizations, and professional groups. These educational experiences are designed to help the county and its citizens to be globally competitive and economically viable.

Depending on the client’s needs and objectives, programs can range from half-day workshops to semester-long courses or even associate degree programs spanning several years. Traditional college credit courses are also offered as part of the College’s response to the specific educational requirements of business, labor and government. Courses are taught either on campus or at a client’s site, whichever is more convenient and more appropriate for the subject and skills being taught. Contact 734-677-5205 to find out more.

Other Places to Learn

Distance Learning (College On Demand)
The College offers college credit courses at a distance utilizing a variety of methods such as the Internet, video lectures, multimedia, and textbooks. The online components often include discussion boards, interactive activities, supplemental resources, and assessments. Students do not attend classes on-campus although proctored testing is required in some courses.

Basic computer skills are required as all course work is completed and submitted online. Students considering online and blended classes must have experience using word processing software, email, and the World Wide Web, as well as access to specific hardware and software that meet technical requirements in order to participate in the course. College classes offered in the online or blended format have more prerequisites than the same classes offered on campus.

The College provides free student email accounts and offers an Introduction to Online Learning class for qualified students who want a preview of the skills needed for online work. Find the link to register for the introduction at www.wccnet.edu/codregistration and start the class almost any time during the semester.

The Center for Instructional Design and Technology (Distance Learning) provides telephone (734-477-8724) and email (codhelp@wccnet.edu) support for students.

Go to www.wccnet.edu/cod to get further details on available courses and requirements.

www.wccnet.edu
General Information

Extension Sites
WCC offers a variety of courses at various sites throughout its Washtenaw/Livingston county service area.

The WCC extension and community center locations are:

Eastern Area:
Harriet Street Center
332 Harriet Street
Ypsilanti, MI 48197
734-480-9950

Western Area:
Dexter Center
Dexter High School
2200 Parker Road
Dexter, MI 48130
734-424-0388

Northern Area:
Brighton Center
Brighton High School
7878 Brighton Road
Brighton, MI 48116
810-299-4195

Hartland Center
Hartland Educational Services Center
Mailing Address:
9525 Highland Road
Howell, MI 48853
810-626-2152

Flexible Learning Options
Blended Classes
A combination of online learning with regular campus class sessions

Online Learning -- College on Demand
Online courses are taught via computer and the Internet with a variety of interactive activities

Weekend Study
Campus classes held on the weekend

Extension Centers
Classes in locations that may be more convenient to your work or home

The Harriet Street, Dexter, Brighton, and Hartland locations offer credit classes during Fall, Winter, and Spring/Summer semesters. Please consult the current class schedule for course information. Non-credit and youth classes are available at the Harriet Center only.

Several centers offer a variety of services: entry assessment for new students, academic advising to new and continuing students, and assisted registration for credit and non-credit courses. Students should contact the respective office for information regarding these services.

Admission Overview

WCC is open to all individuals who can benefit from its educational programs and service. These focus on the individual’s growth and development toward academic, career, and personal goals. The College seeks to create an admission process which assists applicants in learning about WCC programs as they relate to the individual’s goals, thereby facilitating the best match of student and program.

General Admission Policy

WCC serves a wide and diverse population through its open-door admission policy. Any person who has graduated from high school, has a GED certificate, or is 18 years of age or older, and can benefit from the College’s programs may be admitted. All new students are required to complete an assessment and, depending on the results, may be required to take preparatory courses before they take courses in the regular college-level curriculum. Under certain conditions, students may qualify for an exemption from the assessment. These exemptions are explained in the Admission Procedures following this section. This policy has been developed in accordance with Federal Ability-to-Benefit Regulations, which require that the College demonstrate that all students it admits have the ability to benefit from their chosen educational program. Applicants under 18 years of age who wish to take classes at the College while they are in high school may be admitted if they do the following: Submit the dual enrollment consent form signed by their high school principal or counselor as well as their parent or guardian; and achieve Academic Level 6 in Reading and Writing on their assessment test. Admission to the College does not guarantee admission to programs which have specific program entry requirements.

Applicants should not regard enrollment out of reach because of financial need. It is the policy of the college to assist with meeting college expenses to the fullest possible extent consistent with federal, state, and college financial assistance regulations.

Programs with Admission Criteria

Some Washtenaw Community College programs have prerequisite course work that must be completed prior to program enrollment. Program prerequisites are determined by faculty and outside accrediting agencies based on program curriculum. In most instances, these programs require a second admission process. WCC’s Health and Second Tier Admissions Office is responsible for informing, monitoring, and processing students who are interested in enrolling in these programs.

Admission to High-Demand Programs

The Administration will establish, maintain, and use a waitlist for admission into any program that it has designated as a high demand program (one for which there are more qualified applicants than openings for an entering class). The order of the waitlist will facilitate a first-in, first-out treatment of applicants within stated priorities.

Priority 1: Legal residents of the Washtenaw Community College district.
Priority 2: Legal residents of counties adjacent to the Washtenaw Community College district.
Priority 3: Legal residents of all other counties of the State of Michigan.
Priority 4: Persons whose legal residence is outside the State of Michigan but within the United States.
Priority 5: Persons whose official residence is a foreign country.

All potential students, regardless of residency, may apply to the College. Admission to WCC does not guarantee admission to high demand programs. These may include programs which lead to certification or licensure, as well as other WCC certificate or degree programs.

*In cases where there are not sufficient In-District clinical sites for a program and where Out-of-District sites are available but require special consideration of Out-of-District students, the Administration may establish and maintain parallel priority lists.

The Student Connection

Answers Questions

The Student Connection can answer questions about the admissions process, registration, checking grades, and viewing the online schedule. The staff can also help students order their transcripts, report a change in address, and apply for graduation. The Student Connection can be reached by calling 734-973-3543 or visiting the second floor of the Student Center Building, across from the Cashier.
Admission Procedures

New Students
All applicants who wish to take credit classes are required to go to www.wccnet.edu to complete an online admission application. New students, regardless of experience or educational background, are urged to meet with a counselor or advisor. Applicants are also required to complete the two-part orientation process and assessment.

We’re Keeping Your Information Protected
To help protect the personal information of students, the College requires that all applicants show a current government-issued photo ID as part of the admission process. After being admitted and registering for classes, students should go to the Student Center Security Office (2nd floor) to obtain a student ID. The student ID allows students to get services from many campus offices, and all students must present their ID when requested by staff or faculty.

Two-Part Orientation Process
New students are required to complete an online orientation as well as attend an on-campus orientation session before they will be admitted as students. The online orientation must be completed after the applicant has been assigned a student number and before the student can attend the campus orientation.

Applicants whose native language is not English, and who plan to take English as a Second Language (ESL) classes, do not have to take the online orientation before attending a campus ESL orientation.

Assessment Test
After online and campus orientations have been completed, the College requires assessment tests of applicant skills in Reading, Writing, and Mathematics before admittance is granted. The College is open to all who can benefit: these scores merely help place applicants into the appropriate classes for their skill level.

Students who have taken the ACT or SAT and requested that their scores be sent to Washtenaw Community College are not required to take the COMPASS assessment at the College before they are admitted. Students who took one of those tests but did not specify Washtenaw Community College may provide their official report to Admissions if they wish to be excused from the COMPASS assessment and are encouraged to do so before orientation. ACT or SAT scores may also be submitted on an official high school transcript.

Applicants who do not provide ACT or SAT scores are required to take the COMPASS, an untimed assessment test of their skills, before they are admitted. The COMPASS is taken on the computer and is offered in the Testing Center at no charge.

Non-native English speakers who are not fluent in English and plan to take English as a Second Language (ESL) classes should request the ESL COMPASS. These students will be exempt from the online orientation but will be required to attend a campus orientation before they are admitted.

Students who have a documented disability and need an accommodation for the assessment test should visit Learning Support Services (LSS) in Room 104 of the Crane Liberal Arts Building (734-973-3342.)

The Testing Center is located on the 3rd floor of the Student Center Building. Test takers should bring their WCC ID or another photo ID and please do not bring children because they are not allowed into the Testing Center. Once in classes, students may have the opportunity to take class tests here.

Academic Levels
Applicants are assigned Academic Levels in Reading, Writing, and Math that are based on their assessment test.

Most courses require a specific Academic Level in Reading and Writing, and some also require an Academic Level in Math. These prerequisites are listed in the course descriptions and in the academic class schedule. If the phrase “No Basic Skills” is listed, all Academic Levels are acceptable for the course.

Academic Levels can be found in the student’s data by logging into MyWCC, clicking Student Records, and choosing View Test Scores and Academic Level.

Students who wish to take a particular course should make sure that their Academic Levels match or are above the Academic Levels in Reading, Writing, and Math listed for that course.

Students who do not meet the Academic Levels listed for a particular course may work to meet that Academic Level by taking specific classes. WCC counselors and advisors help students consider their class options. There is a chart that lists the scores and classes necessary to meet a specific academic level and it can be found in front of the course descriptions in this publication.

If the College has more than one assessment for the student in its records, such as the ACT, the SAT, COMPASS, and particular classes, the College uses the highest scores or class(es) to assign the Academic Level to the student.

Prerequisites
Prerequisites are requirements that students need to meet before they may register for a course. Most 100 and 200 level courses require an Academic Level of 6 in Reading and an Academic Level of 6 in Writing.

In addition, there may be other courses that students must complete satisfactorily or another qualification to meet before registration is permitted for a particular course. These requirements are also listed in the course descriptions and in the academic class schedule. College classes offered in the online or blended format have more prerequisites than the same classes offered on-campus.
Exemptions

- Exemptions from both Campus Orientation and Assessment are granted if the applicant meets one of the following*: (applicant must still complete online orientation)
  1. Applicant documents completion of 15 or more academic credit hours from an accredited U.S. college with a cumulative grade-point average of 2.0 (“C”) or above on a 4.0 scale.
  2. Applicant provides official documentation of completion of a bachelor’s or graduate degree from an approved international English-speaking college or university.
  3. Applicant submits a valid guest student application from their home institution indicating that they are in good standing.

* These exempt applicants will be assigned Academic Levels of 6 in Reading, 6 in Writing and 1 in Math.

Notes:

1. Some occupational programs have an additional screening process.
2. Physically handicapped students who need readers or writers to help them take the COMPASS or ASSET assessment should contact Learning Support Services for assistance (734-973-3342).

Re-admission of Former Students

Former students who have not taken credit classes at the College for two years must reactivate their files by completing the application form again. The application form can be submitted online (www.wccnet.edu). Students reactivating their files are encouraged to see a counselor or advisor prior to registering for classes. Individual assessment and online orientation may also be required. To help protect the personal information of students, the College requires that all returning students show a current government-issued photo ID as part of the re-admission process and then use their WCC student ID when visiting any campus offices in the future.

WCC Students Transferring Out

Articulation agreements between WCC and four-year colleges and universities allow WCC students in specific programs to apply all WCC credits toward a bachelor’s degree. Included with the articulation agreements are curriculum guides that list all courses required to successfully transfer. Approved articulation agreements are available online at www.wccnet.edu and in the Counseling Office. For information on public school articulation, see the following section “College Credit for High School Education”. Please meet with a counselor to plan your classes if you intend to transfer to another college or university. There is an agreement that provides for transfer of up to 30 semester credit hours to meet many or all of the general education requirements at participating Michigan four-year colleges and universities. It is called the MACRAO (Michigan Association of Collegiate Registrars and Admissions Officers) agreement. The MACRAO agreement is explained more completely in the Curriculum section of this Catalog and there is also information at the www.macrao.org home page under the title MACRAO Transfer Agreement and Provisos.

Health Occupation Students - Special Admission Requirements

Students who are applying to a health occupation certificate or degree program (e.g., Nursing, Dental Assisting, Pharmacy Technology, Radiography, and
Physical Therapist Assistant) must meet additional admission requirements specific to the area of study. Admission to WCC does not guarantee admission to a health occupation certificate or degree program of study.

Go to www.wccnet.edu/departments/health to download Admission Information/Application Packets for health occupation programs.

**International Applicants Seeking a Student (F-1) Visa**

**Admission Requirements for International Applicants (F-1 visa only)**

To be admitted to Washtenaw Community College, an F-1 visa applicant must complete the following requirements:

1. Submit an Application for Admission. The application can be submitted online via the College web site: www.wccnet.edu
2. Applicants who intend to have someone other than themselves contact WCC about their admissions process must submit the Personal Representative Form found on the College web site.
3. Complete and submit a Signature Form for F-1 Students, showing the applicant's permanent address in their home country.
4. Submit an original letter (in English) on bank letterhead from the applicant's financial supporter, converted to U.S. dollars, showing that the account balance of the financial supporter will cover the applicant's tuition, fees, and living expenses while attending WCC. Applicants who submit an official translation should also submit the original document from which the translation was done. To find out the required amount in U.S. dollars, please refer to the Notarized Financial Statement Form found on the College web site.
5. Submit a Notarized Financial Letter of Support Form (in English) from the applicant's financial supporter stating that the funds in the bank will be used to support the applicant's tuition, fees, and living expenses while attending. (NOTE: F-1 students are not eligible for financial aid.)
6. Submit original certified transcripts (in an envelope sealed by the issuing institution), in English, of all previous secondary and post-secondary schools the applicant has attended. If submitting an official translation, please also submit the original document from which the translation was done.
7. Proof of English language proficiency for admission to the regular college curriculum, a minimum score of:
   • 500 on the paper Test of English as a Foreign Language (TOEFL), OR
   • 173 on the computer Test of English as a Foreign Language (TOEFL), OR
   • 61 or better on the Internet-based Test of English as a Foreign Language (TOEFL) OR
   • 75% or better on the Michigan English Language Assessment Battery (MELAB),

Original test scores must be received by Washtenaw Community College directly from the testing authority. (Our TOEFL identification number is 1935.) The College will not accept scores submitted by the student; only those submitted by the testing authority will be accepted.

When all of the above requirements have been completed satisfactorily by the F-1 application deadline, Washtenaw Community College will be able to admit the applicant. See sidebar on page 20.

**Deadlines**

All documents must be received by the College by the designated deadline date. If the date falls on a weekend or holiday, the deadline is the first business day after the weekend or holiday.

Fall admission: July 15
Winter Admission: November 15
Spring/Summer admission: March 15

Upon arrival in Ann Arbor, students must do the following in order to keep F-1 status:

1. Show proof of medical insurance with medical evacuation and repatriation clause. F-1 students must submit proof of insurance to the Office of Admissions before they will be permitted to register for classes. Coverage must be maintained while studying at WCC. The student will not be allowed to register for future semesters at WCC if their insurance policy is cancelled. WCC does not maintain coverage for students and is not responsible for any medical, hospital, evacuation or repatriation expenses which they may incur.
2. Provide verification of visa status and identity. F-1 visa applicants currently in the United States must include copies of their I-94 card, visa and passport page with photographs and dates of issue and expiration of the passport. Students who currently hold an F-1 visa must include a copy of their Form I-20.
3. Complete online orientation and schedule an appointment for the Washtenaw Community College F-1 Orientation and Assessment testing. Visit www.wccnet.edu/orientation for more information. Assessment and Orientation must be completed before the student will be allowed to register.

**NOTE: Once submitted, all documents become the permanent property of Washtenaw Community College.**

Applicants who are granted an F-1 visa must enroll and successfully complete at least 12 credit hours, in the Fall and Winter semesters, toward graduation in their approved program at Washtenaw Community College. WCC is only authorized to admit F-1 students for programs that lead to an Associate of Arts or an Associate of Science degree.

F-1 visa holders are not permitted to work off-campus without proper authorization: please see the Admissions office for more information.

**For More Information**

For specific questions regarding enrollment, please contact International Student Admissions at 734-677-5148. If requested, the necessary forms found on the College web site can be mailed.

*Continued on page 22*
International Students in U.S. On Visas Other Than a Student (F-1) Visa

International students range from permanent resident aliens to a visitor on any visa from an A visa to a V visa, including refugees and people with asylum status. Certain restrictions may apply, depending on which status you may hold in the U.S.

- **Permanent resident aliens** (green-card holders) who wish to attend WCC are unrestricted in the number of credit hours for which they may register (up to the WCC 17 credit hour limit). To apply for admission, submit a completed application along with a copy of your Permanent Resident Alien Card (front and back) and a copy of your current driver’s license or State identification showing where you currently reside.

- **Applicants who possess refugee status or political asylum in the U.S.** who wish to attend WCC are unrestricted in the number of credit hours for which they may register (up to the WCC 17 credit hour limit). To apply for admission, submit a completed application for admission along with a current copy of your passport, appropriate documentation showing your status, and a current driver’s license or State identification to show where you currently reside.

- **Other visa holders** should apply for admission by submitting a completed application for admission along with a current copy of your passport, I-94 card, and a copy of the visa that you currently hold.

- **Students with non-immigrant status** (specifically those with B-1, B-2 or F-2 status) should first apply for and receive a student visa if they are planning to pursue a course of study. B-1, B-2, or F-2 visas allow students to take only an occasional course for recreation.

There are two Orientation programs offered for new international applicants:

1. International applicants who have taken the TOEFL and scored a minimum of 500, or have taken the MELAB and scored 75 percent or more, must be scheduled for an Orientation which includes COMPASS assessment before registering for classes.

2. International applicants other than F-1 visa holders (or anyone interested in English as a Second Language (ESL) classes) who have not taken the TOEFL or MELAB test, or who have taken the test and scored below the minimum, must schedule an appointment for the International Student Orientation that includes the English as a Second Language Placement Test before registering for classes.

Registration

Each semester the College publishes an Academic Class Schedule and puts it on the College web site  (www.wccnet.edu). The schedule includes detailed information on the courses available, registration procedures and dates, add/drop periods, and the refund schedule. Students are expected to pay all tuition and fees by the specified deadlines and before attending class.

**No person is allowed to attend a class unless he/she has registered and paid for that class.**

Students are withheld from registering if they have failed to meet their financial responsibilities to the College or in certain situations as a result of disciplinary action. Any student registration restriction (“hold”) must be cleared with the office issuing it before registration may be completed.

All students are encouraged to see a counselor or faculty advisor before registering for classes. Students registering for 18 or more credits must have the authorization of a counselor. Students on Academic Intervention hold, or foreign student (ESL) hold must meet with a counselor or advisor before registering for courses.

Students registering for courses must satisfy the course prerequisites as specified in the course description.

By registering for classes at Washtenaw Community College, the student accepts responsibility for reading and conforming to all policies, procedures, deadlines, fees, and other requirements published by the College. The student must report billing errors to the College within 30 days.

**Student Photo Identification Cards**

Students who have already confirmed their identity before admission or at the Student Connection may take their government-issued photo identification to the Security Office on the 2nd floor of the Student Center Building to get their WCC Student ID card. This ID is used to take tests in the Testing Center, purchase books through the bookstore using Financial Aid, pick up reserved books from the library and use other library resources, and confirm identity at other areas on campus. Students must present their ID when requested by staff or faculty members. Lost cards cost $10 to replace, and students must provide a current, government-issued photo ID in order to obtain a replacement card.

**Adding and Dropping Courses**

A student may add or drop a class or change a section without an instructor’s approval on a space-available basis prior to the start of the session. After the session begins, students must have the instructor’s authorization in order to add a class or change sections and this process must be completed by the add deadline in the academic schedule of classes (available online).

**Drops by the deadline are given full tuition refunds**

Students are encouraged to discuss changes, drops, and adds with instructors or counselors and should print and retain copies of their final schedule until final grades or refunds are received. Students are responsible for the timely payment of all appropriate tuition and fees for added courses. Students who process their drops by the 100% refund deadline will receive a 100% refund of their tuition, technology/enrollment and contact hour fees. All other fees are non-refundable.

**Withdrawing From Class (After Refund Deadline)**

Students are responsible for officially dropping courses they are no longer attending. If students withdraw from a course after the refund deadline, the student is responsible for paying full tuition and fees for the course. Courses from which the student withdraws after the refund deadline will be listed on the student’s transcript with a grade of “W”. Students may withdraw from courses until the 50% point of the session.

Exception: Students do not have the option of withdrawing from short session classes that are less than 5 weeks long. Students in these short classes who wish to withdraw may speak with the instructor about the
possibility of receiving a withdrawal as a final grade.

Insurance companies, the Veterans Administration, and Financial Aid do not count withdrawal status as actively pursuing an education and will not consider classes taken in withdrawal status toward full-time status or other credit hour eligibility. This may also apply to scholarships, payments by employers and so on. Please check with the appropriate institution before you withdraw.

Auditing a Course

Students who wish to audit a course must register and pay for that course following the established registration procedures. Students do not receive credit for the course; however, the course is included on the transcript with an “AU.” Students may change from credit to audit status or vice versa early in the semester without the instructor’s permission. Refer to the published deadlines in the Academic Class Schedule for the semester in question.

Audited classes may not be covered by outside aid.

Insurance companies, the Veterans Administration, and Financial Aid do not count audit status as actively pursuing an education and will not consider classes taken in audit status toward full-time status or other credit hour eligibility. This may also apply to scholarships, payments by employers and so on. Please check with the appropriate institution before you audit classes.

Financial Information

Tuition and Fees

**Tuition Rates**

- In-District: $80 per credit hour
- Work In-District: $80 per credit hour
- Property In-District: $80 per credit hour
- Out-of-District: $131 per credit hour
- Out-of-State: $174 per credit hour
- Out-of-Country: $174 per credit hour
- Distance Learning Instruction: $82 per credit hour

**Work In-District:** Full-time or part-time workers who can document that they work at least 30 hours per week for one or more employers in Washtenaw County, and have done so for at least 4 months can request this tuition rate.

**Property In-District:** Students who can document that they own and reside in residential property in Washtenaw County can request this tuition rate. This rate will apply to the student, the student's spouse, and the student's IRS dependents.

**Fees**

- Technology/Enrollment Fee (per credit hour): $7
- Late Add Fee: $25
- Delinquent Payment Fee (per month): $25
- Student Photo ID (replacement only): $10
- Contact hour fee (per additional contact hour): $4
- Credit by Exam Fee (per credit hour): $25
- Books and Supplies: $25
- Payment Plan (processing fee): $25
- Course Repeat Fee (per credit hour in addition to tuition, for any attempt after the third try): $200

*The college reserves the right to change tuition and fees without advance notice.

**When the course includes contact with the instructor for more than the ratio of 15 hours per semester for each credit hour, students will be charged a contact hour fee of $4 for each additional contact hour, in addition to tuition and any other applicable fees. The contact hours are specified in the course descriptions and the fee will be limited to no more than $250 per course.

***Students may be required to purchase certain supplies and materials. These are available at the bookstore on the 1st floor of the College's Student Center Building. Books and supplies average $500 per semester for full-time students, but may be as high as $800 or more depending on course selections.

Billing and Payments

Payments are due by the deadline specified each semester. WCC does not mail tuition bills: students can access their bill and their current account balance by going to www.wccnet.edu, selecting Current Students and under Finances, choosing Tuition Payment, then Log in Billing and Payments. Log In - Billing and Payments is also available in MyWCC under the Pay Your Tuition menu.

By logging into Billing and Payments, students can pay their bill online, print their bill, schedule payments on a payment plan to be taken from their credit card or bank account, or grant parents/guardians access to the billing process.

Billing notices are sent via WCC email: students who wish to review their bill can check their WCC email often to see when the latest bill is ready. Email is accessed from the Quick Links drop-down menu on the College home page. Your email login is your net ID and password. To help with forgotten information or to set up an account, Net ID management is located on the Quick Links drop-down menu.

Refunds

Refunds are only processed after a student has officially dropped a course(s) or a course is cancelled by the College. If a course is officially dropped, a student is eligible for a refund of tuition as follows:

1. The refund deadline for courses scheduled for 12 or more weeks will be the 12th calendar day of the session.
2. The refund deadline for courses scheduled for sessions of two to eleven weeks will be one calendar day for each week the course is scheduled to meet, e.g., ten days for ten week courses, five days for five week courses, etc.
3. The refund deadline for courses scheduled to meet in parts-of-term of less than two weeks in length will be before the first class meeting.
4. If the refund deadline falls on a non-business day of the college, the refund deadline will be set as the next official business day.
5. The refund deadline does not apply to course section changes or to instructor approved course level changes processed within a part-of-term.
6. Students dropping and adding courses after the official refund deadline are not eligible for a refund and must pay the tuition for the added classes.
7. A credit voucher or full refund of tuition may be administratively granted upon official withdrawal of the student for the following extenuating circumstances during the first two-thirds part-of-term/semester:
   a. Induction of the student into the U.S. or foreign Armed Services
   b. Death of a spouse, child, parent, or legal guardian of the student
   c. Death of the student
   d. Verifiable error on the part of the College
   e. Verifiable incapacity, illness, or injury which prevents the student from returning to school for at least four (4) weeks of the semester
   Note: Not every medical situation will qualify for a refund, especially if the student received a refund for the same medical condition in a prior semester. Pregnant students should not expect a refund if their expected date of delivery is before their classes end.

8. All fees except technology/enrollment fee and contact hour fee are non-refundable.

No refund or credit voucher is issued if withdrawal occurs after two-thirds of the session has transpired, regardless of circumstances.

Students who wish to have their refund deposited directly to their bank account may log into MyWCC, click Student Services, then Direct Deposit Student Refunds to fill out their bank routing number and account number, and authorize a direct deposit.

Tuition rates are based on residency

Residency
Students enrolling at Washtenaw Community College shall be classified as In-District, Out-of-District, Out-of-State, or Out-of-Country at the time of enrollment.

Aspects of Residency

1. The residency of a student will be based on the address of the student’s legal residence.
2. The legal residency of a student will be established using methods recommended by the State of Michigan.
3. The residency of minors (under 18) shall follow that of their parents or legal guardian. Students under 18 may qualify as In-District residents regardless of their parent’s residence if they can provide sufficient evidence they are independently supporting themselves and are legal residents in the Washtenaw Community College District.
4. The residency of any person, other than a parent or legal guardian, who may furnish funds for payment of college fees, shall in no way affect the residency of the student.
5. Those students who are transferred to the State by the military or have been discharged from the military within the last six months must present appropriate documentation to waive the six-month Michigan residency requirement.
6. The student may petition to officially change residency status by supplying proof of residence to the Student Records Office. Students petitioning to change their residency for a specified semester must do so by the published deadline for that semester. Residency changes made after the deadline will take effect the following semester.

NOTE: The residency classification of a student at Washtenaw Community College does not necessarily apply to the residency requirements at other colleges and universities.

Classification of Residence

Applicants who are U.S. citizens or who have permanent resident alien, asylum, or refugee status through the Immigration and Naturalization Service will be classified as In-District, Out-of-District, or Out-of-State students.

In-District Students are:
• Applicants who are legal residents in, OR
• Applicants who live with and whose spouse is a legal resident in, OR
• Applicants who live with and are dependent on a parent or a legal guardian who is a legal resident in the Washtenaw Community College District...
  • immediately prior to the first day of the semester if previous residency was within Michigan, OR
  • six months immediately prior to the first day of the semester if previous residency was outside of Michigan.

Out-of-District Students are:
• Applicants who do not meet the requirements of an In-District student, but who are and have been legal residents of the State of Michigan for at least six months.

Out-of-State Students are:
• Applicants who reside outside the state or who have not been legal residents of the State of Michigan for at least six months, or applicants who do not sufficiently document their residence.

Out-of-Country Students are:
• Applicants who are not U.S. citizens or do not have permanent resident alien, asylum, or refugee status through the Immigration and Naturalization Service.

Funds for Special Populations

Emeritus: Students 65 Years of Age or Older

Individuals who are 65 years of age or older prior to the first day of the semester and who reside within Washtenaw County may participate in the College’s credit and LifeLong Learning classes without tuition costs on a space-available basis.

Emeritus students must follow the general admission criteria of the College and pay any class-related mandatory course fees each semester.

Registration for credit classes using Emeritus status is available during the last week of registration before the semester begins; see the current academic class schedule for the applicable deadlines each semester. Emeritus students who register before these deadlines must pay in full by the payment deadlines and the Emeritus scholarship will not be applied.
Financial Information

Registration for LifeLong Learning classes using Emeritus status is available as soon as registration opens for these classes; those wishing to use the Emeritus scholarship may register the day registration opens.

Veteran Students

New Veteran Students
Veterans who may be qualified for benefits from their time in the service may make application to use their benefits at Washtenaw Community College and should report to the Veterans Services Technician in the Enrollment Services Office (before registering for classes) in order to receive a packet of Veterans Benefit Application Forms. Students should bring certified copies of their DD-214 member 4 copy (military discharge papers) to WCC. Students in the selected reserve should bring their NOBE (notice of eligibility) form. Students who have prior educational training or military training must provide official transcripts.

Transfer Veteran Students
Students who have previously received VA educational benefits at another school must complete VA form 1995 (Change of Place of Training) and submit it to the Veteran Services Technician in the Enrollment Services Office. The DD-214 member 4 copy (military discharge papers), transcripts from colleges or universities where the student has completed previous training, and all military transcripts must accompany the application.

WCC Previously Enrolled Veterans
Veterans who are continuing students must sign a request for certification at the time of registration each semester in order to be certified for benefits. At that time they must also supply the Veteran Services Technician with a copy of their completed registration to ensure the continuance of their benefits.

Veteran Certification
All veterans receiving educational benefits must sign a request for certification each semester once they register for classes. All changes (drops, withdraws, adds, change to audit) must also be reported to the Veteran Services Technician immediately. Vocational Rehabilitation (Chapter 31) and Post-911 (Chapter 33) recipients must submit their Request for Certification two days before their payment deadline. Failure to do so may result in the delay of educational benefits.

Credit for Formal Service School Experience
Credit is granted for formal service school training as recommended by the American Council on Education (ACE) if it applies to the student’s program of study at WCC. Submit an official military transcript to the Veteran Services Technician for evaluation. Accepted coursework will be posted to the transcript after the student has earned 1 or more credit hours at WCC.

Standards for Receiving Educational Benefits
In compliance with the Department of Veteran Affairs, the College has developed standards of progress. Each veteran student must conform to these standards to be eligible for VA Educational Benefit Certification. Each veteran student must read, sign and return the original copy of these standards to the Veteran Services Technician at the time of benefit application.

Single Parents and People Entering Nontraditional Careers
The Student Resource and Women’s Center provides assistance with career, financial, and educational planning for special populations that include single parents, displaced workers, displaced homemakers, economically disadvantaged students, and men/women entering non-traditional careers. Some grant funding is available, and the Center has extensive connections to community agencies and resources to help students fulfill their educational plans. Please search Student Resource and Women’s Center on the WCC web site or call 734-677-5105 for further information.

Adult Transition Students Earning Job Skills Certificates
Adult Transitions is a community outreach program that assists students in gaining new skills for today’s workforce. The program provides counseling, skill building and GED preparation, and career education. Participating students who are planning to earn a short-term certificate or diploma may qualify for an Adult Transitions scholarship based on financial need. Some of the available short-term certificate programs include: Accounting; Baking and Pastry; Business Sales and Marketing; Child Development; Computer Software Applications; Computer Systems Technology; Heating, Ventilation, Air Conditioning and Refrigeration; Medical Office Assistant; Nursing Assistant Skills; Technical Writing; and Welding.

Students should call 734-677-5006 or refer to our web site at www.wccnet.edu (search GED or Adult Transitions) for more information.

Types of Financial Aid
Many types of Financial Aid are available.

- Aid that you usually do not have to pay back:*
  - Grants
  - Scholarships
  - Work-Study
  - Other Aid

- Aid that you must pay back:
  - Direct Loans for Students
  - Direct Parent Loan for Undergraduate Students (PLUS)

The application process for each type of aid is similar. Complete the financial aid application process at www.fafsa.gov to get started.

Look for additional requirements in the section on each type of aid.

Although not financial aid, tax credits are also available.

*Unless you fail to meet the terms of your financial aid.
Financial Aid

More complete information about financial aid at Washtenaw Community College can be found online by typing www.wccnet.edu/financialaid into your web browser. Not all fields of study are eligible for financial aid. For specific questions that are not answered in this section, visit the Financial Aid Office on the second floor of the Student Center Building or call 734-973-3523.

For information concerning grants for educational expenses, childcare and federal grants for single parents, displaced homemakers, and academically and economically disadvantaged students, contact the Student Resource and Women’s Center on the second floor of the Student Center Building or call 734-677-5105.

Sources of financial aid at Washtenaw Community College include the WCC Foundation, the State of Michigan, and the United States government.

By federal regulation new and re-admitted students who have not graduated from high school or earned a GED must achieve minimal passing scores on the ASSET/COMPASS assessment (administered during entry assessment) in order to be awarded federal (Title IV) financial aid.

Grants

To apply for the following grants, complete the Free Application for Federal Student Aid application process at www.fafsa.gov and if you are eligible, WCC will notify you in writing.

- **Federal Pell Grant (PELL)**
  The Federal Pell Grant is awarded to qualified students and is the foundation to which other Federal and non-Federal sources may be added. How much the student actually receives depends on the Expected Family Contribution (EFC) figure and the student’s enrollment status. Students may be enrolled in as little as 1 credit hour to receive the Federal Pell Grant. Students enrolled full-time will receive their maximum eligibility in this program.

- **Federal Supplemental Educational Opportunity Grant (SEOG)**
  Federal SEOGs are awarded to students with the lowest Expected Family Contribution (EFC) and the highest financial need. The minimum SEOG award is $400 for an academic year.

- **Academic Competitiveness Grant (ACG)**
  Will provide funding for the first and second years of undergraduate study.
  To receive an ACG, a student must:
  - attend at least half-time
  - receive a Federal Pell Grant during the same award year
  - be a U.S. citizen or eligible non-citizen
  - be a first- or second-year full-time undergraduate student in a degree program at a two-year or four-year degree-granting institution (certain certificates also qualify)

  - have completed a rigorous secondary school program of study, and
  - if a first-year student: have completed high school after January 1, 2006
  - if a second-year student: have completed high school after January 1, 2005 and have at least a 3.0 grade-point average and 31 credit hours as of the end of his or her first academic year of undergraduate study

Scholarships

Following are scholarship opportunities available to students at Washtenaw Community College and resources that may help you find other scholarships. Most scholarship deadlines occur in May for the upcoming Fall and Winter semesters.

**WCC Foundation Scholarships**

Thanks to contributions from individuals and corporations, the WCC Foundation provides scholarship funding for students. Over 900 scholarships are awarded annually.

- To find information on the Foundation scholarships, as well as an application, log on to www.wccnet.edu and type WCC Foundation into the Search box.

- You can also find an application for the Foundation scholarships by accessing your MyWCC account and clicking on the Financial Aid tab. Once you fill out your online application, you must bring a letter of recommendation to the Financial Aid Office (SC206) or WCC Foundation Office (SC306). Fill out only one application per semester. A Scholarship Committee reviews all applications and assigns specific and appropriate scholarships to those who become recipients. The WCC Foundation scholarship criteria include the following:

  - Applicants must complete the Free Application for Federal Student Aid (FAFSA). Do so at least 3 weeks before the scholarship deadline. The Federal School Code for WCC is 002328.
  - Applicants must be a citizen of the U.S. or an eligible non-citizen, such as a permanent resident alien, or someone who has been granted asylum or refugee status by the U.S. government. Persons who are in the U.S. and hold a non-immigrant visa are not eligible.
  - Applicants must have at least a 2.0 cumulative grade-point average in classes relevant to the applicant’s area of study. Applicants with less than a 2.0 may also be considered, but only with a recommendation from the Counseling Office. Applicants who are new students should submit interim grades or high school transcripts.
  - Applicant must attach one letter of recommendation from an instructor/counselor/employer or a professional who can address the applicant’s ability to succeed in an academic environment.
  - Applicants must submit a personal statement of academic and career goals, which should include a brief statement about why the applicant should receive a scholarship (150 words maximum).

Paper applications are also available in the WCC Foundation Office. For more information, call 734-973-3705. For application deadlines, turn to page 30.

The Morse B. Barker Scholarship
The Morse B. Barker Scholarship Fund gives scholarships annually to students who will be or are attending Washtenaw Community College.

To be eligible, a person must:
- Demonstrate financial need
- Be a permanent resident of Washtenaw County
- Be between the ages of 18 and 30 (includes Ann Arbor high school seniors who plan to attend WCC after high school graduation)
- Carry a course load of at least 9 credit hours
- Declare a particular program of study or major field
- Maintain Satisfactory Academic Progress (year-end minimum grade-point average of 2.0)
- Be a non-smoker
- Submit an application online at www.scholarships.egrant.org

Divisional Scholarship Information

Apply in May to get money for Fall and Winter semesters

The Divisional Scholarship provides scholarship monies for tuition and books. The scholarships are awarded for Fall and Winter semesters. Recipients must be enrolled in at least 6 credit hours each semester and be considered in-district students at Washtenaw Community College. Students will receive $300 for books each semester based on a 12-credit-hour enrollment. To print the application, go to www.wccnet.edu/financialaid and choose Aid Types, then Scholarships, and scroll to the High School Scholarship Information.

President's Honor Scholarship
The President's Honor Scholarship is awarded to five in-district students from each public high school in Washtenaw County. A cumulative grade-point average (GPA) of 3.2 or better on a 4.0 scale is required. This scholarship pays full tuition for two consecutive semesters (Fall and Winter) plus $300 for books each semester. Scholarship recipients must enroll at WCC for at least 12 credit hours.

The scholarship will be renewed the following year if the recipient maintains a 3.0 cumulative GPA at Washtenaw Community College and completes at least 24 credit hours.

Procassini Honor Scholarship
The Procassini Honor Scholarship is awarded to one in-district student from each public high school in Washtenaw County. The scholarship pays full tuition for Fall and Winter semesters plus $300 for books each semester. This scholarship is awarded on the basis of scholastic achievement and/or outstanding accomplishments in high school. Scholarship recipients must enroll at WCC for at least 12 credit hours.

The scholarship will be renewed the following year if the student maintains a 2.3 cumulative GPA at Washtenaw Community College and completes at least 24 credit hours.

Michigan Competitive Scholarship
This scholarship provides financial assistance to students who demonstrate both financial need and academic potential. Academic potential is based on the National ACT examination.

Eligibility Requirements:
- Achieve a qualifying score based on the national ACT test. This test is taken in the junior or senior year of high school.
- Be a U.S. Citizen or declare an intent for this status.
- Must have been a continuous Michigan resident since July 1 of the year preceding the academic year for which applying for the scholarship.

To Apply:
- Demonstrate financial need based on the Free Application for Federal Student Aid (FAFSA).
- Enroll at least half-time (6 credits or more).

Resources

  - www.michigan.gov/mistudentaid
  - State financial aid sources and scholarship search

**Work-Study**
The Federal Work-Study program provides funding for jobs for students with unmet financial aid need, giving them the opportunity to earn money to pay educational expenses. The amount of the award depends on the student's financial need and available funding. If the student is eligible for work-study employment, he/she may apply for specific jobs on or off campus. Eligible students may work up to 20 hours per week and are paid an hourly wage, bi-weekly for hours actually worked. Details on this program are available from the Employment Services Office.

**Eligibility**
To be eligible for Work-Study you must:

1. Complete the Free Application for Federal Student Aid (FAFSA).
2. Be enrolled in at least 6 credit hours
3. NOT be terminated from financial aid as determined by the WCC standard for Satisfactory Academic Progress
4. Turn in any required paperwork
5. Submit a Work-Study application to the Financial Aid Office. The application can be found at www.wccnet.edu/financialaid by choosing the Forms link on that web page.

There are a limited amount of funds for Work-Study. Priority is given to students who were awarded Work-Study for the previous year.

**Accepting**
Once you have been awarded Work-Study you will need to contact the Employment Services Office, SC 287, to:

1. Learn about Work-Study expectations and what jobs are available.
2. Complete the necessary paperwork for Work-Study placement.
3. After being hired, receive the Authorization for Employment form.

Work-Study funds are paid bi-weekly via paycheck. Work-Study funds are not applied directly to the student's account.

**Terms and Conditions**
Work-Study provides jobs for students to earn part of their educational expenses. The amount of the award depends on the student’s financial need and the availability of funds. If eligible for Work-Study, the student is placed in a job on campus. When possible, the job assigned will relate to the student's area of study and/or interests. Please note:

1. Students who demonstrate financial need are eligible to participate in this program as long as funds are available.
2. Eligible students may work up to 20 hours per week, depending on the job classification, but cannot work during scheduled class sessions.
3. Students are paid an hourly rate under this program. The rate as of Spring/Summer 2010 was $8.75 per hour.
4. Students have the right to interview for the positions designated as Work-Study jobs if they have the qualifications required.
5. Since Work-Study positions are provided to meet the financial need of students, they must work as assigned if all budgeted expenses are to be met.
6. Students must abide by the rules and regulations set forth by the department or agency to which they have been assigned, such as work schedule, attendance requirements, dress, etc.
7. If students decide not to continue a Work-Study job, they must immediately notify the department to which they were assigned and the Financial Aid Office.
8. If a student drops below 6 credit hours during his/her Work-Study employment, he/she is no longer eligible to work and must stop working immediately.
9. WCC cannot guarantee placement in a Work-Study job. Due to funding limitations and the number of students working, it may be necessary for the College to discontinue job placements and terminate employment if funding is no longer available.

**Other Aid**

**Tuition Incentive Program (TIP)**
The State information number is 888-447-2687

Phase 1 of the Tuition Incentive Program (TIP) pays community college tuition and fees at the in-district rate for students from low income families. TIP will pay for a maximum of 24 credit hours per academic year. To be eligible, students must:

1. Be a U.S. citizen or lawfully admitted alien with permanent status
2. Be a resident of Michigan (according to Washtenaw Community College policy)
3. Have graduated from high school or completed a GED after May 1, 1989
4. Have been under the age of 20 at the time of high school graduation or GED completion
5. Considered financially eligible by the Family Independence Agency (formerly the Department of Social Services) prior to high school graduation
6. Begin a course of study within 48 months of the month of high school graduation or GED completion
7. Be enrolled in courses at least half-time
8. Meet Washtenaw Community College’s financial aid standard for Satisfactory Academic Progress found at www.wccnet.edu/financialaid
9. Not be in default on a student loan
10. Submit a copy of the TIP letter from the governor of Michigan, a copy of the High School Diploma or GED, and proof of MI residency to the Financial Aid Office.

Under Phase 1, a student is eligible for TIP for a maximum of 80 semester hours of courses completed within four years from high school graduation or GED completion. TIP applications may be obtained at local high schools.
Aid That You Must Pay Back

William D. Ford Direct Loans

Federal Direct Student Loans are funded by the U.S. Department of Education. Direct loan funds are disbursed directly to the school on the borrower’s behalf.

Loan Limits

Borrow only what you need

According to federal regulations, borrowers are limited to a certain amount of loan funds each year based on their dependency status and year in school.

- Dependent students (as defined on the FAFSA) are allowed to borrow up to $5,500 their freshman year, $6,500 their sophomore year.
- Dependent students may borrow an additional $4,000 the first two years if their parents are denied a PLUS Loan.
- Dependent undergraduates may not exceed a combined total of $31,000 in Direct loan funds.
- Independent students are allowed to borrow up to $9,500 their freshman year, $10,500 their sophomore year.
- Independent students (or students whose parents were denied a PLUS Loan) may not exceed a combined total of $57,500 for undergraduate students.

Interest Rates and Payments

- As of press time, Direct loans had a fixed interest rate of 5.6% for subsidized and 6.8% for unsubsidized loans.
- Sample repayment schedules are available in the Financial Aid office.
- Based on financial need as demonstrated on the Free Application for Federal Student Aid (FAFSA), a borrower may receive subsidized and/or unsubsidized Direct loan funds.
- Subsidized Direct loans are loan funds where the government pays the interest for the borrower while the borrower is in school or in an eligible deferment.
- Unsubsidized Direct loans are loan funds where the borrower is completely responsible for all interest that accrues on the loan.

How to Apply for a Loan

1. Complete the financial aid application process.
2. Carefully consider the Borrower’s Rights and Responsibilities.
3. Register for a minimum of 6 credit hours. (Loan requests are not processed until the student is registered for 6 credit hours in a degree or certificate program that is eligible for financial aid.)
4. Complete and submit a Direct Loan Request Form to the Financial Aid Office.
5. The Financial Aid Office then certifies your loan eligibility and forwards that information to the U.S. Department of Education or further processing. If you have not previously signed a Master Promissory Note with the U.S. Department of Education, you will be notified to complete and Electronically Sign (E-Sign) Your Master Promissory Note (MPN).

Entrance Counseling

Federal regulations require new student loan borrowers to complete entrance counseling before receiving a Direct loan. Entrance counseling provides useful tips and tools to help you develop a budget for managing your educational expenses and helps you to understand your loan responsibilities.

Disbursement of Loan Funds

The scheduled disbursement date of your loan is the date that WCC is scheduled to receive your loan funds.

- If this is your first semester in any college - your funds are not disbursed until thirty days after the start of the semester.
- One semester loans - if you are taking out a loan for only one semester your funds will be disbursed twice during the semester.
- All loans must be disbursed in two equal amounts.

Borrower’s Rights and Responsibilities

When you take out a student loan, you have certain rights and responsibilities.

Rights

Your rights include:

- A copy of your Repayment Schedule and Disclosure Statement.
- Notification in writing if your loans are sold or transferred for servicing.
- A repayment period of at least five years.
- The option to prepay any part of your loan at any time without penalty.
- The option to defer your loan payments, if you qualify.
- The right to have any questions about your student loan answered by the U.S. Department of Education.
- The right to have your loan canceled as a result of death or total and permanent disability.
- The right to a graduated or income-sensitive repayment schedule.
- Entitlement to an extended repayment schedule if you first borrowed on or after 10/7/98 and have a debt of at least $30,000.
- The option to receive the original Master Promissory Note when your loan is paid in full.
Responsibilities

Your responsibilities include:

- Notifying your servicer if you change your name, address or enrollment status (i.e., you withdraw, graduate, drop to less than half-time enrollment or change your school of attendance).
- Knowing the terms of your student loans. You should keep copies of all student loan documents in a safe place.
- Repaying your loan whether or not you complete your studies, are satisfied with the education you received, or are able to find employment.
- Making your loan payments on time.
- Making payments at the end of your grace period whether you have received a repayment schedule or not. If your first payment due date is nearing and you have not received a payment schedule, you must immediately contact your lender or servicer.
- Contacting your servicer as soon as possible if you are unable to meet a scheduled payment. The lender or servicer may be able to help if you seek assistance before you are late making a payment.
- Providing your school with your expected permanent address, the name and address of your expected employer and the address of your closest relative when you graduate, withdraw or drop to less than half-time enrollment. Your school will forward this information to your loan servicer.

Exit Counseling

For information on Direct Loan Exit Counseling, Go to www.wccnet.edu/financialaid and click on Exit Counseling.

Repayment Options

When you apply for a student loan, you sign a legal and binding note to repay your loan. When you leave school, it is important that you fulfill this obligation. Consider the following options.

- Standard Repayment: Typically this is the least-expensive option in terms of total interest costs. Most federal education-loan borrowers choose this option. This option provides a fixed monthly payment of at least $50 over a period of up to 10 years. A servicer may permit a borrower to make smaller payments than otherwise required if the reduced scheduled monthly payment equals at least the amount of interest due on the loan.
- Graduated Repayment: This plan starts off with low payments, which then gradually increase every two years. The loan term varies depending on the total loan amount. Unless you consolidate several federal education loans, the maximum repayment term under this option is 10 years. No single payment will be more than three times greater than any other payment.
- Income-Sensitive Repayment: Monthly payments in this plan begin low and increase as the borrower’s income increases. Repayment terms can be adjusted annually to adapt to income changes. While this benefits the borrower with smaller initial payments, borrowers should be aware that by reducing early payments, the long-term interest costs will increase.
- Extended Repayment: This plan is for borrowers with accumulated loan balances of $30,000 or more received on or after Oct. 7, 1998. Under this plan, you may reduce the amount of your monthly payment by spreading payments over a period of up to 25 years. You may choose to make payments over this extended period under a level or graduated schedule. Because payments are stretched over a longer term, total interest costs will be significantly higher than under the other repayment plans. Although a borrower’s monthly payment will be lower, the total amount of money paid back over the life of the loan will be more than standard repayment.

If you experience trouble repaying your loans, please contact your servicer to avoid defaulting. The loan section of our website describes the consequences of defaulting and suggests other options. This section can be found by going to www.wccnet.edu and clicking Aid Types, then Loans for Students, and looking for the Loan Default link.

Parent Loans for Undergraduate Students (PLUS)

Parents of dependent students may be eligible for a credit based Parent Loan for Undergraduate Students (PLUS). Interested parents may find the application by typing www.wccnet.edu/financialaid into their web browser.

Tax Credits

A tax credit reduces the amount of income tax you may have to pay. Unlike a deduction, which reduces the amount of income subject to tax, a credit directly reduces the tax itself. The college you attend cannot determine if you qualify for one of these credits or the amount of credit due you.

American Opportunity Tax Credit

For additional information, go to www.irs.gov/publications and type American Opportunity Credit in the Search box.

Lifetime Learning Credit

Beginning on July 1, 1998, taxpayers may be eligible to claim a nonrefundable Lifetime Learning Credit of up to $2,000 (on the first $10,000 of tuition) against their federal income taxes. The Lifetime Learning Credit may be claimed for the qualified tuition and related expenses of the students in the taxpayer’s family (i.e., the taxpayer, the taxpayer’s spouse, or an eligible dependent) who are enrolled in eligible educational institutions. The Lifetime Learning credit is a nonrefundable credit. This means that it can reduce your tax to zero, but if the credit is more than your tax the excess will not be refunded to you. For additional information go to www.irs.gov/publications and type Lifetime Learning Credit into the Search.
Financial Information

Maintaining Financial Aid Eligibility

Complete and Attend Class
Students who receive Title IV Federal financial aid and do not complete or attend class for at least 60 percent of the semester will be required to return a portion of the aid to the Federal government based on the last date of any academically-related activity. Title IV financial aid consists of parent loans for undergraduate students, unsubsidized and subsidized student loans, Pell grants, academic competitiveness grants, supplemental education opportunity grants, and work-study.

- **Satisfactory Academic Progress**
  Students must maintain Satisfactory Academic Progress, which is explained in this section.

- **Enrollment Status**
  Many financial aid awards are based on the number of credit hours on the student's schedule: 6 credit hours are half-time status, 9 credit hours are three quarters time status, and 12 credit hours are full-time status. Financial Aid will not count courses taken in audit status toward the student's total credit load for the semester.

- **Dropping or Withdrawing**
  Changes in the number of credit hours on your schedule can affect your financial aid award. Talk it over with the Financial Aid Office first to find out how your award might be affected. If you withdraw, you may be put on Financial Aid Probation, be terminated from Financial Aid, or have to repay some or all of your aid.

Return of Title IV Funds
The federal government mandates that if you withdraw, officially or unofficially, from all of your classes you may only keep the financial aid you have “earned” up to the time of withdrawal. Students who receive Title IV Federal financial aid and do not complete or attend class for at least 60 percent of the semester (or session) will be required to return a prorated portion of their aid to the Federal government based on the last date of any academically-related activity.

When you withdraw from all of your classes, WCC must determine the actual amount of federal aid that you earned while you attended your classes. To determine the amount of aid you have earned up to the time of withdrawal, WCC will divide the number of calendar days you attended classes by the total number of calendar days in the semester (or session) (less any scheduled breaks of 5 days or more). The resulting percentage is then multiplied by the total federal funds that were disbursed to you for the semester. This calculation determines the amount of aid you earned which you may keep (for example, if you attended 25% of the semester (or session), you have earned 25% of the aid disbursed).

If Title IV funds were disbursed in excess of the earned amount then those funds must be returned to the federal government. WCC will notify you by letter if you are required to repay any of your federal funds. You will be responsible to repay any funds that are determined to be unearned (total aid disbursed less the earned amount). This does not apply to you if you have withdrawn from some of your classes but remained enrolled in others, or have successfully completed at least one class.

Federal funds that may be affected by a complete withdrawal are:
1. Federal Unsubsidized Student Loan
2. Federal Subsidized Student Loan
3. Federal PLUS (Parent) Loan
4. Federal Pell Grant
5. Federal Supplemental Educational Opportunity Grant (FSEOG)
6. Federal Academic Competitiveness Grant

Return of Institutional Funds
Students should be aware that changes to their class schedule during the 100% refund period may result in the student owing back financial aid funds. Also, any changes made after the 100% refund period may result in financial aid termination. Once a student is terminated from financial aid that student is no longer eligible to receive any type of aid (excluding scholarships.) The student may continue to attend WCC using their own funds for payment. Please see the Satisfactory Academic Progress Standard for more information.

Satisfactory Academic Progress Standard
The Satisfactory Academic Progress Standard of Washtenaw Community College’s Financial Aid Office requires that all students receiving aid maintain a cumulative and semester grade-point average of 2.0 or greater and complete at least 75 percent of their semester credits.

Good Standing
Students who meet the Satisfactory Academic Progress Standard will be in good standing and eligible to receive future financial aid (unless they become ineligible after attempting 90 or more credits – see below).

Probation
New students and students in good standing who earn at least one (1) credit during the semester, but fail to meet the Satisfactory Academic Progress Standard will be placed on probation. These students are allowed one additional semester of aid eligibility to meet the minimum Satisfactory Academic Progress Standard requirements.

Termination
Students who are on probation and do not meet the Satisfactory Academic Progress Standard will be terminated from financial aid. Once a student is terminated from financial aid they are no longer eligible to receive any type of aid, except certain scholarships. Students may continue to attend WCC using their own funds for payment.

Any student who earns less than one credit during a semester will be terminated from financial aid.

Students who pay for classes out of pocket and meet the Satisfactory Academic Progress Standard in a future semester may have their financial aid restored.
90 or More Attempted Credits

Students who have attempted 90 or more credit hours are not eligible to receive financial aid regardless of whether or not they received aid for those 90 credits. Transfer credits from any college/university, if applied to the student’s record, will be subject to the above 90 credit hour regulation.

Dropping and Adding

Students should be aware that schedule changes made during or after the 100% refund period may result in the student owing back financial aid funds. If financial aid funds must be repaid by the student, a Financial Hold will be placed on the student’s account until the aid owed is paid back. Also, any changes made after the 100% refund period may be subject to financial aid probation or termination status for failing to meet the Satisfactory Academic Progress Standard for completion of courses.

Withdrawning, Auditing, Incompletes, Course Repetition, Non-Credit, and Remedial

Students who withdraw from a class (or classes) may be subject to probation or termination status for failing to meet the Satisfactory Academic Progress Standard for completion of courses. Students who withdraw from all of their classes will be terminated from financial aid and may have to repay a portion of their financial aid. If financial aid funds must be repaid by the student, a Financial Hold will be placed on the student’s account until the aid owed is paid back.

Financial aid will not pay for classes in an audit status. If a student changes their class status to an audit (AU) their financial aid will be adjusted and they may be subject to probation or termination status for failing to meet the Satisfactory Academic Progress Standard for completion of courses.

Incomplete grades affect a student’s completion rate and may make the student subject to probation or termination status for failing to meet the Satisfactory Academic Progress Standard for completion of courses. At the end of a semester any classes in an incomplete status are not calculated as credit earned. When/If the student completes the class(es), they must notify the Financial Aid Office to have their Satisfactory Academic Progress reviewed.

If a student decides to repeat a class for a higher grade, the credits will not be included in the student’s completion rate. Students may need to contact the Financial Aid Office to have their Satisfactory Academic Progress reviewed.

Non-Credit classes do not affect a student’s Satisfactory Academic Progress in any way. These classes are not factored into the calculation of GPA or completion rate.

A student is eligible to have financial aid pay for up to 30 attempted credits of remedial course work. After reaching 30 attempted hours, additional remedial coursework will not be paid for by financial aid and the credits are not included in determining a student’s Satisfactory Academic Progress.

Appeals

Students who have been terminated from financial aid for any of the above listed reasons, and feel they have mitigating circumstances may file an appeal with the Financial Aid Appeals Committee. The Appeals Committee will decide if a student should be granted an additional semester of financial aid. If students are granted an additional semester of financial aid, they must meet the Satisfactory Academic Progress Standard or they again will be terminated from financial aid.

Note: Satisfactory Academic Progress Standard and Academic Intervention Program are not the same. Please see the Academic Intervention Program page if you are looking for that information.

Auxiliary Services

Bookstore
The WCC bookstore is located on the lower level of the Student Center Building and is open during the following hours:

Fall and Winter Semesters
Monday-Thursday 8:30 a.m. to 6:30 p.m.
Friday 8:30 a.m. to 3:00 p.m.
Saturday 9:00 a.m. to 1:30 p.m.

Spring/Summer Semester
Monday/Tuesday 9:00 a.m. to 6:00 p.m.
Wednesday/Thursday 9:00 a.m. to 5:00 p.m.
Friday 9:00 a.m. to 1:00 p.m.

During rush periods, hours are extended. Call the bookstore or visit the WCC web site for details.

Selling Back Used Texts
WCC students can sell back their used books every day at the bookstore. Proof of enrollment such as WCC ID or schedule are required for all buy backs. Best prices are usually during the last week of the session and are based on current demand.

Reserving Textbooks
Once students have registered for a class, they may go to www.whywaitforbooks.com to order their books. Books are available for in-store pick-up or delivery to the student’s home. Web orders are the best way to get used copies. Information and staff assistance are available in the bookstore.

Using Financial Aid to Buy Books
Near the beginning of the semester, students may use their financial aid to buy books at the WCC bookstore. Students who wish to use financial aid in the bookstore must complete a transfer authorization, which can be accessed in MyWCC, under the Student Services and Financial Aid tab.

Students may reserve their books before their financial aid is available in the bookstore. Students who have completed the transfer authorization may go to whywaitforbooks.com and complete a reservation form. The reserved books will be charged against the students’ remaining financial aid, as soon as tuition is deducted, and can be picked up as soon as financial aid is available in the bookstore, at the date specified each semester. Students who don’t have enough financial aid to cover their books will receive an email from the bookstore at their WCC student email address.

Students must show their WCC student ID card at time of purchase. Please check financial aid at wccnet.edu/financialaid and click on Dates for more specific information.

Shopping at the Bookstore
Books, instructional aids, equipment, materials, and supplies are readily accessible for students and staff. Also available are WCC insignia clothing and gifts. Special orders are welcome. The WCC Bookstore accepts Visa, MasterCard, Discover, American Express, Barnes and Noble gift cards, and personal checks with proper identification.

Campusestore.com gives students reduced educational prices on software.

Receipts must accompany returned merchandise; policies regarding returns are posted in the Bookstore.

Children’s Center/Child Care Facility
WCC provides a state-licensed and nationally-accredited child care facility in the Family Education Building for children of WCC students. The Center offers a comprehensive program to enrich and enhance the social, emotional, cognitive, physical, and creative development of children with an emphasis on independence and self-esteem. The staff is trained in early childhood education and development. Practicum students in the Child Care Professional program and foster grandparents also offer additional care. Call 734-973-3538 or stop by the Children’s Center for details on age limits, enrollment, attendance requirements, fees, hours of operation, meals and other information. Visitors are always welcome; no appointment is needed.

To find our website, type Children’s Center into the Search on the College home page.

Dental Clinic
The College has a state-of-the-art Dental Clinic which is open to students, staff and faculty. Treatment is provided by University of Michigan dental students and WCC’s dental assisting students under the supervision of a licensed dentist. Contact the Dental Clinic at 734-973-3332 for current information regarding services provided, hours of operation and fees.

Counseling Resources:
Type www.wccnet.edu/advising into a web browser.

Career Exploration Online:
Type www.wccnet.edu/careerresources into a web browser.
Counseling/Advising

Counseling services are located on the second floor of the Student Center Building. Hours of operation for each semester are posted on the Counseling Center bulletin board, but are typically 8 a.m. to 6:30 p.m. on Mondays through Thursdays and 8 a.m. to 5 p.m. on Fridays. During peak registration periods, the center may be open until 7:00 p.m. on Mondays through Thursdays, and 9 a.m. to noon on select Saturdays.

Academic Advising

Counselors and instructors are available to facilitate the development of academic plans. They assist students with planning schedules, meeting program requirements, placement in the appropriate level of courses, and transferring to four-year colleges and universities, as well as referrals to other support services.

Faculty members who are classroom instructors are especially helpful in providing advice and assistance regarding courses within their field of expertise. They can also assume the role of academic advisor for certain certificate and degree programs.

Students intending to transfer to a four-year college or university should contact Counseling and Career Planning, located on the second floor of the Student Center Building, for information regarding current transfer agreements between WCC and other area institutions (e.g., Eastern Michigan University, Cleary University). Most transfer guides also are available on the WCC web site. Students transferring to four-year institutions within Michigan should contact a WCC counselor regarding WCC’s participation in the Michigan Association of Collegiate Registrars and Admissions Officers (MACRAO) Agreement. For more information see the MACRAO transfer agreement in the Curriculum section of this publication.

Career Counseling/College Transfer Services/Employment Services

The College offers comprehensive services to assist students in career advising, career preparation, job placement and transfer. Counselors are available to help students make career change and career decisions and may suggest career testing or use of information in the Career Resource Library, located on the 2nd floor of the Student Center Building.

The Career Resource Library (SC 283) has numerous publications and handouts on career-related topics. There are computers available for student use with Career Cruising and Discover, the interactive computerized career guidance programs. Discover is also available in MyWCC.

Current transfer agreements with other area colleges and universities are maintained in Counseling and Career Planning, including program transfer guides and course transfer information. Current catalogs from two- and four-year colleges are available as well as computer stations with Internet access to other college web sites.

The Employment Services Office maintains listings of job openings, including full- and part-time jobs, on-campus opportunities, off-campus postings and placement for graduates. A web-based placement service is available at www.collegecentral.com/wcc for student use. Staff will work with students and academic departments to identify appropriate job opportunities. Workshops on resume preparation, interviewing, job search techniques, and other related topics are offered throughout each semester.

Personal Counseling

The counseling and social work staff work with students experiencing personal or emotional problems. The staff also provides referrals to the appropriate agency or service in the community for specialized assistance as necessary.

Learning Support Services

Services to Students with Disabilities

Academic advising and arrangement of accommodations is provided by Learning Support Services for students with documented disabilities. These students may qualify to take their entry assessment (COMPASS) in the LSS office and may qualify for additional accommodations in the classroom such as sign language interpreters, readers, scribes, specialized technology or other assistance. In order to provide timely services, requests must be made in advance. Advising is by appointment.

A Learning Disability Assessment is provided by a Learning Disability Specialist for WCC students enrolled in credit classes who suspect they may have a learning disability and who have not previously been tested or whose testing is outdated. The goal of the LD assessment is to identify and assist in arranging appropriate accommodations. Testing is arranged by appointment.

For additional information please contact Learning Support Services, at 734-973-3342, located on the 1st floor of the Crane Liberal Arts and Sciences Building in room 104. Advising hours are generally Monday-Thursday from 8:00 a.m. to 6:30 p.m. and from 8:00 a.m. to 5:00 p.m. on Friday.

Student Resource and Women’s Center

The Center provides advising, counseling and mentoring to students. It also offers workshops, inspirational speakers and networking opportunities. The Center advocates on behalf of students to help them overcome barriers that impede their success and to promote an educational environment that values diversity, inclusiveness and equality.

Personal Counseling

The counseling and social work staff work with students experiencing personal or emotional problems. The staff also provides referrals to the appropriate agency or service in the community for specialized assistance as necessary.

Resources for male and female students

Although everyone is welcome to use the Center, the staff is especially sensitive to the needs of the adult student who most likely has the responsibility of a home, family and full time employment to factor into their educational objectives.

The Center utilizes a case management and holistic approach to providing services to students. This means that within established guidelines, staff consider each student’s circumstances individually and provide solutions that are prescriptive to his/her particular needs.

The Student Resource and Women’s Center has a resource library which contains books, periodicals, and computers. All students are invited to use this resource.

The SRWC offers the following services:

- Academic, career, financial and educational planning for special populations that include single parents, displaced workers, displaced homemakers, economically and academically disadvantaged students, and men or women entering non-traditional careers.
Student Support Services

- Development of an education plan
- Grant funding for educational expenses
- Academic enrichment programs, workshops, library resources and a Women's Mentoring Program
- Extensive connections to community agencies and resources

The Center is located on the second floor of the Student Center Building in SC 289 and can be reached at 734-677-5105.

M-POD: Students Transferring to University of Michigan
The Michigan Pursuing Our Dreams (M-POD) program is located in Counseling and Career Planning (SC 206D). This program was developed jointly by WCC and the University of Michigan with the goal of helping students to attain their educational goals of transferring to U of M. Please contact the M-POD office at 734-477-8519 for additional information.

The International Student Center
The International Student Center, as part of Counseling and Career Planning, provides services to the following:
- Prospective students visiting the College who want information about the academic programs as well as information about services for the international population, such as English as a Second Language (ESL)
- Students looking for information and support services that will help ease the adjustment to the American culture and college life
- Current students seeking academic advice regarding Washtenaw Community College programs, as well as information about transfer programs to other institutions

The Center is located on the 2nd floor of the Student Center Building in room 206A. Students should call 734-677-5158 or 734-677-5128 for more information.

Student Life

Office of Student Development and Activities
The Office of Student Development and Activities provides a variety of opportunities designed to enhance a student's educational experience outside of the classroom. The Office oversees campus events, Club Sports, clubs and organizations, The Washtenaw Voice newspaper, and Orchard Radio. The Office is located on the 1st floor of the Student Center Building in Room 112 and services are available during regular campus hours. Visit www.wccnet.edu/students for more information, or call 734-973-3500.

Club Sports
Club Sports are open to both women and men who wish to participate on recreational teams. Club sports currently include baseball, basketball, hockey, golf, running, soccer, softball and volleyball. Some activity starts almost every month. Contact the Club Sports office located in the Student Center Building, Room 118, or call 734-973-3720 for information and sign-up.

Student Clubs and Organizations
Student clubs and organizations are established by students to offer opportunities in which students may learn leadership skills, meet other students with similar interests, and have fun. The Student Activities office is the clearinghouse for student clubs and organizations. Interested students should come to the Student Activities office in SC 112 for information on how to start a club.

For a list of current clubs and organizations click on the Student Activities icon on the College home page.

The Washtenaw Voice Newspaper
The Washtenaw Voice is a twice-monthly newspaper published by and for the students of WCC. The Washtenaw Voice provides opportunities for students to write, take photographs, design, sell, and manage advertising. The Washtenaw Voice is located in the Technical and Industrial Building, Room 106. For more information call 734-677-5125.

Orchard Radio
Orchard Radio is WCC's student-run Internet radio station. Students are invited to create and host their own radio show or provide off-air assistance doing marketing, special projects, and general administration. Students dedicate themselves to learning the fundamentals of running a radio station, how to conduct interviews and do research, and the importance of being a responsible person in media. All students are welcome to join at the beginning of each semester. E-mail Orchard Radio at radio@wccnet.edu or call 734-973-3500.

GalleryOne
GalleryOne is located on the 1st floor of the Student Center Building, Room 108. The gallery shows work by student, faculty, local and international artists from the first day of classes in September through July. Periodically, the gallery will schedule lectures, gallery talks, demonstrations, and workshops that are relevant to current exhibitions. The gallery is open during the day and some evenings. Call 734-477-8512 for information. Current exhibition information can be found on www.wccnet.edu/galleryone home page.

Huron River Review
Students may contribute poetry, prose, photographs, and art to this award-winning annual campus literary journal. Aspiring contributors can call 734-973-3703 or stop by the Writing Center (LA 355) for more information.

Alumni Association
The College stays in contact with former students through the Alumni Association. All former students are eligible to join. The office is located in The WCC Foundation Office (SC 306); the phone number is 734-973-3705.

Resource Centers

Richard W. Bailey Library
The Bailey Library aims to play two complementary roles: the physical hub of a vibrant learning community and a portal for access to knowledge resources.

Resources
The Bailey Library provides more than 65,000 books, 20,000 e-books, 400 hard copy periodicals, and 22,000 e-journals in various databases. Electronic resources are accessible both at the Library and off-campus through the Library's website. A media collection consisting of audio and video tapes, digital videodiscs, and music CDs can be borrowed for use on equipment in the facility.

Services
Librarians provide students with a full range of research assistance services that include in-person assistance, as well as research assistance via email, text messaging, and real-time chat. The Library actively participates in inter-library loan programs such as the Michigan eLibrary Catalog (MeLCat) and the Online Computer Library Center (OCLC) to provide other libraries’ resources to faculty and students. Access to other libraries’ online catalogs, such as Eastern Michigan University and the Ann Arbor District Library, is available.

Borrowing and Copying
Currently enrolled students should show a WCC ID card to borrow materials and will need their WCC netID to gain off-campus access to the Library’s online resources. The circulation system and online catalog provide efficient, accurate information on all library materials. The Library provides self-service copiers, and students can use their WCC ID card or purchase a copy card from a machine if they wish to make copies.

Hours and Website
The Bailey Library and Computer Commons are open during weekday, evening, and weekend hours as posted each semester. Consult the Library's web site at www.wccnet.edu/library for more information and electronic access to many resources and services.

Learning Support Services

Tutoring
Learning Support Services provides free tutoring for all students in credit classes for which students are currently enrolled. All levels of math are covered. Chemistry, physics, biology and other sciences are covered (201 Gunder Myran Building). Tutoring is also available for general subjects, as well as for courses in Academic Skills, English, and English as a Second Language (104 Crane Liberal Arts/Sciences Building). Business and computer courses are covered at the Computer Commons, where lab assistants are also available (2nd floor, Gunder Myran Building). Tutoring is provided on a walk-in, individualized basis so that specific questions can be answered. Tutoring does not substitute for class attendance. Students should be prepared with questions and bring in the assignment, syllabus, book and notes. Study skills may also be covered while working with the tutor on subject material. Drop by LA 104 or call 734-973-3342.
Academic Skills Center

The Academic Skills Center (307 Gunder Myran Building) provides help for students who desire to improve their reading and study skills and realize academic success. Students enrolled in Academic and Study Skills (ACS) classes use the facility regularly during the semester. Questions related to reading skills, study skills, and critical thinking may be directed to the Academic Skills Center (734-973-3301).

Math Resource Center and Biology Resource Room

The Math Resource Center and Biology Resource Room (201 Gunder Myran Building) provides resources for WCC students enrolled in mathematics or the sciences. Math tutors for short sessions (15 minutes) and longer sessions (45 minutes) are usually available when the Center is open. Hours will vary during vacations and during the summer. The WCC mathematics web site has more information about mathematics at WCC. Type www.wccnet.edu/departments/math into your web browser to find out more.

Writing Center

The Writing Center, located in LA 355, is a resource available to all WCC enrolled students as a walk-in support for writing assignments across the curriculum. The primary goal of the Writing Center is to help students become stronger writers. English instructors are on duty along with a staff of trained and skilled peer tutors to provide help with any aspect of writing, from coming up with ideas, basic sentence structure, proofreading, to research documentation.

In addition, several writing courses (English 050/051, 090/091, 100, and 111) have Writing Center assignments as the “fourth” credit hour. In each course, students complete exercises to complement their course work, and to further develop their writing skills. The Writing Center also offers placement testing for students who need assistance in selecting a writing course that matches their skill level.

The Writing Center computers are equipped with Microsoft Office and Internet browsers for student use. The Center is usually open 6 days a week but it’s a good idea to call 734-973-3647 for specific hours for each semester. The web site also has the latest hours plus more specific information to help students. Just go to www.wccnet.edu and type Writing Center into the Search box.

Testing Center (3rd Floor SC)

The Testing Center provides a quiet and comfortable environment for students and guests to take tests for current classes, GED tests, employment screening tests, College Level Examination Program (CLEP) tests, DSST (DANTES) tests, and Distance Learning tests.

The Center is open Monday through Saturday during the academic year and on Sundays during some semesters. Other special events may also affect its hours. Check the Center’s hours by going to www.wccnet.edu and search for the Center’s web site by typing Testing Center in the Search box. At the Testing Center’s home page, you can also find out which tests are currently running. (Note: The center only runs make-up tests if an instructor schedules them.) On the left-hand side of the screen, click on Current Tests. This will tell you how long the test you wish to take will be running. This can also tell you how many tests are closing on a given day, an important factor in knowing how crowded the center will be, because about 80% of students take their tests on the last day they are offered. Just click on End Date to sort by end date and count. If 18 or more tests are closing on the date you want, expect to wait for an open seat in the Center.

When you check in at the Testing Center, you will need to show your current WCC student ID, or a current, government-issued photo ID if you are not currently enrolled at WCC. Please have your ID ready and be prepared to provide your instructor’s name, the class name, and which test you wish to take, since sometimes instructors run different tests for multiple classes or multiple sections. When you receive your test, verify that it is the correct test (i.e., Test One, Chapter Two, Mid-Term, or Final) for the correct class and section.

While you are in the Center, your cell phone must be turned off, and you are not allowed to wear an ear piece or ear buds while taking your test. There is no restroom available during testing. Please do not bring children, as they are not allowed into the Center.

Academic Procedures

Participation in Assessment of Student Learning
To provide feedback that will enable the college to determine whether its programs and courses are successful in achieving their learning objectives, students may be expected to participate in college-wide outcomes assessment activities related to its courses, academic programs, and general education outcomes. In some instances, student work will undergo special reviews. Other activities may include portfolio development, tests, surveys, or other tools to measure student learning. Student participation in assessment activities assures that the college receives information on student learning that can be used to promote continuous improvement of teaching and learning. By choosing to come to WCC, students are expected to participate in assessment activities as may be requested. In all these activities, strict confidentiality of individual student work will be maintained.

Cancellation of Specific Sections of a Course
The college may cancel course offerings due to low enrollment, lack of an instructor, or any other reason deemed viable by the Vice President for Instruction. Every effort is made to accommodate students into alternate sections. Information regarding the current status of course offerings for all semesters is available on the College's web site (www.wccnet.edu) and at the Student Connection.

Class Level
Freshman/First-Year Student - One who has completed fewer than 31 credit hours.
Sophomore/Second-Year Student - One who has completed 31 or more credit hours but has not received an associate degree or has not qualified for upper division classification in a four-year college or university.

Course Load/Student Status
The following rules apply to all semesters, including the combined Spring/Summer semester (WCC does not have separate spring and summer semesters). Even if a student is enrolled in one shorter summer session, the following rules still apply.

Full-time student One who enrolls in 12 or more credit hours per semester.
Part-time student One who enrolls in less than 12 credit hours per semester.
Half-time student A part-time student enrolled in at least 6 credit hours per semester.

Enrollment certifications are not processed until the first week of the semester.

Students enrolling in 18 or more credit hours in a semester must have their schedule approved by a counselor before their registration may be processed.

Insurance companies, the Veterans Administration, and Financial Aid do not count audit or withdrawal status as actively pursuing an education and will not consider these classes toward full-time status or other credit hour eligibility. This may also apply to scholarships, payments by employers and so on. Scholarships and employer payments may be revoked for audited classes or classes in withdrawal status. Students should check with the appropriate institution before making a change.

WCC Students Transferring Out
Articulation agreements between WCC and four-year colleges and universities allow WCC students in specific programs to apply all WCC credits toward a bachelor's degree. Included with the articulation agreements are curriculum guides that list the courses required to transfer successfully all credits. Go to www.wccnet.edu for a list of approved articulation agreements.
Counseling can tell you where your WCC credits may transfer 734-677-5102

Please meet with a counselor to plan your classes if you intend to transfer to another college or university.
There is an agreement that provides for transfer of up to 30 semester credit hours to meet many of the general education requirements at participating Michigan four-year colleges and universities. It is called the MACRAO (Michigan Association of Collegiate Registrars and Admissions Officers) agreement. The MACRAO agreement is explained more completely in the Curriculum section and there is information at the www.macrao.org home page under the title MACRAO Transfer Agreement and Provisions.

WCC Credit for Prior Learning

Washtenaw Community College recognizes that students come to college with competencies obtained from prior learning experiences such as previous education, training, or work experience. To receive credit, a prior learning experience must be verified. If it is documented and evaluated to be equivalent to college-level coursework, it is the College’s policy to allow equivalent credit to be granted to the student if appropriate to their WCC program of study. Up to 45 credit hours can be granted.

The following methods may be used to verify equivalency credit: transcript evaluation, credit by examination, portfolio evaluation, advanced placement testing, and articulation credit. Credit for prior learning will be evaluated and posted on the student’s transcript only after the student has earned 1 or more credit hours at WCC and will not apply toward satisfying the minimum credits in residence required for graduation. The credit does not count as part of a student’s credit load for any given semester and is not computed into the grade-point average.

In most cases, non-traditional credit earned for prior learning experiences will not transfer to other colleges or universities. Other institutions will want to evaluate the transcripts from all colleges previously attended when awarding transfer credit.

Transferring Credit to WCC

The evaluation and acceptance of transfer credit is governed by the accreditation of the institution issuing the credit. Only transcripts that indicate accreditation by one of the Regional Accrediting Associations* will be evaluated for direct transfer of credit. Credit hours from institutions that are not regionally accredited may be submitted by the student for evaluation through the Portfolio/Document Evaluation process. In order to consider credit from international institutions, WCC requires submission of a course-by-course evaluation from Educational Credential Evaluators (ECE) or World Education Services (WES) instead of the official foreign transcript. Applications for ECE or WES outside services are available online at www.ece.org or www.wes.org and students may choose either one of these organizations. Any expense for international transcript evaluation is borne by the student.

Students seeking to transfer credit must submit official transcripts from the colleges previously attended. Typically, the potential transfer credit is evaluated using the student’s program of study at WCC to prioritize which transfer credit is accepted first. WCC will then post all other accepted transfer credit up to a maximum of 45 hours. The posting of the transfer credit may affect the student’s financial aid if a student has attempted 90 credit hours in their college career. Coursework will be evaluated, at the student’s request, after the student has earned one or more credit hours at WCC. Credit will only be granted for courses in which a grade of “C” (2.0) or better has been earned. Courses which are evaluated to be equivalent to college-level courses offered at WCC are posted on the transcript as the specific course (college-level is defined as 100 level or above). Courses which are evaluated as college-level but not equivalent to a particular WCC course are posted as elective credit in the appropriate discipline. An educational experience such as a practicum or a clinical that does not have standardized and measurable academic content will not be reviewed for transfer credit. Online, correspondence or teleconferencing courses must meet the same transfer criteria as standard traditional academic credit to be accepted.

Not all credit displayed on another educational institution’s transcript is eligible to be transferred to WCC. Credit hours obtained at another institution through credit by exam, articulation agreements, life experience, portfolio review, etc. are not accepted. The student may submit these learning experiences for review through the WCC Portfolio/Document Evaluation process for potential elective credit.

WCC credits are based on semesters. Accepted transfer credit not originally issued in a semester-based format will undergo a conversion prior to being posted on the WCC transcript. Credit hours only, not grades, will transfer.

Students Must Promptly Check Transfer Credit

After the transfer evaluations are complete, posted, and a notice is sent to the student, the student bears a responsibility to promptly inform WCC if there are discrepancies in the posted credit that vary from the student’s expectation. If there is a question about posted transfer credit, contact the evaluator within the Student Records area to learn how to proceed. If the dispute involves content equivalency, the evaluator may ask the student to provide a course syllabus from the prior college for that course. Once the course syllabus is provided, the evaluator will review the course in question. If no change is warranted, specific reasons will be provided to the student.

If the student still disagrees with the evaluation, the evaluator in Student Records should be notified immediately. The evaluator will seek further opinion from the academic area at WCC. This process may take considerable time based on the availability of the faculty and also may require the student to provide additional information above what has already been provided. The student may also check with a program advisor for possible course substitutions.

Once credit has been posted to the WCC transcript and proofed, the credit is not removed.

*Regional Accrediting Associations

Washtenaw Community College recognizes the following regional accrediting associations for the acceptance of transfer credit:

- New England Association of Schools and Colleges, Commission on Institutions of Higher Education (NEASC-CIHE)
- New England Association of Schools and Colleges, Commission on Technical and Career Institutions (NEASC-CTCI)
College Level Examination Program (CLEP)
Credit may be granted for the successful completion of each of the five general examinations of CLEP:
- English Composition* or College Composition
- College Mathematics
- Humanities
- Natural Sciences
- Social Sciences and History

* Students who achieve the minimum score on the English Composition General Examination will be granted English elective credit. To receive credit for ENG 111 (Composition I), students must pass the CLEP English Composition Subject Examination with Essay. The English Composition module is not acceptable for ENG 111 credit.

Minimum scores for awarding credit are based on American Council on Education (ACE) recommended credit-granting scores.

Students who have earned 6 or more credits in any one of the general examination subject areas are not eligible to receive credit for the general examination in that area. Subject examinations exist in the areas of composition, literature, foreign languages, history, social sciences, science, mathematics and business. In general, a maximum of 3 semester credits may be granted for each College-approved subject examination for scores which meet ACE recommended credit-granting scores. For information about scheduling a CLEP test, contact the Testing Center at 734-973-3634.

1 The American Council on Education’s College Credit Recommendation Service (ACE CREDIT) has evaluated CLEP processes and procedures for developing, administering and scoring the exams. The scores listed above are equivalent to a grade of C in the corresponding course.

2 These exams will be available to students on July 1, 2010.

3 Beginning July 1, 2010, these exams will no longer be available to students. They will be replaced by College Composition and College Composition Modular.

4 These examinations are no longer available to students.

* WCC does not grade the essays which would be necessary for regular composition credit

** WCC does not offer a Lab test

*** Limited to a total of 6 credits per language—the higher level attained will post

** ** 30 WCC testing credit hours limit (a combined total for all testing such as CLEP, DANTES, AP, Credit by Exam. The combination of testing, non-traditional, articulated, and transfer credit cannot exceed 45 credits. For example, if 30 testing credits are granted, the student may only transfer 15 additional credits to WCC.

**** General examination credit—cannot have more than 6 credits in the general examination subject area to receive exam credits

CLEP credit will post after the student has provided the official CLEP score report and earned at least 1 academic credit from WCC.

### DANTES Subject Standardized Tests (DSST)

The DSST provides colleges with a means to measure students' knowledge in commonly taught college courses and awards credit based on student scores. Students can choose from 37 different test titles in the areas of social science, business, mathematics, applied technology, humanities, and physical science. For information about which tests can be used to award academic credit at the College, contact Enrollment Services. For information about scheduling a DSST test, contact the Testing Center.

### College Credit for High School Education

Students who have acquired entry-level career/business skills through high school might be eligible to receive college credits for our occupational, computer, or business programs. Students must receive or request a
Academic Policies/Procedures

**College Board Advanced Placement Exams**
Credit may be granted to students who have achieved a 3 or above on one of the College Board Advanced Placement exams offered through their high school. The student may be granted credit for a particular course or the credit may apply toward an elective.

Additional Policies: Student Records has discretion to give elective credit for AP work that has not been specified as a WCC course equivalent; course equivalencies are determined exclusively by the Office of Curriculum and Assessment.

**AP Placement Notes:**
1. ENG LANG/ COMP is accepted as composition ENG 111 (+ ENG 226 with a score of 4 or above)
2. ENG LIT/COMP is accepted as humanities elective (HUM) (+ ENG 170 with a score of 4 or above)
3. Credit accepted for AP tests is not posted until after the student has completed an academic credit with WCC.
4. Generally, credit is given with a minimum score of 3. (Economics, Computer Science AB are exceptions requiring a minimum score of 4 to give credit)
5. In order to evaluate the AP scores, an official score report must be provided to have credit accepted.

Contact Enrollment Services at 734-973-3590 for additional course information.

---

**To figure out your grade-point average (GPA)**
Multiply grade points x credit hours
Next, divide by number of credit hours attempted
Example: ENG 111 is 4 credit hours
Student received a B-, which is 2.7 grade points per credit hour
Music 210 is 2 credit hours
Student received a B+, which is 3.3 grade points per credit hour
So
\[(4 \times 2.7) + (2 \times 3.3) = 17.4\]
Divide by the total number of credit hours taken to get the GPA
\[17.4 \div 6 = 2.9 \text{ GPA}\]
GPA is 2.9
recommendation from their high school teacher in order to be eligible. You may apply for these articulated credits immediately after enrolling into your initial course at WCC or up to 24 months following high school graduation. No fees or tuition are charged for articulated college credits. For more information please contact Washtenaw Community College at 734-677-5164.

Credit by Examination
The student must be currently enrolled to take credit by exam. The student must be currently enrolled to take credit by exam except for persons just admitted who wish to take the exam to demonstrate computer literacy. Students enrolled in a course who appear to be proficient in that course may, upon recommendation of a full-time instructor and with the approval of the department chair, take a course examination for credit. The student must be accepted to the College as a credit student and complete a Credit-by-Examination application form. The cost of the examination is based on the number of credit hours in the course. A maximum of 30 credits earned by examination may be applied toward a degree. The student is responsible for arranging to complete the examination. Students are allowed to attempt credit by examination only once per course. If the student passes the exam, WCC posts the credit with no grade. This credit generally does not transfer to other institutions.

Credit by Portfolio/Document Evaluation
Students with background experiences or certifications obtained through on-the-job training or apprenticeships, for example, may have this prior learning evaluated for college credit. Students may pick up a Non-Traditional Credit Evaluation form from the Enrollment Services Office and contact the appropriate faculty member(s) in the student’s program area. Courses granting CEUs are not normally eligible for college credit.

Students must submit all official documents and information on the length and content of the experience, and any other pertinent documentation to the appropriate faculty member for evaluation. Normally, a maximum of 20 credits may be accepted in this category (with the exception of apprenticeship training). The WCC Portfolio/Document process is designed to give credit for technical or work experience, so WCC’s General Education classes do not typically receive credit equivalencies through this method.

Military Training
For an evaluation of service school training, students must submit a military transcript and DD 214 member 4 copy (military discharge papers) unless still on active military duty. The documents must show the exact title of the course, location of the course and length of the course in weeks. Credit may be granted based on the recommendation of the American Council on Education (ACE). If a course is not evaluated by ACE, no credit is granted. If a course is relevant to a student’s occupational degree objective, the program advisor and appropriate dean make a decision as to acceptance and application of credit. Other courses may be accepted as elective credit based on the veteran’s program of study at WCC. Accepted coursework will be posted to the transcript after the student has earned one or more credit hours at WCC.

</tbody>
</table>

NOTE: Grades (except S, F, and AU) having 0 grade points may be treated by other educational institutions as an “F”.

For more information go to [www.wccnet.edu](http://www.wccnet.edu) and type Grading Scale in the search box.

### Satisfactory ‘S’ or Unsatisfactory ‘U’:

‘S’ and ‘U’ grades are generally given for courses numbered below 100. Credits for courses with ‘S’ or ‘U’ grades are not figured into credits attempted in determining a student’s GPA and do not count toward graduation.

### Incomplete Grade ‘I’ Credit Withheld:

If the instructor determines that the student has nearly completed the requirements of a course but is missing a small but essential part of the course due to unforeseen or extenuating circumstances, the instructor may issue an ‘I’ grade. The ‘I’ grade will remain on the student’s transcript until the requirements of the course are met and a letter grade given or an instructor-determined deadline has passed with a maximum of one year. The final grade will depend on the quality of the completed work and its significance to the course. After the deadline, the grade that has been preset by the instructor will be posted on the transcript if the work is not completed. The ‘I’ grade could become a letter grade such as B, C, D, or S and credit granted or a U, F, or IX (permanent ‘I’) in which case a student would need to register in the course again to receive credit. Neither the ‘I’ nor the ‘IX’ grade will be figured into credits attempted or honor points earned.
Withdrawal ‘W’:
A ‘W’ grade is posted to the student’s permanent academic record for any course the student withdraws from after the 100% refund deadline. The ‘W’ grade is not figured into credits attempted in determining a student’s GPA.

Audit ‘AU’ No Credit:
A fully admitted student may enroll in a credit course on a non-credit (audit) basis. The number of credits the course normally carries is not included as part of the total credit load; however, tuition is assessed by the number of credits for the course. Students may change from credit to audit status or vice versa early in the semester without the instructor’s permission. Refer to the Academic Class Schedule of courses for specific dates each semester. Credit is not earned in courses taken on an audit basis.

After the deadline date, students seeking an audit must discuss receiving an audit as a final grade with the instructor.

Pass ‘P’/No Pass ‘NP’:
Pass/No Pass grades are given only in specifically-designated courses numbered 100 and above. The Pass/No Pass grades must be part of the approved course syllabus and will apply to all students in all sections of the course. Students and faculty cannot elect this grading option for other courses. The ‘P’ grade equates to ‘C’ or better work and will not be included in a student’s GPA. No more than 25 percent of credits applied toward an associate degree or certificate can have a ‘P’ grade.

Repeating a Course
Whenever a course is repeated on a credit basis, the best grade and credits earned are used in computing the grade-point average. All entries remain a part of the permanent academic record.

Course Repeat Limits
Washtenaw Community College acknowledges that the Academic Intervention plan does not effectively address situations where a single course, rather than a complete program of study, has proven difficult for a student to finish successfully. In order to further encourage student success on all levels and to reasonably utilize public resources, the College sets forth the following Course Repeat Limits for all students, both those who are successful in a single course, and those who have not been successful in the course.

1. The student may attempt a course for the first time at their own discretion providing they have met admission and prerequisite requirements.
2. The student may attempt that course a second time at their own discretion.
3. For the third attempt, the student must obtain BOTH of the following:
   a) Recommendation from a full-time WCC counselor/advisor, AND
   b) Approval from a full-time WCC faculty member from the same academic area as the course.
4. For any attempt beyond the third attempt, the student must obtain approval from the Academic Intervention Coordinator.

Transcripts/Final Grades
A permanent record of all courses, credits and grades earned by each student is kept in the Enrollment Services Office. Find out how to order an Official Transcript by consulting www.wccnet.edu and type Transcripts into the Search. Students may log onto MyWCC to view their unofficial transcript. Associate degrees and/or college certificates earned at WCC are posted on transcripts. At the end of each semester final grades are issued to all students enrolled for that semester. Transcripts and final grade reports are available unless the student has a financial obligation to the college. Students may access their grades and unofficial transcript via MyWCC on the college web site. Note that on the transcript, grade points are referred to as “quality points.”

Grade-Point Average (GPA)
Grade points measure the achievement of students for the number of credit hours attempted. Grade points are determined by multiplying the grade points per credit hour by the credit hour value of the course attempted. The cumulative grade-point average is the total number of grade points earned divided by the total number of credit hours attempted. Attempted credit hours include the number of credit hours of ‘F’ even though no grade points are earned for this grade.

Grade Appeal Procedure
A student may appeal any letter grade from any course. All parties are to be notified of any action taken during the entire process. The process consists of the following steps:

Step One: Student discusses concerns with the course instructor.
Step Two: If Step One does not resolve the appeal, the student submits a written request for a meeting to the Department Chair. This step must be taken within five months of the posting of the grade to the student’s record.
Step Three: After discussion with the student and/or the instructor, the Department Chair makes an initial determination.
regarding the basis for an appeal, and may suggest that there is no basis for appeal, or may suggest that the student could appeal to the Instructional Dean.

Step Four: If the student wishes to pursue the appeal, he/she should submit the written appeal within five days to the Divisional Dean, along with a request for a meeting and notification that he/she has already talked to the faculty member and Chair.

Step Five: The Divisional Dean invites both the student and the instructor to a meeting and issues a written decision. This step must be completed within six months of the posting of the grade to the student’s record.

Step Six: A final appeal may be made in writing to the Vice President for Instruction. The Vice President for Instruction shall make a final determination and shall inform the student in writing of his/her decision.

Academic Forgiveness

Washtenaw Community College (WCC) acknowledges that not all students are equally prepared for a successful academic career. Academic Forgiveness is intended to provide an opportunity to remove a period of poor academic performance at WCC from the GPA calculation. WCC recommends that a student attempt to repair their transcript by repeating a course(s) first and utilize Academic Forgiveness as a last step.

Due to federal regulations, the Office of Financial Aid does not acknowledge Academic Forgiveness when calculating eligibility for aid. Transfer institutions may or may not acknowledge Academic Forgiveness and may recalculate the WCC GPA for their purposes. It is at the discretion of other institutions to determine how they will interpret Academic Forgiveness.

A student seeking Academic Forgiveness must meet and understand the criteria below.

1. A minimum of three years must have elapsed between the poor academic performance and the Academic Forgiveness request. The student may continue to enroll during that three-year period. Enrollment can be at WCC or another educational institution.

2. Only semesters with a semester GPA of less than 2.0 are eligible for Academic Forgiveness.

3. To apply for Academic Forgiveness, the student must have successfully completed 12 or more credit hours at WCC with a C grade or higher and the cumulative GPA of those 12 credits must be 2.0 or higher since the period of poor academic performance. For the purpose of calculating Academic Forgiveness, classes taken since the period of poor academic performance with a final grade of W, AU, N, IX, or I as a final grade will count as F (failures) unless officially excluded due to a successful repeat of the course.

4. Academic Forgiveness applies to a maximum of two (2) semesters.

5. The two Academic Forgiveness semesters are not required to be contiguous.

6. In their request, the student will specify which classes taken during a semester in which Academic Forgiveness is applied for will be included. Courses included in Academic Forgiveness must have grades that affect the student’s WCC grade-point average. Courses with a grading format that does not impact GPA (such as Pass/No Pass, Audit, Withdrawal, and Satisfactory/Unsatisfactory) are excluded from the Academic Forgiveness process.

7. If approved, the classes remain on the transcript with the original grade and a notation indicating that Academic Forgiveness has applied to them. The forgiven classes will be excluded from the WCC GPA.

8. Once granted, Academic Forgiveness is not reversible under any circumstance.

9. Academic Forgiveness may be granted only once even if the student did not take advantage of the full limit of Academic Forgiveness during their initial application.

10. Classes removed from the GPA under Academic Forgiveness will still count toward attempted classes for Financial Aid purposes.

11. Other institutions may interpret Academically Forgiven classes differently and use the original grades.

12. Courses that have applied toward a WCC degree or certificate will not be considered under Academic Forgiveness.

In order to apply for Academic Forgiveness, the student will initiate the process by completing an application for Academic Forgiveness with a WCC counselor or advisor. The counselor or advisor will discuss the ramifications and alternatives of Academic Forgiveness with the student. The student will indicate their understanding by signing the application. If the counselor recommends and the student still wishes to pursue Academic Forgiveness, the student will then meet with one of the Deans in Student Services for a second review and discussion of the application and its impact. Upon approval by the Dean, the application is forwarded to the Registrar to verify the criteria has been met, disclosure to the student was performed, and then the changes will be posted to the student’s transcript.

Deans’ List and Graduation Honors

The Deans’ List acknowledges students who have completed 12 or more credits during a semester with a minimum 3.5 grade-point average. Students completing 12 or more credits with a minimum 3.8 grade-point average are on the Deans’ List with High Honors.

Students attending the college on a part-time basis who, over the previous three semesters (Spring/Summer is one semester), have accumulated at least 15 credits and earned a minimum 3.8 grade-point average are also on the Deans’ List.

Graduation honors are awarded to students earning a minimum 3.5 cumulative grade-point average at the time of graduation; High Honors are awarded to students earning a minimum 3.8 cumulative grade-point average at the time of graduation. Honors or High Honors is indicated on students’ transcripts, the commencement program, and press releases.

Honor Society (Phi Theta Kappa)

Phi Theta Kappa, the international honor society for two-year colleges, has been recognizing academic achievement since 1918. This organization has chartered 1,100 chapters; it inducted its one-millionth member in 1993.

To be eligible for membership, students must be enrolled at WCC or another regionally accredited institution offering an associate degree program. They must have completed at least 12 hours of course work
leading to an associate degree (part-time students may be eligible) and have a cumulative GPA of 3.5.

Students inducted into the organization will receive a Golden Key membership pin, an embossed certificate, the Golden Key Newsletter, and a Phi Theta Kappa Scholarship Directory. Some $34 million in transfer scholarships are available exclusively for society members as well as many other scholarship opportunities. Society members will wear a gold braid and tassel at commencements and service and receive a gold diploma seal indicating membership. This designation will also be included on students’ academic transcripts.

Students who meet the eligibility requirements for Phi Theta Kappa may pick up a brochure from the Student Activities office, or may call the chapter advisor for Phi Theta Kappa at 734-973-3691.

**Academic Intervention Program**

**Purpose:** The primary purpose of the Academic Intervention Program is to promote retention and academic success. It is the College’s intention to identify students who are showing signs of significant academic struggle and provide support and services to assist them in meeting their educational goals.

**Definition:** Washtenaw Community College wants to ensure that all students make satisfactory progress toward achieving their educational goals. The fundamental standard of academic progress is the completion of attempted credits and the attainment of a minimum cumulative grade-point average (GPA) of 2.0. As a safeguard against further academic struggle, interventions and restrictions may apply immediately in the case of the courses listed below or after a student has attempted a minimum of 12 credit hours (which includes developmental courses) and failed to maintain a cumulative GPA of 2.0. These interventions will be applied at the time of the student’s next enrollment.

The following courses do not calculate into the grade-point average, but a student enrolled in these courses who does not successfully complete the entire course in one semester will receive immediate academic intervention as described in this procedure. Successful completion is defined as receiving one of the following grades: A (superior), B (excellent), C (average), S (satisfactory) or P (pass).

- REA 040
- REA 050
- REA 051
- REA 070
- ENG 061
- ENG 064
- ENG 065
- ENG 069
- MTH 067
- ENG 061
- ENG 064
- ENG 065
- ENG 069
- MTH 067

The student must do one of the following for each class on the above list that has been attempted but has not been successfully completed:

- Take the course again and complete it successfully (REA 040, REA 050, REA 051, and ENG 067 are no longer offered. Choose the appropriate option below and talk to a counselor or advisor.)

  **OR**

- Successfully complete a higher level course in the same area such as Reading or Writing, as recommended by a counselor or advisor

  **OR**

- If the course is a Reading course (REA 040, REA 050, REA 051, REA 070, REA 071, ENG 064, ENG 065), achieve an 82 or greater Reading score on the COMPASS test.

**Elements:** Academic progress is evaluated after a student has attempted 12 or more credits or at the end of a semester in which the student has enrolled in one or more of the courses attempted from the preceding list.*

**Good Standing:** Cumulative GPA of ≥2.0 (greater than or equal to 2.0). A student is in Good Standing when he or she has a cumulative GPA of ≥2.0 and successfully completes each course attempted from the preceding list.*

**Step 1: Academic Caution Status**

A student is placed in Academic Caution Status, if:

- After having attempted 12 or more credits, his or her cumulative GPA is <2.0 (less than 2.0)

  **OR**

- He or she does not successfully complete each course attempted from the preceding list.*

**Academic Caution Process**

1. The student is notified by mail that he or she has been placed in Academic Caution Status. A letter will be mailed to the student on the second work day after grades are posted at the end of the semester.

2. The student will be placed on registration hold status by Enrollment Services and will be unable to register or change a registration until he or she sees a counselor or advisor to develop an Academic Plan (AP).

   A. The Academic Plan will identify academic improvement strategies which will include interventions such as participating in the Student Success Seminar; tutoring, or study groups; working with Student Resource and Women’s Center (SRWC); working with Learning Support Services (LSS) on disability-related accommodations or other issues; or fulfilling other interventions appropriate to the student’s needs. The Academic Plan will be documented in the College’s computer system and can be accessed by counselors and advisors.

   B. Once the counselor or advisor and the student are satisfied with the Academic Plan, the counselor or advisor may lift the hold for the semester.

3. A student in Academic Caution Status cannot take more than 9 credit hours. **It is the student's responsibility and in his or her best interest to modify any pre-existing registration to reflect this 9 credit hour limitation.**

4. A student in Academic Caution Status will progress to one of three steps:

   - **Good Standing** if the cumulative GPA is 2.0 or higher and the student successfully completes each course attempted from the preceding list.*

   - **Remain in Academic Caution Status** if the cumulative GPA is below 2.0 but the semester GPA is 2.0 or higher and the student successfully completes each course attempted from the preceding list.*

   - **Academic Intervention Program** if the student does not meet the criteria for Good Standing or Remain in Academic Caution Status.

---

*The following courses do not calculate into the grade-point average, but a student enrolled in these courses who does not successfully complete the entire course in one semester will receive immediate academic intervention as described in this procedure. Successful completion is defined as receiving one of the following grades: A (superior), B (excellent), C (average), S (satisfactory) or P (pass). The student must do one of the following for each class on the above list that has been attempted but has not been successfully completed:

- Take the course again and complete it successfully (REA 040, REA 050, REA 051, and ENG 067 are no longer offered. Choose the appropriate option below and talk to a counselor or advisor.)

  **OR**

- Successfully complete a higher level course in the same area such as Reading or Writing, as recommended by a counselor or advisor

  **OR**

- If the course is a Reading course (REA 040, REA 050, REA 051, REA 070, REA 071, ENG 064, ENG 065), achieve an 82 or greater Reading score on the COMPASS test.

**Elements:** Academic progress is evaluated after a student has attempted 12 or more credits or at the end of a semester in which the student has enrolled in one or more of the courses attempted from the preceding list.*

**Good Standing:** Cumulative GPA of ≥2.0 (greater than or equal to 2.0). A student is in Good Standing when he or she has a cumulative GPA of ≥2.0 and successfully completes each course attempted from the preceding list.*

**Step 1: Academic Caution Status**

A student is placed in Academic Caution Status, if:

- After having attempted 12 or more credits, his or her cumulative GPA is <2.0 (less than 2.0)

  **OR**

- He or she does not successfully complete each course attempted from the preceding list.*

**Academic Caution Process**

1. The student is notified by mail that he or she has been placed in Academic Caution Status. A letter will be mailed to the student on the second work day after grades are posted at the end of the semester.

2. The student will be placed on registration hold status by Enrollment Services and will be unable to register or change a registration until he or she sees a counselor or advisor to develop an Academic Plan (AP).

   A. The Academic Plan will identify academic improvement strategies which will include interventions such as participating in the Student Success Seminar; tutoring, or study groups; working with Student Resource and Women’s Center (SRWC); working with Learning Support Services (LSS) on disability-related accommodations or other issues; or fulfilling other interventions appropriate to the student’s needs. The Academic Plan will be documented in the College’s computer system and can be accessed by counselors and advisors.

   B. Once the counselor or advisor and the student are satisfied with the Academic Plan, the counselor or advisor may lift the hold for the semester.

3. A student in Academic Caution Status cannot take more than 9 credit hours. **It is the student's responsibility and in his or her best interest to modify any pre-existing registration to reflect this 9 credit hour limitation.**

4. A student in Academic Caution Status will progress to one of three steps:

   - **Good Standing** if the cumulative GPA is 2.0 or higher and the student successfully completes each course attempted from the preceding list.*

   - **Remain in Academic Caution Status** if the cumulative GPA is below 2.0 but the semester GPA is 2.0 or higher and the student successfully completes each course attempted from the preceding list.*

---
3. Academic Warning Process

Warning Status
Step 2: Academic Warning Status
A student who is in Academic Caution Status will be moved to Academic Warning Status if one of the following occurs:

• If his or her semester GPA is <2.0

OR

• If the student does not successfully complete each course attempted from the preceding list.*

Academic Warning Process
1. The student is notified by mail that he or she has been placed in Academic Warning Status. A letter will be mailed to the student on the second work day after grades are posted at the end of the semester.
2. The student will be placed on registration hold status.
3. A student in Academic Warning Status cannot take more than 6 credit hours. **It is the student’s responsibility and in his or her best interest to modify any pre-existing registration to reflect this 6 credit hour limitation.**
4. A student in Academic Warning Status must see a counselor or advisor to:
   A. Update his or her Academic Plan (AP).
   B. Register or change a registration to include one of the following required Intervention Courses:
      • The following Academic Skills credit courses: ACS95, ACS105, ACS107, ACS110, ACS 111, ACS121 or ACS122.
      • Other approved courses designated by a counselor or advisor which may include: a non credit success course, seminar, or workshop; repeating an academic course previously taken; or another designated course.
   C. Once the counselor or advisor and the student are satisfied with the Academic Plan, the counselor or advisor may lift the hold for the semester.
5. A student in Academic Warning Status will progress to one of three steps:
   • **Good Standing** if the cumulative GPA is $\geq 2.0$ and the student successfully completes each course attempted from the preceding list.*
   • **Moved back into Academic Caution Status** if the student achieves a semester GPA of $\geq 2.0$, completes 66% of attempted credits and successfully completes each course attempted from the preceding list.*
   • Face Suspension if one of the following occurs:
     i. The student does not achieve a semester GPA of $\geq 2.0$
     OR
     ii. The student does not complete 66% of attempted credits
     OR
     iii. The student does not successfully complete each course attempted from the preceding list.*

Step 3: Academic Suspension
A student who is in Academic Warning Status will be suspended if one of the following occurs:

• If the semester GPA is <2.0

OR

• If he or she does not successfully complete 66% of attempted credits

OR

• If he or she does not successfully complete each course attempted from the preceding list.*

The soonest suspension can occur for any student is the end of a student’s third semester.

Suspension Process
1. The student is notified by mail that he or she has been suspended and of the length of the suspension. A letter will be mailed to the student on the second work day after grades are posted at the end of the semester.
   A. If it is a first suspension: the student will be suspended according to the semester in which the student was in Academic Warning Status but failed to make sufficient progress: from Fall semester: the student will be suspended for Winter term; from Winter semester: the student will be suspended for Fall term.
   B. If it is a 2nd or subsequent suspension, the student will be suspended for one full year starting from the date of the suspension.
2. When a student returns from suspension, the student is in Academic Warning Status.

Appeals Process
1. The student may appeal his or her suspension to the Suspension Appeals Committee (SAC) by doing the following:
   A. Student sends a letter of appeal to the committee in care of the Dean of Support Services and Student Advocacy. Appeal letters must be received by the Dean’s office five working days prior to the first day of the semester of suspension.
   B. The SAC meets to review all appeals for the upcoming semester. The committee will accept or deny each student’s appeal. The SAC will be chaired by a dean from one of the academic divisions.
   C. The SAC chair is responsible for notifying all students who have appealed of the committee’s decision prior to the last day of registration.
   D. If the appeal is denied, pre-registered students will automatically be dropped from all of their courses.
   E. The SAC will meet in January, June, and August.
2. If the student chooses not to appeal, then the suspension process as outlined above goes into effect.

**Possible Appeal Outcomes**

- If the suspension is waived by the SAC, the student will be permitted to return to school in Academic Warning Status.
- If the suspension is upheld by the SAC and it is a 1st suspension, the student will be suspended as outlined above in 1A of the Suspension Process.
- If the suspension is upheld by the SAC and it is a 2nd or subsequent suspension, the student will be suspended as outlined above in 1B of the Suspension Process.
- The SAC may impose other appropriate enrollment restrictions.

**Graduation Requirements**

**Application for Graduation**

To be eligible for graduation, you must file an Application for Graduation with the Enrollment Services Office. The application should be turned in four months prior to the beginning of the semester in which the student plans to graduate. This allows enough time for the college to verify that students will meet their program requirements by the expected date of graduation, and for students to make adjustments in their schedule for their last semester, if necessary.

The form is available online or can be picked up from the Student Connection on the 2nd floor of the Student Center Building. Find the form online by typing Student Forms into the Search on the College home page. Degrees and certificates are issued in December, May, June, or August, depending on when the student has completed their degree requirements and applied for graduation. Students who plan to graduate must submit an Application for Graduation form to the Student Connection even if they do not plan to attend the commencement ceremony.

**Graduation Requirements for an Associate Degree**

To be eligible for graduation with an associate’s degree from Washtenaw Community College you must meet all of the following requirements.

1. Fulfill all prescribed course and credit hour requirements of your specific curriculum (see Programs of Study Section for specific requirements). A minimum of 60 credits is required for a degree. Courses numbered below 100 do not count toward degree completion.
2. Complete a minimum of 15 residence credits (Washtenaw Community College credits) toward completion of each degree pursued. Credit for prior learning, including credit by exam and transfer credit, may not be used as residence credit. Exceptions: A. The Certificate of Completion requires that all credit hours be completed as residence credit. B. The MACRAO agreement allows students completing their certificates at WCC to complete 25% of their credit hours as residence credit.
3. Earn a minimum cumulative and program GPA of 2.0.
4. If applicable, earn the minimum GPA specified for your program.
5. To earn a second certificate in the same program area, you must complete at least 9 additional credit hours, including the specific course requirements in the curriculum.
6. Meet all financial and library obligations to the College.
7. File an Application for Graduation form.

**Graduation Requirements for a Certificate**

To be eligible for graduation with a Certificate from Washtenaw Community College you must meet all of the following requirements.

1. Fulfill the prescribed requirements of your specific certificate curriculum including courses, credit hours, and/or hours of attendance (see Programs of Study Section for specific requirements). Courses numbered below 100 do not count toward graduation for the Certificate.
2. Complete a minimum of 75% of the total credits required as “residence credit” for each certificate pursued. Credit for prior learning, including credit by exam and transfer credit, may not be used as residence credit. Exceptions: A. The Certificate of Completion requires that all credit hours be completed as residence credit. B. The MACRAO agreement allows students completing their certificates at WCC to complete 25% of their credit hours as residence credit.
3. Earn a minimum cumulative and program GPA of 2.0.
4. If applicable, earn the minimum GPA specified for your program.
5. To earn a second certificate in the same program area, you must complete at least 9 additional credit hours, including the specific course requirements in the curriculum.
6. Meet all financial and library obligations to the College.
7. File an Application for Graduation form.

Complete their first associate degree. Students must meet all degree requirements for the program they plan to complete.
Selecting the Program Year for Meeting Graduation Requirements

In meeting program requirements for graduation, you may select either those requirements that were in effect during the year in which you initially enrolled in your program (if the program is still active) or those in effect when you complete your program.

Discontinued Programs

When a program is discontinued, you are given a specified amount of time to complete the program (usually three years), after which you must change to a different program. If you change programs you should see a program advisor to select appropriate courses and make course substitutions as necessary. If you interrupt your studies for more than two consecutive semesters, the College strongly encourages you to change to the requirements that are in effect the year in which you return. Graduation requirements may be completed during any semester.

Course Substitutions

Courses required for a program of study may be substituted by other courses only with the approval of the program advisor and the appropriate Division Dean. A course substitution form must be filed with the Enrollment Services Office.

Waiver of Program Requirements

Under extreme circumstances, a required course may be waived with the approval of the program advisor, the Division Dean, and the Vice President for Instruction. A Waiver of Program Requirements form must be filed with the Office of Enrollment Services.

Graduation Ceremony

The College’s Commencement ceremony is held in May. The conferring of degrees and college certificates, and the awarding of honors highlight the commencement exercises. Students receiving associate degrees or college certificates of 15 credits or more are expected to participate in the commencement. Students must meet all financial and library obligations to the College before a transcript, diploma, or certificate will be issued.

Policy on Student Rights and Responsibilities

Washtenaw Community College is a community whose mission is to "make a positive difference in people's lives through accessible and excellent programs and services". Washtenaw is a learning community rich in the diversity of its teachers and staff who are deeply committed to helping students achieve their goals. It is a community drawn together by the common beliefs in the values of teaching and learning and the importance of respecting differences in people and in their ideas.

The primary purpose of the Policy on Student Rights and Responsibilities is to maintain an environment which supports the educational process and protects the safety and well-being of the College Community. The responsibility for maintaining such an environment is shared by all members of the community.

Washtenaw Community College students are members of both the College community and the community at large. As members of the College Community, students are subject to the rights and responsibilities which accrue to them by virtue of this membership. As members of the larger community, of which the College is a part, students are entitled to all rights and protection accorded them by the law of that community. By the same token, students are also subject to all laws and their enforcement. When students violate civil or criminal law, they may incur penalties prescribed by legal authorities. In such an instance, College discipline will be initiated when students also violate College regulations. Any violation of criminal law not listed in this policy may also, at the discretion of the College, result in student disciplinary action.

Within the College, it should be noted that this policy will supersede current program and departmental procedures if conflicts exist.

This policy and the companion procedures are intended to apply to all persons who have active student status at the College. This includes all persons who are actively registered for credit or credit-free courses and/or special training/education programs, workshops, and seminars. Guest students from other institutions, as well as high school students approved to take courses at the College, are also covered by these provisions.

The Office of the Associate Vice President of Student Services is charged with the responsibility of developing and administering guidelines and procedures to implement this policy.

Student Rights

Freedom of Access to Higher Education
Washtenaw Community College is an open-door institution, which means that any individual who has the ability to benefit from College offerings will be admitted. The mission of the College is to "strive to make a positive difference in people's lives through accessible and excellent programs and services."

Freedom from Discrimination and Discriminatory Harassment
Discrimination against individuals on the basis of any protected category is antithetical to the values of the College and is prohibited by law. Harassment of individuals because of any of these innate characteristics will not be tolerated at Washtenaw Community College. Violation of this policy may result in discipline ranging from counseling up to and including dismissal.

Discriminatory harassment is defined as verbal or physical conduct based upon race, color, creed, religion, national origin, gender, sexual orientation, familial status, height, weight, ancestry, age, marital status, disability, or Vietnam-era veteran status that
1. adversely affects a term or condition of an individual's education, employment, or participation in a College activity;
2. is used as a basis for or a factor in any decision affecting the individual's employment, education, or participation in a College activity;
3. has the purpose or effect of unreasonably interfering with an individual's employment or educational performance; or
4. has the purpose or effect of creating an intimidating, hostile, offensive or abusive environment for that individual's employment, education, or participation in a College activity.

Freedom from Sexual Harassment
Washtenaw Community College is committed to maintaining an environment for learning, teaching, working, and research that is free of sexual harassment. Sexual harassment is antithetical both to the academic values of the College and the need for a work environment that is free from sexual harassment or coercion. Sexual harassment in any form is a violation of College policy and is prohibited by Title VII of the 1964 Civil Rights Act, Title IX of the Educational Amendments of 1972, and by the Elliot-Larsen Civil Rights Act of 1976. Sexual harassment will not be tolerated at Washtenaw Community College. Violation of this policy may result in discipline ranging from counseling up to and including dismissal or termination.
Student Rights and Responsibilities

Academic Freedoms

1. Freedom of Speech and Expression
   Students have the right to express their thoughts and opinions without fear of reprisal. Student evaluation shall be determined on an academic basis, not on opinions or conduct in matters unrelated to academic standards. Students should bear in mind that the right to free speech does not include a license to harass or injure others or to disrupt orderly conduct of College classes or operations.

2. Protection Against Improper Academic Evaluation
   Students shall have protection through due process against prejudiced or capricious academic evaluation.

3. Protection Against Improper Disclosure
   Students shall have access to their educational records and the College will protect student educational records from dissemination or transferability without a student's consent. In this regard, it is College policy to comply fully with the provisions and regulations of the Family Educational Rights and Privacy Act (FERPA) of 1974.

Freedom in Student Affairs

1. Freedom of Association
   Students bring to campus a variety of interests and skills previously acquired and develop new interests as members of the College Community. They shall be free to organize and form associations to promote their common interests, to develop leadership skills and to meet new friends.

2. Participation in College Governance
   As members of the College Community, students shall be free, individually or collectively, to express their views on issues of College policy or procedure and on matters of general concern to the student body.

3. Publications
   Student publications are important in establishing and maintaining an atmosphere of free and responsible discussion and bringing issues of concern and importance to the attention of the College Community. The College and students will share student publication editorial responsibility for all College-sponsored or supported student publications in order to maintain the integrity of communities, as well as to promote free inquiry and expression.

Right to Due Process

In administering this policy, the College guarantees each student accused of violating a published College policy those principles of due process and fundamental fairness established by the Constitution of the United States. Due process at Washtenaw means that a student is assured that his/her rights as a student will be protected. Specifically, a student has the right to be informed of all charges brought against him/her; that he/she be given a fair opportunity to refute them; that the College not be arbitrary in its actions; and that there be provisions to appeal a decision.

Student Responsibilities

The following defines misconduct by students. Students in violation of the following, acting alone or with others, are subject to disciplinary action up to and including dismissal.

Disruption of the Educational Process

1. No student, acting alone or with others, shall obstruct, interfere with, or disrupt any teaching, administrative, disciplinary, public service, research or other activity authorized or conducted on the College campus. This disruption does not necessarily have to involve violence or force for the student to face disciplinary action.

2. No student shall fail to comply with the lawful and reasonable directions of College officials or law enforcement officers acting in the performance of their duties and/or refuse to identify him or herself to these persons when requested to do so.

Academic Dishonesty

All forms of academic dishonesty including but not limited to collusion, fabrication, and plagiarism will call for discipline.

1. Collusion is defined as the unauthorized collaboration with any other person in preparing work offered for individual credit.

2. Fabrication is defined as intentionally falsifying or inventing any information or citation on any academic exercise.

3. Cheating is defined as intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise.

4. Plagiarism is defined as the appropriation of any other person's work and the unacknowledged incorporation of that work in one's own work offered for credit.

Infringement of Rights of Others

1. Threatening, attempting, or using physical force or intimidation against any person on College premises or at College-sponsored functions or any student or employee in connection with the performance of his/her college duties.

2. Theft from or damage to the College premises or the property of other students, staff or faculty while on campus or at College-sponsored functions.

3. Discrimination, intimidation, or discriminatory harassment based on race, sex, color, age, religion, national origin, sexual orientation, or disability.

4. Sexual harassment (as defined under Student Rights, “Freedom from Sexual Harassment”).

5. Stalking defined as harassment by repeated unconsented contact, which causes significant mental suffering or distress.
Other Unlawful Acts or Violations of College Rules, Regulations and Policies

1. Forgery, alteration or misuse of College documents records or identification, as well as knowingly furnishing false information to the College.
2. Possession, use, or storage of knives, firearms, fireworks, explosives, or other lethal weapons on campus or at any College-sponsored event.
3. Consumption or possession of any alcoholic beverages on College property unless previously approved by the President or his/her designee and then only for those who are of legal drinking age. This includes a prohibition of being intoxicated on campus.
4. Unlawful manufacture, distribution, dispensation, possession or being under the influence of any illegal drugs or controlled substances on College property or at College-sponsored activities.
5. Gambling on campus or at any College-sponsored function (excludes approved charitable fundraising activities).
6. Smoking is prohibited anywhere on the campus; this includes all College facilities, including buildings, sidewalks, parking lots, building entrances, and common areas.
7. Misuse or damage to fire safety equipment on campus.
8. “Software piracy” or other illegal or unauthorized use of computer programs, equipment, or networks. This also includes theft or abuse of computer time.
9. Unauthorized presence in, use of, or damage to College premises, facilities, or property.
10. Bomb threats, false fire reports or other false warnings or threats, parking violations, violations of other published or posted regulations, unauthorized possession or duplication of College keys, lewd or indecent conduct, and unauthorized entry into files.
11. Violation of any civil or criminal laws while on campus or at College-sponsored events.

Sanctions

One or more of the following sanctions may be imposed for violations of College Policies:

1. **Disciplinary Reprimand:** The student is warned in writing that further misconduct may result in more severe disciplinary action.
2. **Restitution:** The student is required to make payment either with money or the performance of specific duties to the College or other persons, groups, or organizations for damages incurred as a result of a violation of this policy.
3. **Failing Grade:** In the case of academic dishonesty, the student may receive a failing grade for the test or for the course involved.
4. **Removal from a Course or Program:** A student may continue to attend other classes but may not attend the course or program from which he/she has been removed. In the event of removal, a student will be given either a withdrawal or a failure in the course.

5. **Internal Probation:** The student shall not represent the College in any extracurricular activity or hold membership in any student group, organization, or College committee. Additional restrictions or conditions may also be imposed. Notification will be sent to all appropriate College offices.
6. **Suspension:** Separation of the student from the College for a specified period of time. The student shall not participate in any College-sponsored activity and may be barred from College premises.
7. **Expulsion:** Permanent separation of the student from the College.
8. **Other Sanctions:** Other sanctions, including loss of access to College resources, mandated counseling or psychiatric assessments, may be imposed instead of, or in addition to, those specified in the above sections.

For example, students may be subject to restrictions upon their driving privileges on College property for disciplinary violations involving the use of motor vehicles, or, in the case of computer misconduct, students may forfeit the use of their email account.

**Interim Suspension**

If a student’s misconduct gives reason to believe his/her continued presence on campus poses an immediate and significant threat to the safety of him/herself, other students, College employees or campus property, the Associate Vice President of Student Services, the Vice President for Instruction, or other authorized College official (as specifically designated in writing by the College President) may suspend the student and exclude the student from campus pending a hearing.

Upon deciding to suspend a student, the Associate Vice President of Student Services or Vice President for Instruction must notify the student by the most expeditious means available. After notifying the student of the interim suspension, the College will proceed to organize a disciplinary hearing.

Any student given an interim suspension may request an expedited conference with the Associate Vice President of Student Services to discuss whether the suspension will continue until the hearing is completed.

**Outcomes Statement**

The College will have a policy available that provides support for the educational process, protects the safety and well-being of the College community, and insures due process for all students.
Due Process Guidelines

Student Complaint Procedures

The purpose of these Student Procedures is to provide a mechanism for resolving student complaints against faculty, staff, and administrative offices. The concerns addressed include discrimination or intimidating treatment, as well as harassment on the basis of race, sex, age, religion, sexual orientation, national origin, and/or disability. Also included are any other seemingly arbitrary, capricious, unreasonable, or unprofessional conduct toward a student or groups of students by a faculty or staff member, or an administrative office of the College. This section of the policy deals with student-initiated complaints against faculty, staff, or administrative offices. The procedures regarding student complaints are grouped in three categories:

A. Student grade appeals
B. Sexual and discriminatory harassment
C. Student complaints regarding any College faculty, staff, or administrative office

Complaint forms are available in the offices of the Deans, the Associate Vice President for Student Services, and the Vice President for Instruction.

A. Procedure for Student Final Grade Appeal

A student may appeal any letter grade from any course. All parties are to be notified of any action taken during the entire process. The process consists of the following steps:

Step One: Student discusses concerns with the course instructor.

Step Two: If Step One does not resolve the appeal, the student submits a written request for a meeting to the Department Chair. This step must be taken within five months of the posting of the grade to the student's record.

Step Three: After discussion with the student and/or the instructor, the Department Chair makes an initial determination regarding the basis for an appeal, and may suggest that there is no basis for appeal, or may suggest that the student appeal to the Division Dean.

Step Four: If the student wishes to pursue the appeal, he/she should submit the written appeal within five days to the Division Dean, along with a request for a meeting and notification that he/she has already talked to the faculty member and Chair.

Step Five: The Division Dean invites both the student and the instructor to a meeting and issues a written decision. This step must be completed within six months of the posting of the grade to the student's record.

Step Six: A final appeal may be made in writing to the Vice-President for Instruction. The Vice President for Instruction shall make a final determination and shall inform the student in writing of his/her decision.

B. Procedure for Student Complaint Regarding Sexual and Discriminatory Harassment

Any student who feels that he/she has been subjected to sexual or discriminatory harassment, or who is aware of conduct that violates College policies against sexual or discriminatory harassment should immediately report the matter to his or her instructor; to any Dean or Executive Officer; or to the Associate Vice President for Student Services.

Any instructor, Dean, or other staff member who receives such a report should consult with General Counsel regarding investigation and resolution of the complaint.

C. Procedure for Student Complaint Regarding College Faculty, Staff, Personnel or Administrative Offices

1. Complaints Against College Faculty or Instructional Staff

Step One: The student should make an effort to resolve the complaint informally by means of a meeting with the parties involved prior to filing a formal, written complaint.

Step Two: If the complaint cannot be resolved at the informal step, the complaint should be filed in writing and submitted to the appropriate Dean within 20 working days of the decision or event that generated the complaint. The Associate Vice President for Student Services may be consulted if needed.

Step Three: The Dean will review, investigate, and attempt to resolve the complaint. The Dean may request further information in writing and/or may schedule a meeting with all involved parties. If the complaint is not resolved at this level, the complaint will be referred by the Dean to the Vice President for Instruction.

Step Four: If the complaint is not resolved and the Vice President for Instruction determines that further review is appropriate, he/she may convene the Student Review Board (see Appendix B).

Step Five: If convened by the Vice President for Instruction, the Student Review Board will deliberate and recommend that the original administrative position should stand or that some modification or reversal take place. The Vice President for Instruction may choose to follow directly, modify, or disregard the Review Board's recommendation. The decision of the Vice President for Instruction is final.

Step Six: The Vice President for Instruction will notify the student of the final decision. A copy of the decision will also be sent to the College President and the area Dean.

2. Complaints Against College Non-Instructional Staff, Personnel or Administrative Offices

Step One: The student should make an effort to resolve the complaint informally by means of a meeting with the parties involved prior to filing a formal, written complaint.

Step Two: In the case of a complaint against College staff, personnel or administrative offices, the complaint should be filed with the Associate Vice President for Student Services within 20 working days of the decision or event that generated the complaint.
Student Rights and Responsibilities

Procedures For Student Discipline

A. Basic Procedures
These basic procedures apply to all student misconduct except academic dishonesty. See IIB for Academic Dishonesty Procedures. Anyone with a complaint against a student may attempt to resolve the complaint by informal means prior to filing a charge.

Step One: Charges of violations may be made by any student or College employee and must be filed, in writing, in the Associate Vice President for Student Services' Office.

Step Two: The Associate Vice President for Student Services or his/her designee makes a preliminary investigation of the allegations. If the Associate Vice President determines that the charges and evidence warrant proceeding further and informal resolution methods have not proved fruitful, the Associate Vice President shall notify the student in writing of the charges filed against him/her with specification of each. This notification shall include a copy of the Student Rights and Responsibility which specifies a range of potential sanctions and describes a course of action available to the student. This notice shall be sent by both certified mail and first class mail to the student's last known address within ten (10) College work days after charges were first filed with the Associate Vice President for Student Services.

Step Three: After receipt of the letter, the student has the right to choose one of the following options. The student must state in writing what that choice is within ten (10) College workdays.

a. The student may admit the alleged offense and request, in writing, that the Associate Vice President take whatever action he/she deems appropriate.

b. The student may deny the alleged offenses and request either an Administrative or Student Review Board hearing (see Appendix A).

Step Four: The student has the right not to respond. In this event, the Associate Vice President has the right to take whatever measures are deemed necessary.

Step Five: If Option 3 (a) is chosen, the Associate Vice President for Student Services will discuss the accusations with the student and take disciplinary action, if indicated.

Step Six: If the student requests a hearing under Option 3(b), the hearing will occur within twenty (20) College work days after receipt of the student's written request.

Step Seven: The student shall be notified at least three (3) College work days prior to the hearing. This hearing notice will describe the charges with sufficient particulars to enable the student to prepare a defense, specify the time and place of the hearing, and usually provide the name(s) of witness(es) scheduled to appear.

Step Eight: If convened, the Student Review Board will deliberate and make a recommendation to the Associate Vice President for Student Services. The Associate Vice President may choose to follow directly, modify, or disregard the Review Board's recommendation. The decision of the Associate Vice President is final.

B. Procedures for Academic Dishonesty
These procedures cover conduct described in the Academic Dishonesty section under Student Responsibilities. Any individual who suspects that academic dishonesty has occurred should report the incident to the instructor in charge of the class. It is the professional obligation of faculty members to enforce academic integrity in their courses.

Step One: If the instructor suspects a student of academic dishonesty, he/she will meet with the student as soon as possible. If the meeting does not alleviate the instructor's suspicions, the instructor will notify the student in writing within three (3) days of the meeting that the matter is being referred to the Division Dean for disciplinary action. At the same time, the Student will also be notified that he/she may contact the Vice President for Student Services for consultation and assistance. A copy of the procedure for academic dishonesty will accompany the written notice to the student. The instructor will forward copies of the above written documentation to the appropriate Division Dean.
General Provisions

1. The Associate Vice President for Student Services shall arrange for the hearing to be held and shall notify all parties at least three (3) days prior to the hearing of the time, date, and location of the hearing.

2. The student is entitled to appear in person at the hearing to present his/her defense, including the presentation of affidavits, unsworn statements, exhibits, and witnesses.

3. The student has the right to elect not to appear at the hearing even though the student requested the hearing. Should s/he not appear, the hearing shall be held in the student’s absence.

4. At least forty-eight (48) hours prior to the hearing, the College may make available to the student for review, at a reasonable time and place, any affidavits, unsworn statements, or exhibits which the College or complainant intends to submit at the hearing.

5. The student has the right to have a non-participatory advisor present at the hearing.

6. The student shall be permitted to hear evidence against him/her, present the defense, and call witnesses. Only the Chair is permitted to cross-examine witnesses. The accused student and members of the Review Board may suggest to the Chair questions to be asked on cross-examination.

7. The hearing will be closed to the public unless an open hearing is requested by the student. If the hearing is open, the Chair may still close a portion of the hearing to protect the privacy of a complainant, victim(s), or witness(es).

8. Formal rules of evidence shall not be applicable in student disciplinary hearings. The Chair shall adhere to the appropriate rules of confidentiality and privilege, but shall otherwise, at his/her sole discretion, admit all matters into evidence which reasonable persons would accept as having probative value in the conduct of their affairs. Unduly repetitious or irrelevant evidence may be excluded.

9. The student has the right to refuse to answer questions. However, the student’s refusal to answer questions may be considered in any finding, decision, or recommendation.

10. The facts of the case shall be determined solely on the basis of evidence presented at the hearing.

11. The College will provide for a record of the hearing to be kept.

Appendices

Appendix A

Procedures For Disciplinary Hearings

Administrative Hearings are held before the Associate Vice President for Student Services (or a designee), who shall render a decision in the matter. The Associate Vice President shall be the Chair, and shall conduct the hearing and rule on matters of procedure, evidence, and participation. If a designee is appointed by the Associate Vice President, the designee will have the authority to take all of the actions described below on behalf of the Associate Vice President.

Student Review Board Hearings are held before a Student Review Board, composed as specified in Appendix B, which shall make a recommendation to the Associate Vice President for Student Services. The Chair of the Student Review Board shall conduct the hearing and rule on matters of procedure, evidence, and participation.

General Provisions

1. The Associate Vice President for Student Services shall arrange for the hearing to be held and shall notify all parties at least three (3) days prior to the hearing of the time, date, and location of the hearing.

2. The student is entitled to appear in person at the hearing to present his/her defense, including the presentation of affidavits, unsworn statements, exhibits, and witnesses.

3. The student has the right to elect not to appear at the hearing even though the student requested the hearing. Should s/he not appear, the hearing shall be held in the student’s absence.
6. The student then may present evidence and witnesses to support the student’s position. The complainant or College faculty or administrator may present rebuttal evidence.

7. The Chair shall rule to admit or exclude evidence at the hearing.

8. At the Chair’s discretion, the Chair or members of the Student Review Board may ask questions of the presenters or of witnesses during the course of the proceedings. The student or the complainant may request the Chair to ask specific questions of a witness.

9. Both parties have the opportunity to present brief (no more than 10 minutes) summation arguments.

10. The Chair declares the hearing closed, and participants are excused from the hearing room.

Deliberation and Decision

1. Administrative Hearing: After reviewing the evidence presented at the hearing, the Associate Vice President will determine whether a violation of College policy or regulations has occurred. If s/he determines that there has been a violation, the Associate Vice President will decide upon the appropriate disciplinary sanction.

2. Student Review Board Hearing: The Student Review Board must deliberate in private and determine, by majority vote, whether the student has violated College policy or regulations. Within two (2) College business days of the close of the hearing, the Review Board must deliver in writing to the Associate Vice President of Student Services its determination as to whether a violation has occurred and, if so, its recommendation as to an appropriate disciplinary sanction.

3. The Associate Vice President of Student Services shall render a decision in writing within ten (10) College business days of the close of the hearing. The Associate Vice President may adopt, modify, or disregard the Review Board’s recommendation. The Associate Vice President’s decision shall include a determination as to whether there was a violation and what sanction, if any, will be imposed. The decision may also include a written explanation or rationale for any deviation from the Review Board’s recommendation.

4. The Associate Vice President for Student Services will inform the student and the complainant of the decision, and of the right of either party to appeal. Copies may also be provided to the Review Board members and the Vice President of Instruction.

Appeal

Either the complainant or the accused student may appeal the decision of the Associate Vice President of Student Services. The appeal must be submitted in writing to the President of the College within three (3) business days of the decision of the Associate Vice President. In reviewing the matter, the President may take whatever actions s/he deems appropriate. The President shall render a final decision in the matter.

Appendix B

Composition of the Student Review Board

1. The Student Review Board shall be responsible for reviewing and making recommendations to the Associate Vice President of Student Services on student disciplinary matters and, as appropriate, matters involving the resolution of complaints concerning administrative decisions that affect students.

2. The Student Review Board shall be appointed by the Associate Vice President of Student Services and shall be composed of two (2) faculty, two (2) students, and one (1) administrator who will serve as the Chair.

3. The Associate Vice President of Student Services shall notify the parties three (3) days prior to the hearing of the names of individuals who may comprise the Student Review Board.

4. The complainant or the accused student may challenge a Student Review Board member on the grounds of bias. Challenges to the membership must be directed in writing to the Chair at least forty-eight (48) hours prior to a scheduled hearing. If the challenge is upheld, a replacement member will be selected.

Revised April 12, 2002
Revised September 23, 2004

Substance Abuse

The College has adopted the following position, consistent with requirements of the federal drug-free campus regulation and with federal, state, and local law, with respect to drug use on campus. All students, employees, and visitors are specifically forbidden to use, possess, or distribute alcoholic beverages or illegal drugs, or to be under the influence of the same while on College property. An exception will be made at those few functions for which permission to serve alcohol has been obtained through the proper channels and then only for those who are of legal drinking age. Consult the President’s Office for procedural information. Offenders will be subject to legal and/or disciplinary action by the College. Sanctions will be consistent with local, state, and federal law and will range from a disciplinary reprimand or a requirement to complete a rehabilitation program up to suspension, expulsion, or referral for prosecution.
Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) grants students certain rights with respect to their educational record. Washtenaw Community College (the College) is committed to making sure that student rights under FERPA are protected. FERPA Rights are extended to students as soon as they are successfully registered for classes at the College.

Students Have The Following Rights

1. The right to inspect and review their education records within 30 days from the day the College receives a request for access.
   - File a written request to inspect with the Enrollment Services Office.
   - Educational records will be available for inspection within 30 days.
   - The student will be notified of the time and place to inspect the records.

2. The right to request the amendment of any part of the education record that the student believes is inaccurate.
   - File a written request with the Enrollment Services Office that clearly identifies the part of the record that the student wants changed, and specify why the student found it to be inaccurate or misleading.
   - If the College does not make the change, the student will be informed and advised of the right to a hearing. Information about requesting a hearing will be included in the notice.
   - The right to challenge grades does not apply under the Act. See the Procedure for Student Final Grade Appeal in this publication.

3. The right to provide written consent before the College discloses personally identifiable information from the student’s education record, except to the extent that FERPA authorizes disclosure without consent.
   - FERPA permits the disclosure of personally identifiable information without consent to school officials with legitimate educational interest (the school official needs to review a student record to fulfill his or her professional responsibility).

   A school official is:
   - a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including campus security or health personnel);
   - a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent, official of the National Student Clearinghouse, or any third party performing an assigned College activity);
   - a person serving on the Board of Trustees; or
   - a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

   - FERPA allows the College to release student education records without student consent as follows:
     a. to officials of another school, at their request, in which a student seeks to enroll
     b. to appropriate parties in a health or safety emergency
     c. to comply with a judicial order or lawfully issued subpoena
     d. in connection with a student’s financial aid request, as necessary to determine the eligibility, amount or conditions of the financial aid, or to enforce the terms and conditions to the aid
     e. to certain officials of the U.S Department of Education, the Comptroller General, state and local educational authorities, in connection with certain state or federally supported education programs
     f. to accrediting organizations to carry out their functions
     g. to organizations conducting certain studies for or on behalf of the College
     h. to the alleged victim of a crime of violence, in order to give the alleged victim the results of an institutional disciplinary proceeding against the alleged perpetrator
   - The College may release education records without student consent to the parents or guardians of students enrolled in Youth Classes or Youth Camps, as these are not post-secondary.

4. The right to restrict disclosure of items the College has designated as directory information.
   - FERPA permits disclosure of directory information without student consent. The College has designated the following as directory information:
     - name;
     - address and telephone number;
     - email address;
     - date of birth;
     - field of study;
     - enrollment status, such as full-time or part-time;
     - number of credits earned;
     - participation in College activities and Club Sports;
     - weight and height information of Club Sport participants;
     - dates of attendance and graduation, and degrees received;
     - most recent previous educational institution attended;
     - honors and awards received;
     - photographs
   - Students may have all of their directory information withheld by filing a written request for confidentiality with the Student Connection.
   - The College assumes that failure to file a written request for confidentiality that specifically requests the withholding of directory information indicates individual approval for disclosure.
Student Rights and Responsibilities

- This request for confidentiality would mean that the College would not release any directory information to potential employers, to insurance companies for verification of enrollment, or to other organizations requesting directory information on the student’s status, unless the student provides a written release or rescinds the previous request in writing.

- Students who wish to rescind a request for confidentiality must appear in person at the Student Connection with photo identification and a written request.

5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

   Family Policy Compliance Office
   U.S. Department of Education
   400 Maryland Avenue, SW
   Washington, DC 20202-5920

Consumer Information

Information on a variety of consumer topics can be found at www.wccnet.edu/financialaid by looking for the link to Consumer Information for Prospective and Current Students.

Campus Safety

Campus Safety and Security

Access our web site to find the emergency exits in your building, learn emergency procedures and look up statistics. Go to the WCC home page, type Campus Safety into the Search. Security offices are located on the 2nd floor of the Student Center Building and in the Plant Operations Building.

College Closing for Emergency and Severe Weather

Occasionally extreme weather conditions or other unforeseen events necessitate closing the College either before or after classes have begun for the day. Students can receive time-sensitive notices via voice, email or text messaging regarding campus closings and emergencies. To sign up, go to MyWCC and click WCC Alert Emergency Notification Services. Students may also check the College Web site, www.wccnet.edu, or call the School Closing Information Line at 734-677-5288 for the most up to date and accurate information.

Contacting a Student in an Emergency

If the Office of Campus Safety and Security receives a request to locate a student on campus because of a medical emergency, they will attempt to locate the student in the assigned classroom. If the student cannot be located, the caller will be informed. No other information will be released to the caller.

Reporting an Emergency

When notifying the Office of Campus Safety and Security of a potential emergency, or suspected criminal activity, be prepared to provide the following information to the dispatcher:

- Type of incident or activity, location of incident, and description of persons involved (if criminal in nature)
- Suspected injury or condition (if medical emergency)
- Your name, location, and number calling from

This information will aid Campus Safety and Security staff in their response and subsequent handling of the incident. You should remain available to assist staff with any required additional information once they arrive. Campus Safety and Security staff are trained in medical emergency procedures and will notify additional medical and/or law enforcement support as needed.

Campus sites are patrolled by local law enforcement agencies. Security personnel maintain a close working relationship with those agencies and serve as the College’s liaison with them. Security personnel receive both annual and on-going training in a variety of safety and security related subjects.

The College will report criminal activity to the law enforcement agency in whose venue the act occurs. The College will annually request from each law enforcement agency data indicating criminal activity for each particular site in accordance with the Student Right To Know and Campus Security Act.

Anonymous Tip Line

The Campus Safety and Security Department employs a voicemail account to facilitate anonymous tips. The phone number is 734-677-5343 (or extension 5343, if on campus), and is checked daily by CSSD staff. This line is not restricted to anonymous tips, and may be utilized by anyone wishing to leave a message.

Safe Escort

Staff, students and guests may request a security escort from any location on campus to any other location on campus by contacting the Office of Campus Safety and Security at 734-973-3411.

Motorist Assists

Security staff will provide vehicle jump-start assistance to those who leave their lights on, etc. The Campus Safety and Security Department will assist motorists in contacting local assistance for further service needs.

Lost and Found

Found items may be turned in to the Campus Safety and Security Department where they will be kept for one month. Persons may retrieve found items at the Campus Safety and Security Department in the Plant Operations Building. Persons who have lost property on college premises should contact the office at 734-973-3411 with a description and approximate value of the item.

Parking

Free parking is provided on campus for general, handicapped, visitor, vendor and service vehicles. Parking is prohibited in the following areas: bus stops, fire lanes, main travel lanes, sidewalks, handicapped spaces without a permit, restricted parking spaces without

Campus Security

Campus Security works 24/7, 365 days

Call 3411 from a campus phone

Call 734-973-3411 from a cell phone

Outside emergency phones are in parking lots and exterior areas

Look for

- Green cylindrical towers
- “Emergency” printed on the side
- A blue light on top
- Push the button to call Security

Inside emergency phones are located in campus hallways and lobbies

Look for

- Blue boxes on the wall
- Push the button to call Security
a permit, marked crosswalks, building entrances and exits, and outside marked parking spaces. Parking regulations on campus are covered by Campus Safety personal and violations will be issued. Allow enough time to park and walk to the classroom because the parking area is vast. The parking spots fill quickly and the available parking may be a 15-minute walk to your class.

**Smoke-Free Campus**

Washtenaw Community College is a smoke-free campus. Smoking is not permitted anywhere on the campus; this includes all College facilities, including buildings, sidewalks, parking lots, building entrances, common areas, as well as the surrounding fields and woods. The Administration shall fully implement this policy, and all applicable laws, regulations, and local ordinances related to smoking.

All programs offered by Washtenaw Community College are listed and described in this section of the Bulletin. Programs are arranged alphabetically by the school to which they belong. The following additional information is provided so that students can quickly and easily find the programs and course-related information that fits their needs and interests:

- An overview of the types of degrees and certificates available at WCC;
- General Education requirements;
- The MACRAO Transfer Agreement;
- An alphabetical index listing all programs;
- Detailed descriptions of each program listed with the title and a unique identifying code;
- A Curriculum Organization Chart indicating the disciplines and departments found within the divisions in the College.

**Degrees and Certificates Awarded**

**Associate Degrees**

Washtenaw Community College offers three associate degrees that are assigned based on a program’s primary purpose, and the minimum level of prescribed general education requirements. The degree title and specific program title will appear on the diploma. The degrees and their purposes are as follows:

**Associate in Arts (AA)**

The Associate in Arts is a transfer degree, used primarily by humanities and social science programs. Additionally, some transfer programs in health, technology and business use the AA degree title. AA degrees require between 60 and 66 credit hours to complete.

**Associate in Science (AS)**

The Associate in Science degree is primarily used by transfer programs that have significant math and science requirements. It requires a minimum of 60 credit hours.

**Associate in Applied Science (AAS)**

The Associate in Applied Science is the standard career-entry degree. It is used for programs that prepare students for careers in health, business and technology. Ranging between 60 and 72 credit hours, this degree has dual use for some programs that are primarily career-entry but also have articulation agreements with specific bachelor’s degree programs.

**Certificates**

The College offers four types of certificates that are designed to meet a variety of student needs ranging from preparation for entry-level jobs to advanced job skills for those who are already in the work force. Certificates can also form the foundation for an associate degree. The certificate titles and their purposes are as follows:

**Certificate of Completion**

The Certificate of Completion is used for short-term programs covering a discrete body of skills and/or knowledge that is intended to prepare students for a specific entry-level occupation or basic literacy attainment. The Certificate of Completion can be credit or noncredit, but is limited to a maximum of 8 credit hours.

**Certificate**

The Certificate is awarded for standard credit programs that normally take two semesters to complete and range from 9 to 36 credit hours. Primarily used to prepare students for entry-level occupations, the certificate also may be used to prepare students for an advanced certificate. Certificates also may form the basis for an associate degree.

**Advanced Certificate**

The Advanced Certificate is for students who are pursuing advanced study in an occupational area. These may be short-term or longer programs that require completion of a certificate or equivalent industry experience for admission. Some advanced certificates prepare students for industry certification exams. The Advanced Certificate, ranging from 9 to 36 credit hours, may be added to a Certificate to form the basis for an associate degree.

**Discontinuation of Degrees and Certificates**

Washtenaw Community College’s policy is to phase out discontinued programs over a period of three years. Students following programs that were discontinued are urged to see a program advisor to determine whether it is possible to complete their programs or, if it is necessary, to change to a new program. Students will be advised on making course substitutions and, if necessary, on selecting a new program.
General Education Graduation Requirements

Philosophy Statement
General Education is highly valued at Washtenaw Community College because it develops and nurtures certain habits of mind that reach beyond a student's area of academic emphasis and enables the student to meet critically, objectivity, and successfully the challenges of education, work and life. By requiring a strong core of common learning, the College demonstrates its commitment to providing a broad-based education to all degree recipients, which includes useful skills, knowledge and experiences to support a variety of lifelong endeavors. To this end, it shall be the policy of the College to maintain a substantial program of general education to be included in all degree programs.

The College defines general education as a prescribed curriculum that assures a broad acquaintance with the basic areas of academic study. The general education requirements are designed to provide degree students certain skills and knowledge that include an understanding of and appreciation for the important modes of human thought, communication and inquiry.

General Education Course Requirements

Students pursuing associate degrees are required to meet the general education requirements in the eight areas listed below. The content areas are generally met through course distribution requirements (successfully completing courses from restricted distribution lists). Critical thinking is incorporated into the courses in the other areas and does not require any additional coursework.

- **Writing** – Develop, organize, and express thoughts in writing using Standard English
- **Speech** – Speak in an organized and effective manner and listen critically and with comprehension
- **Mathematics** – Understand the applications and perform computations using the concepts of college-level mathematics
- **Natural Science** – Understand principles and applications of modern science
- **Social and Behavioral Science** – Understand principles and applications of social and behavioral sciences in exploring the dynamics of human behavior
- **Arts and Humanities** – Understand and apply information related to the nature and variety of the human experience through personal and cultural enrichment
- **Critical Thinking** – Demonstrate skill in analyzing, synthesizing and evaluating
- **Computer and Information Literacy** – Demonstrate the skill to use computer information systems including using software and the ability to locate, retrieve, and evaluate networked information

**Course Distribution Requirements**

Associate degree students must complete courses from each of the General Education areas as described below. The requirements vary, depending on which degree is being earned. The chart below lists the number of general education credit hours required for each degree.

<table>

</tbody>
</table>

1. Critical thinking skills will be taught in all courses included in the other course distribution areas.
2. Due to the computer intensive nature of many courses, students are encouraged to complete the Computer and Information Literacy requirement as early in their academic career as possible.

Students who have earned a bachelor's degree or higher from an accredited U.S. college or university may request a waiver of the general education requirements in the Office of Student Records. The following exceptions may apply:

1. The waiver may not apply if some or all of your general education coursework was transferred from an unaccredited institution to the accredited institution that awarded your bachelor's degree.
2. The General Education Math and Science requirements are not waived if the bachelor's degree does not contain math and/or science coursework.
3. Specific general education courses may still be required to fulfill the program requirements.
Approved Courses for General Education

Distribution Areas

The following courses are approved for General Education in the Writing, Speech, Mathematics, Natural Sciences, Social and Behavioral Sciences, and Arts and Humanities areas. Some courses are limited to a specific degree or program; check the footnotes when selecting courses. Students also should check the requirements for their programs to determine if specific courses are required or recommended.

Writing

ENG 100 Introduction to Technical and Workplace Writing .................. 4
ENG 107 Technical Writing I .............................................. 3
ENG 111 Composition I ................................................. 4
ENG 226 Composition II ............................................... 3
ENG 208 Technical Writing II ........................................... 3

1 May be used for the AAS degree only.
2 May be used for the AAS degree or students in the Technical Writing Program (ASTWRT).

Speech

COM 101 Fundamentals of Speaking ........................................ 3
COM 102 Interpersonal Communication .................................... 3
COM 142 Oral Interpretation of Literature .................................. 3
COM 183 Persuasion .......................................................... 3
COM 200 Family Communication .......................................... 3
COM 225* Intercultural Communication .................................... 3

* See the EMU Diverse World Requirement list.

Mathematics

Any 100-level or higher MTH course, with the exception of the following courses, which apply to only the programs or degrees specified:

MTH 148 Functional Math for Elementary School Teachers I .............. 4
MTH 149 Functional Math for Elementary School Teachers II ............ 4
MTH 151 Technical Algebra ................................................. 4
MTH 157 Geometry and Trigonometry ...................................... 3
MTH 166 Math for Radiography ............................................. 3
MTH 167 Math Applications for Health Science ............................ 3

1 May be used for the AAS degree only.
2 For students following an elementary or early childhood education track only.
3 For students in the Radiography Program only.
4 For students in Health Programs only.

Natural Sciences

Any 100-level or higher, 3 credit or more course in the following disciplines, with the exceptions noted below:

AST, BIO, CEM, ENV, GLG, PHY

The following courses apply only to the programs specified:

CEM 102 Chemistry for Elementary Teachers ................................. 4
GLG 202 Earth Science for Elementary Teachers ........................... 4
PHY 110* Applied Physics .................................................. 4
SCI 101* The Nature of Science ............................................ 3
SCI 102* Applied Science .................................................... 3

1 May be used for the AAS degree only.
2 For students following an elementary or early childhood education track only.
3 For United Association students only.

Social and Behavioral Science

Any 100-level or higher, 3 credit or more course in the following disciplines:

ANT*, ECO* (except for ECO 111 which can be used only for the AAS degree), GEO*, HST*, PLS*, PSY, SOC*

* See the EMU Diverse World Requirement list.

Arts and Humanities

Any 100-level or higher, 3 credit or more course in the following disciplines:

ARB, FRN, GRM, PHL, SPN

Or, any course listed below:

ART 130 Art Appreciation .................................................... 3
ART 143* African American Art and Culture ................................ 3
ART 150* Monuments from Around the World ................................ 3
DAN 180* Dance Appreciation: The World of Dance ..................... 3
DRA 152 Acting for the Theatre I ............................................. 3
DRA 208 Acting for the Theatre II ............................................ 3
ENG 140 Horror and Science Fiction ........................................ 3
ENG 160 Introduction to Literature: Poetry and Drama ................... 3
ENG 170 Introduction to Literature: Short Story and Novel ............... 3
ENG 181* African American Literature ...................................... 3
ENG 187* Folk Literature and Culture of the Caribbean and South America ....................................................... 3
ENG 200 Shakespeare .......................................................... 3
ENG 211 American Literature I .............................................. 3
ENG 212 English Literature I ................................................ 3
ENG 213* World Literature I ................................................. 3

MACRAO Transfer Agreement

The Michigan Association of Collegiate Registrars and Admissions Officers (MACRAO) has developed an agreement to facilitate transfer from Michigan community colleges to baccalaureate colleges and universities. The agreement provides for transfer of up to 30 semester credit hours to meet many (in some cases all) of the general education requirements at participating Michigan four-year schools. Students should check with the college to which they plan to transfer to determine if the MACRAO agreement is honored or if the college puts limitations or provisos on the agreement. Please see www.macrao.org for additional information.

How the Agreement Works

The MACRAO Transfer Agreement stipulates that 30 semester credit hours of 100-level and above, compatible, college-level coursework transcripted at one Michigan Community College will transfer to another Michigan college or university, and be applied toward meeting the student's general education requirements at the "transferred to" institution. A complete listing of course and credit hour requirements is included here. The institution offering the courses (the college in which a student begins) determines the specific courses in each category. In order to get the MACRAO certification from WCC, students need to have earned 25% of their total MACRAO credit hours at WCC (approximately 8 credit hours) and must have earned a minimum 2.0 GPA in each of the 4 areas: English Composition, Social Science, Science and Math and Humanities. Once students have completed the course requirements for meeting MACRAO, they must call 734-973-3658 or 734-973-3546 to request that their transcripts be certified as "MACRAO Agreement Satisfied." This service must be requested before a transcript is sent to a transfer college.

MACRAO Transfer Requirements

Note: Some MACRAO-approved courses do not meet WCC General Education requirements. Check pages 76 and 77 for approved General Education courses. Courses that do not meet WCC General Education requirements are in bold below.

I. English Composition (6 credits)
Composition (ENG) .... 111, 226

II. Social Science (8-9 credits in more than one discipline)
Anthropology (ANT) .... 201, 202, 205
Economics (ECO) .... 110, 211, 222, 280
Geography (GEO) ... 101, 212
History (HST) .... 121, 122, 123, 150, 200, 201, 202, 210, 215, 216, 220, 230, 235, 240, 245, 251, 260, 270
Political Science (PLS) .... 112, 150, 211, 220, 250, 260
Psychology (PSY) .... 100, 107, 117, 150, 200, 206, 207, 209, 210, 220, 232, 240, 251, 257, 260, 273
Sociology (SOC) .... 100, 155, 202, 205, 207, 220, 225, 230, 250

II. Science and Math (8-9 credits in more than one discipline; one course must be a laboratory course; laboratory courses are underlined.)
Astronomy (AST) .... 100, 111
Biology (BIO) .... 101, 102, 103, 104, 107, 109, 110, 111, 112, 142, 200, 201, 208, 212, 215, 225, 227, 228, 237
Chemistry (CEM) .... 102*, 105, 111, 122, 140, 211, 222
Environmental Science (ENV) .... 101, 201
Geology (GLG) .... 100, 103, 104, 109, 110, 114, 125, 202*, 219, 289
Mathematics (MTH) .... 125, 148*, 149*, 160, 169, 176, 178, 180, 181, 182, 191, 192, 197, 293, 295
Physics (PHY) .... 100*, 105, 111, 122, 211, 222
*For students in elementary or early childhood education.

IV. Humanities (8-9 credits in more than one discipline.)
Arabic (ARB) .... 111, 122
Art (ART) .... 101, 102, 108, 111, 112, 114, 120, 121, 122, 125, 127, 128, 129, 130, 143, 150
Communication (COM) .... 101, 102, 130, 142, 183, 200, 225
Dance (DAN) .... 180, 200
Drama (DRA) .... 152, 170, 208, 209
English Literature (ENG) .... 140, 160, 170, 181, 187, 200, 211, 212, 213, 214, 222, 223, 224, 240, 242, 281
French (FRN) .... 111, 122, 213, 224
German (GRM) .... 111, 122
Humanities (HUM) .... 101, 102, 103, 145, 146, 150, 160, 170, 175, 185
Music (MUS) .... 140, 142, 180
Philosophy (PHL) .... 101, 123, 200, 205, 240, 244, 245, 250
Spanish (SPN) .... 111, 122, 201, 224
Articulation Agreements

Many WCC programs have articulation agreements with other colleges and universities that allow students to transfer courses to a bachelor’s degree program without loss of credit. Articulation agreements for specific programs are listed with that program. Some articulation agreements apply to multiple programs or are available to students completing any associate degree at Washtenaw Community College.

Most articulation agreements are designed to meet MACRAO requirements and should be followed carefully so as not to lose these benefits. If a program meets MACRAO, it will be noted with the program description. Copies of articulation agreements can be obtained in the counseling office or online at [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

| The Colleges and Universities listed below accept the MACRAO transfer agreement |
|---|---|---|
| Adrian College | Grand Valley State University* | Rochester College* |
| Albion College* | Lake Superior State University | Saginaw Valley State University* |
| Baker College | Lawrence Technological University | Saint Mary’s College |
| Calvin College | Madonna University* | Siena Heights University* |
| Central Michigan University | Marygrove College* | Spring Arbor University |
| Cleary University | Michigan State University* | Western Michigan University |
| Concordia University* | Michigan Technological University | |
| Davenport University* | Northern Michigan University* | |
| Eastern Michigan University* | Northwood University | |
| Ferris State University* | Oakland University* | |
| Finlandia University* | Olivet College | |

*These colleges have provisos on their MACRAO agreements as described on [http://www.macrao.org/Publications/MACRAOAgreement.asp](http://www.macrao.org/Publications/MACRAOAgreement.asp) as of April 2010.

Degrees and Certificates

Washtenaw Community College offers more than 110 certificates and associate degrees that are organized into Schools. For those students who are uncertain about which occupation to choose, each School lists the certificates and degrees that prepare them for certain careers or occupations. If students know which career or occupation they want to pursue, they can choose one School and work toward the certificate and/or degree that leads to that career.

The career degrees and certificates are grouped into schools. The schools are listed alphabetically in this section, and each school includes a short description of the career-related degrees and certificates in that area. A chart below the description shows all career degrees and certificates that are available within the specific area of study.

Career programs are designed for students who want to learn job skills. Their goals may include a desire to begin a first job, to change career fields, or to gain advanced skills for their current jobs. These programs lead to the four types of certificates offered at WCC, or to the Associate in Applied Science Degree. Although transfer is not the focus of these programs, some have articulation agreements with four-year colleges or universities that allow students to transfer some or all of their credits toward a bachelor’s degree. If a program has a formal articulation agreement, it will be noted in the program description.

Students who think they would like to earn a bachelor’s degree should see the Transfer and University Parallel programs section, as well as Michigan Association of Collegiate Registrars and Admissions Officers (MACRAO) Agreement on page 78 of this Bulletin.

Some certificates in this section refer to the Occupational Studies program for earning an Associate in Applied Science Degree in a particular career path. If a certificate program does not already lead to an associate degree, students can earn an AAS degree with the Certificate title by completing the requirements for the Occupational Studies program described on page 94.
Whether your interest is in robotics, manufacturing or automation, the programs in the School of Advanced Manufacturing Systems will fit your needs. Maintain and troubleshoot the machines that make commercial goods by specializing in one or more aspects of the machining industry. Develop entry-level or advanced skills in electronics, automation, industrial computing, fluid power or numerical controls. Advanced specialization is also available in some of these areas.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate and General Education requirements.

### Associate in Applied Science Degree

This program prepares students for entry-level positions as an automated equipment technician who assembles, installs, programs, troubleshoots, and maintains robotic and automated equipment. Students have a choice to follow any of five different specialty tracks which will prepare them for the various applications of automation. Each track features a variety of application level classes where the student performs lab-oriented practice for required skills. It is highly recommended that beginning students take at least one technical class during their first semester. See an advisor in the Industrial Technology department for assistance.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).
### Fluid Power Specialty (FPWR) (12 credits)

- **FLP 110** Fluid Power Fundamentals - II*  
  2 credits
- **FLP 214** Hydraulic Circuits and Controls  
  4 credits
- **FLP 225** Fluid Power Motion Control  
  3 credits
- **FLP 226** Pneumatics  
  3 credits

### Industrial Electronics Specialty (IELC) (15 credits)

- **ELE 211** Basic Electronics  
  4 credits
- **ELE 254** PLC Applications  
  4 credits
- **FLP 226** Pneumatics  
  3 credits
- **MTT 111** Machine Shop Theory and Practice  
  4 credits

### Machine Tool Technology Specialty (MTTE) (13 credits)

- **CAD 105** Blueprint Reading and Analysis  
  3 credits
- **MTT 111** Machine Shop Theory and Practice  
  4 credits
- **MTT 203** Advanced Machine Tool Operations  
  4 credits
- **NCT 110** Introduction to Computerized Machining (CNC) - II**  
  2 credits

### Numerical Control Specialty (NCTL) (14 credits)

- **NCT 110** Introduction to Computerized Machining (CNC) - II**  
  2 credits
- **NCT 121** Manual Programming and NC Tool Operation  
  4 credits
- **NCT 221** Advanced Manual Programming and NC Tool Operation  
  4 credits
- **NCT 249** CAD/CAM CNC Programming  
  4 credits

### Minimum Credits Required for the Program: 67

Notes:

*Students who have successfully completed FLP 110 as part of their certificate do not need to take this course as a Major/Area requirement. Course can only be taken once for credit.

**Students who have successfully completed NCT 110 as part of their certificate do not need to take this course as a Major/Area requirement. Course can only be taken once for credit. See an advisor to assist in scheduling and planning for each semester as some classes have limited offering.
Specialize in industrial electricity/electronics or computerized systems and programmable logic controllers. The field of Electronics is open to you.

**Industrial Electronics Technology (CFIET)**

<table>
<thead>
<tr>
<th>Major/Area Requirements</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ELE 111 Electrical Fundamentals</td>
<td>4</td>
</tr>
<tr>
<td>ELE 211 Basic Electronics</td>
<td>4</td>
</tr>
<tr>
<td>ELE 224 Introduction to PLCs</td>
<td>4</td>
</tr>
<tr>
<td>ELE 254 PLC Applications</td>
<td>4</td>
</tr>
</tbody>
</table>

**Minimum Credits Required for the Program:** 16

This program prepares students for entry-level jobs in any of the industrial electricity/electronics cluster of occupations. Students will develop skills in the installation, maintenance, and troubleshooting of industrial control systems with a focus on programmable logic controllers, electronic sensors, and electronic control circuits.

**Articulation:** Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

**Program Admission Requirements:** Students must have an Academic Math Level of 3 to enroll in ELE 111. One year of high school algebra with a grade of “C” or better is recommended.

---

**Industrial Electronics Technology II (CVIET2)**

<table>
<thead>
<tr>
<th>Major/Area Requirements</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ELE 134 Motors and Controls</td>
<td>4</td>
</tr>
<tr>
<td>ELE 204 National Electrical Code</td>
<td>4</td>
</tr>
<tr>
<td>ELE 284 Control Logic Programming</td>
<td>4</td>
</tr>
</tbody>
</table>

**Minimum Credits Required for the Program:** 12

This program provides advanced instruction for students who wish to enhance their skills in the area of industrial electronic control. The courses in this certificate build on the foundation of electricity and electronic control introduced in the Industrial Electronics Technology certificate. Students will learn to apply and control electric motors, use structured techniques to program PLCs, and relate their understanding of electricity and controls to the requirements of the National Electrical Code. This program prepares students to take the State of Michigan Journeyman Electrician Licensing Exam.

**Articulation:** Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

**Program Admission Requirements:** Completion of the Industrial Electronics Technology certificate or equivalent.
Machine Tool Technology (CTMTTC)

</tbody>
</table>

Minimum Credits Required for the Program: 25

Notes:
This certificate can also lead to an associate degree in Automation Technology.

Machine Tool Technology (CTMTTC)

This program prepares students for manufacturing jobs where they will use advanced machine tool setups for the manufacture of non-production parts or prototype parts for industry. This program provides advanced skills in the use of tool room lathes, mills, precision grinders, and sophisticated measuring instruments. Students will learn machining operations through the production of parts, on modern conventional mills, lathes, and grinding equipment in WCC’s extensive machine tool laboratory.

Articulation: Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

<td>4</td>
</tr>
</tbody>
</table>

Minimum Credits Required for the Program: 26

Notes:
This certificate can also lead to an associate degree in Automation Technology or Occupational Studies.

### Certificate

**Advanced Manufacturing (CTAMFG)**

Students taking this certificate will use innovative processes to develop products and ideas. Recognition of materials and processes used to manufacture an array of product will be investigated. Students will make decisions on material and process selection for new products; keeping cost, manufacturability, application and life cycle in mind. Exploration of several tools used in the lean manufacturing arena as well as problem-solving tools will be identified. Rapid product development tools and techniques will be identified and demonstrated. Students will use the tools and techniques learned in the classes on a two-part project; the first part will use the innovation process to identify and define opportunities, in the second part, students will develop working prototypes and present their product/idea to the student body within Washtenaw Community College. This program will give students at Washtenaw Community College a good insight to tools and concepts found inside manufacturing companies. The experience gained from the two-part project will be captured in a student portfolio.

**Numerical Control Programming (CTNCPC)**

This program prepares students for jobs as a numerical control operator or programmer. The program gives students skills in manual and computer assisted programming languages, using CAD/CAM software to program challenging and complex 2 and 3 axes CNC machine tool operations. Students will also become proficient in the interpretation of engineering drawings, visualization of machine operations, and the setup requirements of numerical controlled machine tools.

Find a trade-related associate’s degree program that builds on your unique set of skills while giving you the knowledge and skills needed to move into organizational leadership.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

The next level, an Associate in Applied Science, is available for some programs.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate and General Education requirements.
## Apprenticeship Studies

These individualized programs utilize earned certificates, apprenticeships, and trade-related credits tailored to the needs of the student. The Occupational Studies degree offers the flexibility to combine certain certificate programs with general education courses and electives to develop an individualized Associate in Applied Science degree.

### Apprentice Completion (CTAC)

<tr>
<td>Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. Students can earn an Associate in Applied Science Degree in Journeyman Industrial by completing the requirements listed.</td>
<td>Apprentice Completion (CTAC)</td>
</tr>
</tbody>
</table>

This program gives skilled tradespersons who are sponsored by qualified organizations the opportunity to apply trade-related credits from their apprenticeship programs toward a WCC Certificate. Students must be sponsored by a qualified organization to enroll in this program.

**Articulation:** Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).
General Studies Program Requirements (60 credits)

1. Complete the General Education Requirements for the Associate in Applied Science Degree:
   - Writing (3-4cr)
   - Speech (3cr)
   - Math (3-4cr)
   - Nat. Sci. (3-4cr)
   - Soc. Sci. (3cr)
   - Arts/Human. (3 cr)
   - Computer Lit. (3 cr)

2. Complete a minimum of 20 credits in an occupational/technical area*

3. Complete additional coursework as free electives to bring the total to a minimum of 60 credits

Minimum Credits Required for the Program: 60

Notes:
*If a student completes an occupational certificate program of 20 credits or more, they may request to have the certificate title substituted for “Occupational Studies” as the title of their degree program. This applies only to certificates that do not already lead to an AAS degree program.

Occupational Studies (APOST)

This program allows students to earn an Associate in Applied Science degree by building on occupational/technical courses and certificates. This option can be selected if an associate degree is required or preferred as a condition for employment or advancement in a field. The program also allows students to combine coursework from several occupational areas to prepare for a job that requires multidisciplinary skills. If in completing this program, students earn an occupational certificate of 20 credits* or more that does not already lead to an associate degree program, they can request to have the certificate title substituted for “Occupational Studies” as the title of the degree program. Meet with a divisional counselor or faculty advisor for assistance in developing a program of study. A counselor can help determine career interests and educational goals, as well as provide transfer and career information.

Articulation: Eastern Michigan University, several BS degrees; Ferris State University, BS degree; National Labor College, Bachelor degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

**Minimum Credits Required for the Program:** 15

**Construction Supervision Certificate (CTCNS)**

This Construction Supervision Certificate program enables apprentice and journey-level members of the articulated union building trade apprenticeship programs to enter the job market with knowledge and skills in planning, organizing, and supervising construction projects. This certificate provides an option for those who want to attain a higher position in the construction field, and for those desiring to start their own companies.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

**Program Admission Requirements:** The program is only open to active members of the articulated union building trade apprenticeship programs.
ARTICULATED UNION BUILDING TRADE PROGRAMS

These programs are restricted to members of Articulated Union Building Trade Apprenticeship Programs.

### Minimum Credits Required for the Program:

**68**

### Associate in Science Degree

#### Industrial Training (ASINDT)

This program gives indentured apprentices and journeymen of the United Association of Plumbers and Pipefitters the opportunity to apply their work as certified apprentice instructors toward an associate in science degree in Industrial Training. Students will complete the general education courses, five summer apprentice training sessions, and receive non-traditional credits for experience in an area of specialization such as plumbing, pipefitting, HVAC, or sprinkler fitting.

#### Articulation:

- Eastern Michigan University, several BS degrees; Ferris State University, Bachelor degree; National Labor College, Bachelor degree.
- Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?level=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?level=colleges)

#### Program Admission Requirements:

Open only to United Association of Plumbers Apprentices/Journeymen.

Continuing Eligibility Requirements: Students must maintain a minimum grade of “C.”

Minimum Credits Required for the Program: 61
School of Automotive and Motorcycle Technology. If you are looking for the best technical training in the automotive or motorcycle fields, WCC’s School of Automotive and Motorcycle Technology is the place for you. Whether your focus is finding employment as a technician, learning about performance, or creating a custom look, our intermediate and advanced certificate programs as well as associate’s degrees will enhance your personal and professional qualifications. These programs offer the perfect blend of classroom and hands-on education not available in any other educational setting.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree. Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate and General Education requirements.

### Certificate

This certificate will appeal to a wide array of automobile enthusiasts. Only aspiring body technicians and painters, individuals with an interest in custom cars, hobbyists, and those wishing to start a career in the collision repair industry, need apply. Through the use of NATEF approved curriculum, students will develop core skills such as dent removal, panel replacement, welding, and automobile refinishing techniques and collision-related mechanical repair. Emphasis is placed on preparing students for employment in an ever-changing workplace that adheres to A.S.E. and I-Car standards associated with the collision repair industry. This certificate also provides a stepping-stone to WCC’s Advanced Auto Body certificates.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

---

These certificates prepare the student for various positions in the auto body repair industry.
Collision Repair Refinish Technician (CVCRRRT)

**Minimum Credits Required for the Program:** 18

**Advanced Certificate**

Collision Repair Refinish Technician (CVCRRRT)

This advanced certificate was developed for the individual who would like to focus on a career in the collision refinishing industry. Using modules and carefully selected vehicles, students develop and apply advanced painting skills while refinishing vehicles to pre-accident condition. Areas of study include single stage, tri-stage, and base-coat/clear-coat paint systems. Additional topics such as overall paint jobs, color theory, and the tinting of factory colors to obtain a blended match will be covered. Current NATEF, I-Car, and ASE standards are closely followed to ensure that students are ready for employment in today’s competitive workplace.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

**Program Admission Requirements:** In order to enroll in this program, students must complete the Auto Body Repair (CTAUBR) certificate program with a grade of “B” or better in each course.

**Minimum Credits Required for the Program:** 18

**Advanced Certificate**

Collision Repair Technician (CVCLRT)

This is an advanced certificate for individuals seeking a career in the collision repair industry. Through the repair of selected vehicles, students will develop and apply skills such as advanced welding techniques, damage analysis, structural and non-structural repair, panel replacement and collision-related mechanical and electrical repair. Satisfactory completion of this certificate prepares students for employment in today’s fast paced collision repair industry.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

**Program Admission Requirements:** In order to enroll in this program, students must complete the Auto Body Repair (CTAUBR) certificate program with a grade of “B” or better in each course.
The automotive certificates prepare the student for work as an automotive mechanic or automotive technician, diagnosing and repairing malfunctions in automobile systems.

### Automotive Mechanics (CFAM) Certificate

This program will prepare a student for an entry-level position as an automotive service technician where they will develop the skills to work under the supervision of an experienced automotive technician. Students will develop entry-level diagnosis and repair skills in the areas of automotive brakes, engines, suspension, drivability, drivetrain and electrical systems.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

### Automotive Services Technician (CVAST) Advanced Certificate

This program prepares students for employment as a certified automotive technician. Students will diagnose and repair malfunctions in automobile engines, automatic and manual transmissions and transaxles, suspension and steering systems, brakes, electrical and electronic systems, heating and air conditioning and engine drivability issues. The program also offers opportunities to explore vehicle performance, diesel, alternative fuel vehicles, hybrid vehicles, and to participate in the building of performance vehicles. The program prepares the student for the State of Michigan Mechanic Certification tests as well as the National Institute for Automotive Service Excellence (ASE) Certification Exams. Students can earn an AAS degree by completing the requirements for the Occupational Studies Program (APOST).

**Articulation:** Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

**Program Admission Requirements:** Completion of the Automotive Mechanics Certificate Program (CFAM).
Custom Cars and Concepts

Develop advanced skills in the customization of the auto body through the completion of these advanced certificates.

**Custom Auto Body Technician (CVCABT)**

<table>
<thead>
<tr>

<td>4</td>
</tr>
<tr>
<td>CCC 260 Custom Auto Body Technician IV</td>
<td>6</td>
</tr>
</tbody>
</table>

Minimum Credits Required for the Program: 18

**Advanced Certificate**

The Custom Auto Body Technician advanced certificate focuses on advanced body and paint techniques used to customize automobiles and turn them into “rolling showpieces.” Working in teams, students will build, complete and show a project vehicle. Students will learn advanced sheet metal fabrication techniques and how to use the specialty tools needed to accomplish these tasks. Other topics such as candies, pearls, tri-stage paint jobs, and the application of custom graphics will be discussed. Upon acquiring this advanced certificate, employment possibilities include specialty shop technician, custom paint technician, and collision repair technician.

**Program Admission Requirements**: In order to enroll in this program, students must complete the Auto Body Repair (CTAUBR) certificate program with a grade of “B” or better in each course.

**Custom Fabrication and Chassis Design (CVCFCD)**

<table>

<td>6</td>
</tr>
<tr>
<td>WAF 215 Welding V Advanced GTAW and GMAW</td>
<td>4</td>
</tr>
</tbody>
</table>

Minimum Credits Required for the Program: 18

**Advanced Certificate**

The Custom Fabrication and Chassis Design advanced certificate expands on knowledge acquired in the Auto Body Repair program. Students working in a team environment will design, build, complete, and show a project vehicle. Students will learn techniques used in the construction of a custom automotive chassis. Areas of study will include various types of building materials and their uses, measurement, pattern development, mechanical drawing, fastener selection, MIG and TIG welding, and frame design. Modifications such as boxing, c-notching, motor mount design, and cross member construction will be explored. Additional information on suspension types, their design, and their construction will also be covered. Employment opportunities for students who acquire this certificate may include welder, metal fabricator, specialty shop technician, and race team technician.

**Program Admission Requirements**: In order to enroll in this program, students must complete the Auto Body Repair (CTAUBR) certificate program with a grade of “B” or better in each course.
Prepare for a career as a motorcycle mechanic or build upon skills already developed.

---

**Certificate**

Motorcycle Service Technology I (CTMST1)

This purpose of the Motorcycle Service Technology I Program is to provide the student with fundamental certification as a motorcycle technician. The student will receive skill training in service department operations, vehicle set-up, mileage-based maintenances, and damage repair estimating. Areas of instruction include; troubleshooting, diagnosing, servicing, and the repair of primary and final drive systems, transmissions, brakes, suspensions, electrical, and induction systems. The program will provide the skills for the student to test for the State of Michigan Motorcycle Mechanics License.

Motorcycle Service Technology II (CVMST2)

The purpose of the Motorcycle Service Technology II Advanced Certificate program is to improve the student's skills as a motorcycle technician. Emphasis is placed on engine performance technology, dynamometer operations, and welding.

**Advanced Certificate**

Program Admission Requirements: Completion of the Motorcycle Service Technology I Certificate.
Learn the fundamentals you will need to become a business leader or entrepreneur. These programs help you develop entry-level skills in various aspects of business. Whether your goal is to make your place in an existing industry or branch out on your own, these programs can provide the foundation for success.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs. After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate and General Education requirements.

Certificate

Entrepreneurship (CTENT)

This certificate provides students with the business knowledge, skills and attitudes that are needed to start and operate a small business. Students learn to recognize market opportunities within an industry of their choice, plan a business initiative to develop that opportunity, and evaluate its profit potential. This certificate is appropriate for students who wish to start their own business or improve their chances for finding employment at a small business enterprise.

Program Admission Requirements: Basic computing skills including use of the Internet, CIS 099 or equivalent experience.
Choose one or more areas in the field of business as you prepare for your future.

---

**Business Sales and Marketing (CTBSLM)**

This program prepares students for immediate employment in sales jobs that require skills in sales presentation, negotiation, customer service, display preparation, inventory analysis, and basic market research. The courses in this program may be applied toward an Associate in Applied Science degree in Management Supervision.

**Program Admission Requirements:** Competency in keyboarding is necessary for success in this program. If students need to improve keyboarding skills, take BOS 101A before beginning the program.

**Human Resource Management (CTHRSC)**

This program prepares students for entry-level jobs as a human resource assistant or specialist where they will be assisting in activities that range from recruiting, interviewing and hiring job candidates to evaluating jobs, negotiating contracts, and ensuring company compliance with equal opportunity regulations. This program also provides students with basic management skills that will improve their ability to manage people.

### Advanced Certificate

**Management Supervision (CVMGTA)**

This advanced certificate offers students in any occupation or trade an opportunity to acquire skills to supervise an operation by learning and applying basic management principles through case studies and exercises. Upon completing this program, students will be able to use various tools to manage an operation which includes developing goals, organizing work activities, promoting desired employee performance, and monitoring productivity with a customer focus. Emphasis will be placed on developing skills that will involve both a critical and creative approach to management problem-solving activities. The advanced certificate may also be applied toward a WCC Associate in Applied Science Degree.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

**Program Admission Requirements:** Successful completion of a career certificate or degree program or equivalent work experience. CIS 100 with a “C-” or better or equivalent skills.

Management Supervision (APMGTM)
Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. Students can earn an Associate in Applied Science Degree in Management Supervision, by completing the requirements listed below. See an advisor to develop a plan and select appropriate courses for this program.

Articulation: Davenport University, Bachelor degree; Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site:
Accounting and tax services, CPA firms and small businesses need employees with accounting skills. These programs can provide the skills needed for entry-level positions.

**Notes:**

*See the EMU Diverse World Requirement list. University of Michigan - Ann Arbor Business School does not accept business or accounting courses from community colleges. If you wish to transfer into an accounting major at UM, please see a counselor.*
Whether you are just starting out in an office or advancing to a high-level administrative or executive assistant position, these programs can help you achieve your goals.

### Certificates

#### Administrative Assistant I Certificate (CTADA)
- **Major/Area Requirements (16 credits)**
  - BOS 101C Advanced Keyboarding: 1 credit
  - BOS 107 Office Administration I: 4 credits
  - BOS 157 Word Processing and Document Formatting I: 3 credits
  - BOS 183 Spreadsheet Software Applications: 3 credits
  - BOS 206 Scheduling and Internet Office Applications: 2 credits
  - BOS 257 Word Processing and Document Formatting II: 3 credits

**Minimum Credits Required for the Program:** 16

#### Computer Software Applications Certificate (CTCSSC)
- **Major/Area Requirements (16 credits)**
  - BOS 157 Word Processing and Document Formatting I: 3 credits
  - BOS 182 Database Software Applications: 3 credits
  - BOS 183 Spreadsheet Software Applications: 3 credits
  - BOS 206 Scheduling and Internet Office Applications: 2 credits
  - BOS 207 Presentation Software Applications: 2 credits
  - BOS 208 or Desktop Publishing for the Office: 3 credits

**Minimum Credits Required for the Program:** 16

#### Medical Office Assistant Certificate (CTMAS)
- **Management Supervision Advanced Certificate (CVMGTA) 12 Credits**

### Associate Degrees

#### Administrative Assistant Technology Associate in Applied Science (APAATD) 64 Credits

#### Management Supervision Associate in Applied Science (APMGTM) 60 Credits
- or

#### Occupational Studies Associate in Applied Science (APOST) 60 Credits

Other Options: Business AA Degree – See Transfer and University Parallel Programs; Occupational Studies AAS Degree – See School of Apprenticeship Studies

### Administrative Assistant I (CTADA)

This program prepares students for immediate employment in entry-level information processing, data entry, receptionist, and general office positions where skills in keyboarding and document formatting using computers, record management, and Internet communication skills are important. It also gives students credits that can be used toward an associate degree in Administrative Assistant Technology.

### Computer Software Applications (CTCSSC)

This program provides computer skills training to an expert level in six typical office software applications, using the Microsoft Office Suite as well as a Web browser. These courses are primarily intended for students preparing for careers in the administrative office support area. The courses also give students skills that can be applied toward careers in computer application support and records management. It is recommended that students completing the software applications program be able to key at least 40 words per minute.

<td>4</td>
</tr>
</tbody>
</table>

Minimum Credits Required for the Program: **19**

The program prepares the student for entry-level positions in doctors' offices, clinics, hospitals, pharmaceutical or insurance companies, or public health facilities where health information is prepared, analyzed, and retrieved. The student learns to perform receptionist duties, prepare charts and reports, schedule and bill patients, code and submit bills to insurance companies, and perform some patient-care duties such as sterilizing instruments and taking vital signs. This certificate is not an AAMA certification preparation program.

The program provides comprehensive preparation for individuals who are currently employed as office assistants and who wish to advance their careers in office administration by upgrading their skills. Providing the knowledge and skills necessary for employment as a high-level administrative assistant or executive assistant in the public or private sector, this advanced certificate builds on skills developed in the Administrative Assistant I certificate program. In the Administrative Assistant II program, emphasis is placed on the expanding duties of an administrative assistant, and on the necessity of acquiring an in-depth knowledge of integrated software applications for the office. While mastering the technical knowledge essential for the office professional, students will also learn office management; and organizational principles. Additionally, the program provides opportunities for skill enhancement in information processing, basic financial management, electronic presentations, and office administration. Upon completion of this program, the student will receive an advanced certificate as an administrative assistant.

### Minimum Credits Required for the Program: 64

## Associate in Applied Science Degree

### Administrative Assistant Technology (APAATD)

This program prepares students for higher-level support positions in office settings where increased responsibilities require technical skills in desktop publishing, presentation software, accounting, and database software. Students will also gain broader skills through completion of the general education courses required for an associate's degree. This degree is not an AAMA certification preparation program.
If you yearn to be involved in nurturing the next generation of young people, the School of Child Care Professionals is the place to begin. Gain the knowledge and skills required for state licensing and national childcare credentials while enjoying the personal experience of working directly with children.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate and General Education requirements.

**Minimum Credits Required for the Program:** 25

**Child Development (CTCDA)**

This Child Development Certificate is the first level in a three-tier training program. This program prepares students for the assessment exam required for the Child Development Associate (CDA) credential. It also prepares students for employment in child care centers or in family home daycare settings working with infants and toddlers, or preschoolers. Skills from the 13 functional areas required by the National Council for Early Childhood Professional Recognition are emphasized.

**Program Admission Requirements:** Students must be at least 18 years of age and have a high school diploma or equivalent.

**Child Care and Education (CVCCE)**

This certificate provides advanced training for child care professionals, and for paraprofessionals in school settings. It is the second level of a three-tier training program for adults who work with children under age 12. It is intended for students who are employed in a program that serves children under age 12 in a group setting.

**Program Admission Requirements:** Students must have one of the following to enter this program: completion of a two-year vocational child care certificate; a CDA certificate; 12 credits in child care or elementary education; or concurrent enrollment in the Child Development Certificate program (CTCDA). Completion of the CTCDA is required before completing the Child Care and Education Advanced Certificate. Students in the program are assumed to be employed in a program that serves children under age 12 in a group setting.

## Notes:

**CCP 101 must be taken before or concurrently with any other CCP course.**
Become part of the global community of Skilled Trades professionals or Skilled Trades managers. Design, plan, construct and complete structures for your home or for your career. You can earn a certificate or degree in Residential Construction, Construction Management or Heating, Ventilation and Air Conditioning. These programs offer the perfect blend of classroom education and hands-on training. At the Henry S. Landau Design and Construction Training Center, you will be taught construction skills from the ground up. You can learn classic skills such as woodworking or modern techniques needed to maintain or improve your own structure. On the main campus, the HVAC program offers a wide range of training to equip high-end technicians with the knowledge and skills needed for successful entry into the field.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate and General Education requirements.
CONSTRUCTION MANAGEMENT

Prepare for work in the construction management or property maintenance industries through the completion of these programs.

**Commercial Property Maintenance Technology (CVCPMT)**

With the growth of the construction industry, there is an increased demand for skilled maintenance personnel. This program prepares students for careers in Commercial Property Maintenance. It is designed for career advancement in Facility Management Administration as well as supervisory positions in commercial properties maintenance in multi-family housing, high rise apartments and business centers, hotels and recreational/leisure centers, hospitals, educational institutions, and municipal agencies. Students who complete the program, can advance in their career paths by completing the Construction Management or Heating Ventilating and Air Conditioning programs.

**Program Admission Requirements:** Students must complete the Residential Construction I Certificate to be admitted into the program.
**Construction Management (AACMG)**

Notes:
*Choose any COM course that meets General Education Requirements.

**MTH 160 should be completed at WCC to satisfy EMU’s Quantitative Reasoning Requirement. If completed at EMU, MATH 110 will be required unless waived by ACT/SAT or math placement score. Students transferring to EMU should see the articulation agreement for additional courses that can be taken at WCC.

**Construction Management (AACMG)**

This program prepares students for entry-level jobs in the construction industry as well as for transfer to a bachelor’s degree program in construction management at a four-year college or university. Students who transfer will continue developing the skills needed to work for construction contractors, engineering/architectural firms, public agencies, or trade associations in positions such as office engineer, field engineer, safety engineer, project engineer, foreman, estimator, scheduler, expeditor, quality control engineer, inspector, material representative or independent contractor. The program transfers to Eastern Michigan University. In addition to the required courses within the degree program, students may transfer additional courses taken at WCC that will be applied to technical, business and math/science requirements for the bachelor’s degree program at Eastern Michigan University.

Articulation: Eastern Michigan University, several BS degrees. This program meets MACRAO. Students must have their transcripts certified for MACRAO completion by the WCC Student Records Office. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

Program Admission Requirements: Students must have an Academic Math Level of 4 to enroll in CMG 150. Two years of high school algebra is recommended.
Heating, Ventilation, Air Conditioning and Refrigeration – Residential (CTHVRR)

Heating, Ventilation, Air Conditioning and Refrigeration – Residential (CTHVRR)

This program prepares students for entry-level jobs in HVAC contracting companies, HVAC servicing companies, hospitals, schools and other public institutions, and apprenticeships in large manufacturing plants and supply houses. In these commercial, residential, or institutional settings students combine their diagnostic and repair skills with customer relations skills to service heating, ventilation, and air conditioning equipment. This program also helps prepare students for the third class refrigeration licensure examination.

Articulation: Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

## Heating, Ventilation, Air Conditioning and Refrigeration – Commercial (CVHVAM)

This program is a capstone to HVAC-Residential Certification, and is designed for students who wish to develop skills in HVACR mechanics or installation. It prepares the student for industry-recognized certification (C/IS) for entry-level employment in commercial heating, ventilation and air conditioning. Additional theory and hands-on experience will increase students’ knowledge base concerning HVACR systems at the commercial level. The student will develop knowledge and skills in HVAC equipment found in small office buildings, schools, supermarkets, and other light commercial settings.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

**Program Admission Requirements:** Students must complete the Heating, Ventilation, Air Conditioning, and Refrigeration Residential Certificate (CTHVRR).

Residential Construction I (CTRC1)

This program prepares students for entry-level jobs in a broad range of careers in the construction industry, where they need an understanding of building systems, the safe use of tools and equipment, materials, and the vocabulary of the field. This program also gives students the potential for being selected for one of the many apprentice classifications associated with the construction field.

Articulation: Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

Cabinetmaking/Millwork Systems Technology (CVMST)

According to the National Careers Education and Research Institute, the growth in the housing industry has created a demand for skilled precision wood workers. This program is designed to develop skills and knowledge needed for those positions. Students will develop skills related to the design, fabrication, and installation of interior cabinetry and trim systems for residential construction. The program will provide access to specialty careers as trim carpenters, cabinetmakers, furniture makers, and repair technicians.

Articulation: Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

Program Admission Requirements: Students must complete the Residential Construction I Certificate to be admitted into the program.

### Residential Construction II (CVRC2)
This advanced certificate prepares students for specific careers in residential construction. The program will prepare students to take the State of Michigan Builder’s License exam, create contracts for residential construction projects, and gain necessary techniques for specific residential contractors.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

### Program Admission Requirements:
Completion of the Residential Construction I Certificate or two years experience in the construction industry is required for entry into this program.

---

### Residential Construction (ASRC)
The Residential Construction program teaches students how to build a home from the ground up. The program offers a balance of classroom theory and hands on training. Students will also learn how to start up their own construction business.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

### Continuing Eligibility Requirements:
Students must complete all general education and major area requirement courses with a grade of “C” or better.

Welding (CTWLDC)

This program prepares students for entry-level jobs involving gas welding, brazing, and various combinations of arc welding processes, where they work under the supervision of an experienced welding technician. The program also gives students a foundation for WCC’s Advanced Certificate in Welding Mechanics.

Articulation: Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

---

Some employers require or prefer employees to have an associate degree as a condition for employment or for advancement. Students can earn an AAS in Welding by completing the requirements listed below.

**Articulation:** Eastern Michigan University, several BS degrees; Pennsylvania College of Technology, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).
These programs help students develop the skills and knowledge necessary for work in law enforcement and criminal justice. Completion of the Police Academy Certificate prepares the student to take the MCOLES necessary for a career as a police officer. Students preparing for employment in occupations that do not require completion of the MCOLES/Police Academy or that do require a four-year degree (such as most Federal employment) can begin their studies by obtaining a Criminal Justice Associates of Arts degree, which is transferrable to most baccalaureate programs. This degree is described in the Transfer and University Parallel Programs section of the catalog.

**Certificate**

**Police Academy Certificate (CTPA)**
16 Credits

**Associate Degree**

**Criminal Justice – Law Enforcement Associate in Applied Science (APCJLE)**
63 Credits

*Other Options: Criminal Justice Associate in Arts – See Transfer and University Parallel Programs*
CRIMINAL JUSTICE AND LAW ENFORCEMENT

Considering a career in law enforcement, the courts or corrections? This program prepares you for further study in these specialized fields.

Police Academy (CTPA)

Major/Area Requirements  
CJT 221  Law Enforcement Training  
(16 credits)

Minimum Credits Required for the Program:  
16

Police Academy (CTPA)

The successful completion of this program is mandatory for anyone seeking law enforcement licensing in the state of Michigan. The Michigan Commission on Law Enforcement Standards (MCOLES) and the WCC Police Academy Advisory Committee have created the course content. The WCC Student Handbook, the MCOLES Policy and Procedure Manual, and the WCC Police Academy Daily Rules and Regulations will govern student conduct. The police academy is structured as an adult learning experience, and will require significant self-discipline on the part of the student. Teamwork is required. Just as sworn law enforcement officers operate under a code of honor which requires them to be above reproach in ethics and behavior, students will also be held to this same standard. MCOLES pre-enrollment is a corequisite of this course. Prospective students should review the “Selection and Employment Standards for Michigan Law Enforcement Officers” on the MCOLES Web site (mcoles.org).

Applying for Admission to the Program: Students must have a minimum of 45 college credits prior to admission to the Police Academy.

### Criminal Justice - Law Enforcement (APCJLE)

This program prepares students for certification to work in law enforcement jobs in the State of Michigan. Students must complete the academic program prior to entering the Police Academy component of the program.

**Articulation:** Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

**Continuing Eligibility Requirements:**
- Admission to the Police Academy component of this program (CJT 221) is based on passing reading, writing, and physical activity examinations as well as fingerprinting and criminal history checks.
- Students who do not enter the academy may complete the Criminal Justice Associate in Arts Degree instead of the Criminal Justice Law Enforcement Associate in Applied Science Degree, and will not be certified for employment.
- Students admitted to the Police Academy are required to purchase gym clothes, khaki uniforms, textbooks, and other supplies.
- Academy students are required to adhere to additional rules of behavior and discipline beyond the general code of conduct.
Find your passion in food, friends and elegant surroundings. Develop skills for an entry-level position in restaurant, hospitality or institutional settings. Whether your interests lie in pastry and wedding cakes, food preparation and marketing, or management of food service, these are the programs for you.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate, and General Education requirements.

CULINARY ARTS AND HOSPITALITY MANAGEMENT

Develop the skills necessary for a career in the hospitality industry.

Baking and Pastry (CTBAKP)  Certificate

Major/Area Requirements  (32 credits)

CUL 100  Introduction to Hospitality Management  3
CUL 110  Sanitation and Hygiene*  3
CUL 114  Baking I  3
CUL 115  Pastry I  3
CUL 118  Principles of Nutrition  3
CUL 120  Culinary Skills  3
CUL 121  Introduction to Food Preparation Techniques  3
CUL 124  Baking II  3
CUL 125  Pastry II  3
CUL 132  Basic Cake and Wedding Cake Design  2
CUL 140  Bakery Management and Merchandising  3

Minimum Credits Required for the Program: 32

Notes:
*CUL 110 must be taken as a pre- or co-requisite with any of the lab classes: CUL 114, CUL 115, CUL 120, CUL 121. The following sequence of courses is recommended for Culinary Arts courses. Please check course descriptions for pre- and co-requisites:

I  II  III
CUL 100  CUL 120  CUL 125
CUL 110  CUL 121  CUL 132
CUL 114  CUL 124
CUL 115  CUL 140
CUL 118

Baking and Pastry (CTBAKP)

This program prepares students for careers in commercial baking, where they will work in retail deli-bakeries, country clubs, resorts, hotels, and institutional food service operations. Courses can be applied toward the Associate in Applied Science Degree in Culinary and Hospitality Management.

Articulation: Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

### Associate in Applied Science Degree

**Culinary and Hospitality Management (APCULD)**

This program prepares students for a career as a professional culinarian in a restaurant, hospitality, or institutional setting. Culinary Arts professionals have a variety of responsibilities that may include supervising and coordinating the activities of food service workers or dining room employees, planning menus, estimating daily or weekly needs, ordering and maintaining inventories of supplies and equipment, and keeping records of meals served. The program also provides a foundation for continued culinary arts studies at a four-year college and for chef certification through the American Culinary Federation (ACF).

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/Departments/Curriculum/articulation.php?levelone=colleges.
Creativity abounds in the School of Digital Media Arts which encompasses the disciplines of animation, graphic design, internet professional, photography and video. The programs in Digital Media Arts introduce students to foundational skills in these disciplines and prepare them for creative jobs using those skills.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

The next level, an Associate Degree, is available. Credit hours from the certificate can be applied to the credit hours needed for the associate degree.

### 3D Animation (APANIM) Associate in Applied Science Degree

**3D Animation (APANIM)**

The Digital Animation program prepares students for entry-level positions in digital 3D modeling and animation for use in video, CD-ROM and DVD presentations, broadcast graphics, video game design, kiosks, print (still views), and the Web. Emphasis is on visual perception of 3D form and shape, volume/weight, surface mapping and lighting, basic 3D animation and motion graphic composition for video and internet ready applications.

**Program Admission Requirements:** High school Macintosh-based course, or GDT 105 with a “C” or better, or instructor permission.
Complete these programs to learn how to create digitized video productions for the Web and other presentation forms.

**Digital Video Film Production (CFVID)**

</table>

**Minimum Credits Required for the Program:** 68

**Program Admission Requirements:** Basic proficiency with desktop computers is required to enroll in GDT computer-based courses. Students with no or minimal computer skills are encouraged to take GDT 105, Introduction to Mac Graphics. Note: Graphic Design computer-based courses are taught on Macintosh computers.

**Graphic Design (CFGDTC)**  
This program provides students with entry-level skills in graphic design and allows students to upgrade or expand their present skills. Students will focus on typography and the foundations of visual communication design for both print and on-screen media, and build skills in the most widely used graphic design software applications. This program provides credits towards the Associate in Applied Science Degree in Graphic Design.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

**Program Admission Requirements:** A high school or college-level Macintosh based course, or GDT 105 with a “C-” or better is required to enroll in GDT software.

**Graphic Design (APGRD)**

This program prepares students for a career as a graphic designer. Graphic designers work with writers, publishers, photographers, printers, and other specialists in the field of visual communication design to communicate, inform, instruct, or sell. Students may work on publications, advertising, or the Internet. The program focuses on developing skills in basic design theory, concept development, typography, the major graphic design software, and knowledge of production techniques for print and electronic media as exhibited in a portfolio. Creative and artistic ability is required for careers in graphic design, as well as originality and capacity for experimentation in visual problem-solving. Students also need an aptitude for developing strong skills with desktop computers and graphics software programs.

**Articulation:** College for Creative Studies, BFA degree; Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

**Program Admission Requirements:** Basic proficiency with desktop computers is required to enroll in GDT computer-based courses. Students with no or minimal computer skills are encouraged to take GDT 105, Introduction to Mac Graphics. Note: Graphic Design computer-based courses are taught on Macintosh computers.
Develop skills in composition, processing and presentation needed for a satisfying career in professional photography or as a means of personal expression.

### Photographic Imaging (CTPHOI)

****fulfilled upon completion of major/area requirement PHO 103

---

**Photographic Technology (APPHOT)**

This program provides a firm foundation in silver-based and digital photographic technologies. Through a combination of required basic courses and specialized elective courses, the student tailors the program to his or her particular interest in the photographic field. The program prepares the student to work behind the camera, in the darkroom, and on the computer. Students shoot with large, medium, and small format cameras in both color and black and white. Graduates of the program find job opportunities in commercial studios, amateur and professional photo labs, and photojournalism. Students also complete the program to use photography as a means of personal expression, and as preparation for transferring to four-year photography programs.

**Articulation:** Brooks Institute of Photography, BA degree; College for Creative Studies, BFA degree; Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).
INTERNET PROFESSIONAL

Join the web development industry through the completion of these certificates and degree.

**Certificate**

Web Technology Certificate (CTWBTC) 18 Credits

**Certificate**

Web Technology (CTWBTC)

This program is designed for students interested in the Web development industry. Students will create standards-compliant, accessible, and usable Web interfaces that meet both user and client needs. Effective Web graphic design, user experience, and coding are stressed. Students will also learn the process of Web development, from conception to product delivery.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

**Program Admission Requirements:** A high school course or equivalent course in basic computer skills, including use of the Internet.
## Web Application Developer (CVWBAP)

</table>

**Minimum Credits Required for the Program:** 9

## Advanced Certificate

This program is designed for students interested in Web application development and programming. Courses focus on the knowledge and skills necessary for creating database-enabled applications, dynamic content, and interactive Web sites. Successful completion of the Web Technology Certificate is a prerequisite for enrolling in the Web Application Developer Advanced Certificate.

**Articulation:** Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

**Program Admission Requirements:** Students must complete the Web Technology Certificate or have significant industry experience prior to starting this certificate.

</tbody>
</table>

**Minimum Credits Required for the Program:** 13

## Advanced Certificate

This program is designed for students interested in the creative aspects of Web development. Courses focus on the knowledge and skills necessary for employment as a Web graphic designer with a concentration in interactive media. Successful completion of the Web Technology Certificate is a prerequisite for enrolling the Web Graphic Design Advanced Certificate.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

**Program Admission Requirements:** Students must complete the Web Technology Certificate or have significant industry experience prior to starting this certificate.

## Web User Experience (CVWUE)

**Major/Area Requirements**

</table>

**Minimum Credits Required for the Program:** 9

## Advanced Certificate

This program is for students interested in Web user experience. Courses focus on the knowledge and skills necessary to design, evaluate and enhance the user experience for a wide variety of Web sites and Web applications.

**Applying for Admission to the Program:** Completion of the Web Technology certificate.
The School of Information Technology gathers the diverse areas that make up the computer technology of today. From basic programming languages to systems development through networking, these programs provide the core of information technology. Develop skills in computer security or data recovery analysis, the growing field of applied information technology is waiting for you.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate and General Education requirements.
NETWORKING

Develop and manage computer networks as a network administrator/engineer.

Computer Systems Technology (CTCSTC)

This program prepares students for employment as a microcomputer service technician. While preparing students to pass the Computer Technology Industry Association’s (CompTIA) A+ Certification Examination, the program goes well beyond the requirements of the exam. The student will develop hands-on troubleshooting skills in solving hardware problems, working with operating systems, and relating to customers. This program also provides the foundation for Washtenaw Community College’s two advanced certificates in computer networking.

Articulation:

Eastern Michigan University, BS degree.

Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges

# Computer Networking Operating Systems I (CVCNO)

## Advanced Certificate

**Computer Networking Operating Systems I (CVCNO)**

This program lays a foundation in preparation for a profession as a Microsoft Certified IT Professional. Students will install, configure, and troubleshoot Microsoft Client Server Networks. The program is designed to deploy and manage both Windows Server 2003 and Server 2008 with Client Workstations in simulated real-life situations. Administering, managing, monitoring, and troubleshooting of Server 2008 Active Directory, Network Services, and other Server functions are all emphasized. All Server configured activities are tested out using Client Workstations to ensure they work, just as in a real business environment. The program is structured for both those who are working towards Microsoft Server 2003 MCSA/MCSE certifications, and/or Server 2008 MCTS/MCITP certifications. Also those already having certification who want to enhance their knowledge with the newer operating systems, as well as those who may just want to learn how to effectively implement these technologies are welcome.

**Program Admission Requirements:** Completion of the Computer Systems Technology Program (CTCSTC) or CST 150 and CST 225 with a minimum grade of “C,” passing the COMPTIA certification, or equivalent industry experience.

---

**Notes:**

This program is designed to be completed in a two semester time frame.

**Certificate**

**Foundations of Information Systems (CTFIS)**

The Foundations of Information Systems certificate provides a conceptual framework for those students wishing to become a professional in computer information systems or computer programming. The student will be introduced to computer science programming logic, as well as developing algorithms to solve programming problems. In addition, students will acquire an understanding of the impact of information systems and information technology on the business, industrial, and other environments in which they will work as programmers or analysts.

**Continuing Eligibility Requirements:** Students must maintain a minimum GPA of 2.0 or better.

Complete one course from the following: CIS 121, CIS 221, CIS 282, CPS 120, CPS 171, CPS 271, CPS 293 or INP 150. 3-4

**Minimum Credits Required for the Program:** 11

**Notes:**

*See the Eastern Michigan University Web site for transfer equivalency: [http://it.emich.edu/service/online/tranequiv/](http://it.emich.edu/service/online/tranequiv/).**

---

## Advanced Certificate

### C++ Programming (CVCPGM)

This program prepares students for jobs as a computer programmer where they will write C++ code and develop applications utilizing object-oriented programming techniques. Students will also develop skills that can be applied to the related jobs of programmer/analyst and software architect.

**Program Admission Requirements:** Completion of the Foundations of Information Systems certificate or equivalent.

### Programming in Java (CVJAV)

This program is intended for students who need to acquire skills in the Java programming language. The program also gives students skills that can be applied to the related jobs of programmer/analyst.

**Program Admission Requirements:** Completion of the Foundations of Information Systems certificate or equivalent.

### Notes
- Satisfies EMU's Diverse World Requirement.
- MTH 176 should be completed at WCC to satisfy EMU's Quantitative Reasoning Requirement. If completed at EMU, MATH 110 will be required unless waived by ACT/SAT or math placement score.
- Choose three courses from at least two disciplines.
- Students transferring to a four-year institution should choose a lab-based, MACRAO-approved science course.
- Students intending to transfer to EMU to complete the Comprehensive Computer Science Degree must take the following courses: MTH 192, MTH 197 and a second course in a sequence: CEM 122, GLG 125 or PHY 222.

### Associate in Science Degree

**Computer Science: Programming in Java (ASCSPJ)**

This program prepares students to transfer to Eastern Michigan University to complete a bachelor's degree in Computer Science or Applied Computer Science and to pursue careers in computer science fields such as computer systems programming and analysis, software development and maintenance, and applications programming.

**Articulation:** Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

**Program Admission Requirements:** Students need an Academic Math Level of 4 or higher to enroll in MTH 176.

**Foundations of Computer Security (CTFCS)**

In this introductory program, students will develop the basic knowledge and skills that will qualify them for admission into the Network Security Advanced Certificate program. Students will receive an introduction to the principles of information assurance and will acquire basic skills in network and system administration.

**Applying for Admission to the Program:** In order to meet the requirements of the market for jobs in network security, students should have significant professional or educational experience in network and system administration and advanced courses in network and system security.

**Program Admission Requirements:**

- An Academic Math Level of 3
- Students must also be experienced at installing and configuring computers and be comfortable with working at the computer command line with DOS.

**Continuing Eligibility Requirements:** Students must maintain a grade of “C” or better in the program requirements.

Minimum Credits Required for the Program: 13

**Notes:**

- Important Note: In order to meet the requirements of the market for jobs in computer forensics, prior experience in law enforcement or the attainment of a bachelor’s degree in criminal justice, information assurance or related areas is advised for individuals wishing to pursue careers in computer forensics. In order to practice computer forensics in the State of Michigan, individuals must be licensed as private investigators or qualify for an exemption under statutes pertaining to the licensure of private investigators.

Data Recovery and Analysis (CVDRAA)  Advanced Certificate

This certificate program is intended for individuals in IT settings in business and industry who need to know how to respond to incidents requiring the preservation and evaluation of electronic evidence. Students will learn current techniques in data preservation, identification, and extraction from Linux, FAT, and NTFS file systems and will perform forensic analysis of systems using popular examination tool kits. Students will also learn common practices involved in forensic investigations and evidence handling, and will become informed in federal and state privacy, intellectual property, search and seizure, and cyber-crime laws. Important Note: Students should be able to pass a criminal background check before entering this program. In order to practice computer forensics in the State of Michigan, individuals must be licensed as private investigators or qualify for an exemption under statutes pertaining to the licensure of private investigators.

**Articulation:** Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

**Program Admission Requirements:**

- An Academic Math Level of 3
- Students must also be experienced at installing and configuring computers and be comfortable with working at the computer command line with DOS.

**Continuing Eligibility Requirements:** Students must maintain a grade of “C” or better in the program requirements.

Network Security (CVNS)

This program is designed to meet the emerging demand for highly skilled computer systems security professionals within the information technology industry and business community. This advanced certificate program builds on the concepts introduced in the Foundations of Computer Security Certificate and provides an in-depth examination of computer security technology with an emphasis on executing a vulnerability analysis of an organization network and preparing a design or network security. The student will be trained to use various tools to manage and secure networks, Windows environments and Web servers, as well as defense mechanisms for Virtual Private Networks (VPN), Host Intrusion Detection Systems (HIDS) and Network Intrusion Detection Systems (NIDS). In addition, the student will master the concepts, principles, types and topologies of firewalls including packet filtering, proxy firewalls, application gateways, circuit gateways and other computer security technology. Students must complete the Foundations of Computer Security Certificate program or have equivalent knowledge before enrolling in this program.

Articulation: Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

Applying for Admission to the Program: In order to meet the requirements of the current job market, students of this program must have significant prior professional experience as Network and/or System Administrators or must demonstrate successful completion of certificate or degree programs in Network and System Administration.

Program Admission Requirements:
- An Academic Math Level of 3
- Substantial experience at installing and configuring computers and skill at working with the command line interface.
- Successful completion of the Foundations of Computer Security Certificate-Network Security Option

This program introduces students to the Linux and UNIX operating systems and prepares them to safely run their own home servers.

**Articulation:** Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

**Program Admission Requirements:** Completion of a CIS (above CIS 100), CPS, or CSS course, or permission of instructor.
Students learn basic creative and performance skills in music, drama and dance and how they are applied in a professional setting. Whether you are exploring your own talents, coordinating the talents of others, or practicing the techniques you will need to make a living at your craft, the School of Music and Performing Arts provides the fundamentals you need.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate and General Education requirements.

Music Performance (CTMPER)  Certificate

Complete the required courses in the Guitar or Piano concentrations below. Check course prerequisites to determine the sequence for taking courses.

### Music Performance Concentrations

#### Guitar (GUIT)  (21 credits)

- **MUS 133**  Beginning Guitar  
- **MUS 134**  Intermediate Guitar  
- **MUS 140**  Music Theory I  
- **MUS 239**  Jazz Guitar I  
- **MUS 240**  Jazz Guitar II  
- **MUS 285**  Self Management for Working Artists  
- Elective  Complete a minimum of 2 credits: MUS 103, MUS 104, MUS 105 or MUS 106.  
- Elective  Complete a minimum of 3 credits from the following disciplines: any DAN, DRA or MUS course.

#### Piano (PIAN)  (21 credits)

- **MUS 140**  Music Theory I  
- **MUS 154**  Functional Piano I  
- **MUS 155**  Functional Piano II  
- **MUS 251**  Classical Piano I  
- **MUS 252**  Classical Piano II  
- **MUS 285**  Self Management for Working Artists  
- Elective  Complete a minimum of 2 credits: MUS 103, MUS 104, MUS 105 or MUS 106.  
- Elective  Complete a minimum of 3 credits from the following disciplines: any DAN, DRA or MUS course.

**Minimum Credits Required for the Program:** 21

### Minimum Credits Required for the Program: 20

This program is designed for students who want to develop skills in music production and engineering that can be applied to jobs in TV, radio, and music studios. It provides the student with the knowledge and skills necessary for employment in jobs such as a music sequencer or sound engineer, operating mixing consoles for a variety of events including band production, concerts, music festivals, and running studios. Students will develop skills in audio recording, computer applications, sound reinforcement, and sequencing and programming. While in the program, students will be affiliated with the International Alliance of Theatrical Stage Employees, and will assist WCC Media Services in producing events for the College.
Find your place in the growing field of health care. Whether your interest lies in the traditional field of nursing or the new program in physical therapist assistant the School of Nursing and Health Sciences provides a variety of programs designed to prepare the student for entry-level positions in dental assisting, pharmacy technology, radiography, physical therapist assistant, nursing assistant or professional nursing. The health care foundations certificate provides a starting point for prospective nursing and health science students and provides the general education courses to move from completion of a certificate program into an associate degree program.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate, and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate, and General Education requirements.

Dental Assisting (CFDAC)

The Dental Assisting Program prepares students for entry-level dental assisting positions in a variety of settings such as private dental offices, dental schools, the military, and dental insurance offices. The curriculum includes the required dental radiography courses that allow graduates to expose dental radiographs in the State of Michigan. The program also prepares students for the Dental Assistant National Board (DANB) examination, which leads to the nationally recognized status of a Certified Dental Assistant (CDA). As a CDA, graduates assist in the treatment of patients. Graduates of the program are also prepared to take the Michigan State Board of Dentistry examination, which gives recognition as a Registered Dental Assistant (RDA). As a RDA in the State of Michigan, graduates can perform specific intra-oral functions generally performed by a dentist. Students may enroll in this program in one of three pathways. Pathway I Option A is the format for the student who is not employed in a dental office. Pathway I Option B is the format for the student who is a new dental assistant employee with less than two years of experience in the dental office. Pathway II (ADAEP) is the advanced standing option for the dental assistant with two or more years of experience as a dental assistant who has passed all three portions of the Dental Assistant National Board (DANB) CDA examination. These pathways are described in detail at [http://www.wccnet.edu/health/dental.php](http://www.wccnet.edu/health/dental.php).

**Program Admission Requirements:** A formal application to the program is required. Application packets may be picked up from the WCC Student Connection located on the second floor of the Student Center Building, or downloaded from the WCC Web site [www.wccnet.edu/health/dental.php](http://www.wccnet.edu/health/dental.php). Admission to the Dental Assisting Program is on a first-come basis for qualified applicants who have met all the admission requirements. A limited number of students are admitted to the Dental Assisting Program. It is strongly advised that students complete the general education requirement of ENG 111 or BMG 207 before entering the Dental Assisting Program.

**Requirements for application for Pathway I:**

- All applicants are required to successfully complete ACS 1035 Introduction to Online Learning. ACS 1035 requires an incoming minimum cumulative 2.3 GPA
- As part of skill validation prior to clinical placement, all students must demonstrate a proficiency in the English language.
- Applicants must undergo a criminal background check.
- Applicants must possess a valid high school diploma or GED to start the program. Applications will be accepted prior to high school graduation or GED completion.

DEN 110 Basic Clinical Dental Assisting 4
DEN 112 Dental Materials 4

Fifth Semester (8 credits)
DEN 120 Oral Diagnosis 1
DEN 128 Dental Radiography Practicum 1
DEN 131 Principles of Dental Specialties 4
DEN 133 Clinical Practice 2

Sixth Semester (6 credits)
DEN 202 Advanced Clinical Practice 2
DEN 204 Advanced Functions 4

Minimum Credits Required for the Program: 38

Pathway II (ADAEP) (38 credits)

DANB Exam (22 credits)
Students must successfully pass all three portions of the Dental Assisting National Board (DANB) Certified Dental Assistant (CDA) exam prior to entry. 22

First Semester (16 credits)
DEN 204 Advanced Functions 4
DEN 230 Alternative Dental Assisting Education Project 9
BMG 207 or Business Communication 3
ENG 111 Composition I* 3-4

Minimum Credits Required for the Program: 38

Notes:
*If you are planning to pursue an Associate’s degree.

Dental Assisting Certificate and Degree Completion
Students completing the Dental Assisting courses outlined above will obtain a Certificate in Dental Assisting. Students may also complete an associate degree by using the same core dental assisting courses in addition to completing the general education requirements and electives for an Associate in Applied Science Degree in Dental Assisting.

Continued from previous page

• Overall cumulative high school GPA or college GPA must be a minimum of 2.3.
• Admission to the Dental Assisting Program is contingent upon students declaring that they have specific physical and cognitive abilities. WCC reserves the right to request that applicants successfully demonstrate the specific cognitive and physical abilities related to the Dental Assisting Program.
• Completion of HSC 101 Healthcare Terminology (1 credit) with a grade of C+ (GPA 2.3) or better.
• Pathway I Option B applicants must be employed in a dental office. The dentist/mentor will need to validate skills in the office and sign an agreement form.

Requirements for application for Pathway II:
• All applicants are required to successfully complete ACS 1035 Introduction to Online Learning. ACS 1035 requires an incoming minimum 2.3 GPA
• As part of skill validation prior to clinical placement, all students must demonstrate a proficiency in the English language.
• Applicants must undergo a criminal background check.
• Overall cumulative high school GPA or college GPA must be a minimum of 2.3.
• Applicants must successfully pass all 3 portions of the Dental Assisting National Board (DANB) CDA examination
• Applicants must be employed in a dental office. The dentist/mentor will need to validate skills in the office and sign an agreement form.
• Contact the Dental Assisting Department at 734.973.3332 or dhammel@wccnet.edu.

Continuing Eligibility Requirements: Program courses are sequential and complemented with appropriate support courses. All dental courses must be completed with a grade of “C” or better in order to graduate from this program.
• A current CPR card is required prior to enrolling in DEN 130 Clinical Practice.
• Completion of satisfactory physical examination must be documented on the WCC Report of Medical History form by the date specified during orientation. This form contains verification of childhood immunizations, negative TB test, and evidence of the Hepatitis B vaccination.
• Students must maintain personal health coverage throughout the program.
• All students must be 18 years of age prior to the start of Dental Radiography DEN 108.
Uncertain of your specific career path in the field of healthcare? This certificate program can provide the essential basic skills to prepare for a specialized program.

**Minimum Credits Required for the Program:** 23

**Notes:**

**Computer and Information Literacy Requirement:**
In addition, students must demonstrate basic computer skills and knowledge. Courses taken at other institutions, work experience, or transfer credit will not satisfy this requirement. Students can fulfill this requirement through either of the following options:

1. Pass the Computer and Information Literacy test with a score of 70% or higher.
   - Students can take the test two times. If a passing score is not attained, an approved Computer and Information Literacy course must be taken and passed with a “C” or better.

   **OR**

2. Pass, with a “C” or higher, specified courses that incorporate the Computer and Information Literacy objectives. These courses might be taken as part of the degree requirements for a particular program.

   The courses include:
   - a. CIS 100 Introduction to Computers and Software Applications;
   - b. CIS 110 Introduction to Computer Information Systems.

Students should take the Computer and Information Literacy test at their earliest opportunity, preferable upon admittance to the College. The test is administered in the Testing Center. The schedule for testing can be found in the Academic Class Schedule.

**Chemistry:**
CEM 090 Introductory Chemistry or high school chemistry is a required support course, with a grade of “C” or better.
Uncertain of your specific career path in the field of healthcare? This certificate program can provide the essential basic skills to prepare for a specialized program.

### Nursing Assistant Skills Training (CCNAST)

</tbody>
</table>

**Certificate of Completion**

This state certified three-week program prepares students for employment in a variety of health care settings from nursing homes to hospitals where they will work as a Certified Nurse Aide (CNA). CNA evaluation is mandated for employment in long-term care facilities. Upon completion of the program, individuals will be qualified for multiple job opportunities with good starting salaries. Positions frequently offer flexibility and variety, as well as a sense of self-satisfaction for “making a difference” in a person’s health.

**Program Admission Requirements:** Training takes place in the classroom, lab, and clinical settings within the community. One-hundred percent (100%) attendance is mandatory. There are no make-up days. Students are expected to have their textbook on the first day of class. Program admission requires a minimum age of 17 and documentation of a negative TB status. A criminal background clearance check is required which will be done in the agency/clinical. Entry assessment testing is required.

**Nursing Transfer (APNURE)**

This WCC honors program prepares students for a smooth transition into the third and fourth years of Eastern Michigan University’s School of Nursing (EMU-SON) BSN program. Individuals will receive a solid science foundation and begin taking nursing courses during the first two years at WCC. Students will not be eligible for registered nurse (RN) licensure until completion of the EMU-SON program. WCC students will graduate with an Associate in Applied Science Degree.

**Articulation:** Eastern Michigan University, BSN degree. An application and acceptance to the program is required. The application deadline is July preceding each winter admission cycle. Since students are required to follow a pre-determined, full-time course sequence, it is essential that students meet with the Health Programs Counselor before starting any coursework. Students who wish to transfer to nursing programs at other four-year colleges or universities should check with an advisor or counselor for a transfer guide to that institution. Copies of articulation agreements can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

**Program Admission Requirements:** Sixteen (16) students are admitted each winter semester to the Nursing Transfer Program. Students must complete a second application for the Nursing Transfer (EMU School of Nursing) program after being admitted to Washtenaw Community College. Further, the student must meet all admission requirements of both WCC and Eastern Michigan University.

Meet with the Health Programs Counselor and complete the Mandatory Meeting form with the appropriate signatures. Since students are required to follow a pre-determined, full-time course sequence, it is required that they meet with the Health Programs Counselor before starting any coursework. Students who wish to transfer to nursing programs at other four-year colleges or universities should check with an advisor or counselor for a transfer guide to that institution. Copies of articulation agreements can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).
### Nursing Transfer (EMU School of Nursing) (APNURE)

#### Associate in Applied Science Degree

- Minimum three (3) college credits in any academic subject (WCC course numbered 100 and above)
- Students who have a GED certificate are considered to have completed all items above except the chemistry and biology requirements. GED recipients must also submit a copy of their high school transcript. GED recipients must document completion of their biology and chemistry via their high school transcript and/or completion of an appropriate college class.
- Minimum score of 80% on a pre-admission math test
- Criminal background check clearance (refer to Information Release Authorization form in the admission packet)
- Signed Abilities Statement on file
- TOEFL Scores: Internet-based version = 89 or higher; Reading = 22 or higher; Writing = 20 or higher.

#### Continuing Eligibility Requirements:

1. This transfer program is designed for full-time students.
2. Students are required to submit all health records completed between May 1 and July 31, by July 31 before enrolling in NUR 122, and annually update TB, BLS and HIPAA training.
3. Students must possess a current Certified Nurse Aide (CNA) certification by the second year (i.e. prior to the NUR 102/103 course sequence).
4. Students are required to have additional criminal background checks and/or fingerprinting prior to the start of a clinical sequence as requested by specific clinical facilities. Failure to receive an acceptable criminal background/fingerprinting check at any time will result in dismissal from the nursing program.
5. Students are expected to maintain math competency in drug dosage calculations throughout the program. MTH 167 is an optional preparatory math course to assist students to achieve this competency.
6. Students must apply for graduation from WCC.
7. To be admitted to EMU-SON, the student must have:
   - A minimum of 2.0 in all nursing courses (i.e. NUR 102, NUR 103, NUR 115, NUR 122, NUR 130, NUR 222)
   - A minimum of 3.0 in these science courses (i.e. BIO 111, BIO 237, CEM 140). Note: All science courses must be completed within ten (10) years of beginning the program at EMU.
   - A minimum of 2.0 in SOC 100, PSY 100, ENG 111, MTH 160, COM elective, HSC 147, BIO 212
   - A cumulative GPA of 3.0 in CEM 140, ENG 111, PSY 100, BIO 111, HSC 147, (ANT 201 or ANTH 135), whether completed at WCC or EMU.
   - An overall cumulative GPA of 3.0 at WCC
8. Students are only allowed to repeat a maximum of two (2) nursing courses, which includes BIO 212 Pathophysiology. Further, a student may only repeat a failed nursing course one (1) time. Any failures in nursing courses taken prior to admission to EMU-SON (i.e. NUR courses and BIO 212 taken at WCC) are counted toward dismissal and permanent dismissal decisions.
10. Students must complete all other health requirements and criminal background checks per EMU-SON policy.

#### Minimum Credits Required for the Program: 70

### Notes

See WCC-EMU articulation agreement for a description of the additional credit hours that can be taken at WCC.

Counselor BEFORE starting any coursework. Applicants must meet the following minimum admission requirements to be considered for admission to the WCC/EMU SON program:

1. Minimum cumulative GPA of 3.4 for high school
   - OR
   - Minimum cumulative college GPA of 3.0 (calculated on minimum of 12 credits)
2. Minimum SAT score of 1001 or minimum ACT composite score of 22
   - OR
   - 12 college credits with a minimum cumulative GPA of 3.0
3. Minimum grade of “B” in all required science courses
4. Completion of the following required high school coursework or equivalent college level course
   - a. Four (4) units of high school English
      - OR
      - minimum three (3) college credits of Composition I (ENG 111 at WCC)
   - b. Three (3) units of high school math (Algebra I and II, Geometry)
      - OR
      - WCC’s Academic Math Level 3
   - c. One (1) unit of high school chemistry
      - OR
      - minimum four (4) credits of college chemistry including lab (CEM 090 at WCC)
   - d. One (1) unit of high school biology
      - OR
      - minimum four (4) credits of college biology including lab (BIO 101 at WCC)
   - e. Four (4) units of high school foreign language and/or social science and/or laboratory science
      - OR
      - minimum three (3) college credits in a foreign language, social science or laboratory science course. The laboratory science course must be in addition to the course(s) required above.
   - f. Four (4) units of other high school academic courses
      - OR
      - four (4) college credits with a minimum cumulative GPA of 3.0
5. Students who have a GED certificate are considered to have completed all items above except the chemistry and biology requirements. GED recipients must also submit a copy of their high school transcript. GED recipients must document completion of their biology and chemistry via their high school transcript and/or completion of an appropriate college class.
6. Minimum score of 80% on a pre-admission math test
7. Criminal background check clearance (refer to Information Release Authorization form in the admission packet)
8. Signed Abilities Statement on file
9. TOEFL Scores: Internet-based version = 89 or higher; Reading = 22 or higher; Writing = 20 or higher.

**Nursing Transfer (APNURT)**

This WCC honors program prepares students for a smooth transition into the third and fourth years of the University of Michigan (UM) School of Nursing’s (SoN) Bachelor of Science in Nursing program. Individuals will receive a solid science foundation and begin taking nursing courses during the first two years at WCC. Students will not be eligible for registered nurse (RN) licensure until completion of the UM-SoN program. WCC students will graduate with an Associate in Applied Science Degree.

**Articulation:** University of Michigan, BSN degree. An application and acceptance to the program is required. The application deadline is February preceding each fall admission cycle. Since students are required to follow a pre-determined, full-time course sequence, it is essential that students meet with the Health Programs Counselor before starting any coursework. (Students who wish to transfer to nursing programs at other four-year colleges or universities should check with an advisor or counselor for a transfer guide to that institution). Copies of articulation agreements can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

**Program Admission Requirements:**

Fifteen (15) students are admitted each Fall semester to the Nursing Transfer Program. Students will follow a second-tier admissions process for the Nursing Transfer Program (APNURT). Therefore, students must complete a second application to the APNURT program after being admitted to Washtenaw Community College. Further, the student must meet all admission requirements of both WCC and University of Michigan School of Nursing.

Meet with the Health Programs Counselor and complete the Mandatory Meeting form with the appropriate signatures. Since students are required to follow a pre-determined, full-time course sequence, it is required that they meet with the Health Programs Counselor BEFORE starting any coursework.

Applicants must meet the following minimum admission requirements to be considered for admission to the WCC/UM SoN 2+2 program:

1. Minimum cumulative GPA of 3.4 for high school
   OR
   Minimum cumulative college GPA of 3.0 (calculated on minimum of 12 credits)
2. Minimum SAT score of 1001 or minimum ACT composite score of 22
   OR
   12 college credits with a minimum cumulative GPA of 3.0
3. Minimum grade of “B” in all required science courses
4. Completion of the following required high school coursework or equivalent college level course
   a. Four (4) units of high school English
   OR
   minimum three (3) college credits of Composition I (ENG 111 at WCC)

Continued on next page
Continued from previous page

b. Three (3) units of high school math (Algebra I and II, Geometry)
   OR
   WCC's Academic Math Level 3

c. One (1) unit of high school chemistry
   OR
   minimum four (4) credits of college chemistry including lab (CEM 090 at WCC)

d. One (1) unit of high school biology
   OR
   minimum four (4) credits of college biology including lab (BIO 101 at WCC)

e. Four (4) units of high school foreign language and/or social science
   and/or laboratory science
   OR
   minimum three (3) college credits in a foreign language, social
   science or laboratory science course. The laboratory science course
   must be in addition to the course(s) required above.

f. Four (4) units of other high school academic courses
   OR
   minimum three (3) college credits in any academic subject (WCC
   course numbered 100 and above)

5. Students who have a GED certificate are considered to have com-
   pleted all items above except the chemistry and biology require-
   ments. GED recipients must also submit a copy of their high
   school transcript. GED recipients must document completion of
   their biology and chemistry via their high school transcript and/or
   completion of an appropriate college class.

6. Minimum score of 80% on a pre-admission math test

7. Criminal background check clearance (refer to Information Release
   Authorization form in the admission packet)

8. Signed Abilities Statement on file

Continuing Eligibility Requirements:
1. This transfer program is designed for full-time students.

2. Students are required to submit all health records completed
   between May 1 and July 31, by July 31 before enrolling in NUR 122,
   and annually update TB, BLS and HIPAA training.

3. Students must possess a current Certified Nurse Aide (CNA) cer-
   tification by the second year (i.e. prior to the NUR 102/103 course
   sequence).

4. Students are required to have additional criminal background
   checks and/or fingerprinting prior to the start of a clinical sequence
   as requested by specific clinical facilities. Failure to receive an
   acceptable criminal background/fingerprinting check at any time
   will result in dismissal from the nursing program.

5. Students are expected to maintain math competency in drug dos-
   age calculations throughout the program. MTH 167 is an optional
   preparatory math course that assists students in achieving this
   competency.

6. Students must apply for graduation from WCC.

7. To be admitted to UM-SoN, the student must have:
   • A cumulative 3.0 GPA in all prior transferable coursework,
     including WCC courses
   • A minimum grade of 3.0 in all transferable science and nursing
     clinical courses
   • A minimum grade of 2.0 in all other courses that transfer to
     UM-SoN

8. Students are only allowed to repeat one (1) science (i.e. BIO 111,
   BIO 212, BIO 237, CEM 140) or one (1) nursing course (i.e. NUR
   102, NUR 103, NUR 115, NUR 122, NUR 130, NUR 222) for any
   failure defined as a grade below a B or (3.0). If a student fails two
   (2) science courses or fails two (2) nursing courses or fails one (1)
   science or one (1) nursing course, the student will be disenrolled
   from the program.

9. In the final fall and winter terms prior to transfer into the UM-SoN
   program, the student must:
   • Demonstrate the ability to carry a full-time course load by main-
     taining a minimum full-time enrollment of 12 credit hours
   • Maintain a 3.0 GPA overall each semester
   • Include one (1) transferable science and one (1) nursing clinical
     course in each of the two semesters

10. Students must complete all other application requirements,
    including the Student Conduct and Crime Form and receive a
    Student Recommendation Form from the WCC Nursing Program
    Academic Advisor per UM-SoN policy.

Nursing, Registered (APNURS)

This program prepares students for the National Council Licensure Examination for Registered Nurses (NCLEX-RN) and for challenging and exciting jobs in all settings of health care, from the hospital to home care. Students will gain proficiency in technical aspects of nursing care, such as medication administration, treatments and procedures, and use of medical technology, and they will receive personal satisfaction from their ability to make a difference in someone’s life and health. Students will also earn credits that transfer to area RN-BSN completion programs. The Registered Nursing program has both a high number of interested and qualified applicants and a limited number of spaces. As such, this program moves students through a process of application, admission, waitlist, and finally program initiation. A priority list for Bachelors Degree prepared students, in any field, may be established.

Articulation: Davenport University, BSN degree; Eastern Michigan University, BSN degree and BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/Departments/Curriculum/articulation.php?Levelone=Colleges.

Program Admission Requirements: A formal application to the program is required. Applications are available from the Health Admissions Technician at the Student Connection, located on the second floor of the Student Center Building. Completed and signed applications must be delivered to the Health Admissions Technician. A letter to allow applicants to take the pre-admission math test will be given to the student at this time. An application to the Nursing program will not be accepted until all admission requirements are met. In addition, a priority list for Bachelors Degree prepared students, in any field, may be established.

Requirements for application are:

- Academic Math Level of 3
- HSC 101 with a minimum grade of “B-” (2.7 on a 4.0 scale)
- BIO 111 with a minimum grade of “B-” (2.7 on a 4.0 scale)
- Current Certified Nurse Aide (CNA) state certification
- Minimum cumulative college GPA of 2.5. Only transcripts that provide an admission requirement course will be used in calculation of the cumulative GPA. If a transcript is submitted for an admission requirement course, the cumulative transcript GPA will be used in a weighted calculation of the cumulative GPA requirement.
- Student declaring that she/he has the specific physical and cognitive abilities detailed in the nursing admission packet. WCC reserves the right to request, before or during the program, that students successfully demonstrate the specific physical and cognitive abilities related to the Nursing program.
- Students receiving an acceptable criminal background check for purposes of identifying a student who could not continue in the program due to a felony conviction (within the last 15 years) or misdemeanor conviction against a vulnerable adult or child

</tr>
</tbody>
</table>

Current C.N.A. certification
BIO 111 and HSC 101 are taken prior to admission to the program.

**Minimum Credits Required for the Program:** 72

**Notes:**
*Courses noted may be taken while on the Nursing program waitlist, but not later than the scheduled semester.

**If you are planning to pursue a BSN degree, it is strongly recommended that you take BIO 237 Microbiology, in place of BIO 147. BIO 147 will not transfer to a four-year university.
Pharmacy Technology (CTPHAR) Certificate

First Semester (12 credits)
- HSC 101 Healthcare Terminology* 1
- PHT 100 Introduction to Pharmacy and Health Care Systems 4
- PHT 103 Pharmaceutical Calculations 2
- PHT 140 Pharmacy Prescription Processing 2
- PHT 150 Pharmacy Operations and Compounding 3

Second Semester (8 credits)
- PHT 101 Pharmacology for Pharmacy Technicians 4
- PHT 198 Pharmacy Experience 4

Major/Area Requirements (11 credits)
- BIO 101 Concepts of Biology 4
- ENG 111 Composition I 4
- MTH 167 or Math Applications for Health Science 3
- MTH 169 Intermediate Algebra 3-4

Minimum Credits Required for the Program: 31

Notes:
*May be taken prior to admission to the Pharmacy Technology program

Computer and Information Literacy Requirement:
In addition, students must demonstrate basic computer skills and knowledge. Courses taken at other institutions, work experience, or transfer credit will not satisfy this requirement. Students can fulfill this requirement through either of the following options:

1. Pass the Computer and Information Literacy test with a score of 70% or higher. Students can take the test two times. If a passing score is not attained, an approved Computer and Information Literacy course must be taken and passed with a "C" or better.

OR

2. Pass, with a "C" or higher, specified courses that incorporate the Computer and Information Literacy objectives. These courses might be taken as part of the degree requirements for a particular program.

The courses include:
- a. CIS 100 Introduction to Computers and Software Applications;
- b. CIS 110 Introduction to Computer Information Systems.

Students should take the Computer and Information Literacy test at their earliest opportunity, preferable upon admittance to the College. The test is administered in the Testing Center. The schedule for testing can be found in the Academic Class Schedule.

Pharmacy Technology (CTPHAR) Certificate

This certificate program prepares students for pharmacy technician entry-level positions in hospitals, retail stores, and other specialty areas of pharmacy practice, where they work under the supervision of a registered pharmacist. Students learn to blend a high attention to detail with patient care. This is a full time program and courses are required to be completed in sequence.

Articulation: Eastern Michigan University, several BS degrees. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

Applying for Admission to the Program: A limited number of students are admitted to the Pharmacy Technology program each year. Application packets may be picked up from the WCC Office of Admissions. Applicants will be screened based on the following criteria:

- Completion and submission of an application for admission to the Pharmacy Technology program
- Completion of all prerequisite courses (Major Area Requirements)
- Date of application to the program
- Residency status (Washtenaw County residents are given priority)

Program Admission Requirements: Applicants must complete the following WCC courses or equivalent transfer college courses with a grade of "C" (minimum GPA of 2.0) or better:
- MTH 167 Math Applications for Health Science or MTH 169 Intermediate Algebra
- BIO 101 Concepts of Biology or higher level college biology course
- ENG 111 English Composition
- Overall cumulative high school GPA or college GPA (if the student has completed 12 college credits or more) must be a minimum of 2.0 or better.

Admission to the Pharmacy Technology program is contingent upon students declaring that they have specific physical and cognitive abilities. These requirements are detailed in the Pharmacy Technology program admission packet, which can be obtained from the Office of Admissions. WCC reserves the right to request that students successfully demonstrate the specific cognitive and physical abilities related to the Pharmacy Technology program.

A criminal background check will be done on each student prior to program admission. Students will be excluded from acceptance to the program for any felony conviction record and/or any controlled substance conviction.

Continued on next page
Continuing Eligibility Requirements:
• Program courses are sequential and complemented with appropriate support courses.
• Students must complete all first-semester courses with a grade of “C” (minimum GPA of 2.0) or better to progress to the second semester.
• Students must complete all program courses with a grade of “C” (minimum GPA of 2.0) or better in order to graduate from this program.
• Students must possess a valid high school diploma or GED by the end of the program.
• Students must be at least 18 years of age to graduate from this program.
• Students who have a felony conviction record are not allowed to continue in the program or to take the National Pharmacy Technician Certification Exam administered by the Pharmacy Technician Certification Board.

Additional requirements to be completed prior to the experience course PHT 198 include:
• Completion of a satisfactory physical examination, taken at their own expense, and documented on the WCC health form. This form contains verification of childhood immunizations, negative TB test, and evidence of Hepatitis B vaccination or a signed waiver.
• Students must maintain and provide proof of personal health insurance coverage.
• Demonstration of proficiency in the English language prior to placement in the experience course. Please refer to the application packet for further details.

---

### Notes:

*These courses may be taken before admission to the Physical Therapist Assistant program. (It is strongly recommended that students complete the general education courses before entering the Physical Therapist Assistant program.)*

Students may transfer or substitute equivalent general education courses or a healthcare terminology course required for the Physical Therapist Assistant program.

---

## Associate in Applied Science Degree

### Physical Therapist Assistant (APPTA)

Physical Therapist Assistants (PTAs) are skilled health care providers who work under the supervision of physical therapists. PTAs will perform components of physical therapy procedures and related tasks selected by a supervising physical therapist. These PTAs assist physical therapists in providing services that help improve mobility, relieve pain, and prevent or limit permanent physical disabilities of patients suffering from injuries or disease. Duties of the PTA include assisting the physical therapist in implementing treatment programs, conducting treatments and reporting to the physical therapist regarding a patient’s response to treatment or activity. Patients may include accident victims and individuals with disabling conditions such as low-back pain, arthritis, heart disease, fractures, head injuries and cerebral palsy.

**Articulation:** Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

**Program Admission Requirements:** Requirements for application are:- Completion and submission of an application for admission to the Physical Therapist Assistant program.

- Academic Math Level of 3
- HSC 101 with a minimum grade of “C”
- ENG 111 with a minimum grade of “C”
- BIO 111 with a minimum grade of “B-” (2.7 on a 4.0 scale)

- Completion and documentation of 20 hours of observation in a physical therapy setting. A minimum of 3 hours in 3 different practice settings is required.
- Minimum cumulative GPA of 2.8 for required admission courses listed above.

- Minimum cumulative college GPA of 2.8. Only transcripts that provide an admission requirement course will be used in calculation of the cumulative GPA. If a transcript is submitted for an admission requirement course, the cumulative transcript GPA will be used in a weighted calculation of the cumulative GPA requirement.

- Applicants will undergo a criminal background check.

The following support courses may be completed prior to admission into the program: COM 101 or 102; HSC 147; MTH 160; PSY 100; and PHL 244.

**Continuing Eligibility Requirements:** Successful completion of all required courses with a grade of “C” or better.
Prepare for a career as a radiographer, operating various medical imaging equipment.

Radiography (APRAD)

First Semester (7 credits)
- MTH 166 or MTH 169: Math for Radiography*
- RAD 101: Methods in Patient Care
- RAD 111: Fundamentals of Radiography

Second Semester (13 credits)
- ENG 111: Composition I*
- HSC 101: Healthcare Terminology*
- RAD 110: Clinical Education
- RAD 122: Radiographic Positioning I
- RAD 124: Principles of Radiographic Exposure

Third Semester (11 credits)
- RAD 120: Clinical Education
- RAD 123: Radiographic Positioning II
- RAD 125: Radiographic Procedures and Related Anatomy
- SOC 100: Principles of Sociology*

Fourth Semester (6 credits)
- RAD 150: Clinical Education
- RAD 218: Radiation Biology and Protection

Fifth Semester (14 credits)
- COM 101: Fundamentals of Speaking*
- PHL 244: Ethical and Legal Issues in Health Care*
- RAD 215: Radiography of the Skull
- RAD 217: Clinical Education
- RAD 235: Pathology for Radiographers

Sixth Semester (12 credits)
- RAD 190: Physical Foundations of Radiography
- RAD 222: Pharmacology in Diagnostic Imaging
- RAD 223: Sectional Anatomy
- RAD 225: Clinical Education
- RAD 226: Radiographic Quality Assurance

Seventh Semester (2 credits)
- RAD 240: Clinical Education

Major/Area Requirements (6 credits)
- BIO 109: Essentials of Human Anatomy and Physiology**
- RAD 100: Introduction to Diagnostic Imaging**

Minimum Credits Required for the Program: 71

Associate in Applied Science Degree

Radiography (APRAD)

This program prepares students for an entry-level position as a radiographer who operates medical imaging equipment and plays a vital role in healthcare delivery. This full-time, two-year program offers a diverse curriculum that includes comprehensive classroom instruction in conjunction with individualized laboratory work and extensive clinical experience in local hospitals. Upon completion of the program, the student will receive an Associate in Applied Science Degree in Radiography and is eligible to take the national registry examination administered by the American Registry of Radiologic Technologists (ARRT). Employment opportunities exist in hospitals, medical clinics, doctor’s offices, and industries. The program is accredited by the Joint Review Committee on Education in Radiologic Technology, 20 N. Wacker Drive, Suite 2850, Chicago, IL 60606-2901, (312)704-5300.

Articulation: Davenport University, Bachelor degree; Eastern Michigan University, several BS degrees; University of Michigan-Flint, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.

Program Admission Requirements: Admission to the Radiography Program is on a first-come basis for all qualified applicants who have met all the admission requirements. A limited number of students are admitted to the Radiography Program each year. Application packets may be obtained from the WCC Office of Admissions. Applicants will be screened based on the following criteria:

- Completion of an application for admission to the Radiography program
- Residency status: Students who meet the WCC residency policy are admitted from Washtenaw County and surrounding counties in which the program has established clinical affiliations. Contact the Program Director for a current listing of the program clinical affiliates.
- Date of application to the Radiography Program

Note: It is the policy of Washtenaw Community College to screen its students applying to the radiography program for prior criminal convictions as a condition for admission. Individuals who have been convicted of a felony or have an abuse record may not be permitted to take the national registry examination administered by the American Registry of Radiologic Technologists (ARRT). Students with questions should contact the ARRT, (651)687-0048, to inquire about eligibility to take the ARRT examination prior to applying for the Radiography Program.

Applicants must complete the following high school courses or equivalent WCC courses with a grade of “C” or better:

- One year of high school biology or BIO 101: Concepts of Biology-Academic Math Level of 3
- Completion of BIO 109 or an equivalent college-level anatomy and physiology course - Completion of RAD 100, Introduction to Diagnostic Imaging

Continued on next page
Notes:
These courses may be taken before admission to the Radiography program. (It is strongly advised that students complete the general education courses and HSC 101 before entering the Radiography program.) Students may transfer or substitute equivalent general education courses or a healthcare terminology course required for the Radiography program. Contact the program advisor for approval.
**This course must be taken before being admitted to the program.
***MTH 169 should be taken for students planning to transfer to a four-year university to complete a Bachelor degree program

**Radiography (APRAD)**

- Applicants must have a minimum cumulative 2.0 GPA for college courses.
- Admission to the Radiography program is contingent upon students declaring that they have specific physical and cognitive abilities. These requirements are detailed in the Radiography program admission packet, which can be obtained from the Office of Admissions. WCC reserves the right to request that students successfully demonstrate the specific cognitive and physical abilities related to the Radiography Program.

**Post Admission Requirements:** One class is admitted each year in the spring/summer semester. Upon official notification of admission to the Radiography program, students are required to:

- Attend a mandatory Radiography Orientation Session
- Submit evidence of medical insurance
- Submit a current certification in CPR for the Professional Rescuer
- Submit documentation of a physical examination by a licensed physician or nurse practitioner
- Submit immunization records
- Undergo a current criminal background check. Students whose background check reveals a criminal conviction or current criminal charge will be denied admission to the program unless the student has documentation from the AART of their eligibility to take the certification exam.

**Continuing Eligibility Requirements:**

- Students must pass a physical examination, taken at their own expense, not more than three months before enrolling in the first clinical education course.
- Students must maintain personal health coverage.
- Students must be certified in CPR for the Professional Rescuer to be eligible to enroll in clinical education courses which begin in the fall semester. If they have not received certification through another agency, they can obtain it by completing HSC 131, CPR/AED for the Professional Rescuer and First Aid.
- Program courses are sequential and complemented with appropriate support courses. Students must complete all Radiography (RAD) courses with a grade of “C-” or above.
- Students must complete all general education and support courses with a grade of “C” or better.
- All students must demonstrate proficiency in the English language prior to placement in clinical courses. Please refer to the application packet for further details.
We live in an age of communication. The School of Applied Communication is here to serve those who want to develop skills in radio broadcast, technical writing, or in print and online journalism. Select one of our programs and prepare yourself for an entry-level job or for transfer to a four-year institution.
Prepare to transfer to a four-year school or begin a career in radio and/or other forms of broadcast arts.

Associate in Arts Degree

Broadcast Arts (AABCA)  
The Broadcast Arts program provides training in radio and gives students basic knowledge of radio production, programming, and announcing. The program emphasizes communication skills needed for jobs in a variety of fields, including advertising, public relations, broadcast journalism and program production, and prepares students for transfer to a four-year institution.

Articulation: Lawrence Technological University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges.
Whether your goal is journalism or technical writing, these programs provide a foundation for beginning writing or to undertake advanced studies at a four-year institution.

**Minimum Credits Required for the Program:** 20

**Technical Writing (CTTWR)**

This certificate program provides comprehensive instructions for students who wish to sharpen their skills in technical communication. As a fast-track program for career changers or a foundational program for first-time professionals, this program provides the knowledge and skills necessary for writing end-user documentation such as printed manuals and online help systems. The student will develop skill in audience analysis, tutorial, procedure, and reference guide writing; project management, document design, technical editing, usability testing, and publishing. Designed to provide the student with practical and theoretical principles of technical writing, the program prepares students for employment in a wide variety of opportunities in technical communication. To this end, students will also learn how to conduct a formal job search and create professional portfolios to better compete for jobs in the field of technical writing. Those without previous college experience can use this certificate to seek work as interns and in co-op positions in technical writing while pursuing the Associate in Arts or Science Degrees in Technical Writing.

**Program Admission Requirements:** ENG 107 or equivalent course coursework/experience, basic computer literacy, a general understanding of Windows OS and Office 2000, and experience using the Internet.

  1. Pre-Medicine Concentration (BMED) or (CMED)
  2. Computer Science Concentration (COMS)
  3. Mathematics Concentration (MATH)
  4. Physics/Pre-Engineering Concentration (PHYS)

Before beginning any transfer program, a student should consult with an academic advisor or counselor to obtain a program articulation agreement, or a transfer guide. Early in the program, the student should contact an undergraduate advisor at the transfer college for specific admission and curriculum requirements and, if available, an unofficial transfer-credit evaluation. Copies of articulation agreements and transfer guides are available in the Counseling Office on the second floor of the Student Center Building. Computers with access to the Internet Web sites of four-year colleges and universities are also available there.

MACRAO Agreement

Many of the programs in this section meet the requirements of the Michigan Association of Collegiate Registrars and Admissions Officers (MACRAO) Agreement for transferring general education courses between participating Michigan colleges and universities. If a program meets MACRAO requirements, it will be noted in the program description. To use the MACRAO agreement, students must have the Student Records Office certify their transcript for MACRAO completion before sending it to the colleges to which they are transferring. Not all four-year colleges and universities participate in MACRAO, and some that do participate have limitations or exceptions to the agreement. A detailed explanation of the MACRAO Agreement and a list of participating colleges can be found on page 78 of this Bulletin.

Articulation Agreements and Transfer Guides

Some transfer programs are based on articulation agreements with other colleges. If a program has an articulation agreement, it will be noted in the program description. Copies of articulation agreements, which provide additional information including admission requirements and the sequence for taking courses at both colleges, are available in the Counseling Office on the second floor of the Student Center Building. Transfer guides list WCC courses that transfer to specific bachelor degree programs at colleges and universities in Michigan. These guides are provided by the four-year colleges and do not take into consideration the general education and other graduation requirements at WCC. Students who plan to earn associate degrees should work with a counselor or advisor to select courses from their transfer guides that match the requirements at WCC. The Counseling Office has copies of transfer guides for the major four-year institutions in Michigan.

### Business (AABAS)

This program prepares students for transfer to a bachelor’s of business administration degree program at a four-year college or university, where they will further improve their communication and interpersonal skills while developing a specialty in accounting, economics, finance, management, or some other aspect of business. The program was specifically designed to transfer to Eastern Michigan University. Check with an advisor for information on transferring to other colleges. See the footnotes for transferring to the University of Michigan.

**Articulation:** Cleary University, BS or BBA degree; Davenport University, Bachelor degree; Eastern Michigan University, BBA degree*; Ferris State University, BS degree; Madonna University, BS degree; Northwood University, BBA degree.

*A minimum cumulative GPA of 2.5 is required for admission to EMU’s College of Business. All courses must be completed with a minimum grade of “C” (2.0) to transfer. Contact the College of Business Undergraduate Advising Office at EMU early to have transfer credits reviewed and unofficially evaluated (734-487-2344 or email amelia.chan@emich.edu). This program meets MACRAO. Students must have their transcripts certified for MACRAO completion by the WCC Student Records Office. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges).

**Program Admission Requirements:**
- Students must have an Academic Math Level of 4 to enroll in MTH 181. Two years of high school algebra (Algebra I and Algebra II) are recommended.
- Students should have a working knowledge of applications software or enroll in CIS 100 prior to taking CIS 110.
**COMPUTER SCIENCE AND INFORMATION SYSTEMS**

Interested in a bachelor’s degree in computer science or (business) information systems? This area provides the foundation you need to be successful.

## Math and Science (ASMSAS) (34 credits)

---

**Math and Science (ASMSAS)**

This program prepares students to transfer to a four-year college or university to complete a bachelor's degree in biology, chemistry, computer science, math, or physics. The program will give students a solid foundation in math and science. Students should obtain program requirements and transfer equivalencies from the college to which they are transferring.

**Articulation:** This program will fulfill MACRAO requirements if, in addition to the courses completed to meet General Education requirements, students complete one additional course in Social and Behavioral Science. Students must have their transcripts certified for MACRAO completion by the WCC Student Records Office.

**Program Admission Requirements:**

- Students must have an Academic Math Level of 7 to begin the math sequence. Two years of high school algebra and one year of high school pre-calculus are recommended to prepare for this program.

- The chemistry, physics, and computer science concentrations require one semester of high school physics or PHY 105 or PHY 111 with a “C” or better to enroll in PHY 211.
# Criminal Justice (AACJ)

</table>

## Minimum Credits Required for the Program:

63 credits

## Notes:

*See the MACRAO list to make course selections. Transfer students should select lab-based Natural Science course.

---

# Criminal Justice (AACJ)

This program helps prepare students for jobs in the courts and in corrections (such as probation and parole) as well as state and federal law enforcement. Most, but not all, of these jobs require at least a bachelor’s degree and students can complete their first 3 years at WCC before transferring to other four-year schools such as EMU for their final year.

**Articulation:** Davenport University, Bachelor degree; Eastern Michigan University, BA degree and several BS degrees*.

*For those interested in pursuing a degree in Criminology and Criminal Justice from EMU, students may take 30 additional credit hours at WCC and transfer a total of 94 credits to EMU towards a Bachelor’s Degree (124 hours). The following additional classes are recommended: ANT 201, SOC 207, SOC 250, and PSY 257.

**Program Admission Requirements:** Students must have an Academic Math Level of 3 to enroll in MTH 160. One year of HS algebra is recommended.
These programs offer the first two years of instruction required to become a certified teacher in the state of Michigan.

### Elementary Education (AAELEM)

- **MTH 160** Basic Statistics 4
- **PHY 111** General Physics I 4
- **Elective** Choose a minimum of 3 credits from the following electives: 4
  - BIO 102, BIO 103, BIO 107, BIO 227, BIO 228, CEM 122, CEM 211, CEM 222, GLG 103, GLG 104, PHY 122, Social Science MACRAO elective**

**Minimum Credits Required for the Program:**

62

Notes:

*Students transferring to EMU should consider taking either COM 225, GEO 101 or an Arts and Humanities Elective that should meet EMU’s Diverse World Requirement. See the WCC Bulletin for a list of courses.

* **Students who want to meet MACRAO should choose a social science MACRAO course as one of the electives. See the MACRAO list in the WCC Bulletin to make course selections.
# General Studies Program Requirements (60 credits)

1. **Complete the General Education Requirements for the Associate in Science degree.** Transfer students are encouraged to complete the MACRAO requirements.

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>General Education Requirements:</strong></td>
<td><strong>33-34</strong></td>
</tr>
<tr>
<td>ENG 111 Composition I</td>
<td>4</td>
</tr>
<tr>
<td>ENG 226 Composition II</td>
<td>4</td>
</tr>
<tr>
<td>Speech Elective(s)</td>

<td>6</td>
</tr>
<tr>
<td>Arts/Human. Elective(s)</td>
<td>6</td>
</tr>
<tr>
<td>Computer Lit. Elective(s)</td>
<td>3</td>
</tr>
</tbody>
</table>

2. **Complete a concentration in math or science**

   15 credit hours from no more than two disciplines chosen from Biology, Chemistry, Math or Physics (A minimum of 6 credits at the 200 level is strongly recommended).

   Students transferring to EMU should select from the following WCC courses: BIO 103, BIO 208, BIO 215, BIO 227, BIO 228; CEM 111, CEM 122, CEM 211, CEM 222; MTH 191, MTH 192, MTH 197, MTH 293, MTH 295; PHY 111, PHY 122, PHY 211, PHY 222 or see an advisor to select courses that will meet the requirements of the college to which you are transferring.

3. **Complete a second concentration.**

   Select 9 credits from no more than two disciplines listed below (A minimum of 3 credits at the 200 level is strongly recommended).

   Select from Anthropology, Art, Astronomy, Biology, Chemistry, Communication, Criminal Justice, Dance, Drama, Economics, English, French, Health Science, History, Math, Music, Philosophy, Physics, Political Science, Psychology, Sociology or Spanish

4. **Electives to complete a minimum of 60 credit hours**

   Minimum Credits Required for the Program: **60**

---

**Notes:**

*Transfer students should select a lab-based, MACRAO-approved science course. See WCC catalog for eligible courses.*

**Transfer students attempting to satisfy MACRAO should complete an additional 2-3 credit hours in Social Science courses. Courses used to meet General Education Requirements cannot be counted toward the minimum credits for the concentrations.**

Math and Science (ASMSAS)

This program prepares students to transfer to a four-year college or university to complete a bachelor's degree in biology, chemistry, computer science, math, or physics. The program will give students a solid foundation in math and science. Students should obtain program requirements and transfer equivalencies from the college to which they are transferring.

Articulation: This program will fulfill MACRAO requirements if, in addition to the courses completed to meet General Education requirements, students complete one additional course in Social and Behavioral Science. Students must have their transcripts certified for MACRAO completion by the WCC Student Records Office.

Program Admission Requirements:

- Students must have an Academic Math Level of 7 to begin the math sequence. Two years of high school algebra and one year of high school pre-calculus are recommended to prepare for this program.
PHYSICS/PRE-ENGINEERING

Students utilize this program in preparation for a degree in engineering or physics.

Associate in Science Degree

Math and Science (ASMSAS)

This program prepares students to transfer to a four-year college or university to complete a bachelor's degree in biology, chemistry, computer science, math, or physics. The program will give students a solid foundation in math and science. Students should obtain program requirements and transfer equivalencies from the college to which they are transferring.

Articulation: This program will fulfill MACRAO requirements if, in addition to the courses completed to meet General Education requirements, students complete one additional course in Social and Behavioral Science. Students must have their transcripts certified for MACRAO completion by the WCC Student Records Office.

Program Admission Requirements:

• Students must have an Academic Math Level of 7 to begin the math sequence. Two years of high school algebra and one year of high school pre-calculus are recommended to prepare for this program.

• The chemistry, physics, and computer science concentrations require one semester of high school physics or PHY 105 or PHY 111 with a “C” or better to enroll in PHY 211.
If your goal is the field of medicine or medical research, this program will prepare you to transfer into a baccalaureate degree program.

#### Minimum Credits Required for the Program: 61

### Notes:

* Select one of the following courses: ART 143, ART 150, DAN 180, ENG 213, ENG 214, ENG 224, or ENG 242.

** Select another course from the Humanities section of the MACRAO list. Do not choose any Communication (COM) courses. Do not choose any courses in bold, they don’t meet WCC General Education requirements.

If transferring to Madonna University, follow the curricular guide for that university. See a program advisor for details.

---

### Associate in Arts Degree

### Human Services (AAHUST)

This program prepares students for a job as a substance abuse, hospice, case, psychiatric, or social services aide in settings such as schools, rehabilitation centers, and mental health clinics or as a staff member in a community/neighborhood center. The program provides skills students will need to work on a one-to-one basis or in groups to help people cope with problems. The program also prepares students to transfer to a bachelor’s degree program where they will continue developing skills for a career in the field of social work. The program transfers to Eastern Michigan University and Madonna University.

**Articulation:** Madonna University, BSW degree
Eastern Michigan University, BSW degree*

*Students should meet with an EMU Department of Social Work advisor before applying for admission to EMU’s program. This program meets MACRAO. Students must have their transcripts certified for MACRAO completion by the WCC Student Records Office. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: [http://www.wccnet.edu/departments/articulation.php?levelone=colleges](http://www.wccnet.edu/departments/articulation.php?levelone=colleges).

### Applying for Admission to the Program:

The faculty and administration reserve the right to admit and retain only those students who, in their judgment, possess academic and personal suitability for the Human Services Program. Suitability criteria are listed below and also can be found in the Human Services Student Handbook. Applications to the program must be made during the semester that students are enrolled in HSW 100 (Introduction to Human Services). Interested students who are enrolled in the course will be invited to submit a written request for an admission interview.

### Program Admission Requirements:

Applicants must have the following:

- Academic Math Level of 3
- Academic Reading and Writing Levels of 6
- Applicants must enroll in HSW 100 and complete the course with a grade of “C” or better.

Applicants must meet the following suitability criteria:

- Has a cumulative GPA of 2.0 in all WCC courses
- Demonstrates honesty in dealings with other students and faculty

Continued on next page
Continued from previous page

- Demonstrates behavior conforming to the National Organization for Human Service Education’s “Ethical Standards of Human Service Professionals” (printed in the program handbook)

- Presents in an appropriate and professional manner in the interview

- Demonstrates evidence of being able to relate to clients in a helpful manner

- Applicants must submit a letter of recommendation from a non-family member who knows them well such as a minister, employer, or teacher.

Continuing Eligibility Requirements:
Faculty will review students’ eligibility for the program on an ongoing basis.

1. Students must maintain satisfactory academic class performance, as evidenced by a minimum cumulative GPA of 2.0.

2. Students must earn a “C” or better in all HSW courses.

3. To enroll in the Human Services field internships, students must have completed HSW 100, HSW 150, and HSW 200 with a “C” or better.

4. Students must maintain at least an 80% rate of attendance in class and in an internship placement.

5. Students must honor any agreement entered into with an agency serving as an internship site.

6. Students must maintain ethical behavior as defined in the National Organization for Human Service Education’s “Ethical Standards of Human Services Professionals.”

7. Students should be aware that internship sites might conduct background checks on applicants to determine if they have been convicted of a crime or are addicted to drugs or alcohol.

Explanation of Terms

This section of the Bulletin lists all credit courses offered at the time this publication went to press. Courses are arranged alphabetically by the name of the discipline, starting with Academic Skills and ending with Yoga.

The abbreviation for the discipline, the course number, and the course title are listed in the first line of each course entry, along with the number of credit hours awarded for the course.

The next lines contain information about any prerequisites or co-requisites associated with the course, as well as the number and type of contact hours (time spent in lecture, lab, or clinical settings) required for the course.

After this information, the content of the course is summarized in a few sentences. Explanations of specific terms used in course entries are provided below.

Academic Levels

Applicants are assigned Academic Levels in Reading, Writing, and Math that are based on their assessment test, or if exempt from assessment testing, their previous college record.

Most courses require a specific Academic Level in Reading and Writing, and some also require an Academic Level in Math. These prerequisites are listed in the course descriptions and in the academic class schedule. If the phrase “No Basic Skills” is listed, all Academic Levels are acceptable for the course.

Academic Levels can be found in the student’s personal data by logging into MyWCC, clicking Student Records, and choosing View Test Scores and Academic Level.

Students who wish to take a particular course should make sure that their Academic Levels match or are above the Academic Levels in Reading, Writing, and Math listed for that course.

Students who do not meet the Academic Levels listed for a particular course may work to meet that Academic Level by taking specific classes. WCC counselors and advisors help students consider their class options. See the Academic Level chart that lists the scores and classes necessary to meet a specific academic level.

If the College has more than one assessment for the student in its records, such as the ACT, the SAT, COMPASS, and particular classes, the College uses the highest scores or class(es) to assign the Academic Level to the student.

Prerequisites

Prerequisites are requirements that students need to meet before they may register for a course. Most 100 and 200 level courses require Academic Level 6 in Reading and Academic Level 6 in Writing. If all Academic Levels are acceptable for a course, the phrase “No Basic Skills” will be listed.

In addition, there may be other courses that students must complete satisfactorily or another qualification to meet before registration is permitted for a particular course.

Any prerequisite courses must be taken before the selected course, and passed with the minimum grade listed, or a “D-” if no minimum is listed.

Consent Required

If this phrase appears in a course entry, the student must have the instructor’s authorization to register for the course, in addition to any prerequisites that are listed. Instructor consent is a requirement for all co-op, field experience, internship, practicum, on-the-job training, and individualized study courses.

Co-requisites

Co-requisite courses must be taken during the same semester as the listed course, and students must register for both courses simultaneously.

Concurrent Courses

When “may enroll concurrently” appears next to prerequisite, students will be allowed to register for the course if they register for the prerequisite at the same time. However, it is always preferable to complete prerequisite courses first.

Level II Prerequisites

Some classes have Level II prerequisites, which are courses, placement tests, or conditions which are required before registering in a course. These prerequisites will be checked by the instructor on the first day of class. If students cannot demonstrate to the instructor that they have met the Level II prerequisites, they may be asked to drop the course. Level II prerequisites which require completion of specific courses should be passed with the minimum grade listed, or a “D-” if no minimum is listed.

Co-op, On-the-Job Training, and Individualized Study Courses

Some programs offer Co-op Education I and II (with course numbers of 174 and 274). Registration for a cooperative education course requires attendance at a co-op orientation and students must obtain faculty permission.

Other individualized courses are Study Problems (with a course number of 189) and On-the-Job Training (with a course number of 199). These courses offer specialized instruction and/or training. Special registration requirements exist for these courses; please see an advisor or counselor before registering.

*If the college has more than one assessment for the student in its records, such as the ACT, the SAT, COMPASS, and particular classes, the College uses the highest scores or class(es) to assign the Academic Level to the student.

** Successful completion of the prerequisite course (or one of the test scores listed next to it) will bring the student to the academic level listed next to it. Successful completion requires a minimum grade of 'C' or 'S' or 'P'. Exception: MTH 151 does not advance student to Level 3.

***Students with the following exemption test codes (EXAP (apprentice), EXCC (company contract), EXPC (prior college), EXPG (guest student), and EXPT (old exemption code)) are assumed to have Level 6 reading and Level 6 writing. The exemption codes will allow students to enroll in Math courses through those requiring Math Level 1. Students who have an exempt score and wish to take a Math class which requires an Academic Level 2 or above must demonstrate the required Academic Level by taking COMPASS or a Math placement test, or by completing a prerequisite course. See a WCC counselor. We do not accept Accuplacer scores for placement.

Academic Skills

ACS 065 Success Skills Workshop 3 credits
Level I Prerequisites: Academic Reading Level 3; no minimum writing level
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course explores skills and habits that lead to academic and personal success. Through class activities, application examples and journal writing, students will increase self-esteem, motivation, and emotional intelligence. Other topics include an introduction to active learning and learning styles, time management, and effective communication. Personal and academic goal-setting will be explored.

ACS 095 Student Success Seminar 3 credits
Level I Prerequisites: Academic Reading Levels 4 or 5; no minimum writing level
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course enables students to develop skills and habits that lead to academic, professional, and personal success. Through readings, activities and journal writing, students will increase self-esteem, motivation, and emotional intelligence. Other topics include an introduction to learning styles, reading and writing strategies, note-taking, studying tips, time management, effective communication, and money management. Personal, academic and career goal setting will be explored.

ACS 105 Advanced Vocabulary 3 credits
Level I Prerequisites: Academic Reading Level 4; no minimum writing level; ACS 107 or ACS 108, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to expand vocabulary and improve word recognition skills for the college-bound student. Major areas of emphasis include the study of derivations; context clues; dictionary skills; other vocabulary acquisition strategies; pronunciation skills, and American idioms. A current news magazine, on-line resources, and TV news programs are used to demonstrate the prevalence of academic vocabulary in the common media. For other reading courses, look under Reading (REA).

ACS 107 College Study Skills and Speed Reading 4 credits
Level I Prerequisites: Academic Reading Level 4; no minimum writing level
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
College Study Skills and Speed Reading is designed to help students improve their study skills and to develop rapid reading techniques. Instructional units include all the essentials for academic success: learning styles, time management, vocabulary development, textbook reading, note-taking skills, computer literacy, speed reading and test-taking skills. Students who have not successfully completed ACS 107 may repeat it once.

ACS 108 Problem Analysis and Critical Thinking 3 credits
Level I Prerequisites: Academic Reading Level 5; no minimum writing level
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed for learners who wish to improve their performance in all academically demanding courses (including math, science, and technology). Analytical problem-solving and critical thinking skills are enhanced through a variety of instructional units (analogies, serial order, spatial descriptions, etc.), and 13-16 grade level textbook selections are systematically analyzed to improve comprehension. For other reading courses, look under Reading (REA).

ACS 110 Speed Reading 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Designed to improve reading rates, this course may double students’ reading speeds (at a minimum) with no loss in comprehension. Students also learn a variety of techniques that enable them to vary their reading speed according to the material and their specific purpose. This course was previously ACS 106.

ACS 111 First Year Experience Seminar 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course enables students to identify and develop the beliefs, attitudes, behaviors and skills that lead to academic, career and personal success. Through self-assessment, readings, projects, classroom activities, and journal writing, students will learn to take charge of their lives, improve self-management, increase self-esteem and self-confidence, while learning to maximize their learning. Other topics include money management, effective use of college resources, critical thinking and decision-making and effective writing and communication. Academic and career goal setting will also be explored.

ACS 121 Career Planning Seminar 2 credits
Level I Prerequisites: Academic Reading Level 4; Academic Writing Level 3
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course is designed for persons undecided about a program of study or career goal or interested in making a career change. Students complete a self-assessment of interests, work values, skills and abilities through exercises and vocational inventories. Students will also learn how to research careers, become more knowledgeable of careers, career alternatives and employment trends through the use of course materials, classroom activities, and in-class guest speakers. Other topics include: decision-making, job skills, self-esteem and work attitude.

ACS 122 Career Decision-making 1 credit
Level I Prerequisites: Academic Reading Level 4; Academic Writing Level 6 or ENG 090 or ENG 091, may enroll concurrently
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This short course is designed for students who are undecided about career and life goals. Two day-long class sessions are held, usually on consecutive weekends, followed by outside assignments that students complete at their own pace. Through exercises, activities, and career tests, students clarify their goals, interests, values, and learn decision-making skills. Students also research occupations.

ACS 123 Information Literacy 1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This course provides an introduction to techniques of information retrieval and information evaluation. Students completing this course will have the skills needed to locate and evaluate information, to think critically about research strategies and to apply these concepts to undergraduate research using library resources and the Internet.
### Accounting (ACC)

<td>Students will be introduced to problem-solving and lean manufacturing tools used in manufacturing facilities. Students will be exposed to topics such as lean manufacturing, innovations in lean, seven deadly wastes, Kaizen, 5S, Six Sigma, Poka Yoke, FMEA, Ishikawa, Kepner Trego, and mind mapping tools. The principles of innovations in lean will be used to identify methods for reducing waste on a product identified by students in groups.</td>

Advanced Manufacturing Systems (AMS) – Anthropology (ANT)

AMS 204 Innovations Application 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; AMS 103; BMG 241 minimum grade “C”
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This is part one of a two part project. In part one, students will use brainstorming techniques to identify problems/products needing exploration. Once students have identified a problem/product worthy of exploration, they will apply the innovation process learned in the innovations class.

AMS 205 Build Concept Prototype 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; AMS 204 minimum grade “C”
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This is part two of a two part project. Using materials developed in part one the students will develop working models/parts. These prototypes will be unveiled to the student body at Washtenaw Community College. Students will expand on the portfolio of work from part one to include part two.

Animation

ANI 145 Concept Development for Animation 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ANI 150 may enroll concurrently
20 lecture, 0 lab, 0 clinical, 10 other, 30 total contact hours
This course is an introduction to the conceptualization process that precedes the creation of an animation. Students will participate in all phases of developing an idea for animation: research, plan, ideation, storyboarding, and logic.

ANI 150 3D Animation I: Modeling 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ANI 145 may enroll concurrently
60 lecture, 0 lab, 0 clinical, 30 other, 90 total contact hours
This course introduces students to creating digital 3D forms for animation. Various techniques (wire frame, compound primitives and NURBS) are used to construct 3D forms. Using industry-standard software, students develop 3D modeling/animation skills while learning the technical vocabulary needed for the 3D modeling/animation industry. Students create and apply textures and lighting to digital 3D forms, investigate camera positioning/point of view, and perform simple rotational animation.

ANI 155 Textures and Studio Lighting for Animation 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 60 other, 90 total contact hours
Using traditional studio techniques and Adobe Photoshop, students will learn to enhance form through use of lighting effects, cast shadows, highlights, and reflections.

ANI 160 Fundamentals of Movement and Animation 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
60 lecture, 0 lab, 0 clinical, 30 other, 90 total contact hours
This is an introductory course in moving and animating 3D models. Students will learn the theory of motion, movement and established principles of animating and apply these to their 3D artwork. Using existing models, they will develop motion and animation skills. Students will animate rigid objects, organic objects and simple characters. Students will be exposed to keyframe animation and direct animation.

ANI 230 Motion and Sound 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ANI 145, ANI 150 and GDT 140, minimum grade “C”
Corequisites: ANI 250
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course focuses on the knowledge and skills needed to produce motion and sound for animations. Characteristics of space and movement, as well as concepts and techniques related to the generation and use of sound, will be studied. This course is an integral part of assembling animations, as well as bringing them to life with editing, and Foley arts.

ANI 250 3D Animation II 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ANI 145, ANI 150, and GDT 140 minimum grade “C” all courses
Corequisites: ANI 230
60 lecture, 0 lab, 0 clinical, 30 other, 90 total contact hours
This course builds on the 3D skills of ANI 150. The course will work on proficiency and efficiency in model construction, texture building, and furthering concepts in modeling for animation. The class will explore photorealistic rendering, key-framing, inverse and forward kinematics, and more complex animations. The class will pinnacle in a finished output to video for presentation.

ANI 260 3D Animation III 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ANI 250 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 30 other, 90 total contact hours
This course builds skills from previous 3D animation courses at a more advanced level. Students will develop proficiency and efficiency in model construction, texture building, and furthering concepts in modeling for animation. The class will explore animation and rigging, photorealistic rendering, special effects, and scene construction.

Anthropology

ANT 201 Introduction to Cultural Anthropology 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course will employ anthropological theory and method to survey the human experience from a holistic perspective. Relationships between human biology, psychology and culture will be examined utilizing the essential concepts and methods that typify cultural anthropology so that the student may better understand and appreciate the diversity of culture and the flexibility of human adaptations.

ANT 202 Introduction to Physical Anthropology 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course will examine the human species from a biological and bio-cultural perspective. Major areas of coverage include the process of evolution, human genetics, human variation, adaptive and developmental responses to stress, biological systematics, primate studies, human fossil remains and Paleolithic archaeological findings.

ANT 205 Introduction to Archaeology 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides a survey of anthropological archaeology. Topics covered include the following: basic goals of archaeology, archaeological methods and techniques used to research the material record of human behavior, and core anthropological theories used to explain human evolution and socio-cultural change. Archaeological site reports will be used throughout the course to illustrate research practices.
This course is an introduction to Modern Standard Arabic in which students develop skills in listening, speaking, reading, and writing. Students explore the language through multimedia (CD and DVD), dictation, instructor-prepared materials, and small group participation. Cultural aspects of the Arabic-speaking world are also discussed. Arabic and English will be the medium of instruction during the first six weeks of the course, after which the teacher and students communicate primarily in Arabic.

**ARB 122 First Year Arabic II**

*Level I Prerequisites: Academic Reading and Writing Levels of 6; ARB 111 minimum grade “C-“*

75 lecture, 0 lab, 0 clinical, 0 other, 75 total contact hours

This is a continuation of an introduction to Arabic as a second/foreign language. It builds on the basic structures of Arabic and expands its uses in common situations of everyday communication. Students will acquire a solid grammatical base that will enhance their overall linguistic proficiency and enable them to pursue their interest in the language. The course exposes students to authentic Arabic cultural and linguistic material (audio tapes of songs, video records, poems and short stories etc).

**Course Descriptions**

**Arabic (ARB) – Architectonics (ARC)**

---

**ARC 111 First Year Arabic I**

5 credits

*Level I Prerequisites: Academic Reading and Writing Levels of 6*

75 lecture, 0 lab, 0 clinical, 0 other, 75 total contact hours

This course is an introduction to Modern Standard Arabic in which students develop skills in listening, speaking, reading, and writing. Students explore the language through multimedia (CD and DVD), dictation, instructor-prepared materials, and small group participation. Cultural aspects of the Arabic-speaking world are also discussed. Arabic and English will be the medium of instruction during the first six weeks of the course, after which the teacher and students communicate primarily in Arabic.

**ARC 122 First Year Arabic II**

5 credits

*Level I Prerequisites: Academic Reading and Writing Levels of 6; ARB 111 minimum grade “C-“*

75 lecture, 0 lab, 0 clinical, 0 other, 75 total contact hours

This is a continuation of an introduction to Arabic as a second/foreign language. It builds on the basic structures of Arabic and expands its uses in common situations of everyday communication. Students will acquire a solid grammatical base that will enhance their overall linguistic proficiency and enable them to pursue their interest in the language. The course exposes students to authentic Arabic cultural and linguistic material (audio tapes of songs, video records, poems and short stories etc).

**Course Descriptions**

**Arabic (ARB) – Architectonics (ARC)**

---

**ARC 109 Surveying Layout I**

3 credits

*Level I Prerequisites: Academic Reading and Writing Levels of 6; ARC 101 minimum grade “C“, may enroll concurrently*

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This lecture and field course addresses the introductory knowledge and skills pertaining to land survey procedure. Practical skills in acquiring, procuring data and interpreting drawings with related documentation are covered. These skills are the basic foundation skills that are required to work as a crew member on a surveying team.

**ARC 111 Architectural Drawing I**

3 credits

*Level I Prerequisites: Academic Reading and Math Levels of 2; Academic Writing Level 3*

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course is an introduction to residential planning and design. It emphasizes the accurate and detailed methods of creating complete construction drawings and documents. Students will be exposed to light frame construction methods and materials. Students are expected to research current construction code requirements and materials, as it pertains to their assignments, using the Internet and traditional research methods.

**ARC 117 Construction Materials**

3 credits

*Level I Prerequisites: Academic Reading and Writing Levels of 6*

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

A survey is provided of typical types of materials used in building construction. Emphasis is placed on the properties, selection and building techniques appropriate for a wide range of materials. Included are woods, metals, plastics, clay, gypsum, glass and aggregate materials.

**ARC 118 History and Theory of Architecture I**

3 credits

*Level I Prerequisites: Academic Reading and Writing Levels of 6*

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

In this course, various architectural structures are presented and analyzed for the period of antiquity to 1870, the Gothic era. Emphasis is placed on fundamental themes underlying modern architectural form. Written essays and oral presentations are used to assess learner acquisition of knowledge of architectural history.

**ARC 120 Mechanical and Electrical Systems for Buildings**

3 credits

*Level I Prerequisites: Academic Reading and Writing Levels of 6*

**ARC 111**

30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours

The drafting of mechanical and electrical systems in buildings from prepared design data is emphasized. This is a laboratory course with lectures related to the laboratory. Students must have drafting instruments.

**ARC 122 Architectural Drawing II**

3 credits

*Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 2*

**ARC 111 minimum grade “C“*

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This is a continuation of residential planning and design. The specific focus of this course is the design and development of construction drawings and documents for a custom/luxury home with two stories. Students will be exposed to various light frame construction methods and materials. Students are expected to research current construction code requirements and materials, as they pertain to their assignments, using the Internet and traditional research methods.
Architectonics (ARC)

ARC 143 Surveying Layout II 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ARC 109
minimum grade “C”, may enroll concurrently
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
This lecture and field based course addresses basic mathematical computation
skills required to verify data consistent with the appropriate level of technical
applied geometry as used in the field of surveying. Students will be able to
compare land data, as generated by electronic surveying equipment, to other
related surveying documents to assess accuracy of surveying measurements.
Sketching of site plans will also be addressed in this course.

ARC 150 Presentation Drawings and Models 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
The emphasis in this course includes manual skills to make perspective drawings
for pictorial presentation, scale models showing site conditions with topography,
simple methods for rendering drawings, shades and shadows on architectural
drawings, and photographs of models for simulated comparison of proposed
building to proposed building site.

ARC 170 Cabinetry and Millwork Design 3 credits
Level I Prerequisites: Academic Reading and Math Levels of 2; Academic
Writing Level 3; CON 170 minimum grade “C”
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
This is an introductory course in design elements and processes for cabinetry
and millwork systems. It will include CAD-based software that will assist in
developing the skills and knowledge for completers of the certificate program.
Students will create computer-based renderings of interior elevations which
require cabinetry, built-ins, stairs and casework, and interior trim.

ARC 174 ARC Co-op Education I 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ARC 111
and ARC 117; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain skills from a new experience in an approved, com-
compensated, industry-related position. Together with the instructor and employer,
the student sets up work assignments and learning objectives to connect classroom
learning with career-related work experience. Instructor consent is required to
register for this course.

ARC 209 Surveying Layout III 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ARC 143
minimum grade “C”, may enroll concurrently
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
This lecture and field based course address intermediate knowledge and skills
pertaining to land surveying and is a continuation of the practical applications
of surveying. Specifically addressed in this course are differential Leveling, spirit
Leveling, base line staking, repetition angles, grid method Leveling, and contour
interpolations. A variety of sites will be utilized for the surveys.

ARC 210 Structure in Architecture 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ARC 122
and PHY 105 or PHY 111
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This class provides an introduction to the use of structural systems (steel,
timber, and reinforced concrete, etc.). Design fundamentals of simple structural
components are emphasized.

ARC 213 Architectural Drawing III 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ARC 122
minimum grade “C”
Corequisites: ARC 000
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course focuses on the preparation of architectural presentation drawings
from diagrammatic sketches, pictures, surveys, and conference notes for a
light industrial construction project. The finished structure will be of masonry
construction. A finished portfolio is required and students are expected to utilize
CAD to aid in the production of their presentation and construction drawings.

ARC 218 3D Presentation/CADD 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; high
school CAD, ARC 102, or work experience
Level II Prerequisites: ARC 122
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
In this course, students develop computer skills to produce perspective draw-
ings for pictorial presentation, 3D solid modeling, and raster image insertion for
site conditions and topography. Simple computer methods for rendering views,
shades and shadows on architectural drawings are covered.

ARC 219 Architectural Engineering and
Construction CAD 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Lectures, demonstrations, research and primarily guided lab practice introduce
the latest techniques that CAD systems employ to assist in presentation, construction and detail drawings. Software features included are base packages and 3R party applications as available. Features AutoCAD or DataCAD or any combination.

ARC 224 Architectural Drawing IV 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ARC 213
minimum grade “C”
Corequisites: ARC 000
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course focuses on the preparation of architectural presentation drawings
from sketches, pictures, surveys, and conference notes for a mercantile office
project. This commercial building will be a masonry, glass and steel columned
structure four stories in height. Students are expected to utilize CAD and the
Internet to aid in the production of their work. All design will comply with current
Michigan Building Code and the ADA.

ARC 228 Construction Estimating and Specifications 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ARC 101
minimum grade “C”
Level II Prerequisites: ARC 102 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is an introduction to building construction and estimating. Students
will learn how to read and prepare specification for construction contracts. Stu-
dents will learn to perform complete and accurate construction cost estimates
that include both commercial and residential construction projects. The student
will also learn how to make quantity take-off, factor in overhead, equipment
and labor cost. Emphasis will be placed on detailed accuracy of estimates and
organization of prepared specifications. Basic word processing and spreadsheet
software will be utilized to complete assigned projects.
ARC 243 Surveying Layout IV 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ARC 209 minimum grade “C”, may enroll concurrently
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
This course utilizes hands-on approach, combining GIS level data analysis and utilization as well as the latest computerized software approaches to site planning, measurement gathering, and preparation techniques. Learning objectives include introduction to advanced equipment, synthesis of skills developed and problem-solving for everyday construction problems. Team based projects and vignettes form the basis for problem-solving. Work will be presented and critiqued by professionals. AutoDesk software is featured.

ARC 274 ARC Co-op Education II 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ARC 174; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and the employer, students determine work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two co-op courses.

ART 101 Introduction to Studio Art 3 credits
Level I Prerequisites: No Basic Skills
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
This course will introduce students to a number of media and practices in studio art. Problems in drawing, design and a color medium will be given. The student will become acquainted with such basic concepts as figure/ground interaction and value relationships. Some of the materials used may be pencils, paper, acrylic paint and linoleum block printing.

ART 102 Color 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This studio course will use colored papers to investigate the interaction of colors, with the aim of developing awareness of how color operates in everyday experience. The objective is to increase students’ sensitivity to color so that it can be used more effectively.

ART 108 Three-Dimensional Design 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
This studio class will use a variety of three-dimensional materials and methods to explore the qualities inherent in good design. Stressing practice before theory, the student will create designs that explore ways of articulating form. Projects will introduce the student to a variety of materials and use of both hand and power tools.

ART 111 Basic Drawing I 4 credits
Level I Prerequisites: No Basic Skills
15 lecture, 75 lab, 0 clinical, 0 other, 90 total contact hours
This course is an introduction to the central problems and issues of freehand drawing. Accurate representational drawing is emphasized through a series of projects concentrating on simple objects. The course is recommended as a beginning level course before other art courses at WCC are taken. This course is recommended for students who plan to transfer to another college or university.

ART 112 Basic Design I 4 credits
Level I Prerequisites: No Basic Skills
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
This studio course will provide instruction in basic approaches to drawing the nude. Quick gesture drawings will develop the movement and drama of the figure. Longer developed drawings will explore the structure of the figure. Emphasis is on analyzing the figure in terms of its simple, solid, underlying forms. This course was previously ART 140.

ART 114 Painting I 4 credits
Level I Prerequisites: No Basic Skills; ART 111 minimum grade “C”, may enroll concurrently
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
An analytical approach to the fundamental problems and issues of painting, with emphasis on composition and the articulation of volumetric forms in space.

ART 118 Basic Design II 4 credits
Level I Prerequisites: Art 111 minimum grade “C”, may enroll concurrently
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Greater emphasis is placed on individual development. Complex problems of drawing are explored with greater emphasis placed on individual solutions. Several new media are introduced.

ART 121 Ceramics I 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
This studio class will guide the student through a series of projects in clay. The student will develop a comprehension of the different aspects of the ceramic process. The student will also develop a specific set of skills for manipulating and firing clay. The pieces created will demonstrate the different processes and stages by which a piece of clay becomes a piece of ceramic art.

ART 122 Basic Drawing II 4 credits
Level I Prerequisites: No Basic Skills; ART 111 minimum grade “C”
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Complex problems of drawing are explored with greater emphasis placed on individual solutions. Several new media are introduced.

ART 125 Painting II 4 credits
Level I Prerequisites: No Basic Skills; ART 114 minimum grade “C+”
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
Students will continue exploration of the fundamental problems and issues of painting. Greater emphasis is placed on individual development.

ART 127 Life Drawing I 4 credits
Level I Prerequisites: No Basic Skills
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
This course will provide instruction in basic approaches to drawing the nude. Quick gesture drawings will develop the movement and drama of the figure. Longer developed drawings will explore the structure of the figure. Emphasis is on analyzing the figure in terms of its simple, solid, underlying forms. This course was previously ART 140.
Art (ART) – Auto Body Repair (ABR)

### Art 128 Ceramics II

**4 credits**

**Level I Prerequisites:** Academic Reading and Writing Levels of 6; ART 121 minimum grade “C”

**30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours**

This course will further explore the fundamental problems and processes of ceramics. The student will integrate the skills learned into a series of ceramic works demonstrating a variety of processes and firing temperatures. Students will take an active role in all aspects of studio management.

### Art 129 Life Drawing II

**4 credits**

**Level I Prerequisites:** No Basic Skills; ART 127 minimum grade “C”

**30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours**

This course will continue instruction in basic approaches to drawing the nude. Increased proficiency in the skill and concepts introduced in Life Drawing I will be emphasized. New materials will be introduced.

### Art 130 Art Appreciation

**3 credits**

**Level I Prerequisites:** Academic Reading and Writing Levels of 6

**Level II Prerequisites:** Basic Computer Literacy is required Blackboard, e-mail, Internet research, typing

**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**

This course is an inquiry into various media and periods of the visual arts focusing on the Arts of the Western World. Instruction will cover at least two-thirds of the periods and media. Periods covered may include: Prehistoric, Egypt, Mesopotamia, Greece, Rome, Medieval, Renaissance, Baroque, 18th, 19th, and 20th Centuries. Media covered may include: photography, graphic arts, painting, sculpture, and architecture.

### Art 143 African American Art and Culture

**3 credits**

**Level I Prerequisites:** Academic Reading and Writing Levels of 6

**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**

The mission of the course is to expose students to African American art and culture with the purpose of developing critical and analytical skills in a variety of visual and literary contexts. Students will increase their awareness of African American artistic and cultural experiences, both historically and contemporarily. Students will be challenged to understand and define modes of visual language, eras and descriptive processes.

### Art 150 Monuments and Cultures

**3 credits**

**Level I Prerequisites:** Academic Reading and Writing Levels of 6

**Level II Prerequisites:** Basic Computer Literacy is required Blackboard, e-mail, Internet research, typing

**45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours**

This course is an inquiry into architectural monuments from around the world, focusing on the significance of the monument for a particular civilization, religion, or culture. Emphasis is on exploring diverse religious, cultural, and individual ideas and concepts with our own sets of values. Secular as well as sacred monuments will be analyzed, including palaces, homes, structures, cities, tombs, temples, and pilgrimage sites. Religion and cultures from Europe, South-East Asia, Japan, China, Middle Eastern, Africa, and America are discussed.

### Astronomy

**AST 100 Backyard Astronomy**

**1 credit**

**Level I Prerequisites:** Academic Reading and Writing Levels of 6

**15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours**

An introduction to objects seen in the sky, with some opportunity for direct observation when weather permits. Astronomy is presented as a hobby as well as a basic science. No prior knowledge of astronomy is required.

### Auto Body Repair

### ABR 111 Introduction to Auto Body Repair

**4 credits**

**Level I Prerequisites:** Academic Reading and Writing Levels of 6; Academic Math Level 3

**60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours**

This entry-level, self-paced course will focus on preparing students for a career in the automotive collision repair industry. Through the use of training modules, students will learn industry standard repair procedures, damage assessment, and proper tool selection to aid in the repair of collision damaged automobiles. Additionally, students will be provided with hands-on training for body panel repair and alignment, plastic welding, MIG welding and be introduced to the automotive finishing process.

### ABR 112 Introduction to Automotive Refinishing

**4 credits**

**Level I Prerequisites:** Academic Reading and Writing Levels of 6

**60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours**

This entry-level, self-paced course establishes the foundation on which the beginning painter builds his or her knowledge for a career in the automotive refinishing industry. Students will be exposed to today’s industry standard methods to include learning how to apply base and clear systems, single stage coatings, primers, and sealers. This is a “hands on” course where students will learn panel preparation, proper mixing of sprayable materials, proper spray gun techniques and adherence to industry safety procedures.

### ABR 113 Estimating and Shop Operations

**4 credits**

**Level I Prerequisites:** Academic Reading and Writing Levels of 6; Academic Math Level 2; ABR 111

**60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours**

This course provides students with the opportunity to develop skills in repair estimation associated with collision damaged vehicles. Skills acquired will include hand written estimation along with the use of software specifically developed for the auto body repair industry. Damage assessment, parts compilation, calculating of repair cost, and refinishing information are some of the subjects to be covered. Additionally, students will examine the nature of the body shop management team and the factors that contribute to the success and profitability of an effective, efficient operation. The title of this course was previously Applied Body Welding and Estimation.
### ABR 114 Applied Auto Body Welding  2 credits

**Level I Prerequisites:** Academic Reading and Writing Levels of 6; ABR 111 minimum grade "C"

**60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours**  
Through the use of specifically formulated modules, students will develop and apply basic welding and cutting skills associated with crash damaged panel replacement as related to the collision repair industry. Areas of study will include proper equipment selection and set up, fitment of panels to be welded, and plasma along with oxy-acetylene cutting procedures. Emphasis will be placed on producing I-CAR acceptable MIG welding of butt, lap, and plug welds completed in various welding positions.

### ABR 116 The Evolution of the Automobile  2 credits

**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
**30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours**  
This introductory course provides students with basic knowledge and skills relating to automotive design, evolution, and repair. The course combines lecture, student-conducted research, and hands-on shop training. Topics include: evolution of auto design, automotive systems, and research techniques. Students participate in lab experiences to develop skills in parts fabrication.

### ABR 119 The Art of Metal Shaping  2 credits

**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
**30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours**  
This course will introduce the student to the "working of sheet metals by hand." In addition to skillful handling of tools, it is necessary for the students to possess a thorough knowledge of the properties and behavior of materials in order to insure that they move in the desired direction when worked. Areas of study will include: Sheet metal shaping with hand tools over handcrafted wood forms, over anvils, and over sand/shot bags and fabricating hand-made parts using a range of sheet metal materials with varied thickness and hardness.

### ABR 123 Technical Auto Body Repair  4 credits

**Level I Prerequisites:** Academic Reading and Writing Levels of 6; ABR 111 minimum grade “C”  
**60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours**  
Students continue to build on skills learned. Students will be exposed to aspects of body panel modification including fender sectioning, shaving door handles, door skinning and continuation of basic bumping techniques using specialty tools. Emphasis is placed on quality, craftsmanship and excellent work habits.

### ABR 124 Technical Automotive Refinishing  4 credits

**Level I Prerequisites:** Academic Reading and Writing Levels of 6; ABR 112 minimum grade “C”  
**60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours**  
This course provides students the opportunity to advance fundamental skills. Lab assignments will include the proper surface preparation of a vehicle’s front clip. Operations such as proper spraying techniques for the application of metallic colors, spot repairs, color blending, single stage, base-coat clear-coat systems, tri-coat finishes, and specialty products will be covered. Basic custom paint, detailing, and advanced color mixing and matching will also be covered.

### ABR 130 Custom Painting  4 credits

**Level I Prerequisites:** Academic Reading and Writing Levels of 6; ABR 112 minimum grade “B”  
**45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours**  
This course is designed for creative students with an interest in the art of custom painting. Participants in this course learn techniques such as air brushing, pin stripping, and lettering, along with the creation of custom graphics, murals and etching. Students will use special effect colors such as pearls and candies on lab assignments that were expertly developed to help participants succeed in the field of custom painting. Students must purchase their own air brush.

### ABR 135 Collision-Related Mechanical and Electrical Repairs  4 credits

**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
**60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours**  
This course will introduce the student to the fundamental principles of the mechanical and electrical repair issues required to restore vehicle collision damage to pre-accident condition. Areas of study will include: suspension and steering, electrical, brakes, heat and air, cooling, fuel intake and exhaust systems, drive train, and restraint systems.

### ABR 174 ABR Co-op Education I  1-3 credits

**Level I Prerequisites:** Academic Reading and Writing Levels of 6; ABR 112 and ABR 113; consent required  
**0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours**  
In this course, students gain skills from a new experience in an approved, compensated position in the field of auto body repair. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two possible co-op experiences. Students with equivalent experience may contact the instructor for permission to waive the prerequisite.

### Automotive Services (ASV)

#### ASV 151 Automotive Service I  4 credits

**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
**45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours**  
In this course, students will learn basic shop safety and accepted shop practices. Included in this course is the theory and operation of automotive gasoline engines - disassembly, measurements, assembly and project organization. Students will learn underhood and undercar preventative maintenance theory and practice as well as general mechanical skills. The focus of this course allows students to gain practical experience in the laboratory. This course was previously ASV 141, Automotive Mechanics I.

#### ASV 152 Automotive Service II  4 credits

**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
**45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours**  
In this course, students will learn basic electrical theory, use and interpret wiring diagrams and electrical testing equipment. In addition, students will learn the fundamentals of brakes, suspension and steering systems. Students will learn the skills needed to replace a number of commonly serviced electrical and chassis components. The focus of this course allows students to gain practical experience in the laboratory. This course was previously ASV 142, Automotive Mechanics II.
### Automotive Services (ASV)

**ASV 153 Automotive Service III**  
4 credits  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; ASV 151 and ASV 152, minimum grade “C”  
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours  
This course continues the theory and operation of automotive electrical systems and introduces the fundamentals of the basic fuel system. Students will have the opportunity to inspect and perform basic services on electrical and fuel system components. The focus of this course allows students to gain practical experience in the laboratory. This course was previously ASV 143, Automotive Mechanics III.

**ASV 154 Automotive Service IV**  
4 credits  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; ASV 151 and ASV 152, minimum grade “C”  
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours  
This course covers the theory and fundamentals of testing and repairing fuel injection, emission control, and on-board diagnostics (OBD II) systems. This course also covers basic on-car engine repairs and diagnostic testing. The focus of this course allows students to gain practical experience in the laboratory. This course was previously ASV 144, Automotive Mechanics IV.

**ASV 155 Automotive Service V**  
4 credits  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; ASV 151 and ASV 152, minimum grade “C”  
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours  
This course covers the theory and operation of automatic and manual drivetrain systems. Topics include the basic diagnosis and repair of automatic transmissions and the basic diagnosis and repair of major drivetrain components. Students will be introduced to 4-wheel drive systems. Upon successful completion, the student will be able to service automatic transmission components as well as diagnose and replace manual drive train components. The focus of this course allows students to gain practical experience in the laboratory.

**ASV 157 Repair Facility Operations and Advising**  
2 credits  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours  
In this course, students will learn the skills needed to execute vehicle repair transactions in an automotive service environment. Using computer invoicing software, students will learn to prepare and execute a repair transaction following the State of Michigan guidelines. This course will also provide knowledge about mechanic and repair facility licensing requirements.

**ASV 174 ASV Co-op Education I**  
1-3 credits  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; consent required  
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours  
In this course students gain skills from a new experience in an approved, compensated position in the field of automotive service technology. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two possible co-op experiences.

**ASV 251 Engine Diagnosis and Repair**  
2 credits  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; Completion of Automotive Mechanics certificate or experience  
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours  
Students learn the theory and execution of automotive engine mechanical diagnosis and repair during this course. Students learn to apply proper technique to perform a number of significant engine repairs. Students will develop skills for assessing the condition of engines before repair. This course was previously ASV 241, Engine Repair.

**ASV 252 Automatic Transmissions**  
2 credits  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; Completion of Automotive Mechanics certificate or experience  
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours  
Diagnosis of mechanical, hydraulic and electrical transmission systems is featured in this course. Hydraulic and electrical fundamentals, as they pertain to transmission operation, are included. Students will develop skills in the removal, disassembly, repair, reassembly and installation of automatic transmissions and transaxles. This course was previously ASV 242.

**ASV 253 Manual Drivetrain and Axles**  
2 credits  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; Completion of Automotive Mechanics certificate or experience  
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours  
This course is designed to give an understanding of the diagnosis and repair of the automotive drivetrain systems. The course includes manual transmission, manual transaxle, differentials, transfer cases and clutch system diagnosis and repair. This course focuses on removal, service and replacement of major drivetrain components and sub-systems. This course was previously ASV 243.

**ASV 254 Suspension and Steering**  
2 credits  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; Completion of Automotive Mechanics certificate or experience  
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours  
In this course, students learn the theory and execution of automotive suspension and steering system diagnosis and repair. Students will apply proper techniques in performing 4-wheel alignments as well as major suspension and steering component replacement. This course was previously ASV 244.

**ASV 255 Brakes**  
2 credits  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; Completion of Automotive Mechanics certificate or experience  
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours  
In this course, students develop skills in diagnosing and repairing brake systems on vehicles. Instruction includes hydraulic system service and mechanical brakes system service. In addition, diagnosis and repair of anti-lock brake and stability control systems is included. This course was previously ASV 245.

**ASV 256 Electrical and Electronic Systems**  
4 credits  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; Completion of Automotive Mechanics certificate or experience  
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours  
In this course, students learn the theory and operation of automotive electrical systems. It includes the diagnosis and repair of automotive electrical lighting, instrumentation, convenience and accessory systems. There is a focus on advanced tools and techniques used to diagnose electrical and electronic systems found in today’s modern automobiles. This course contains material previously taught in ASV 246, Electrical Circuits.

**ASV 257 Heating and Air Conditioning Systems**  
2 credits  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; Completion of Automotive Mechanics certificate or experience  
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours  
Automotive heating and A/C systems are explored including servicing procedures and diagnostic techniques. A/C system diagnosis and repair are performed with a focus on the multiple types of control systems used in modern automobiles. The proper recovery, recycling and use of modern refrigerants are covered in this course. This course was previously ASV 247.
ASV 258 Engine Drivability 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Automotive Mechanics certificate or experience
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours
This course is designed to provide the student with the experience needed to develop skills in troubleshooting and repairing drivability problems with engine management systems. This course details the study of fuel, ignition and emission systems as they pertain to engine drivability concerns. This course was previously ASV 248, Engine Performance.

ASV 259 Diagnosis and Repair 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ASV 157 minimum grade “C” and any 2 courses from ASV 254 - ASV 258, minimum grade “C”, may enroll concurrently; Completion of Automotive Mechanics certificate or experience
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours
This course is designed to provide the student with the experience needed to develop skills in troubleshooting and repairing drivability problems with engine management systems. This course details the study of fuel, ignition and emission systems as they pertain to engine drivability concerns. This course was previously ASV 248, Engine Performance.

ASV 260 Performance Automotive 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Automotive Mechanics certificate or experience
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours
Select students taking this course will continue to develop skills and gain valuable information as it relates to the completion of a project vehicle. Areas of study include drivetrain, electrical systems, suspension, brakes, steering and final safety inspections. Students will work in conjunction with the Auto Body classes to complete a project vehicle.

ASV 269 Alternative Fuels and Hybrid Vehicles 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ASV 258, minimum grade “C”; Completion of Automotive Mechanics certificate or experience
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours
Students will explore the theory and application of alternative fuels and hybrid vehicles. Students will develop the skills to service alternative fuel vehicles and safely service hybrid vehicles. Students will learn about the various fuel systems and will develop the skills needed for the diagnosis and repair of fuel and electrical systems.

ASV 270 Diesel Technology 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ASV 258, minimum grade “C”; Completion of Automotive Mechanics certificate or experience
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours
Students will explore the theory and application of modern light-duty diesel engines in automobile and light truck applications. Students will learn about modern diesel engines and fuel systems and will develop the skills for diagnosis and repair of fuel and electrical systems. Turbochargers, blowers and catalytic converters as well as particulate trap exhaust systems will also be covered in this course.

ASV 271 Vehicle Performance 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ASV 255 minimum grade “C”; Completion of Automotive Mechanics certificate or experience
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours
This course provides students with the knowledge and skills necessary to diagnose, measure and improve vehicle performance on late model automobiles. The course will cover the areas of basic power train performance, chassis design/dynamics, fuel/ignition systems and basic aerodynamics including safety improvements to meet performance gains.

ASV 261 Alternative Fuels and Hybrid Vehicles 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ASV 256 and ASV 258, minimum grade “C”; Completion of Automotive Mechanics certificate or experience
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours
Students will explore the theory and application of alternative fuels and hybrid vehicles. Students will develop the skills to service alternative fuel vehicles and safely service hybrid vehicles. Students will learn about the various fuel systems and will develop the skills needed for the diagnosis and repair of fuel and electrical systems.

ASV 262 Diesel Technology 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ASV 258 minimum grade “C”; Completion of Automotive Mechanics certificate or experience
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours
Students will explore the theory and application of modern light-duty diesel engines in automobile and light truck applications. Students will learn about modern diesel engines and fuel systems and will develop the skills for diagnosis and repair of fuel and electrical systems. Turbochargers, blowers and catalytic converters as well as particulate trap exhaust systems will also be covered in this course.

ASV 263 Vehicle Performance 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ASV 255 minimum grade “C”; Completion of Automotive Mechanics certificate or experience
30 lecture, 22.5 lab, 0 clinical, 0 other, 52.5 total contact hours
This course provides students with the knowledge and skills necessary to diagnose, measure and improve vehicle performance on late model automobiles. The course will cover the areas of basic power train performance, chassis design/dynamics, fuel/ignition systems and basic aerodynamics including safety improvements to meet performance gains.

ASV 274 ASV Co-op Education II 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ASV 174; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two co-op courses.

Biology

BIO 101 Concepts of Biology 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Basic principles and concepts of biology are surveyed in lecture and laboratory. Emphasis is placed on biological processes as well as practical applications including (but not limited to) major units on chemistry, cells, genetics, cellular energy, kingdoms, reproduction, ecology, evolution, and laboratory skills. If followed by BIO 103, this course provides a comprehensive year long sequence for biology majors. Taken alone, it serves as an introduction to biology for non-science students.

BIO 102 Human Biology 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course familiarizes the student with the structures and functions of the human body, recent advances in human genetics, human health and disease, elements of a healthy lifestyle, human reproductive technology, and human evolution. Students apply this information as they gain an understanding of human biology, and how they can contribute to their own health. The laboratory portion focuses on human structure and function using models, dissections, demonstrations, and medical equipment.

BIO 103 General Biology II 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; one year high school chemistry or CEM 090 and BIO 101; minimum grade “C” all BIO, CEM, and high school requirements
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
The emphasis in this course is on analyzing the processes and mechanisms in biological systems including genetics, ecology, evolution, animal behavior, and cell energetics. This course, with BIO 101, provides a comprehensive survey of biological concepts and shows the interrelationship of topics covered from the molecular to the biome level. This course is required for the Biology/Pre-Medicine program. Students who have taken high school chemistry with a grade of C or better may have the chemistry prerequisite waived.

</table>

This course is designed to provide an introduction to the essential elements of human anatomy and physiology. It is intended for students entering programs in allied health, including radiography, medical coding and orthotics and prosthetics. This course is not appropriate for pre-nursing students.

This course provides students with an intensive, in-depth introduction to the structure and function of all human body systems. The emphasis on basic physiological principles also provides students with a good base for more advanced courses. The laboratory provides dissections and experiments. This course gives an introduction to the basic principles of genetics and their application to viruses, bacteria, plants, fungi, and animals, including humans. Classical and molecular genetic mechanisms are covered. Laboratory experiments demonstrate genetic principles and include classical and molecular techniques. Students who have taken one year of high school chemistry with a grade of C or better may have the prerequisites waived.
BIO 212  Pathophysiology: Alterations in Structure and Function  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; BIO 111 minimum grade “B-” and BIO 147 or BIO 237, minimum grade “C”; BIO 147 or BIO 237, may enroll concurrently
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
The focus of this course is the application of the concepts of normal anatomy and physiology to the study of the disease processes in humans. The course includes identification of the etiology and pathogenesis of disease, alterations in normal body function, and the reaction and adaptation of the body to disease. This course was previously HSC 220.

BIO 215  Cell and Molecular Biology  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; BIO 101 or BIO 102 and CEM 105 or CEM 111; minimum grade “C” all BIO and CEM requirements
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course explores the smallest unit of living things, the cell, at the molecular and genetic level. A comparative cellular examination of the three domains provides an understanding of similarities of cells, while further study investigates differentiation and variation which leads to the diversity of life. Molecular pathways are dissected in both prokaryotic and eukaryotic cells focusing on their regulation and control. DNA technology, including genetic analysis of genomes, genetic engineering, gene therapy and cloning are also investigated. Laboratory topics focus on cell types and differentiation, enzymatic specificity and control, cellular respiration and DNA/molecular techniques.

BIO 225  Tests and Measurements in Exercise Science  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; BIO 110 and BIO 111 and BIO 201 and MTH 160, minimum grade “C”; BIO 111 may enroll concurrently
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours
The purpose of this course is to integrate and apply the principles learned in the prerequisite courses. It trains students to evaluate the strengths and weaknesses of scientific research in the field of exercise science, gives students practical experience and expertise with widely used measuring instruments of physical performance and body composition, and prepares students for external certification examinations for personal trainer and health/fitness instructor.

BIO 227  Biology of Animals  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; BIO 101 minimum grade “C”
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course is an intensive study of the diversity, evolutionary and environmental relationships, structures and functions of the major animal groups. Animals are studied with an emphasis on comparative anatomy and physiology, behavior, and ecology. Lectures will incorporate interactive discussions and activities that address our current understanding of animal biology. Laboratory topics will focus on taxonomy and anatomy using models, live specimens, behavioral experiments and dissection. The title of this course was previously Zoology.

BIO 228  Biology of Plants  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; BIO 101 or BIO 102, minimum grade “C”
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course introduces plant biology as a field of and covers major topics, including: plant biochemistry, plant structure and function, plant growth, nutrition and regulation, plant evolution and classification of the major divisions focusing on flowering plants. The laboratory component emphasizes and compliments the lectures while focusing on plant cells, structure and function, photosynthesis, flowers, fruits and seeds and growth and development through a typical plant life cycle. The title of this course was previously Botany.

BIO 237  Microbiology  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; BIO 101 minimum grade “C”
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
The structure of microbes that have a significant impact on humans is described and their genetics introduced. We discuss the epidemiology and prevention of infectious disease as well as events involved in immunity and pathogenesis within the body. Finally, we survey infectious diseases of major body systems. The lab introduces basic microbiological skills.

BIO 267  Winter Field Study  1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 15 lab, 0 clinical, 0 other, 15 total contact hours
This course is a study of life outside in winter. Topics such as plant and animal identification, observation, adaptations, and interrelationships are discussed. This class is especially for students with no previous background in biology and/or students who enjoy being outdoors and are curious about nature in winter.

Bricklayer-Allied Craftworker Apprentice  BAC

BAC 100  Labor and Trade Union History and Impacts  1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
The history and future of labor and trade unions, with particular emphasis on the International Union of Bricklayer and Allied Craftworker, will be explored. Topics also include objectives and methods of organized labor and the legal and institutional framework of collective bargaining. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 101  Safety Practices  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
The impact of the Occupational Safety and Health Act and obtaining the required certifications will be addressed. The purpose of this course is to teach job safety practices and procedures. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 102  Professional Skills Development  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course is an introduction to human relation skills needed on the job site. Workplace skills such as effective communication, motivation, working with supervisors, teamwork and Equal Employment Opportunity Commission (EEOC) will be covered. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 110  Introduction to Brick and Blocklaying Apprenticeship  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is the introduction to brick and block laying for new apprentices. Course topics include the expectations of the apprenticeship program, role of International Masonry Institute (IMI), quality assurance and the construction process. This course is only available for Bricklayer and Allied Craftworker apprentices.
Bricklayer (BAC) – Business Management (BMG)

BAC 111 Introduction to Masonry Construction 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course introduces the basic concepts of masonry construction including how and where various materials are used and the required tools and equipment. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 112 Mortar Manipulation 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is an introductory course in the types and physical properties of mortars. An overview of mortar materials, the manufacture of mortar and the specific manipulations of mortar are also covered. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 120 Introduction to Tile Mechanic Apprenticeship 1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This course is the introduction to tile setting for new apprentices. Course topics include the expectations of the apprenticeship program, role of International Masonry Institute (IMI) and the construction process. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 121 Introduction to Tile Mechanic 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course introduces the basic concepts of tile work including how and where various materials are used, adhesives and the required tools and equipment. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 122 Basic Tile Setting 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is an introduction to basic tile setting. Topics include surface preparation, substrate installation and cutting, setting and finishing tile. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 210 Introduction to Blocklaying 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
The course topics include common concrete masonry units, parts of a block and wall, joints, bonds, procedures, techniques and steps to basic blocklaying. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 211 Introduction to Bricklaying 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course covers the basic principles and skills used in bricklaying. Topics include types and properties of brick, structural bonds and applying mortar. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 212 Masonry Wall Construction 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
The purpose of this course is to teach the fundamentals of basic masonry wall construction and applicable reinforcement concepts. Types of masonry construction and their descriptions; methods of layout; bonds; veneer, composite, and cavity walls; openings; anchoring devices; and grouting are covered. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 213 Masonry Construction Techniques and Restoration 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course will cover basic repair and restoration of masonry in addition to specialty masonry construction techniques. Topics include cleaning, pointing, arches, brick pavers, structural glazed tiles, fireplaces and chimneys. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 220 Wall Tile Installation 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is an introduction to installing wall tile. Methods of installing wall tile on concrete, wood, gypsum board, glass fiber mesh and reinforced board will be covered. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 221 Floor and Stair Tile Installation 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course will cover basic installation of floor and stair tile. Methods of installing tile on interior wood and cement subfloors and concrete, wood and metal stairs will be included. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 222 Applications for Tile Installation 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is an introduction to the application of tile installations. Bathtub, shower, foundation, curbs, countertop, ceiling/soffit, mantel, hearth and swimming pools tile installation will be covered. This course is only available for Bricklayer and Allied Craftworker apprentices.

BAC 223 Tile Layout, Techniques and Restoration 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course will cover tile layout, techniques and restoration. Topics will include layout design principles, renovation and repair, cleaning, caulking, quarry tile, domes, arches and columns. This course is only available for Bricklayer and Allied Craftworker apprentices.

Business Management BMG
BMG 100 Investments 1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This course is designed to acquaint students with the basics of financial investments. Topics include: stocks, bonds, mutual funds, investment banking, financial statement analysis, the stock market, and other phases of financial investments and services.

BMG 101 The Business of Your Career 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students examine the nature of business and the types of skills and attitudes needed for success. Students will acquire basic business skills and develop a plan for self-improvement. Students will also develop a plan for pursuing a career that recognizes the need to continually manage their life’s work as a business. This course is intended for those students who have little practical business experience and would like to enhance their understanding of basic business concepts.
### BMG 102 The Student Enterprise Zone  
**3 credits**  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; BMG 101 minimum grade “B” or equivalent experience  
*45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours*  

Students obtain hands-on experience in planning and running a small business by participating in the strategic planning and management of the Student Enterprise Zone’s Web-based directory listing and showcase event. The Zone’s directory listing is open to all WCC students with a product or service to sell who meet eligibility requirements. This course was previously BMG 209.

### BMG 106 Legal Basics in Business  
**3 credits**  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
*45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours*  

This course is designed for those students wishing to learn about legal issues that arise in business. In one course, students learn to apply fundamental legal principles and rules in order to “red flag” situations of potential legal liability and make suggestions for reducing legal risks, particularly as they apply to legal issues concerning the student’s chosen trade or profession. Students learn to use legal resources readily available in the community and explore the nature of the relationship between business ethics and law. Students are expected to make use of computer technologies to learn in both an individual and collaborative environment. This course is appropriate for those students pursuing a trade or occupational career as well as those seeking to transfer.

### BMG 109 Entrepreneurship I - The Essentials  
**3 credits**  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; BMG 101 minimum grade “B”, may enroll concurrently, or equivalent experience  
**Level II Prerequisites:** CIS 099 with grade “P” or computer literacy  
*45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours*  

Students acquire the knowledge, skills and attitudes they need to develop and evaluate a plan for starting and running a business using the results of their market research acquired in BMG 101. Students will already have identified and evaluated a market opportunity and are ready to explore strategies for starting a business to take advantage of that opportunity. Students must be able to use a computer to prepare documents and spread sheets and make basic use of the Internet.

### BMG 110 Credit Management  
**3 credits**  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
*45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours*  

This is an introductory course in consumer and commercial credit practices, techniques, and regulations for most manufacturing and service industries. Students are shown how to develop credit policies and analyze pertinent credit data, collections, controls, and effects of bankruptcy.

### BMG 111 Business Law I  
**3 credits**  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
*45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours*  

This course involves text and case study of the general laws applicable to business, covering the nature of law, courts and court procedures, contracts, real and personal property, wills, trusts, and negotiable instruments. This course is the first of two courses in business law and is appropriate for students intending to transfer. This course, when taken with BMG 122, Business Law II, provides an in-depth study of legal issues affecting business. Students are expected to make use of computer technologies to learn in both individual and collaborative environments using the Internet.

### BMG 122 Business Law II  
**3 credits**  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6; BMG 111  
*45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours*  

This course involves text and case studies of agency relationships (including employment), formation and operation of partnerships, formation and operation of corporations, security laws, sales agreements, consumer rights, secured transactions, bankruptcy, computer law and international law. This course, when taken with BMG 111, Business Law I, provides an in-depth study of legal issues affecting business. Students are expected to make use of computer technologies to learn in both an individual and collaborative environment using the Internet.

### BMG 130 Investment Strategies  
**3 credits**  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
*45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours*  

This is a course designed to help existing or potential investors keep abreast of investment opportunities in today's changing financial world. This course presents current information on stock and bond markets, commodities, and real estate. Students are taught the mechanics of investing and how to analyze risk and return, financial statements, annual reports, financial services reports, mutual funds, and relate to the current tax structure. Students learn to read The Wall Street Journal and utilize the information to evaluate investments.

### BMG 140 Introduction to Business  
**3 credits**  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
*45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours*  

This course covers functions, objectives, problems, organization, and management of modern business. Also covered are the free-enterprise system of business-economic activity and the impact of the consumer and governmental forces upon the system. Students develop insight into the vital role of the administrative function in our economy as a whole and in the operation of a single business unit. A practical orientation is offered in the career opportunities available in business and industry.

### BMG 150 Labor-Management Relations  
**3 credits**  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
*45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours*  

This purpose of this course is to provide students with an understanding of management and labor roles in society and the impact of their relationship on company policies and practices. Students will acquire a basic knowledge of collective bargaining, negotiations, and a framework for analysis of labor relations problems.

### BMG 155 Business on the Internet  
**3 credits**  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
*45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours*  

In this course, students examine how e-business is being conducted and managed, its major opportunities, limitations, issues, risks, and the special role that customer data plays in the development of e-business models. The course includes hands-on experience with online technologies similar to those used in e-business. This course is of interest to those seeking entry-level positions in the field of Web development as well as business managers and professionals.

### BMG 160 Principles of Sales  
**3 credits**  
**Level I Prerequisites:** Academic Reading and Writing Levels of 6  
*45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours*  

The purpose of this course is to provide students with an understanding of the responsibilities and ethics of a salesperson, effective prospecting skills, preparing customer presentations, handling customer objections, closing a sale, and understanding the basics of a business to business contract.
Business Management (BMG)

BMG 174 BMG Co-op Education I 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course students gain skills from a new experience in an approved, compensated, business-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two co-op courses.

BMG 200 Human Relations in Business 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course acquaints students with administrative principles and practices emphasizing the human relations aspect of management responsibility as it affects employee attitudes, morale, and productivity. Major emphasis is on relationships among individuals and/or small groups, with problem-oriented sessions used to realistically relate the course materials to the human relations aspect of modern business-industrial enterprise.

BMG 205 Creating the Customer Experience 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students learn how to create a highly-evolving customer experience in order to build customer loyalty, word-of-mouth customers, and in turn, organizational success. Students apply the core concepts to develop customer experience strategies with a focus on enhancing the quality of the interactions between the service provider and the client/customer. Finally, students refine their personal skills needed to be successful in our constantly changing and customer-centric business environment.

BMG 207 Business Communication 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
By studying the principles, processes and strategies underlying effective business communication, students will develop career-enhancing oral, written, and non-verbal skills. Emphasis is placed on planning, creating and transmitting business information within a variety of business situations found in the global marketplace. Students will prepare routine correspondence, reports, resumes, and formal business presentations.

BMG 210 Money, Banking and Financial Institutions 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is a course in the functions of finance. The course offers a definition of money including its characteristics and component parts. It identifies how the money supply expands and contracts based upon the inter-workings of the financial system. Also discussed is the effect of national and international financial practices on the consumer and business. Other topics include a comparison of the different types and purposes of various financial institutions, the Federal Reserve system, National Fiscal Policy, and how various monetary controls influence the supply of money; credit availability; forecasting interest rates; how to calculate investment yields and security prices; and stock market reactions based upon inflation and changes in the money supply. Banking and lending practices for business and consumers are emphasized and correlated to credit policies and examples of documentation forms. This course is recommended for business students.

BMG 215 Planning an E-Commerce Business 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; BMG 155 minimum grade "C-"
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students prepare an E-commerce business plan suitable for presentation to decision makers. This includes an examination of the strategies used by management to develop and implement an E-commerce site, the process involved in planning and maintaining the Website, attracting and maintaining customers, and measuring success. Students who have equivalent work experience may contact the instructor to waive the prerequisites.

BMG 220 Principles of Finance 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ACC 101, ACC 111, or ACC 122
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course surveys the basic concepts of finance that provide the foundation for successful real-world financial management practices. Emphasis is on financial tools required to operate a business. Included is the role of the economy and its effect on interest rates, commercial banking practices, commercial credit, cash management, lending practices, financial statement analysis, time value of money, forecasting, budgeting, capital budgeting, sources of financing, lease vs. purchase, leverage, inventory controls, valuation of rates of return, investment banking, international finance, and bankruptcy. The course is intended to prepare students for advanced study in finance and practical application of financial principles.

BMG 230 Management Skills 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course covers management concepts and principles that supervisors and managers use in daily activities. Students will acquire the skills needed to plan, organize, staff, and control an operation. Structured and creative approaches to problem-solving will be explored. This course contains material previously taught in BMG 208 and BMG 230.

BMG 240 Human Resources Management 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course covers essential human resources activities that must be managed in any organization: employee retention, staffing, compensation, job evaluation, performance management, collective bargaining, safety, employee rights, benefits, pensions, and employment laws.

BMG 241 Innovation: Process and Application 1 credit
Level I Prerequisites: No Basic Skills
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Students will use a process to develop knowledge and skills needed for an innovative mindset. Innovation, as a process, is useful to inventors, artists, entrepreneurs, employees, and managers. Concepts and exercises focus on key, practical, and usable processes and applications. Topics include: identifying and addressing unmet needs of a user group and generating ideas that become an innovation of value.
BMG 250 Principles of Marketing 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
The purpose of this course is to provide students with an understanding of marketing strategy planning process, such as segmentation, differentiation, marketing environment, buyer behavior and marketing information. It also provides explanation of the four P's, with specific attention to the key strategy decisions in each area of Product, Place, Promotion and Pricing.

BMG 265 Business Statistics 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 5; CIS 110 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course introduces the concepts of statistics and their applications to business decisions. Topics include elements of probability, random samples, descriptive statistics, sampling distributions, point and interval estimation, hypothesis testing, and regression and correlation analysis. Emphasis is on collection and analysis of data needed to evaluate reported results of statistical studies and making sound business decisions.

BMG 272 Problem-solving 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course examines problem-solving techniques and methods used in today’s work place. Students gain experience in using both critical and creative thinking approaches to problem-solving in both individual and team settings.

BMG 273 Managing Operations 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course introduces students to the fundamental processes of managing and controlling a variety of operations. It includes concepts in operations management that are recognized as important factors in business such as work processes, project management, scheduling and inventory management, quality tools, managing human resources on projects and in teams, and customer management. It is recommended that students have basic supervision knowledge obtained from previous coursework or work experience.

BMG 274 BMG Co-op Education II 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; BMG 174; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain skills from a new experience in an approved, compensated, business-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two co-op courses.

BMG 279 Performance Management 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to provide the student with the human performance skills needed to develop people in an environment that recognizes that they are an organization’s most valuable resource. Through the use of skill-building exercises and case analysis, the learner will develop knowledge and skills to plan, monitor, measure, motivate, improve and reward performance.

BMG 291 Project Management 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Students will learn and utilize the Project Management Methodology along with the general functions of management. Using project management software, team strategies, business applications and effective communication controls; students will plan and manage projects. The course will cover the following project management knowledge areas as outlined by the Project Management Institute: integration management, scope management, time management, cost management, human resources management, and communications management.

Business Management (BMG) – Business Office Systems (BOS)

BOS 101A Introduction to Keyboarding 1 credit
Level I Prerequisites: No Basic Skills
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This course is the first in a series of three keyboarding courses. This course teaches students to keyboard by touch and develop speed, accuracy, and proper techniques on the alphabetic keys. This course is offered only in a self-paced format.

BOS 101B Intermediate Keyboarding 1 credit
Level I Prerequisites: No Basic Skills
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This course is the second in a series of three keyboarding courses. It is designed for students who have completed BOS 101A or who can key a minimum of 24 wpm. Students increase their speed and accuracy, improve their technique, and learn to touch key the number and symbol keys. Students are evaluated early and may be placed in BOS 101A or BOS 101C based on the results of the evaluation. This course is offered only in a self-paced format.

BOS 101C Advanced Keyboarding 1 credit
Level I Prerequisites: No Basic Skills
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This course is the third in a series of three keyboarding courses. It is designed for students who have completed BOS 101B or who can key a minimum of 33 wpm. Students increase their speed and accuracy, improve their technique, and learn to touch key the number and symbol keys. Students are evaluated early in the course and may be placed in BOS 101A or BOS 101B based on the results of the evaluation. This course is offered only in a self-paced format.

BOS 107 Office Administration I 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: BOS 101C minimum grade “C” or 3 minute typing test minimum score 33 GWAM
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is useful to students entering the world of business for the first time, as well as those workers currently employed in business-related occupations. In this course, students learn a variety of general job functions which will assist, inform, and train them for office careers. These include processing of office mail, handling telephone and faxing services, records management, and proof-reading and editing skills. Students learn job-hunting procedures and prepare for employment in the clerical field through an understanding of the changing business world. To be successful in this class students should be familiar with Windows and keyboard at least 30 gross words a minute.
**BOS 130 Office Financial Applications** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
The ten-key computer pad as well as computer spreadsheet software and electronic business calculators are used to solve a variety of business problems, which include payroll, with serious attention given to efficient operation, and verifying techniques. Emphasis on the use of business mathematics makes this course useful for both business and personal applications.

**BOS 157 Word Processing and Document Formatting I** 3 credits
Level I Prerequisites: Academic Reading Level 4 or REA 070 or REA 071, may enroll concurrently; Academic Writing Level 6 or ENG 090 or ENG 091, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course teaches word processing and document formatting using Microsoft Word. Skills include formatting and editing documents; using grammar and thesaurus functions; applying character, paragraph, and section formatting; preparing headers and footers; using file management procedures; preparing labels and envelopes; and formatting columns. The application of word processing concepts and functions to current business environments is stressed. Students should be familiar with Windows and have keyboarding skills of at least 25 wpm.

**BOS 174 BOS Co-op Education I** 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Eight credits in BOS discipline, minimum 2.0 GPA; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain skills from a new experience in an approved, compensated, business-related position. Together with the instructor, the employer, and the co-op placement office, students determine work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two-co-op courses.

**BOS 182 Database Software Applications** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course teaches database concepts and applications using Microsoft Access. Skills and concepts include creating databases; creating and customizing tables and forms; creating, formatting, and enhancing reports; querying and maintaining databases; publishing reports to the Web; enhancing forms; and filtering data. Applying database concepts and functions to business environments is stressed. Students should be familiar with Windows and have keyboarding skills of at least 25 wpm.

**BOS 183 Spreadsheet Software Applications** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course teaches spreadsheet concepts and applications using Microsoft Excel. Skills and concepts include creating, formatting and editing a worksheet; entering formulas and using Excel functions; preparing charts; creating templates, workbooks, and Web pages; creating and using macros; sorting and filtering worksheet databases; and creating data maps and pivot tables. Applying spreadsheet concepts and functions to business environments is stressed. Students should be familiar with Windows and have keyboarding skills of at least 25 wpm.

**BOS 206 Scheduling and Internet Office Applications** 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course provides an introduction to the operational and technical aspects of microcomputer communications using Microsoft Outlook and Netscape Communicator. Topics covered include sending and receiving e-mail; electronic scheduling, organizing appointments, meetings, and events; maintaining an address book; and using the Internet for common business tasks. Students should be familiar with Windows and have keyboarding skills of at least 25 wpm.

**BOS 207 Presentation Software Applications** 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course teaches presentation software concepts and applications using Microsoft PowerPoint in a Windows operating system. Skills and concepts include creating, editing, formatting, and enhancing presentations; using outline view and clip art to create a slide show; using embedded visuals to enhance a slide show; enhancing a presentation with interactive OLE files; and creating Web pages. Applying presentation software concepts and functions to business environments is stressed. Students should be familiar with Windows and have keyboarding skills of at least 25 wpm.

**BOS 208 Desktop Publishing for the Office** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides a hands-on approach to developing skills in the use of Microsoft Publisher desktop publishing software to create office flyers, newsletters, brochures, bulletins, and related materials. Students use templates and styles and import material created from other software programs. Creating Web documents and posting them to a Website is covered. Students import images from a scanner and a digital camera and are introduced to image-editing techniques. Good layout techniques are applied to produce documents that communicate effectively in business environments. Students must be familiar with Windows and have keyboarding skills of at least 25 wpm.

**BOS 210 Medical Transcription** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HSC 101
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This medical transcription course is for students who have some proficiency in keyboarding and medical terminology. Emphasis is placed on the correct use of medical terms; the correct application of writing rules including capitalization, word usage, and punctuation; the efficient use of hardware including a computer, printer, and transcription machine; the formatting of typical medical documents; the use of medical resources; and the knowledge of current employment opportunities in medical transcription.

**BOS 223 Medical Office Procedures** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This course covers administrative assistant responsibilities in a traditional and computerized medical office or hospital including appointments, patient records, telephone procedures, and credit and collection procedures. Medical insurance is studied as well as legal considerations in a medical office. Students complete forms for Blue Cross/Blue Shield, Medicare, Medicaid, Workers’ Compensation, CHAMPUS, and major insurance carriers using the proper coding system. Students should be familiar with Windows and have keyboarding skills of at least 30 wpm.
BUSINESS OFFICE SYSTEMS (BOS) – CHEMISTRY (CEM)

BOS 224 Medical Office Insurance and Billing 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HSC 101 minimum grade “C-”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is for those interested in a career in the medical office as a medical assistant or insurance biller/coder. The course covers the fundamentals of health insurance, including plan options, carrier requirements, state and federal regulations, selecting relevant information from source documents, accurately completing claim forms, and coding diagnoses and procedures. The learner will practice completing claim forms for Medicare/Medicaid, Blue Cross/Blue Shield, and commercial carriers.

BOS 225 Integrated Office Applications 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; BOS 257
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
This course is designed to provide practical study and advanced training in Microsoft Office. Emphasis is given to advanced office practice in repetitive correspondence, letter merging, general office and presentation forms, statistical documents, filing and sorting databases, electronic mail, and telecommunication. Application of advanced Microsoft Office concepts and functions to business environments is stressed. Students must be familiar with Windows and have keyboarding skills of at least 30 wpm.

BOS 250 Office Administration II 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This course covers many functions of a business office. Emphasis is placed on the expanding duties of an administrative assistant including time management, business composition, and human relations skills. Continued importance is placed on verbal and written communication. Teamwork, office environment, etiquette, and ergonomics are other topics covered. Specialized office documents are prepared. The role of technology in a business office is continually explored and applied. Students should be familiar with Windows and keyboard at least 30 wpm to be successful.

BOS 257 Word Processing and Document Formatting II 3 credits
Level I Prerequisites: Academic Reading Level 4 or REA 070 or REA 071, may enroll concurrently; Academic Writing Level 6 or ENG 090 or ENG 091, may enroll concurrently
Level II Prerequisites: BOS 157
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is the second of two courses in word processing and document formatting. It introduces students to advanced word processing formatting and functions such as macros, styles, templates, graphics, Web pages, versions, forms, WordArt, Draw, outlines, indexes, and mail merges. The formatting of memos, letters, reports and specialized documents according to current business standards is emphasized throughout the course. Students must be familiar with Windows and have keyboarding skills of at least 25 wpm.

BOS 274 BOS Co-op Education II 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; BOS 174; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain skills from a new experience in an approved, compensated, business-related position. Together with the instructor, the employer, and the co-op placement office, students determine work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two-co-op courses.

Chemistry  CEM

CEM 090 Introductory Chemistry 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course offers a basic exposure to the general concepts of chemistry and provides an introduction to best practices and procedures in a chemical laboratory. Students with no background in high school chemistry or algebra, or students wishing to improve their chemistry background should take this class before taking CEM 105 or CEM 111. This course contains material previously taught in CEM 057 and CEM 058.

CEM 102 Chemistry for Elementary Teachers 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course is designed for students who are planning to teach in elementary schools. It outlines the basic concepts of chemistry such as atomic structure, matter, energy and bonding. The laboratory portion emphasizes the discovery approach using simple equipment and chemicals that are easy to obtain and safe to use around grade school children.

CEM 105 Fundamentals of Chemistry 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 3; high school chemistry or CEM 090, minimum grade “C”
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Students with an interest in nursing or other health related areas, or needing a general science elective find that this broad survey of the major topics in chemistry meets the requirements of their program.

CEM 111 General Chemistry I 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 4; high school chemistry (taken within last 5 years) or CEM 090 (within last 5 years), minimum grade “C” all CEM, MTH and high school requirements
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course covers the major topics in chemistry including: states of matter, physical and chemical changes, stoichiometry, atomic and molecular structure, chemical bonding, thermochemistry and intermolecular forces. It is intended for students in a professional or pre-professional curriculum. Students need intermediate algebra skills to be successful in this course.

CEM 122 General Chemistry II 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CEM 111 (within past 5 years) and MTH 176, both minimum grade “C”
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course is the second of a two-course sequence in general chemistry for pre-professional and liberal arts students. This course develops the concepts of chemical kinetics, chemical equilibrium, chemical thermodynamics and electrochemistry. The ability to solve mathematical equations involving logarithms and exponentials is essential to success in this course.

CEM 140 Organic Biochemistry 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CEM 105 or CEM 111, minimum grade “C”
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course is an introduction to both organic chemistry and biochemistry for nursing and other health services students. Major topics covered are the structure and functional groups of organic compounds, structures of biological molecules, mechanism of enzyme-catalyzed reactions, metabolism and bioenergetics.
Chemistry (CEM) – Child Care Professional (CCP)

**CEM 211 Organic Chemistry I**  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CEM 122 minimum grade “C”
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course is the first in a two-semester sequence in organic chemistry. It provides students with a background in nomenclature of organic compounds, stereochemistry, preparation and reactions of aliphatic and aromatic compounds. Students also practice the preparation and handling of organic compounds in the laboratory.

**CEM 222 Organic Chemistry II**  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CEM 122 and CEM 211, minimum grade “C”
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course continues the exploration of nomenclature, stereochemistry, preparations, and reactions of organic and biological compounds. Students will apply these techniques to the synthesis and spectroscopic analysis of complex organic compounds. Laboratory work includes hands-on spectroscopic analysis of various organic compounds.

**Child Care Professional (CCP)**

**CCP 101 Child Development**  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides a general overview of the physical, social, emotional and intellectual development of the child from conception to maturity with emphasis on the preschool years. It examines the environmental, ethnic and familial factors that make for group differences and individuality of growth, and reviews current research in these areas.

**CCP 113 Health, Safety and Nutrition for Child Care**  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Best practices in health, safety and nutrition are presented. Students develop specific competencies in these areas including establishing and maintaining a healthy, safe child care program, planning nutritional meals and snacks, and teaching children and their parents about health, safety and nutrition. Communicable diseases, government funded child/family food and nutrition programs, playground and toy safety, and resources for the child care provider are included.

**CCP 122 Child Development Credentialing I**  4 credits
Level I Prerequisites: Academic Reading Level 4 or REA 070 or REA 071, may enroll concurrently; Academic Writing Level 6 or ENG 090 or ENG 091, may enroll concurrently
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course provides part of the formal training for the national child care credential, The Child Development Associate (CDA). Students cover seven of the thirteen functional areas of the CDA competency standards: creativity, self, social, guidance, families, program management and professionalism. Students must be at least 18 years of age and have a high school diploma or GED to register for this course. Concurrent enrollment in CCP 132 or regular access to a licensed child care program is required to complete assignments.

**CCP 123 Child Development Credentialing II**  4 credits
Level I Prerequisites: Academic Reading Level 4 or REA 070 or REA 071, may enroll concurrently; Academic Writing Level 6 or ENG 090 or ENG 091, may enroll concurrently
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course provides part of the formal training for the national child care credential, The Child Development Associate (CDA). Students cover seven of the thirteen functional areas of the CDA competency standards: creativity, self, social, guidance, families, program management and professionalism. Students must be at least 18 years of age and have a high school diploma or GED to register for this course. Concurrent enrollment in CCP 133 or regular access to a licensed child care program is required to complete assignments.

**CCP 124 CDA Assessment Preparation**  1 credit
Level I Prerequisites: Academic Reading Level 4 or REA 070 or REA 071, may enroll concurrently; Academic Writing Level 6 or ENG 090 or ENG 091, may enroll concurrently; consent required
Corequisites: CCP 134
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This course helps candidates for the national Child Development Associate Certificate prepare for assessment. Students will receive assistance with preparing the Professional Resource File and preparing for the Early Childhood Studies Review. Students must have completed 120 clock hours of approved instruction in the 13 CDA functional areas and eight subject areas required by the CDA Council and submit proof of this training.

**CCP 132 Child Development Practicum I**  1-2 credits
Level I Prerequisites: Academic Reading Level 4 or REA 070 or REA 071, may enroll concurrently; Academic Writing Level 6 or ENG 090 or ENG 091, may enroll concurrently; CCP 122 minimum grade “C”, may enroll concurrently; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
This course provides a supervised work experience for CDA candidates. Students are expected to demonstrate competence in the CDA functional areas: safety, health, learning environment, physical and cognitive development, and communication. Students are required to be employed in a licensed child care program with infants and toddlers or preschoolers, or licensed family child care home. Observations will be completed at the work site by a practicum instructor during regular hours of operation using the standards for the Child Development Associate national child care credential.

**CCP 133 Child Development Practicum II**  1-2 credits
Level I Prerequisites: Academic Reading Level 4 or REA 070 or REA 071, may enroll concurrently; Academic Writing Level 6 or ENG 090 or ENG 091, may enroll concurrently; CCP 123 minimum grade “C”, may enroll concurrently; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
This course provides a supervised work experience for CDA candidates. Students are expected to demonstrate competence in the CDA functional areas: creativity, self, social, guidance, and families. Students are required to be employed in a licensed child care center with infants and toddlers or preschoolers, or a licensed family child care home. Observations will be completed at the work site during regular hours of operation using standards for the Child Development Associate national child care credential.
CCP 134  Child Development Practicum III  1 credit
Level I Prerequisites: Academic Reading Level 4 or REA 070 or REA 071, may enroll concurrently; Academic Writing Level 6 or ENG 090 or ENG 091, may enroll concurrently; consent required
Corequisites: CCP 124
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
This course provides a supervised work experience for CDA candidates. Students are expected to demonstrate competence in the CDA functional areas: safety, health, learning environment, physical and cognitive development, communication, creativity, guidance, self, social, families, program management, and professionalism. Students are required to work in a licensed child care center with infants and toddlers, preschoolers, or a licensed family child care home. Observation will be completed at the work site during regular hours of operation by an instructor who meets CDA advisor requirements using standards for the Child Development Associate national child care credential.

CCP 160  Foundations of Child Care and Early Education  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CCP 101 minimum grade “C”, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides an overview of the theories and philosophies that have shaped modern child care and early childhood education programs. A history of the field, current issues and future developments in the profession are covered. State licensing requirements and national accreditation standards are emphasized in relationship to establishing and operating programs for children from birth through age twelve.

CCP 200  Working with Parents  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course explores the many facets of parent and staff involvement in the child care setting. Topics include: various forms of parent participation, ways of increasing positive communication with parents, cultural differences and goals of parents, and planning parent involvement programs. Emphasis is given to the preparation, mechanics and techniques for the individual parent/teacher conference and parent meetings. This course should be taken during the last semester of the program or after 50 credits have been completed. It is recommended that students take CCP 101 prior to this course.

CCP 209  Curriculum for Young Children  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CCP 101 minimum grade “C”, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides an overview of developmentally appropriate curriculum creation for young children. State licensing requirements and national accreditation standards are emphasized in relationship to establishing and operating programs for children from birth through age twelve.

CCP 210  Child Guidance and Classroom Management  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CCP 101 minimum grade “C”, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This comprehensive course focuses on child guidance and classroom management for the child care provider and adults working with preschool and elementary school aged children in educational and recreational settings. Emphasis is placed on the social and emotional development of children birth through age 12 and developmentally appropriate guidance strategies. This course meets Positive Behavior Support Standards for the Michigan Department of Education (2000). Current work experience with children age 12 or younger is required. This course was previously CCP 110.

CCP 218  Advanced Child Care Seminar  1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required
Corequisites: CCP 219
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Students learn about the role of the head child care provider, plan and evaluate extended sequences of activities for young children, and analyze and evaluate practice for developmental appropriateness. Students must meet with the CCP program advisor the semester before enrolling to confirm eligibility and select the appropriate work. This course should be taken during the last semester of the program or after 50 credits have been completed.

CCP 219  Advanced Child Care Practicum  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required
Corequisites: CCP 218
0 lecture, 0 lab, 0 clinical, 240 other, 240 total contact hours
Students take increasing responsibility in the child care setting and assume the role of head child care provider for a minimum of two weeks. Students develop activities and learning materials suitable for young children, implementing developmentally appropriate practice in the work place. Students are placed in licensed group child care settings. Student must meet with a program advisor prior to enrolling in the course to arrange placement. This course should be taken during the last semester of the program or after 50 credits have been completed.

CCP 251  Education of Exceptional Children  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CCP 101 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course presents an overview of the major categories of exceptionality. Methods for identifying and working with children in child care, recreational and educational settings are explored. Working with an interdisciplinary team and partnering with parents is a major focus. A working knowledge of resources, a comfort level for working with exceptional children and their families, and exploring the roles of professionals who work with exceptional populations are stressed. This course was previously CCP 100.

Collision Repair Technician  CRT

CRT 200  Refinish Technician I  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade “B”
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours
This advanced refinishing course was developed to aid students who would like to continue their training for possible employment in the collision refinishing industry. Intricate, hard-to-paint automobile parts, such as front bumpers, side mirrors and door handles will be areas of focus. Techniques on proper spray-gun operation and set up, along with specialized polishing procedures, will be covered. Other course topics include the use of “job specific” tooling that aids in the “jigging” of small parts and information on the uses and application of various forms of masking materials.

CRT 201  Collision Technician I  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade “B”
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours
Advanced repair techniques such as damage analysis; the use of computer-ized frame equipment; panel sectioning and non-structural collision repair, will be covered in this course. Live lab activities will include proper tool selection and information concerning the replacement of collision damaged steering, suspension, and power train components. Additional information relating to set up procedures of full-frame and unitized body vehicles will be presented.
Collision Repair Technician (CRT) – Communication (COM)

**CRT 220 Refinish Technician II**  
2 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade “B”  
30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours  
This course provides crucial final detail and inspection information that the modern refinish technician must know in order to effectively release a vehicle back to its owner. Using collision industry standards as a guide, students will learn how and why different shops use various levels of final detailing. Additional topics such as interior and exterior care, buffing, glazing, waxing, overspray removal, leak detection, engine bay reconditioning and preparing vehicles for resale, will be covered.

**CRT 221 Collision Technician II**  
2 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade “B”  
30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours  
This course will introduce the student to outer panel replacement that may include quarter panels, box sides, door skins, rocker sections, core supports, and various other weld-on panels. Selection and proper application of tools and equipment will be emphasized. Instruction will be provided on various types of collision structural damage, frame rack set-up and measurement including diagnostics and theory of repair.

**CRT 240 Refinish Technician III**  
4 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade “B”  
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours  
Students will learn problem-solving and time management skills needed to efficiently mask a vehicle for various spray operations. Actual vehicles, used as training aids, will compliment information presented on masking for primer, paint, and spot repairs. Current information concerning color theory and how to effectively tint solid and metallic colors to achieve a blendable color match will also be discussed.

**CRT 241 Collision Technician III**  
4 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade “B”; CRT 201, CRT 221, and WAF 209 minimum grade “B”  
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours  
Students learn to repair structurally damaged conventional framed and unitized body automobiles and light trucks. Topics such as vehicle set-up procedures and the use of hydraulic frame straightening equipment, along with body and frame construction will be covered. Information concerning air conditioning, heating, suspension and mechanical component replacement as related to the collision repair industry is also presented.

**CRT 260 Refinish Technician IV**  
4 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade “B”; CRT 200, CRT 220, and CRT 240, minimum grade “B”  
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours  
This course provides advanced collision refinishing training as it is applied in “real world” situations. Students will perform light to medium level refinishing operations on Washtenaw Community College owned vehicles that are to be slated for resale. Solid and metallic base-coat/clear-coat and single stage paint systems will be areas of focus. Panel refinishing, blends, and “cut-ins” will be some of the topics covered.

**CRT 261 Collision Technician IV**  
4 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade “B”; CRT 201, CRT 221, and WAF 209, minimum grade “B”  
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours  
This capstone course provides students with advanced information concerning structural and non-structural body replacement. Students, working in a “live shop” setting will repair crash damaged vehicles back to pre-accident condition. Subjects covered include current panel bonding materials and procedures, resistance welding, specialty tooling, panel removal/replacement techniques, and the application of corrosion inhibitors such as body sealers and rubberized undercoats.

**Communication**

**COM 101 Fundamentals of Speaking**  
3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Through the use of practical experience, students acquire the essential speaking and listening skills which are the most sought-after skills in the work world. Students work to relieve the stress which the average person encounters in public speaking. Students will learn organizational and delivery skills, as well as gaining a heightened awareness of the relationship between a speaker and an audience.

**COM 102 Interpersonal Communication**  
3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This interactive course introduces basic aspects of interpersonal communication that influence the quality of personal and workplace relationships. Aspects of ineffective communication behaviors that create misunderstanding are presented. The impact of effective and ineffective interpersonal communication in various contexts is analyzed, and communication tools designed to evaluate conflicts, reduce misunderstandings and to improve interaction with others are applied.

**COM 130 Introduction to Mass Communication**  
3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This survey course introduces students to the technological evolution of mass media and its impact on audience attitudes, as well as how it influences our society’s economic, social, and political climates. Major emphasis is placed on the history, theory, and criticism of the various mediums, including radio, television, film, and Web-based media. The course attempts to create a more ‘critical’ consumer of mass media.

| COM 150     | Introduction to Radio Production                 | 3       |
| Level I Prerequisites: Academic Reading and Writing Levels of 6 |
| 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours |
| This performance-based course introduces students to the world of radio production. Instruction in the basic fundamentals of radio allows students to experience the hands-on processes involved, including equipment operation and editing software, mixing and editing techniques and the production process. With this knowledge, students create a variety of live and edited projects including promos and a weekly show on WCC's own radio station, Orchard Radio. A brief overview of the history of radio and an understanding of the terminology complete this course. |

| COM 155     | Scriptwriting for Broadcast Arts                 | 3       |
| Level I Prerequisites: Academic Reading and Writing Levels of 6 |
| 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours |
| Scriptwriting for Broadcast Arts is designed to give students practical experience in writing styles for the various genres of the broadcast industry. Through practical exercises and projects, students will become familiar with various writing techniques, developing broadcast writing skills and applying those skills to the creation of news stories, editorials, interviews, narration, transitions, feature writing, public service announcements, and commercials. Students will also be exposed to current trends in the industry and given the opportunity to critique those trends and theorize on upcoming styles. |

| COM 160     | Voice and Articulation                          | 3       |
| Level I Prerequisites: Academic Reading and Writing Levels of 6 |
| 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours |
| This performance-based course introduces students to the verbal and non-verbal elements that are utilized in broadcast announcing. Focus is placed on the verbal basics such as pitch control, resonance and articulation, along with the non-verbal fundamentals of paralanguage and body language. These rudiments are paired together with copy analysis and script marking to give students a full understanding of the process of announcing in the many different fields of broadcasting. Practice in writing and script reads, vocal exercises and self-evaluations give the student ample opportunities to understand and showcase these new techniques. |

| COM 170     | Advanced Radio Production                        | 3       |
| Level I Prerequisites: Academic Reading and Writing Levels of 6; COM 150 minimum grade “C” |
| 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours |
| This course is designed to give students a working knowledge of all aspects of a radio station, including Federal Communication Commission rules, licensing regulations, station genres, networks, and programming. Students will also be acquainted with the day-to-day workings of a station, as well as producing a variety of programs for various situations. Students will build upon the basic production skills gained in COM 150, as well as gain experience in various radio production rules. |

| COM 183     | Persuasion                                      | 3       |
| Level I Prerequisites: Academic Reading and Writing Levels of 6 |
| 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours |
| Students will examine and analyze the persuasive techniques used within the different mediums of the mass media. Emphasis will be placed on radio and television and the various segments within those mediums including news, advertising and commercial product placement. This course will expose students to various theories and allow them to identify those theories which are prevalent throughout the mass media and the persuasive effects those theories have on the various audiences. |

| COM 200     | Family Communication                            | 3       |
| Level I Prerequisites: Academic Reading and Writing Levels of 6 |
| 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours |
| Family issues are at the forefront of national concerns, particularly in governmental, educational, and religious arenas. In this course, students learn the foundations of family communication through definitions and theories on how families work. Students will learn how families identify themselves through the creation of and practice of personal narrative and the genogram. This course also examines the ways in which family members interact in healthy and unhealthy ways to meet life’s challenges and the ways media, government, and religion influence the family. |

| COM 225     | Intercultural Communication                      | 3       |
| Level I Prerequisites: Academic Reading and Writing Levels of 6 |
| 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours |
| This course allows students to explore communication between members of different cultures. During the course, students will become familiar with the ways that nonverbal and verbal communication influence intercultural relationships. Students will share cultural similarities and differences and will discuss ethical ways to use communication in order to construct a bridge between cultures. |

| COM 235     | Broadcast Arts Practicum                         | 3       |
| Level I Prerequisites: Academic Reading and Writing Levels of 6; COM 155, COM 160, and COM 170 minimum grade “C” |
| 0 lecture, 0 lab, 0 clinical, 45 other, 45 total contact hours |
| Students will spend scheduled production time in the areas of writing, editing, announcing, and producing to gain experience in the day-to-day duties of radio production professionals. Students will complete an electronic portfolio (demo reel) of their best work as part of an audition package to submit to potential employers and/or internships. The title of this course was previously Practicum: Orchard Radio. |

| COM 240     | Broadcast Arts Internship                        | 3       |
| Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Broadcast Arts program; consent required |
| 15 lecture, 0 lab, 0 clinical, 150 other, 165 total contact hours |
| Broadcast Art students will work in conjunction with a local broadcasting station to gain experience in the broadcasting industry. Students will be exposed to and work in many areas within a station including but not limited to marketing and promotions, programming, sales, and engineering. Students will acquire working knowledge of the day-to-day operations within each of these departments as well as of industry terminology and practices. |

Computer-Aided Drafting (CAD) – Computer Information Systems (CIS)

**CAD 221 CAD IV**
4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CAD 211 minimum grade “C”
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This course provides the student with advanced feature-based parametric solid modeling skills. The course covers 3D construction techniques unique to sheet metal parts, molded parts, weldments, and castings. Solid models will be used to produce dimensioned detail and assembly drawings conforming to industry standards. Animation tools will be used to create exploded views and presentations.

**CAD 274 CAD Co-op Education II**
1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CAD 174 minimum grade “C”; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two co-op courses.

**CIS 099 Computer Literacy**
1 credit
Level I Prerequisites: Academic Reading Level 3; Academic Writing Level 2
15 lecture, 15 lab, 0 clinical, 0 other, 30 total contact hours
This class teaches the minimum Computer Literacy skills needed to succeed at WCC. Competencies covered include using Microsoft Windows, basic word processing, Internet skills, file management and email. Students will also be exposed to Blackboard and MyWCC basics.

**CIS 100 Introduction to Computers and Software Applications**
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours
This class covers the fundamentals of using office productivity software (word processing, spreadsheet, presentation). The office productivity software covered is Word, Excel and PowerPoint. Other topics covered include Windows fundamentals, Web concepts, email concepts, computer hardware, operating systems, software applications and viruses. Class format includes hands-on work on the computer. Basic computer familiarity is assumed, students with no prior experience with computers are advised to take CIS 099 or CIS 117.

**CIS 110 Introduction to Computer Information Systems**
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: A working knowledge of spreadsheet and database software or CIS 100.
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
The course covers the principles of information systems for business majors. It provides an overview of information systems including a review of computer concepts, how technology is used in business, the information systems discipline, and the systems development life cycle. Students need a working knowledge of applications software and keyboarding to be successful in the course.

**CIS 117 Windows Operating System**
2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course covers the use of an operating system with a graphical user interface to maintain, troubleshoot, repair, and customize a microcomputer system. Respect for the rights of others and proper security measures are also discussed. Windows XP is currently used in the course. The course contains material previously taught in CIS 116 and CIS 117.

**CIS 121 Linux/UNIX I: Fundamentals**
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: Completion of a CIS (above CIS 100), CPS, or CSS course
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course introduces UNIX and Linux tools to the experienced computer user and to those with only a basic knowledge of computers. The course covers the UNIX/Linux file system, communication with other users, editors, file manipulation and processing, basics of pipes and redirection, simple shell programming, introduction to the X windows system, and a basic introduction to Linux.

**CIS 174 CIS Co-op Education I**
1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Two courses in CIS discipline, minimum grade “C”; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
This course recognizes the value of learning which takes place on the job by offering college credit for development and achievement of learning objectives which are accomplished through current work experiences. Students also participate in monthly work related activities, such as meetings or seminars.

**CIS 206 Linux/UNIX II: Basic System Administration, Networking, and Security**
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CIS 121
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is the second of four courses on the Linux operating system. Linux System administration tasks are discussed and practiced. This course is designed to help prepare students for Linux Certification Exams. Students should be familiar with common Linux distributions and should be comfortable with basic installation and configuration to succeed in this course.

**CIS 208 Linux/UNIX III: Intermediate System Administration, Networking, and Security**
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CIS 206 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is the third of four courses on the Linux operating system. Linux networking theory is discussed and practical application of the theory is shown through lab exercises. Students should be familiar with common Linux distributions and comfortable with system administration activities to succeed in this course. This course is designed to prepare students for Linux Certification Exams.

**CIS 221 Linux/UNIX Programming and Scripting I**
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CIS 121
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Students learn to use UNIX more efficiently with advanced forms of the commands and utilities covered in CIS 121, as well as new commands and constructs. Advanced forms of topics begun in CIS 121 include sed, grep, awk, perl, and how to effectively use regular expressions, as well as constructs and special commands used in writing shell scripts. New topics covered include functions, traps, arithmetic on variables, and input/output techniques.
CIS 222 Linux/UNIX Programming and Scripting II  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CIS 221
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course covers advanced shell programming topics as well as an introduction to awk, perl, and php.

CIS 274 CIS Co-op Education II  1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CIS 174 minimum grade “C”; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course students gain skills from a new experience in an approved, compensated, computer-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two co-op courses.

CIS 278 Java Server Programming  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CPS 161 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course covers Java Servlets, Java Server Pages (JSP), Java Bean Fundamentals and Java Database Connectivity (JDBC). Students taking this class should have a good knowledge of Java Fundamentals. Some knowledge of simple html and SQL is helpful but not mandatory.

CIS 282 Relational Database Concepts and Application  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CPS 120, CPS 171, or CIS 265, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is an introduction to relational database theory and practice. Topics covered include terminology, normal forms, design of database tables, SQL (structured query language), and application generation. The student will incorporate SQL in procedural files to program applications. This course is intended for anyone possessing a basic knowledge of programming who is interested in database theory and practice. Prerequisites will be checked on the first day of class. The title of this course was previously Small Systems Database.

CIS 288 Systems Analysis and Design  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CPS 161 or CPS 171, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course surveys computer applications and techniques in major areas of business, business structure, analytical communication with system users, principles of package software evaluation and acquisition, planning schedules and resource requirements for software development, and producing software development specifications. Software for data and process modeling will be introduced and used. Several approaches to system planning and development will be examined. Prerequisites will be checked on the first day of class.

CIS 290 Microcomputer System Support  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Students gain problem-solving skills, practice user training techniques, and consolidate knowledge required for serving as a Microcomputer Systems Support Technician. Prerequisites will be checked on the first day of class.

Computer Networking Technology  CNT

CNT 201 Administering Microsoft Windows XP Professional  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CST 225, CST 206, or CIS 117, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to give students a strong foundation in installing, configuring, and administering Windows XP Professional. Topics covered include configuring file systems, security, networking protocols, and network printing. Performance tuning and troubleshooting will be taught, with an emphasis on the boot process and application support. A basic understanding of Windows XP Professional and networking principles are required.

CNT 206 Internetworking I - Fundamentals  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CST 118, CST 150, and CST 225, minimum grade “C”, equivalent experience, or minimum score 80% on departmental exam
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is part of the CISCO networking curriculum at WCC. It prepares students for a portion of the CISCO Certified Network Associate (CCNA) certification examination. Students learn the fundamentals of the Open Systems Interconnect (OSI) model and the basics of computer networking including contemporary network services, transmission media, and protocols. The most common implementations in today's Local Area Networks (LANs) and Wide Area Networks (WANs) are used. This course was previously CNT 200.

CNT 211 Administering and Managing Microsoft Windows Server Active Directory  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CNT 201 or CSS 180, minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course will give a student extensive experience in the setup and configuration of Microsoft Windows Server Active Directory - the key element in Microsoft's implementation of a client/server network. Emphasized are A.D. installation, user/group accounts, sites, global catalogs, FSMO roles, security, delegation, and a large emphasis on group policy implementation. This course will build a strong foundation as part of the preparation for the Microsoft MCSA/MCTS certification as well as job training.

CNT 216 Internetworking II - Routers  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CNT 206 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is part of the CISCO networking curriculum at WCC. It prepares students for a portion of the CISCO Certified Network Associate (CCNA) examination. Students gain the knowledge and skills to install, configure, update, and troubleshoot network routers. This course was previously CNT 225.

CNT 223 Windows Server Networking Infrastructure Configuration  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CSS 180, CNT 211 or CST 225, minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course prepares students to install, configure and administer Windows Server Networking Services. Services configured on server include Telnet, FTP, DHCP, DNS, WINS, RAS, VPN, Router, NAT and File/Print. Networking basics, including the OSI/TCP Models, IP addressing and subnetting, are also reviewed. All server configurations are tested from clients using XP Pro/Vista. The course materials are based on Server 2003 MCSA/Server 2008 MCTS certifications.

Washtenaw Community College – Programs and Services 2010 - 2011
www.wccnet.edu
CNT 224 Microsoft Server Administrator 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CNT 211 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
The course will give a student extensive experience in Windows server management and administration. Emphasized are Windows deployment services, management tools, network infrastructure servers including routers, RRAS, NAT, file and print services, terminal services, security servers including ISA server and fault tolerant methods. This course will build a strong foundation as part of the preparation for the Microsoft MCSA/MCITP certification as well as job training.

CNT 226 Internetworking III - Switches 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CNT 216 minimum grade “C-” or equivalent
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is part of the Cisco networking curriculum at WCC. It prepares students for a portion of the Cisco Certified Network Associate (CCNA) certification examination. It provides students with the knowledge and skills necessary to install, configure, update, and troubleshoot switched LANs and VLANs. Students learn additional skills including classless IP addressing, configuring single area OSPF and EIGRP, switching concepts, configuring Cisco switches, configuration of VLANs, concepts and configuration of VTP, Access Control Lists, and an introduction to wireless LANs. Students must complete CNT 216 or have instructor approval to register for this course. This course was previously CNT 235.

CNT 236 Internetworking IV - WANs 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CNT 226 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is part of the CISCO networking curriculum at the College. It prepares students for a portion of the CISCO Certified Network Associate (CCNA) Certification Examination. The course focuses on advanced IP addressing techniques such as Network Address Translation (NAT), Port Address Translation (PAT), DHCP, and WAN technology and terminology, including PPP, ISDN, DDR, Frame Relay, network management, and introduction to optical networking. In addition, the student will prepare for taking the CCNA Exam. This course was previously CNT 245.

CNT 241 Microsoft Exchange Server Administration 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CNT 211 or equivalent
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course gives students the knowledge and practice necessary to establish an exchange server environment, ranging from one-server organizations to large enterprises with multiple exchange servers. Student proficiency in the planning, installation, configuration, monitoring, backup and troubleshooting of exchange servers is the primary goal. The course also provides initial preparation towards the Microsoft MCSA/MCSE Elective Exam.

CNT 251 Designing Windows Server Security 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CNT 211 minimum grade “C” or active directory experience
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course familiarizes students with the various tools and features provided by Windows Server necessary to secure Windows Network resources. These include methods for securing Active Directory, implementing Certificate Services, setting up secure authentication, configuring ACLs, deciphering UAC, designing firewall and network access protection policies, locking down Windows services, developing effective group policies, planning an auditing scheme and building a Patch Management Program.

Computer Science

CPS 112 Game Development for Beginners 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course introduces the basics of 2D game design and development. Students will identify game resource requirements and then use supplied game resources to make a complete 2D game. Students will develop game algorithms using object instances, sprites, events, action blocks, library functions, levels, sound effects, music, rooms and scores. Students will develop games without using programming language, but they are expected to have experience with computer application software.

CPS 120 Introduction to Computer Science 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CIS 100 or CIS 110
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is an introduction to computer science for those planning to take advanced courses in the computer programming field or for those who do not want to take programming courses but a course is required. Students learn to write, enter, compile and execute simple computer programs. This course is intended to bridge the gap between a basic computer literacy and advanced courses. Topics include numbering systems, operating systems, database, programming, networking, Internet and algorithms. Students must have basic computer literacy in order to be successful in this course. Students with computer experience equivalent to CIS 100 or CIS 110 may contact the instructor for permission to waive the prerequisite.

CPS 161 An Introduction to Programming with Java 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 4; CPS 120 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is designed to provide an introduction to the Java programming language. The focus will be on problem-solving strategies, algorithm development and verification with test data, programming style, and documentation techniques in simple programming examples. The content of this course includes object-oriented concepts, string manipulation, input/output (I/O), graphical user interface (GUI) concepts, and event handling. This course was previously CIS 175.

CPS 171 Introduction to Programming with C++ 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 4
Level II Prerequisites: CIS 100, CIS 110, or CPS 120, minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This is an introduction to programming using the C++ language. Students should have basic experience using a computer but no prior programming is required. Students learn about problem-solving strategies, top-down program development and programming style. Topics include sequential, decision and iterative control structures, functions, basic data structures and an introduction to classes. Students write and execute approximately eight C++ programs. Students with computer experience equivalent to CIS 100 or CIS 110 may contact the instructor for permission to waive the CIS prerequisite.

CPS 261 Programming Data Structures in Java 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CPS 161 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This Java programming language course focuses on software engineering methodology. Topics covered include class inheritance, nested procedures and functions, run-time exceptions, processing binary data files, scope and recursion. Data structures such as stacks, queues, linear lists, trees, sets and files will also be covered and searching and sorting algorithms will be analyzed.
Computer Science (CPS) – Computer Systems Security (CSS)

CPS 271 Object Features of C++ 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CPS 171 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course continues the study of C++ begun in the prerequisite course. Students learn the object-oriented features of the language. Topics include classes, constructors and destructors, operator overloading, pointers, dynamic allocation of memory, inheritance, polymorphism, file manipulation, templates, and exceptions. Prerequisites will be checked on the first day of class.

CPS 272 Data Structures with C++ 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CPS 271 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course continues the C++ sequence. It covers more advanced computer science features as implemented in C++. Topics include advanced data structures, complexity/efficiency of algorithms, recursion and problem-solving.

CPS 276 Web Programming Using Apache, MySQL, and PHP 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course covers Web server programming and database access from the Web. This is not a beginning programming class. Students should know HTML (the Hypertext Markup Language). Experience with a programming language such as C++, Java, C#, etc. would be helpful. Students will build dynamic database-driven Web applications in a UNIX environment using PHP, MySQL, and the Apache Web server.

CPS 293 C#.NET 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CPS 161 or CPS 171, minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course assumes some programming experience and will cover the fundamentals of the C# language and the Microsoft .NET architecture. Language fundamentals will include C# basics and Object-Oriented Programming techniques, such as Data Abstraction, Encapsulation, Polymorphism and Inheritance. This course will cover GUI (Graphical User Interfaces) using Console Application, Window Forms (WinForms) as well as ASPX (Active Server Pages) Web Pages. Other topics include: Properties, Exceptions, Events, Collections, Graphics Data Interface (GDI+). Data Access techniques will be covered including I/O classes, Database ADO.Net (Active-X Data Objects).

CPS 295 Advanced C#.Net and ASP.Net 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CPS 293 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is a continuation of CPS 293 and is intended for students to learn more advanced skills in C#. Class projects will include many advanced features of Microsoft Visual Studio 2005. There will be a special focus on making full use of the C# language using XML, database, Web services and other technologies. Additional focus will be on creating reusable code, using object oriented techniques such as encapsulation, inheritance, interfaces, delegates and polymorphism.

Computer Systems Security 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CIS 100 or CIS 117, minimum grade “C” or industry experience
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Computer Security I is the introductory course in a series of courses dedicated to computer security. It provides an overview of computer systems with an emphasis on security. Topics include basic architecture of computers and operating systems, command line interface, networking concepts and security fundamentals. This course assumes an intermediate level of computer knowledge and experience. The title of this course was previously Computer Security for PC’s.

CPS 200 Computer Security II 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CIS 121, CNT 201 and CSS 180, minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course provides a solid grounding in Information Assurance. Topics to be covered include understanding security measures, techniques for securing systems, legal issues, basic intrusion detection and recovery methods. The title of this course was previously Information Assurance I.

CPS 205 Computer Security III 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CNT 206, CNT 216 and CSS 200, minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is dedicated to the techniques of network penetration testing. Through various hand-out exercises, the student will be introduced to the concepts, techniques, tools, and methodologies for evaluating and auditing network vulnerabilities and properly securing networks from attack. The title of this course was previously Information Assurance II.

CPS 210 Computer Security IV 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CNT 211 and CNT 216, minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is dedicated to the implementation of network security. Students will learn how to design and implement security solutions that reduce the vulnerability of computer networks. The student is introduced to the various methods for defending a network. Topics include concepts and principles of network security, packet filtering with ACLs, network address translation (NAT), configuring and deploying multiple firewall topologies, implementing virtual private networks (VPNs), user authentication and intrusion detection. The title of this course was previously Managing Network Security I.

CPS 212 Computer Security V 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CNT 211 and CSS 205, minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course teaches students to design and implement secure solutions for wireless networks. The student is first introduced to the fundamentals of wireless technology, including principles of radio transmission. Other topics encompass IEEE standards, implementing wireless topologies, wired equivalent privacy (WEP) and the extensible authentication protocol (EAP) framework. The title of this course was previously Fundamentals of Secure Wireless Local Area Networks.

Washtenaw Community College – Programs and Services 2010 - 2011

www.wccnet.edu
Computer Systems Security (CSS) – Computer Systems Technology (CST)

**CSS 215  Managing Network Security II**  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CSS 210 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course will expose the student to various defense methodologies associated with Virtual Private Networks (VPN), Host Intrusion Detection Systems, and Network Intrusion Detection Systems (NIDS). Students will also be introduced to the best practices associated with properly securing critical business network systems using VPNs.

**CSS 220  Computer Security VI**  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CSS 210 and CSS 212, minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours

**CSS 270  Computer Security VII**  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CIS 121, CNT 201, CNT 211, CSS 200 and CST 155, minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This introductory data recovery and analysis course is the first of two courses dedicated to training individuals to conduct corporate computer incident examinations. Students will be introduced to proper procedures for the preservation, identification, extraction, documentation, reporting, acquisition, analysis and interpretation of computer data. Topics covered include evidence handling, chain of custody, collection, preservation, identification and recovery of computer data. Important Note: Students should be able to pass a criminal background check before taking this course. In order to practice Computer Forensics in the State of Michigan, individuals must be licensed as private investigators or qualify for an exemption under statutes pertaining to the licensure of private investigators. The title of this course was previously Computer Forensics I.

**CSS 272  Computer Security VIII**  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CJT 208, CSS 200, CSS 270 and CST 155, minimum grade “C”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Designed for those seeking advancement in the computer security profession, this course surveys legal issues that impact Information Technology professionals, IT Security practitioners and data recovery experts. Substantive and procedural law regarding the right to privacy, the duty to preserve evidence, searches and seizures of electronic evidence, the admissibility of electronic evidence in court, and the prosecution of criminal and civil claims will be covered. This course contains materials previously taught in CSS 240, High-Technology Crime.

**CSS 275  Computer Security IX**  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CSS 270 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course continues the theory and skills of advanced data recovery and analysis. It introduces additional software used to perform forensic analysis of file systems such as Linux, FAT 16, FAT 32 and NTFS. Important Note: Students should be able to pass a criminal background check before taking this course. In order to practice Computer Forensics in the State of Michigan, individuals must be licensed as private investigators or qualify for an exemption under statutes pertaining to the licensure of private investigators. This title of this course was previously Computer Forensics II.

**Computer Systems Technology**

**CST 118  MS Command Line Fundamentals**  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CIS 100 minimum grade “C” or equivalent
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course prepares students to use command line, utilizing the MS-DOS operating system as the instructional tool. Emphasis is placed on the command line for the network administrator/technician. Activities include learning commands, syntax, parameters, redirection, error messages, and file/directory structures. Networking activities include mapping drives, capturing printers and network backups. Preparation of removable boot devices and creation/implementation of batch files are included. This course was previously ELE 118.

**CST 150  Computer Systems Technology I**  5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CIS 100 minimum grade “C” or equivalent
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Through hands-on experiences, this course prepares students to install, configure, upgrade, and troubleshoot personal computers. Students learn the fundamentals of PC hardware including the motherboard, power supply, CPU, memory, storage devices, add-on cards, BIOS, and CMOS. In addition, students learn the fundamentals of the Windows 2000/XP operating system including operating system functions, structure, major system files, and the basic boot sequence. This course was previously ELE 150.

**CST 155  Computer Systems Technology II**  5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CST 150 minimum grade “C” or equivalent
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Through hands-on experiences, this course builds on the student’s knowledge of personal computer installation, configuration, upgrading, and troubleshooting. Students learn both fundamental and advanced techniques in working with the Windows NT/2000/XP operating system. Students apply their understanding of the operating system’s functions and structure, and employ common diagnostic utilities and tools, to identify steps to correct system problems. This course was previously ELE 155.

**CST 174  CST Co-op I**  1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience.

**CST 225  PC Networking**  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: CIS 100 minimum grade “C”
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
Students learn basic concepts associated with using PCs in a networked environment, including connecting to a network and connecting networks together. Included are peer-to-peer and client/server networks, network topologies and architectures, the OSI model, Ethernet and TCP/IP protocols, IPv4/IPv6 and MAC addressing, routers and routing, network printing, NAT and VPN’s, plus wireless networking. The course also provides a strong foundation in preparation for the CompTIA Network+ Exam. This course contains material previously taught in ELE 216A and ELE 225A.

www.wccnet.edu

Washtenaw Community College – Programs and Services 2010 - 2011
Construction Management (CMG) – Construction Technology (CON)

**Construction Management**

**CMG 130 Construction Site Safety and MIOSHA Regulations** 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 4

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course covers both the application of safe work practices and the Michigan Occupational Safety and Health Act (MIOSHA) standards as they apply to construction site safety. Topics include: personal protective equipment; hand, portable and stationary power tools and equipment; construction site safety; MIOSHA standards; HAZMAT; and an investigation into the philosophical, social, economic, and technological bases for safety.

**CMG 150 Introduction to Construction Management** 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 4

30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours

This course covers an introduction to developing, planning, and scheduling construction projects. Additional topics include: site development; material usage; specifications; estimating; and managing cost control.

**CMG 170 Construction Graphics** 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; CMG 150 minimum grade “C”

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course covers basic print reading skills for residential and light commercial/industrial projects. It includes symbols and conventions, terminology, print organization, and basic material take-off techniques. It will include refinement of basic sketching and drawing skills.

**CMG 180 Application of Construction Materials** 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; CMG 150 minimum grade “C”

30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours

The purpose of this course is to give students an overview of the basic properties and use of construction materials. Students will be required to attend lecture and lab to analyze basic materials that include: soils, concrete, masonry, steel, wood, plastic, finishes, and thermal.

**CMG 200 Construction Systems** 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; CMG 170 minimum grade “C”

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course covers structural systems, associated non-structural components, and consideration appropriate to mechanical, electrical, plumbing, and support equipment.

**Construction Technology**

**CON 104 Residential Construction I** 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6

30 lecture, 75 lab, 0 clinical, 0 other, 105 total contact hours

This is an introductory course in residential construction and teaches skills and knowledge that prepare students for the advanced certificates in construction-related fields. Topics include material identification, deck and platform building, as well as the safe and practical use of hand power tools used in residential construction and building industries.

**CON 105 Residential Construction II** 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6

30 lecture, 75 lab, 0 clinical, 0 other, 105 total contact hours

This course covers the construction of interior partitions, wall openings, windows and doors. Ceiling joists and rafter systems, layout procedures, print interpretation and installation techniques are included to support the lab activities. Students must show job safety skills.

**CON 106 Math, Measurement, and Graphics** 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

Students learn construction math formulas, review basic fraction problem-solving for construction, basic construction measurement, and graphic communication used in construction.

**CON 130 Commercial Property Maintenance I** 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

Students will be introduced to safety, sexual harassment and fair housing regulations set forth by the state and federal government. Students will learn customer service and time management as they relate to employment in the repair and maintenance of commercial properties (including: hotels, offices, malls, residential rental property, both single and multifamily, resorts, and office buildings). Students will understand the basic components of plumbing in a commercial property and apply proper techniques to correcting malfunctions and/or installation of new products. Students will learn the basic components of doors, locks and closers and apply proper techniques to correcting malfunctions and/or installation of new products. This course was previously TRI 131.

**CON 133 Commercial Property Maintenance II** 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; CON 130 minimum grade “C”

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

Students will be introduced to basic electricity. Students must comprehend and apply proper safety guidelines for the fundamentals of electricity and how those apply to series circuits, parallel circuits and electrical devices. Comprehension and application of advanced plumbing techniques will be addressed including sinks, faucets, drains, water heaters and boilers. Students will understand and flooring at each level including, sub-flooring and floor covering. This course was previously TRI 133.

**CON 135 Commercial Property Maintenance III** 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; CON 133 minimum grade “C”

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

Students will be introduced to HVAC terminology. Students will recognize heating and refrigeration systems and components. Comprehension of major appliance components and installation processes applying proper industry standards. Students will also understand wall covering by applying proper industry, safety and ventilation standards. This course was previously TRI 135.

**CON 137 Commercial Property Maintenance IV** 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; CON 135 minimum grade “C”

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

Students will comprehend advanced HVAC terminology for troubleshooting system and electrical issues. Students will recognize the different types of exterior finishes and understand repairs of those finishes following proper industry and safety standards. Students will examine chemical and cleaning systems for pools. Students will identify pool maintenance issues and understand how to repair said issues. This course was previously TRI 137.
There will be a focus on using the vacuum press and other techniques to fabricate student consultation with the instructor lumber, manufactured lumber, and plastics for working into complex assemblies. Installations, cabinetry planning and installation, and paints and floor finishes. Topics include insulation and drywall applications, interior trim materials and applications systems, roofing and water distribution systems, and final lot and site planning finishes.

The title of this course was previously Cabinet Making Principles and Concepts.

In this course, students gain skills from a new experience in an approved, level I Prerequisites: Academic Reading and Writing Levels of 6; C 30 lecture, 75 lab, 0 clinical, 0 other, 105 total contact hours Students will be instructed towards a) taking the State of Michigan Builders License Exam, b) writing legal construction contracts for projects and c) the planning required for starting a residential construction business.

This course introduces the production aspect of residential construction. Students will be using house plans to estimate materials, schedule trades, and prepare quality control “punch lists” based upon materials and trades used. Topics include residential construction materials, estimating, scheduling and quality control.

Students learn proper installation techniques for inter trim systems including stairs, handrails, crown molding, cabinet detailing, and built-up trim details.

In this course, students learn about job cost tracking, mechanical detailing, and plan execution.

This course covers the theory and application techniques for exterior systems, roof covering systems and lot and site finishes. Topics include siding and veneer application systems, roofing and water distribution systems, and final lot and site planning finishes.

This course covers the installation of interior finishes for residential construction. Students will have hands-on experiences with concrete and exterior finishes. Topics include concrete footings, walls and slabs, and exterior veneer installation techniques.

This course covers the installation of interior finishes for residential construction. Topics include insulation and drywall applications, interior trim materials and installations, cabinetry planning and installation, and paints and floor finishes.

This course covers the theory and application techniques for exterior systems, roof covering systems and lot and site finishes. Topics include siding and veneer application systems, roofing and water distribution systems, and final lot and site planning finishes.

This course covers the installation of interior finishes for residential construction. Students will have hands-on experiences with concrete and exterior finishes. Topics include concrete footings, walls and slabs, and exterior veneer installation techniques.

This course covers the theory and application techniques for exterior systems, roof covering systems and lot and site finishes. Topics include siding and veneer application systems, roofing and water distribution systems, and final lot and site planning finishes.

This course covers the installation of interior finishes for residential construction. Students will have hands-on experiences with concrete and exterior finishes. Topics include concrete footings, walls and slabs, and exterior veneer installation techniques.
CON 274  CON Co-op Education II  1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CON 174; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two co-op courses.

CON 275  Cabinetry and Millwork IV  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CON 175 minimum grade “C”
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Using various finishing materials (oil-based, shellac, lacquer, modern resin, catalyzed and multi-part systems) students will learn how to prepare cabinetry and millwork materials for finishing. The course will include detailed explanations of wiped, rolled, brush and spray applications of cabinet and furniture finishes. Students will learn finishing techniques using proper industry set up and safety standards. The title of this course was previously Finishing Concepts.

Criminal Justice

CJT 100  Introduction to Criminal Justice  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides a survey of crime in America, as well as all three components of the criminal justice system i.e., law enforcement, courts, and corrections.

CJT 110  Emergency Telecommunication  5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required
80 lecture, 0 lab, 0 clinical, 0 other, 80 total contact hours
The goal of this course is to provide participants with basic skills in public safety communication. Communication skills, telephone and dispatch techniques, legal issues and CPR skills are some of the topics covered in the course.

CJT 111  Police/Community Relations  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
The role of the individual officer and the department in achieving and maintaining public support is studied. Topics include: customs, culture, and problems of ethnic and minority groups. Public information services, and techniques for the alleviation of community tensions are also covered.

CJT 120  Criminal Justice Ethics  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is a normative ethics course that examines values and issues relevant to success in the criminal justice area. The course includes personal values clarification, historical ethics and applied ethics.

CJT 160  Criminal Justice Constitutional Law  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
A comprehensive examination of key provisions of the US Constitution with emphasis on those areas affecting the rights and privileges of individual citizens (e.g. those imparting procedural law). A historical approach is adopted to give students a complete understanding of the mutable nature of the Constitution and those factors which impact it. This course was previously CJT 112.

CJT 208  Criminal Evidence and Procedure  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is an examination of the criminal justice judicial process, including the roles of defense attorneys, prosecutors and judges. It emphasizes the rules and laws governing the admissibility of evidence, as well as the law governing criminal procedure.

CJT 209  Criminal Law  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course examines the history and philosophy of the development of criminal law in America. It is an in depth examination of the elements of traditional crimes, based upon the common law and the Model Penal Code. The course covers the theoretical challenges and defenses to criminal liability.

CJT 221  Law Enforcement Training  16 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; minimum 45 credits with 2.0 GPA and pass MCOLES test; consent required
487 lecture, 410 lab, 0 clinical, 0 other, 897 total contact hours
This course is an approved Police Academy for the State of Michigan. The Michigan Commission on Law Enforcement Standards (MCOLES) Policy and Procedure Manual, WCC Police Academy Daily Rules and Regulations, and the WCC Student Handbook will govern student conduct. The Police Academy is structured as an adult learning experience and will require significant self-discipline on the part of the student. Students will be held to this same code of ethics as sworn law enforcement officers.

CJT 223  Juvenile Justice  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
The course is an in depth examination of the juvenile justice system, including law enforcement, courts and corrections. It emphasizes the history and philosophy of a separate justice system. This course also surveys the theories of causation of juvenile delinquency, juvenile victimization, and intervention strategies.

CJT 224  Criminal Investigation  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Students will be introduced to the science of criminal investigation. They will become familiar with the methodology of crime scene investigations, evidence collection, preservation, and analysis. Included are the rudiments of follow-up investigations, interviews, interrogations and report writing. Techniques applicable to investigation of specific crimes will be highlighted.

CJT 225  Seminar in Criminal Justice  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides a unifying experience and evaluation of criminal justice systems, policies and practices. Preparation of a concluding research paper is required for this course. The focus is on analytical thought processes and problem-solving.
Culinary Arts

CUL 100 Introduction to Hospitality Management
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to give students an overview of the hospitality industry and opportunities in the industry today. It is an introduction to the study of the business organization and functions of management. On-site tours of the hospitality industry will be coordinated.

CUL 110 Sanitation and Hygiene
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course communicates the importance of sanitation to the hospitality worker: layman’s bacteriology, communicable diseases, food poisoning, pest control, cleaning and sanitizing and personal hygiene. Students who complete this course and pass the exams receive National and State Sanitation Certification. CUL 110 is a requirement in all of the culinary programs and must be taken the first semester a student begins any culinary program.

CUL 114 Baking I
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 110 minimum grade “C”, may enroll concurrently
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours
This course introduces students to basic theory, practices, and production techniques required to produce quality baked goods, such as yeast raised and quick breads, pies, cakes, and cookies. Emphasis is placed on time management, safe food handling, storage, and proper utilization of ingredients and equipment.

CUL 115 Pastry I
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 110 minimum grade “C”, may enroll concurrently
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours
The student learns to produce contemporary pastries applicable to the foodservice industry. Emphasis is placed on basic baking and pastry production. Lectures, demonstrations, and practical applications of a pate a choux specialties, gateaux, sauces, custards, mousses, churched and still frozen desserts are emphasized.

CUL 118 Principles of Nutrition
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
General principles of nutrition are discussed in this course as they pertain to selection of foods, nutritional needs of all age groups, the meaning of food to people, the relationship of food and nutrition to menu planning.

CUL 120 Culinary Skills
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 110 minimum grade “C”; may enroll concurrently
Corequisites: CUL 121
30 lecture, 83 lab, 0 clinical, 0 other, 113 total contact hours
This course introduces the student to the principles of quantity food production, fabricating techniques recipe conversions, costing, product identification and classical culinary skills. The student will develop the skill to operate and care for equipment, along with maintaining a safe and sanitary environment. In addition, this course will provide a solid foundation in covering the basics of food service and food technology. This course contains material previously taught in CUL 111.

CUL 121 Introduction to Food Preparation Techniques
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 110 may enroll concurrently
Level II Prerequisites: Serve Safe Certificate
Corequisites: CUL 120
30 lecture, 83 lab, 0 clinical, 0 other, 113 total contact hours
This course is an introduction to the basic concepts, techniques, terminology and methods involved in the preparation, presentation and portioning of various food and menu items. Students rotate through the stations of a commercial kitchen gaining experience in knife skills, food production, food preparation, recipe understanding and the overall operation of a restaurant kitchen. The course focuses on a la carte and cooked to order foods, as well as some quantity food production, the cookery process, food presentation, portioning and teamwork. This course contains material previously taught in CUL 111.

CUL 124 Baking II
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 114 or CUL 124
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours
This course builds on principles and production techniques learned in Baking I, CUL 114. Students learn more complex production skills in the preparation of sweet and savory specialty breads, chiffon’s mousse, custard pies, egg foam based cakes, pate choux products, doughnuts, Danish and puff pastry. Students with experience equivalent to CUL 114 may contact the instructor for permission to waive the prerequisite.

CUL 125 Pastry II
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 115 or CUL 124
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours
The student continues to learn contemporary desserts and pastries. Emphasis is placed on holiday desserts, hot and cold plated desserts, confectionery, chocolate and sugar show pieces, and management and interpersonal skills.

CUL 132 Basic Cake and Wedding Cake Design
2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 110 minimum grade “C”, may enroll concurrently
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
The course is designed to teach elementary cake decorating techniques. Students will learn proper preparation for frosting and will demonstrate a variety of applications. The course progresses into advanced techniques including rolled fondant, lace pieces, ruffles, borders, gum paste flowers, and wedding cake construction. CUL 130 and CUL 131 have been combined to form CUL 132.

CUL 135 International Cuisine and Culture: A Study Abroad
1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 10 lab, 0 clinical, 0 other, 25 total contact hours
The course will focus on different aspects of the cuisine and culture of an international destination. Emphasis will be placed on how food and art influence lifestyle and culture. Students will explore how geographical and cultural components shape the use of different food products, cooking methods, service styles and other factors that have lead to the current cuisine and culture.
Culinary Arts (CUL)

CUL 140  Bakery Management and Merchandising  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 110
minimum grade “C” and CUL 114 and CUL 115
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours
This course introduces students to management and merchandising concepts
utilized in bakeries. Emphasis is placed on cost control, sales concepts, customer
service, and product presentation. Students will acquire hands-on experience
in retail sales.

CUL 150  Food Service Management  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 110
may enroll concurrently
Corequisites: CUL 151
30 lecture, 62 lab, 0 clinical, 0 other, 113 total contact hours
The purpose of this course is to provide a full service restaurant laboratory for
students to apply theory and techniques related to restaurant job descriptions,
guest service strategies and management trends. The students will be given
the opportunity to earn certifications in Techniques of Alcohol Management
(TAM) and CPR.

CUL 151  Food Service Marketing  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 110
may enroll concurrently
Corequisites: CUL 150
30 lecture, 62 lab, 0 clinical, 0 other, 113 total contact hours
Students demonstrate personal sales strategies as they operate a full service
restaurant lab. Guest speakers, tours, and classroom discussions will follow
the lab covering topics related to functions of marketing such as promotion,
advertising, and public relations.

CUL 174  CUL Co-op Education I  1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; 15 credit
hours in program; consent required
10 lecture, 0 lab, 0 clinical, 120 other, 130 total contact hours
In this course students gain skills from a new experience in an approved,
compensated, culinary arts-related position. Together with the instructor and
employer, students set up work assignments and learning objectives to con-
nect classroom learning with career-related work experience. This is the first
of two co-op courses.

CUL 210  Gardemanger  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 120
and CUL 121
25 lecture, 50 lab, 0 clinical, 0 other, 75 total contact hours
The student will demonstrate classical food preparation and presentation as
they relate to the cold food kitchen (Gardemanger) and buffet display. Students
will plan and prepare buffet foods for 35-40 persons based on a specific theme.
Students will demonstrate the methods related to the preparation of cold foods,
pates, terrines, galantines, charcuterie, hors d’oeuvres, mousse, vegetable carv-
ing and garnishing, and ice sculpture.

CUL 220  Organization/Management of Food Systems  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 100
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
A study of the processes of recruitment, selection, training and evaluation, col-
lective bargaining and human relations techniques in personnel management.
Theoretical applications are developed and discussed through actual case studies.

CUL 224  Principles of Cost Control  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Forecasting and cost control exercises are a major part of this course. Students
are involved in analyzing all costs related to food, beverage, labor and supplies as
well as discussions and exercises related to purchasing, receiving, and storage.

CUL 227  Advanced Culinary Techniques  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 230
and CUL 231, minimum grade “C+”
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
This course is a culmination of experiences for the advanced student. Focus will
be placed on the basic principles one must master to become a skilled culinarian.
Students are presented with an opportunity to exercise the principles and solid
fundamentals of professional cooking through competitive events. The competitor
(student) is further challenged in his or her creativity and individuality with an
ever present focus on simplicity and elegance.

CUL 228  Layout and Equipment  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 120
and CUL 121
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This class is designed to give necessary insight involved in developing a floor
plan of a restaurant or food service facility. Individual projects make use of
information related to surveying, planning and design of both menu and kitchen
layout. Students with experience equivalent to CUL 120 and CUL 121 may contact
the instructor for permission to waive the prerequisite.

CUL 230  Quantity Food Production  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 110,
CUL 120, and CUL 121 minimum grade “C”
Corequisites: CUL 231
30 lecture, 83 lab, 0 clinical, 0 other, 113 total contact hours
This course builds on the basic preparation and production techniques developed
in elementary food preparation. The course is designed to provide students
with advanced preparation techniques and methods required to produce quality
food items in quantity for breakfast, brunches, and luncheon buffets. Students
demonstrate organization, management, and production skills.

CUL 231  A La Carte Kitchen  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; CUL 120
and CUL 121
Corequisites: CUL 230
30 lecture, 83 lab, 0 clinical, 0 other, 113 total contact hours
This course gives students opportunities to advance and refine their skills in
high quality food production. Food preparation focuses on restaurant “cooked
to order” foods. Students will focus on correct applications and fundamentals
of culinary skills, quantity food production, organization, mise en place, cooking
methods, improved knife skills, plate presentation and the use of standardized
recipes. Emphasis is placed on timing, organization, proportioning and teamwork.

CUL 250  Principles of Beverage Service  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to teach students techniques in beverage production and
service as well as the ability to identify strategies for effective management and
marketing of beverage operations. Emphasis will be placed on point of origin,
mixology and regulations of beer, wine, and spirits. Comparative tastings are a
major component of this course.
### Culinary Arts (CUL) – Custom Cars and Concepts (CCC)

**CUL 260 Catering and Banquet Production Management**  
3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of the Culinary and Hospitality Management program or CCC 227, may enroll concurrently; consent required  
15 lecture, 60 lab, 0 clinical, 0 other, 75 total contact hours  
This advanced course provides the graduate culinary arts degree student with the ability to display knowledge of a variety of catering operations. This will include planning, organizing, marketing and executing receptions, parties, and special events.

### Custom Cars and Concepts  
CCC

**CCC 200 Custom Auto Body Technician I**  
4 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade of “B” or better in each course  
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours  
This course was created for students who are interested in pursuing a career in the specialty car market of hot rods, customs and concept vehicles. Students will build on skills in prerequisite courses to evaluate their skills, while learning the techniques and applications of custom car building. Students will learn to install and modify many aftermarket products such as hinge kits and remote door openers. Other areas of instruction will include custom speaker enclosures, interior modifications and the process used to achieve show car quality sheet metal fit and finish.

**CCC 201 Custom Fabrication and Chassis Design I**  
4 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade of “B” or better in each course  
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours  
This course is designed for the student interested in pursuing a career in chassis design and assembly as well as metal fabrication as it pertains to the world of custom vehicles. In this class, students will build their skills and proficiency using the tools of the trade such as the iron worker, hand brake, foot shear and Beverly sheer. Subjects covered will include installing air bag suspension, choosing wheel/tire offset combinations, raising and lowering suspension, as well as fabricating various custom parts needed to build a custom car.

**CCC 220 Custom Auto Body Technician II**  
4 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade of “B” or better in each course  
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours  
In this class, emphasis will be placed on the student’s ability to perform body work related procedures that help to achieve a suitable substrate for the application of a show quality paint job. Topics included are the removal of factory body imperfections such as stamping marks and spot weld seams. Techniques involved in shaving door handles, fine tuning of body panel gaps, and processes involved with the texture removal and surface preparation of plastics used in the automotive industry will be also covered. Instructors will also provide information on advanced paint operations such as “ghosting” of graphics, “smoking” of headlights/tailights and special sanding/buffing procedures as related to the final appearance of a custom car.

**CCC 221 Custom Fabrication and Chassis Design II**  
4 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade of “B” or better in each course; CCC 201 and WAF 215 minimum grade “B”  
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours  
The student will continue to build on skills acquired. Class projects will be based on the design and fabrication of suspension components, and the extensive amount of “one of a kind” parts needed to complete a custom vehicle. Working in a team environment, students will establish project guidelines, develop problem-solving skills, and strive to achieve team goals in a timely manner. Past projects such as the “Summer School Chevelle” have been featured on The Learning Channels’ “Rides.” Other Custom Cars & Concepts vehicles have gained national recognition by receiving awards at the legendary Detroit Autorama, and have been showcased by Ford, Dodge, and General Motors at the Specialty Equipment Market Association (SEMA) show in Las Vegas.

**CCC 240 Custom Auto Body Technician III**  
4 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade of “B” or better in each course; CCC 200 and CCC 220, minimum grade “B”  
60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours  
The object of this course is to provide a platform on which students can start to apply the skill and experience they have acquired in prior courses. Students will demonstrate their proficiency in the design, assembly, and completion of show quality vehicles. Prior projects have been featured in national media publications such as News Week, Car and Driver, Hot Rod, and television programs that includes The Learning Channels’ “Rides.” Teamwork, establishing project guidelines, time management, developing problem-solving skills, goal setting, and the achievement of these goals will be emphasized.

**CCC 241 Custom Fabrication and Chassis Design III**  
6 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade of “B” or better in each course; CCC 201 and WAF 215, minimum grade “B”  
75 lecture, 75 lab, 0 clinical, 0 other, 150 total contact hours  
Students taking this course will continue to develop skills and gain valuable information as it relates to the completion of a project vehicle. Areas of study include fastener selection, electrical system upgrades, ride tuning of suspension, brakes, steering, and final safety inspections. Working with staff and other team members, students will devise a promotional plan, aid in the set up, display and help organize the project vehicles’ debut.

**CCC 260 Custom Auto Body Technician IV**  
6 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Completion of Auto Body Repair certificate with minimum grade of “B” or better in each course; CCC 200 and CCC 220, minimum grade “B”  
75 lecture, 75 lab, 0 clinical, 0 other, 150 total contact hours  
Students taking this course will continue to build on fundamental skills that they have developed in the construction of show quality automobiles. Various topics associated with the completion of a project car will be covered. These topics include, but are not limited to, final assembly, fit and finish, and final detailing of the project vehicle. In addition to these course objectives, students will aid in the development of a promotional plan for the vehicle, and help in the coordination of venue set up and display.
Custom Cars and Concepts (CCC) – Dance (DAN)

CCC 290 Mobile Electronics 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ABR 111 and ABR 135, minimum grade “C” or ASV 152 minimum grade “C”
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours
This course covers the principles of mobile automotive electronics and integration of aftermarket electrical upgrades. The emphasis is centered on the planning and installation of performance audio, HID LED lighting, remote start and navigation systems as well as basic harness design and layout. It provides practical and theoretical experience necessary to fully understand the tools, equipment and organization of many custom electrical projects. Students will be prepared to take the Basic Installation Technician Exam to become a Mobile Electronics Certified Professional.

Dance

DAN 101 Beginning Modern Dance I 1 credit
Level I Prerequisites: No Basic Skills
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course introduces and applies basic modern dance exercises and steps. This course includes the opportunity to perform a modern dance piece in an end-of-term recital.

DAN 102 Beginning Modern Dance II 1 credit
Level I Prerequisites: No Basic Skills
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course introduces and applies complex modern dance exercises and steps. This course includes the opportunity to perform a modern dance piece in an end-of-term recital.

DAN 103 Beginning Tap Dance I 1 credit
Level I Prerequisites: No Basic Skills
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course introduces and applies basic tap dance exercises and steps. This includes the opportunity to perform a tap dance piece in an end-of-term recital.

DAN 104 Beginning Tap Dance II 1 credit
Level I Prerequisites: No Basic Skills; DAN 103 minimum grade “C”
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course introduces and applies complex tap dance exercises and steps. This course includes the opportunity to perform a tap dance piece in an end-of-term recital.

DAN 105 Beginning Jazz Dance I 1 credit
Level I Prerequisites: No Basic Skills
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course introduces and applies basic jazz dance exercises and steps. This course includes the opportunity to perform a jazz dance piece in an end-of-term recital.

DAN 106 Beginning Jazz Dance II 1 credit
Level I Prerequisites: No Basic Skills
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course introduces and applies more complex jazz dance exercises and steps. This course includes the opportunity to perform a jazz dance piece in an end-of-term recital.

DAN 107 Beginning Ballet I 1 credit
Level I Prerequisites: No Basic Skills
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course introduces and applies the basic ballet barre and floor exercises and vocabulary. This course includes the opportunity to perform a ballet dance piece in an end-of-term recital.

DAN 108 Beginning Ballet II 1 credit
Level I Prerequisites: No Basic Skills
Level II Prerequisites: DAN 107 minimum grade “C”
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course introduces additional vocabulary and more complex floor and barre exercises than Beginning Ballet I. This course also includes the opportunity to perform a ballet dance piece in an end-of-term recital.

DAN 110 African Dance I 1 credit
Level I Prerequisites: No Basic Skills
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course introduces and applies basic African dance exercises and steps. This course includes the opportunity to perform an African dance piece in an end-of-term recital.

DAN 111 Hip Hop Dance 1 credit
Level I Prerequisites: No Basic Skills
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course introduces and applies Hip Hop dance exercises and steps. This course includes the opportunity to perform a Hip Hop dance piece in an end-of-term recital. The title of this course was previously Popular Dance Forms.

DAN 122 Ballroom Dance I 1 credit
Level I Prerequisites: No Basic Skills
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course introduces and applies basic ballroom dance exercises and steps.

DAN 123 Dance Exercise I 1 credit
Level I Prerequisites: No Basic Skills
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This is an activity class, in which students participate in dance-related exercise. They will learn correct techniques, which will increase flexibility, mobility, and strength. Students will also learn the relationship of exercise to health.

DAN 180 Dance Appreciation: The World of Dance 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
A lecture demonstration course defining dance and its religious, social, cultural, historical, sexual, and artistic qualities. The course will include the viewing of video documentation, discussion, research, and demonstration of a chosen dance form. This is not a dance class. Note: Students interested in a dance class are encouraged to take one of the beginning level classes.

DAN 200 Advanced Performance 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; DAN 101, DAN 105 and DAN 107, minimum grade “C”; each DAN course may enroll concurrently
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course provides the experienced dancer with the tools and language of choreography. Using these tools, the student will create and present dance works. The technical aspects of production will be introduced and utilized. This course culminates in an end-of-term production.

</table>
Dental Assisting (DEN) – Drama (DRA)

W ashtenaw Community College – Programs and Services 2010 - 2011  www.wccnet.edu

DEN 129 Oral Pathology and Dental Therapeutics 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; DEN 106 and DEN 107, minimum grade “C”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course is a study of diseases of teeth and supporting structures, oral pathology, and systemic diseases and their relationship to dental health. Dental assistant students gain experience in critical evaluation of a patient’s health status and apply the essential skills needed to assist in common dental/medical emergencies. Various drugs and their effect on medical/dental care also are studied.

DEN 130 Clinical Practice 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; DEN 102, DEN 108, and DEN 110, minimum grade “C”
Level II Prerequisites: current CPR card
0 lecture, 0 lab, 130 clinical, 0 other, 130 total contact hours
This course provides Pathway I option A students with clinical application of all previous knowledge as they gain clinical experience in the WCC Dental Clinic and in the University of Michigan Dental Clinic. Students assist during basic preventive and operative procedures, monitor vital signs, apply OSHA and CDC guidelines, sterilize instruments and manage patient records.

DEN 131 Principles of Dental Specialties 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; DEN 110 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course introduces students to the role of the dental assistant in dental specialties. Latest concepts in each specialty are presented by dental specialists.

DEN 133 Clinical Practice 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; DEN 102, DEN 108, and DEN 110, minimum grade “C”
Level II Prerequisites: current CPR card
0 lecture, 0 lab, 130 clinical, 0 other, 130 total contact hours
This course provides Pathway option B students with clinical application of all previous knowledge as they gain clinical experience in their office of employment. Students have the opportunity during basic preventive and operative procedures, monitor vital signs, apply OSHA and CDC guidelines, sterilize instruments and manage patient records.

DEN 202 Advanced Clinical Practice 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; DEN 130 minimum grade “C” or DEN 133 with grade “P”; DEN 135 may enroll concurrently
Level II Prerequisites: current CPR card
0 lecture, 0 lab, 195 clinical, 0 other, 195 total contact hours
This course builds on the student’s clinical experience of DEN 130/133. The student develops advanced clinical skills in areas of interest. Students must complete two rotations at different clinical sites and provide evidence of such a rotation.

DEN 204 Advanced Functions 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Pathway I students - DEN 202 minimum grade “C”, may enroll concurrently; or Pathway II students - Admission to Dental program
Level II Prerequisites: current CPR card
15 lecture, 105 lab, 15 clinical, 0 other, 135 total contact hours
This course is designed to provide dental assisting students with knowledge and skill in performing legally delegated intra-oral functions. In Michigan, the legal duties of the Registered Dental Assistant are outlined in the Administrative Rules of the Michigan Board of Dentistry.

DEN 205 Expanded Duties for the RDA 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: current RDA license
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
This course is designed for the current registered dental assistant in the State of Michigan who must meet the requirements of the Public Health Code Section 333.16611.

DEN 212 Dental Practice Management 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; DEN 107 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides an overview of the dental business office. Topics include styles of management, office management software, office accounting, and business office equipment including computers. Interpersonal communication, both written and oral, are emphasized. Students develop skills in interviewing and writing letters of application and a resume.

DEN 230 Alternative Dental Assisting Education Project 9 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Dental Assisting program - Pathway II students
30 lecture, 16 lab, 600 clinical, 0 other, 646 total contact hours
This course is designed specifically for the on-the-job trained dental assistant who has been admitted to the Dental Assisting Program with advanced standing after successfully passing all three components of the Dental Assistant National Board CDA Examination. The student demonstrates clinical, laboratory, and radiographic skills in their offices of employment. Students also observe two specialty dental practices.

Drama (DRA)

DRA 152 Acting for the Theatre I 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
An introduction to acting skills and techniques through improvisation and the presentation of dramatic scripts. Voice projection, staging, character development and emotional expression are explored in theatre games, monologues and scenes. The course will appeal to anyone interested in developing acting, presentation and/or communication skills. All skill levels are welcome.

DRA 170 Theatre Festival 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Students will travel to a professional theatre festival such as the Stratford Theatre Festival or the Shaw Theatre Festival in Ontario to attend plays, participate in class discussions, and do preparation for an essay assignment. The course will appeal to those with an interest in various aspects of theatrical performance, including acting, directing, design, production, and literature. A back-stage tour of the facilities will be included. There will be additional expenses for travel.

DRA 204 Improvisational Acting for the Theatre 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; DRA 152 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
An interactive acting course introducing the art of performing without a script. Various forms of impromptu exercises and traditional acting games are explored to enhance skills in spontaneity, comic timing, concentration, verbal and non-verbal expression, characterization and group cooperation. Students will practice developing improvisational sketches and prepare to perform before an audience.
The principles of economics sequence is divided into two courses:

**ECO 110 Introduction to Economics**
- **Credits:** 3
- **Prerequisites:** Academic Reading and Writing Levels of 6
- **Contact Hours:** 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
- This course introduces scarcity and rational choice, markets, "supply and demand," the business firm costs, and competition. Macroeconomic topics include GDP, unemployment, and inflation, as well as money, banking, and government stabilization policy. International trade issues are also considered.

**ECO 111 Consumer Economics**
- **Credits:** 3
- **Prerequisites:** Academic Reading and Writing Levels of 6
- **Contact Hours:** 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
- This course examines the role, rights, and responsibilities of the consumer in a market economic system. The decision-making process, and the manner in which advertising and other information sources influence decision-making, will be examined. Best practices in a number of specific consumer markets, such as housing, health-care, banking and credit, and transportation will be examined. Government protection and other avenues of redress will be addressed.

**ECO 211 Principles of Economics I**
- **Credits:** 3
- **Prerequisites:** Academic Reading and Writing Levels of 6; Academic Math Level 4
- **Contact Hours:** 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
- This is the first half of the principles of economics sequence. It emphasizes measurement and determination of inflation, unemployment, output, growth, and national income. The role and creation of money are discussed. Fiscal and monetary policy are considered. Supply and demand analysis is developed as a foundation.

**EWA 120 Blueprint Reading**
- **Credits:** 1
- **Prerequisites:** Academic Reading and Writing Levels of 6
- **Contact Hours:** 15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
- The course teaches students how to identify line types, use of drawing tools, and techniques used in creating blueprints. Students also study drafting scales, electrical symbols, mechanical symbols, and job specifications to prepare them for transferring written information into the physical installation of complete electrical systems. Limited to IBEW 252 Apprentices.

**EWA 130 DC Theory**
- **Credits:** 3
- **Prerequisites:** Academic Reading and Writing Levels of 6
- **Contact Hours:** 45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
- Students study the basic structure of the atom and how current flow occurs in conductor materials. Circuit analysis techniques are applied to series, parallel, and combination circuits. Also covered is an introduction to generation of electricity using the principles of magnetism and electromagnetism. Limited to IBEW 252 Apprentices.
Electrical Worker Apprentice (EWA)

EWA 140 Codeology 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course introduces electrical apprentices to the language and format of the National Electrical Code. An understanding of the NEC is fundamental to making safe and proper electrical system installations and this course teaches valuable skills for finding, studying, and interpreting code rules. Limited to IBEW 252 Apprentices.

EWA 150 Code Practices 5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
75 lecture, 0 lab, 0 clinical, 0 other, 75 total contact hours
A comprehensive article-by-article study of the National Electrical Code is presented in this course. The apprentice will discuss and analyze in detail the rules in each article of the NEC as they apply to the installation of each part of a complete electrical system. A thorough understanding of the NEC is requisite for successfully passing the mandatory State of Michigan licensing exam. Limited to IBEW 252 Apprentices.

EWA 160 AC Theory 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course studies alternating current systems and circuits. The effects of inductance and capacitance in alternating current systems are calculated using vector analysis techniques so that the apprentice can understand, design, and troubleshoot the alternating current systems that he will install and maintain. Resonance and power factor correction as power quality issues are also discussed. Limited to IBEW 252 Apprentices.

EWA 170 Semiconductors 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Students are introduced to the basic theory of operation of semiconductor devices. The basics manufacture and construction of P-type and N-type semiconductor materials and the theory of the PN junction are discussed and then expanded upon with the introduction multilayer devices. Limited to IBEW 252 Apprentices.

EWA 180 Grounding 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course presents an in-depth study of the requirements of Article 250 of the National Electrical Code as it relates to grounding and bonding of systems and equipment. The student will learn the definitions for each part of the grounding installation and will use code tables to determine the correct sizing of the conductors to be installed. Equipment, materials, and techniques for proper installations will also be covered. Limited to IBEW 252 Apprentices.

EWA 190 Transformers and Electrical Safety 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
The student will learn about OSHA requirements on construction work sites and the proper selection of the proper personal protective equipment and clothing. Electrical safety culture will be discussed and related to transformers which are the most common source of electrical energy in any building. Arc fault current calculations will be presented as part of NFPA 70E requirements for determining safe approach distances for energized equipment. Limited to IBEW 252 Apprentices.

EWA 200 Motors and Controls 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Students will learn to identify various motor types by their construction and component parts and will learn the operating characteristics of common types of motors that are currently in use most types of buildings. Reading and understanding nameplate data is presented as a fundamental need for the installation and maintenance of motors. Students will learn to develop control circuits using ladder diagrams to construct complex controls incorporating time delay, interlocking, reversing, plugging, jogging and other fundamental control circuits. Limited to IBEW 252 Apprentices.

EWA 210 Digital Electronics and PLC’s 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course provides knowledge of digital controls utilizing AND, OR, NAND, XOR, and XNOR logic. Students also study applications of these digital circuits in programmable logic controller installations and applications. Relay ladder logic programming language is studied to provide the student the fundamentals for entering a control program into a PLC. Limited to IBEW 252 Apprentices.

EWA 220 Instrumentation 1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
Students learn the fundamentals of process control systems. Topics include instrument symbols, test procedures, instrument calibration, installation, and documentation. Students learn measure pressure, temperature, flow, and levels as well as how to calculate expected readings using range and span information. Limited to IBEW 252 Apprentices.

EWA 230 Fire Alarms, Telephone and Security Alarms 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course teaches the fundamentals of fire alarm, telephone, and security alarm systems. Topics include: installation, inspection, testing, and maintenance. Also covered are network cabling, pathways, system performance, and administration. Limited to IBEW 252 Apprentices.

EWA 240 Distributed Power Generation and Power Quality 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Students will learn basics of UPS systems, solar photovoltaic technology, and fuel cell technology as it would apply to the design, installation, inspection, and maintenance of these systems. Also studied are power quality problems that affect all buildings’ distribution systems. Topics include: types of PQ problems, causes of PQ problems, locating the problems, PQ test equipment, and solving PQ problems. Limited to IBEW 252 Apprentices.

EWA 250 Technical Mathematics 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Students will learn basic principles of applied math using Ohm’s Law. Students learn to solve circuitry problems, wire resistance, voltage drops, AC circuit parameters, power factor, and phase angle. Limited to IBEW 252 Apprentices.

EWA 260 Applied Science 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course prepares apprentices in the electrical trades to accurately apply principles of science to their work. Topics include: the structure of matter, the physical characteristics to copper and aluminum as conductor materials, the atomic structure of conductors versus insulators (dielectrics), temperature-pressure enthalpy diagrams for heating and cooling cycles, and light propagation in fiber optic media. Limited to IBEW 252 Apprentices.
Electricity/Electronics

**ELE 040  Residential Wiring**
2 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 45 lab, 0 clinical, 0 other, 45 total contact hours

This course is a practical hands-on course that has been designed to help students better understand wiring techniques and safety considerations for dealing with a residential wiring system. A great deal of “hands on” time is offered and is devoted to working with the wiring materials and constructing circuits of the type found in the home. Typical of the kinds of circuits that are discussed and wired by the student are: duplex outlet circuits, dimmer circuits, three and four-way switch circuits, CSI circuits, lamp and garden lighting circuits, electrical dryer and electric stove circuits. Grading is by the satisfactory/unsatisfactory system.

**ELE 041  Residential Wiring II**
2 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours

This course is a continuation of ELE 040. It is a hands-on projects course designed to allow students to better understand more advanced wiring techniques when working on residential wiring. Part of the course is discussing individual projects and drawing the necessary diagrams. Most of the course is devoted to working with the electrical materials, and constructing the type of circuits found in the home. The new circuits wired include: main panel grounding, sub panels, heaters, and security.

**ELE 111  Electrical Fundamentals**
4 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 3 or MTH 151 minimum grade "C"
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours

This is an introductory course in AC and DC concepts and circuits. The course is designed to foster an intuitive understanding of electrical concepts appropriate for occupations involved with the installation, maintenance, and troubleshooting of electrical circuits and devices. Lab exercises deal with the use of test equipment for the purpose of verifying circuit operation and troubleshooting circuit faults. Students must have good numerical and algebraic skills to be successful in this course.

**ELE 134  Motors and Controls**
4 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: ELE 111 minimum grade “C”- or equivalent
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours

This course introduces students to the theory and application of AC and DC electrical machines and their controls. Topics include DC generators, DC motors and controls, 3 phase power, 3 phase transformers, alternators, 3 phase and single phase AC motors and controls, electronic motor drives, synchronous motors, servo motors and stepper motors. In weekly lab assignments, students will read and interpret schematic diagrams, connect motors and controls, test and troubleshoot motors and controls.

**ELE 174  ELE Co-op Education I**
1-3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; ELE 111 or CST 150; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours

In this course the student gains skills from a new experience in an approved, compensated, electronics related position. Together with the instructor and employer, the student sets up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two possible co-op experiences.

**ELE 204  National Electrical Code**
4 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: ELE 111 or equivalent
75 lecture, 0 lab, 0 clinical, 0 other, 75 total contact hours

This course covers the use of the National Electrical Code as a tool to plan the safe installation of electrical equipment in residential, commercial, and industrial locations. Students determine required number and sizes of branch circuits, conductors, fuses, raceways and boxes. Other topics include ground- ing, motor circuits and controls, local codes, and code changes. Recommended for students interested in industrial control technology or in becoming licensed journeymen or master electricians.

**ELE 211  Basic Electronics**
4 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: ELE 111 or equivalent
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours

Basic Electronics is a beginning lecture and laboratory course covering solid state devices. It includes the theory and application of diodes, and both bipolar and field effect transistors. These devices are tested and then circuits using them are constructed and tested in the laboratory using common laboratory equipment. Prerequisites will be checked by the instructor on the first day of class.

**ELE 224  Introduction to PLCs**
4 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: ELE 111 minimum grade “C”- or equivalent
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours

An introduction to programmable logic controllers (PLCS) which covers PLC hardware, relay-type, timer, counter, data manipulation, math and program control instructions, with an emphasis on troubleshooting. Weekly lab assignments use Allen Bradley SLC-500 and PLC-5 controllers and RSLogix software. This course is offered for students, electrician apprentices, electricians, technicians, and engineers.

**ELE 254  PLC Applications**
4 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 3
Level II Prerequisites: ELE 224 minimum grade “C”-
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours

This is an advanced, hands-on course in PLC system concepts and troubleshooting. Topics include analog I/O, data manipulation, block transfer, on/off and PID closed loop control, data communications (DH+ and remote I/O), operator interface terminals (PanelView), and sequential systems. SLC-500 and PLC-5 processors, and RSLogix500, RSLogix5, and PanelBuilder software are used in lab exercises. This course is intended for students in industrial electronics and automation technology, electrician (and other) apprentices, and industrial technicians. Also for engineers desiring hands-on PLC experience.

**ELE 274  ELE Co-op Education II**
1-3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; ELE 174; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours

In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two co-op courses.
Electricity/Electronics (ELE) – English (ENG)

**ELE 252** Control Logic Programming 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: ELE 254 minimum grade “C-” or equivalent
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
This is a course in industrial logic control. Students will learn combinational and sequential relay logic analysis and recognize some logic design and simplification techniques. Lecture and laboratory topics will include control systems, number systems and codes, Boolean logic, ladder logic diagrams, IEC symbols, and the programming and use of programmable logic controllers (PLCs) to implement combinational and sequential control applications.

**ELE 299** Customer Relations 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
21 lecture, 0 lab, 0 clinical, 0 other, 21 total contact hours
Students enhance their interpersonal skills through the techniques gained in this course. Developing insight using demonstrations, video tape, role playing, and interaction, the student is guided in a curriculum that builds a value-added attitude for customer service personnel. Skills learned include controlling one's emotions in difficult situations and increasing customer satisfaction.

**ENG**

**ENG 000** Writing Center 0 credit
0 lecture, 15 lab, 0 clinical, 0 other, 15 total contact hours
The Writing Center provides three services. First, students enrolled in English 040, 050, 051, 091, 100, and 111 receive additional practice and/or assignments in developing writing skills in the lab. The practice method and assignments vary from course to course. Second, students can receive help on any writing project from the Center staff. Third, Macintosh computers are available so students may word-process their papers.

**ENG 010** Writing Practicum 1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required
0 lecture, 15 lab, 0 clinical, 0 other, 15 total contact hours
This course provides individualized instruction on composition components, including grammar, punctuation, research, and documentation. Enrollment is restricted to Writing Center tutors only. Satisfactory/unsatisfactory grading is used.

**ENG 023** High Beginning ESL Reading and Listening 4 credits
Level I Prerequisites: Must see academic advisor or counselor for prerequisites.
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is designed to help students move beyond minimal survival English towards communication for daily living. The reading portion focuses on building vocabulary as well as reading skills. The listening portion focuses on the comprehension of spoken English. Satisfactory/unsatisfactory grading is used.

**ENG 024** High Beginning ESL Grammar and Communication 4 credits
Level I Prerequisites: Must see academic advisor or counselor for prerequisites.
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This class is designed for students who have had some exposure to and/or instruction in English. This course goes beyond minimal survival English toward communication of daily living. Grammar and communicative competence are emphasized. This class can be taken concurrently with ENG 023. Satisfactory/unsatisfactory grading is used. This course is the second half of the previous course ENG 022.

**ENG 027** Low Intermediate ESL Reading I 4 credits
Level I Prerequisites: Must see academic advisor or counselor for prerequisites.
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is designed to lay the foundations for reading improvement needed by ESL students. Emphasis is placed on the development of skills and reading for pleasure. Vocabulary development, active reading strategies, independent silent reading and comprehension are covered. Students must satisfactorily complete their work before advancing to a higher level reading course. Satisfactory/unsatisfactory grading is used.

**ENG 028** Low Intermediate ESL Reading II 4 credits
Level I Prerequisites: Must see academic advisor or counselor for prerequisites.
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is designed to lay the foundations for reading improvement needed by ESL students. Emphasis is placed on the development of skills and reading for pleasure. Vocabulary development, active reading strategies, independent silent reading and comprehension are covered. Students must satisfactorily complete their work before advancing to a higher level reading course. Satisfactory/unsatisfactory grading is used.

**ENG 030** Intermediate ESL Grammar I 4 credits
Level I Prerequisites: Must see academic advisor or counselor for prerequisites.
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This intermediate level class expands students’ knowledge of English grammar and vocabulary and their ability to understand and use spoken and written English. Special attention is given to the appropriate use of the forms studied. Satisfactory/unsatisfactory grading is used.

**ENG 032** Intermediate ESL Grammar II 4 credits
Level I Prerequisites: ENG 030 with grade “S”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course meets with ENG 030 but students are required to demonstrate greater mastery of the material. Successful completion of ENG 032 is required for entrance into ENG 060. Satisfactory/unsatisfactory grading is used.

**ENG 033** Intermediate ESL Reading I 4 credits
Level I Prerequisites: Must see academic advisor or counselor for prerequisites.
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is designed to further develop independent reading comprehension skills for ESL students. Emphasis is placed on vocabulary development, active reading strategies, variable reading rates, independent silent reading and comprehension. Students must satisfactorily complete their work before advancing to a higher level reading course. Satisfactory/unsatisfactory grading is used.

**ENG 034** Intermediate ESL Reading II 4 credits
Level I Prerequisites: ENG 033 with grade “S”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
The course is a continuation of ENG 033. It is designed to further develop independent reading comprehension skills for ESL students. Emphasis is placed on vocabulary development, active reading strategies, variable reading rates, independent silent reading and comprehension. Students must satisfactorily complete their work before advancing to a higher level reading course. Satisfactory/unsatisfactory grading is used.

**ENG 035** English Pronunciation and Conversation (ESL) 3 credits
Level I Prerequisites: Must see academic advisor or counselor for prerequisites.
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to help students improve their aural and oral communication skills. The three components of the course are: systematic introduction to and practice with the sound system of American English, especially suprasegmentals; extensive listening practice in the library and in class; and introduction to and practice with appropriate conversational skills, such as offering, accepting, and refusing invitations, and asking for and giving opinions.
ENG 037 Intermediate ESL Writing I 4 credits
Level I Prerequisites: Must see academic advisor or counselor for prerequisites.
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is designed to help students internalize both the grammar and vocabulary that they have been studying by using it to produce well-formed sentences and paragraphs. Writing as communication is emphasized. Satisfactory/unsatisfactory grading is used.

ENG 038 Intermediate ESL Writing II 4 credits
Level I Prerequisites: Must see academic advisor or counselor for prerequisites.
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This class is a continuation of ENG 037. This class meets along with 037 and focuses on strengthening the students' ability to express themselves in English. Satisfactory/unsatisfactory grading is used.

ENG 050 Basic Writing I 4 credits
Level I Prerequisites: Academic Reading Levels 3, 4 or 5; Academic Writing Level 2 only
Corequisites: ENG 000
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This class is not intended for students who speak English as their second language. Inexperienced writers will gain confidence writing formal English sentences and paragraphs in and out of class. Students will also utilize the Writing Center and complete required assignments as part of the class. It is strongly recommended that students enroll in a reading course before or at the same time as this course. Satisfactory/unsatisfactory grading is used. Successful completion is required to advance to ENG 051.

ENG 051 Basic Writing II 4 credits
Level I Prerequisites: ENG 050 with grade “S”
Corequisites: ENG 000
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This class is not intended for students who speak English as their second language. This is a continuation of English 050, and inexperienced writers will gain confidence writing formal English sentences and paragraphs in and out of class. Students will complete more advanced individual and Writing Center assignments. Satisfactory/unsatisfactory grading is used. Successful completion of ENG 051 is required to advance to ENG 090.

ENG 060 Advanced ESL Grammar I 4 credits
Level I Prerequisites: Must see academic advisor or counselor for prerequisites.
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Students study sophisticated forms of English grammar, including subject/verb inversion, reduced clauses, and complex verb phrases. Special attention is given to the appropriate use of the forms studied. Satisfactory/unsatisfactory grading is used.

ENG 061 Advanced ESL Grammar II 4 credits
Level I Prerequisites: ENG 060 with grade “S”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course meets with ENG 060, but students are required to demonstrate greater mastery of the material. Successful completion of ENG 061 is required for progressing into classes with native speakers. Satisfactory/unsatisfactory grading is used.

ENG 065 Advanced ESL Speaking and Listening 3 credits
Level I Prerequisites: Must see academic advisor or counselor for prerequisites.
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This class is designed to teach international students the listening, note taking and speaking skills needed for success in American college classrooms. Satisfactory/unsatisfactory grading is used.

ENG 090 Writing Fundamentals I 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 3
Corequisites: ENG 000
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course focuses on strengthening the writing skills needed in preparation for college-level coursework. The emphasis is on developing and organizing ideas in paragraphs and essays. Successful completion is required to advance to ENG 091.

ENG 091 Writing Fundamentals II 4 credits
Level I Prerequisites: ENG 090 with grade “S”
Corequisites: ENG 000
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is a continuation of ENG 090. This course focuses on strengthening the writing skills needed in preparation for college-level coursework. The emphasis is on developing and organizing ideas in paragraphs and essays. In order to pass with a grade of “C” or better and be eligible to take 100 level English courses, students must demonstrate at least “C” level competency in class writing by the end of the semester.

ENG 100 Introduction to Technical and Workplace Writing 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Corequisites: ENG 000
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
In this course, students learn how to write effective technical and workplace documents such as emails, letters, memos, invoices, work orders, labor reports, resumes, and short reports. Students write documents in response to situations that they will likely encounter on the job. Emphasis will be placed on planning and writing clear, concise, and audience-focused documents. During the first week of class, students must demonstrate a writing proficiency at the college level. The title of this course was previously Written Communication.

ENG 107 Technical Writing I 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students learn how to write effective technical and workplace documents such as emails, letters, memos, invoices, work orders, labor reports, resumes, and short reports. Students write documents in response to situations that they will likely encounter on the job. Emphasis will be placed on planning and writing clear, concise, and audience-focused documents. During the first week of class, students must demonstrate a writing proficiency at the college level.

ENG 111 Composition I 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Corequisites: ENG 000
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course teaches students to write effective academic essays for various audiences. Reading materials serve as a basis for essays and classroom discussions. Students write both in-class and out-of-class essays. During the first week of class, students must demonstrate their writing proficiency. In order to pass with a “C” or better, students must demonstrate at least “C” level competency in class writing by the end of the semester.
ENG 115 Writing for Visual Media 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Writing for Visual Media gives students experience writing scripts for film, TV, and Web-based video in several genres. Public service announcements, commercials, documentaries, and feature film scripts are examined. As this course is a requirement of the Digital Video Film Production certificate program, emphasis is on writing for productions with a visual element, as opposed to COM 155, which focuses more on radio and other broadcast media.

ENG 140 Horror and Science Fiction 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is a study of science fiction and horror in literature with emphasis on literary, historical, psychological and cultural relevance. Short stories, novels, poems, films, and/or nonfiction related to both genres are analyzed and discussed. Students will apply critical thinking skills to assess literary works. Specially designated sections may focus on horror, science fiction, subgenres or major authors.

ENG 160 Introduction to Literature: Poetry and Drama 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to give an understanding of literature through writing assignments, close reading and discussion of selected works of poetry and drama. Students will apply critical thinking skills to assess literary works.

ENG 170 Introduction to Literature: Short Story and Novel 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Students explore short stories and the novel as they provide blueprints for living, self-discovery, and recreation. Students will be introduced to the elements of fiction, various literary genres and their cultural, historical contexts. They will be given a literary vocabulary to use in assessing the value of literary works. Students will be expected to analyze fiction critically in class discussions and through formal and informal writings. Specially designated sections of the course may be devoted to special topics such as mystery, war, westerns, women’s issues, and popular fiction etc.

ENG 181 African-American Literature 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides a survey of the African-American experience in the world of literature. It is an introduction to African-American thought through readings in poetry, fiction, drama, autobiography and the essay. Students will apply critical thinking skills to assess literary works.

ENG 185 English Grammar and Usage 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students formalize their knowledge of the structure of English. They learn to respect the internal grammar of English and to separate the issues of grammar and usage. Students examine some of the complex problems related to English grammar and usage. This course is a structural analysis of English and is designed for college level students.

ENG 187 Folk Literature and Culture of the Caribbean and South America 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course focuses on Caribbean and South American folk literature, traditions and culture. Students will apply critical thinking skills to assess tales, legends, myths and other oral, visual and musical traditions from the Caribbean and Latin America. This course examines the cross-cultural literary expressions and multi-media experiences of West Indian and South American communities.

ENG 199 Technical Writing Internship 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Technical Writing program and ENG 208 minimum grade “C”
0 lecture, 0 lab, 0 clinical, 45 other, 45 total contact hours
In this course, students gain skills in technical communication through work assignments provided by a host company and supervised by both the company supervisor and the instructor. At the beginning of the internship, specific learning objectives related to the assignments are developed, hours of work are established, and instructor conference times are set. At the end of the internship, the supervisor evaluates the student performance, and the student writes a self-evaluation report based on the experience.

ENG 200 Shakespeare 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course covers introductory reading, discussion and analysis of the varieties of Shakespeare’s works. Wherever possible, the opportunity to view performances, either live or on video, is made available. Students will apply critical thinking skills to assess literary works.

ENG 208 Technical Writing II 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ENG 107 minimum grade “C”, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students learn how to manage, design, write, and edit end-user documentation. Students prepare detailed project plans, project schedules, and design documents that guide them through the writing and editing phases of their projects. The final document (25-page minimum) as well as all planning and design specifications are presented in a portfolio at the end of the semester. (Note: Students use advanced features in MS Word including styles, templates, tables of contents, and indexes to create their documents.)

ENG 209 Technical Writing III 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ENG 208 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this hands-on course, students use FrameMaker (both Unstructured and Structured) to design and manage content; build on the project management skills learned in ENG 208 to develop larger, more complex plans and schedules that involve multiple team members; develop style guides and FrameMaker templates to use for their team projects; draft, revise, and finalize training documentation; and conduct in-class training sessions using their documentation.

ENG 211 American Literature I - Before 1900 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
The course provides a survey of the literature of North America (continental U.S.) from the 17th century to 1900. Students will apply critical thinking skills to assess literary works.
**ENG 212  British Literature - Before 1800  3 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
The course analyzes British literature from its origins until 1800. Readings stress the major works and authors of the period (e.g., “Beowulf”, Chaucer, Shakespeare, Milton, Pope, Swift). Students will apply critical thinking skills to assess literary works.

**ENG 213  World Literature I  3 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
World Literature I is a course that analyzes world literature through literary masterpieces written from the time of ancient Greece through the Renaissance. Students will apply critical thinking skills to assess literary works.

**ENG 214  Literature of the Non-Western World  3 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This course is a survey of major world literature excluding European and American literature. Typically, the course covers selections from Africa, Asia, the Middle East and the sub-continent of India, and includes a variety of traditional, modern and contemporary works of literature to introduce and explore the world’s literary cultures. Students will apply critical thinking skills to assess literary works.

**ENG 218  Technical Writing IV  3 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6; ENG 208 minimum grade “C”  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
In this hands-on course, students use online help development software; manage online help projects; design, write, and test online help systems in a variety of formats; and research current trends in the field of technical communication. Students will be required to attend at least one meeting of the Society for Technical Communication.

**ENG 222  American Literature II - 1900 to the Present  3 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This course provides a survey of the literature of the United States from 1900 to the present, including important pieces of modern and contemporary American literature. Students will apply critical thinking skills to assess literary works.

**ENG 223  British Literature - After 1800  3 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This course analyzes British literature from 1800 to present. Readings stress the major works and authors of the period (e.g., Blake, Keats, Browning, Hopkins, Hardy, Conrad, Yeats, Joyce, Eliot). Students will apply critical thinking skills to assess literary works.

**ENG 224  World Literature II  3 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This course is a continuation of ENG 213. It analyzes some of the great literary works of the Western tradition since the Renaissance and demonstrates how these works have contributed to present cultural heritage. Students will apply critical thinking skills to assess literary works.

**ENG 226  Composition II  3 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6; ENG 111 minimum grade “C”  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
Composition II is the second semester of the two-course freshman writing sequence. The course is a continuation of ENG 111, Composition I, and further develops critical reading and logical thinking skills. Students will write argumentative essays using a variety of formats. Research writing and documentation is emphasized. This course was previously ENG 122.

**ENG 240  Children's Literature  3 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This course is a survey of prose, poetry and illustrated books suitable for the preschool, elementary and early adolescent child. This course is required of students entering elementary education; also is beneficial for library studies or work, teacher’s aide program, nursery and day care work and as general education for parents. Students will apply critical thinking skills to assess literary works.

**ENG 242  Multicultural Literature for Youth  3 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This course is a survey of prose, poetry and illustrated books exploring the experience of minority youth in American society suitable for the preschool through early adolescent child. Students will apply critical thinking skills to assess literary works. The course is strongly recommended for practicing early childhood, elementary and secondary teachers as well as for students preparing to enter these fields also for media or library studies work, childcare work and a general education for parents.

**ENG 245  Career Practices Seminar  2 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
In this course, students explore career options available in their chosen field. Topics include developing a systematic job search strategy, preparing job search documents (such as cover letters and resumes) and developing effective interviewing skills.

**ENG 260  Journal Workshop I  3 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This workshop is for emotionally mature, self-directed people committed to growth and discipline in their writing and in their lives. It offers writing techniques as a means to self-discovery and expression. There is a choice of many ways to use writing to tell one’s stories, address issues, cultivate creativity, and celebrate life. Journals remain confidential. Some self-selected journal entries are shaped into polished, creative pieces meant for sharing with others.

**ENG 261  Journal Workshop II  3 credits**  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This workshop is a continuation of ENG 260, for students who have already completed ENG 260, and who wish to continue to develop their skills and produce additional written work. Students work on individual projects.
**Fluid Power**

**FLP 101 Fluid Power Fundamentals - I**
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; FLP 101
30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours
This is an introductory class covering the fundamental principles of fluid power, both hydraulics and pneumatics. Subject matter includes application of Pascal’s Law, prime mover requirements, principle of operation of fluid power fixed displacement pumps and compressors, control valves and actuators. Component failure modes and troubleshooting concepts are also covered. This course contains material previously taught in FLP 111. FLP 101 is generally offered in the first 7 1/2 week session.

**FLP 110 Fluid Power Fundamentals - II**
2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; FLP 101
minimum grade “C”, may enroll concurrently
30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours
This class builds on the foundation set in FLP 101 with coverage of variable displacement pumps, proper system contamination control and filtration, hydraulic fluid requirements and compatibility, solenoid valves, load control valves, speed controls, fluid power motors and pressure intensifiers. Hands-on exercises include building of fluid power circuits and disassembly/inspection of hydraulic components. This course contains material previously taught in FLP 111. FLP 110 is generally offered in the second 7 1/2 week session.

**FLP 174 FLP Co-op Education I**
1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience.

**FLP 214 Hydraulic Circuits and Controls**
4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; FLP 101 and FLP 110, minimum grade “C-”
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
This course further develops the concepts of directional, pressure, and flow controls covered in FLP 101 and FLP 110. Troubleshooting and reading of hydraulic blueprints is emphasized. Circuits will include conventional valving, modular sandwich, screw in, and slip in cartridge valves. An introduction to proportional valves, servo valves, and electrical ladder control diagrams is included. Lab exercises play an important role in this class. This course contains material previously taught in FLP 213.

**FLP 225 Fluid Power Motion Control**
3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; FLP 214
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours
This course reviews basic electrical principles and covers amplifier theory as applied to open loop and closed loop control. Proportional directional valves, flow control valves, and pressure control valves are discussed along with hydraulic servo valves. Proper setup alignment of the drive amplifiers and troubleshooting of servo and proportional control systems are covered in class and laboratory sessions. Closed loop (PID) control theory and feedback transducers are also discussed.

This is a continuation of GRM 111. Continuing classroom work and aural/oral practice sessions emphasize the communicative approach. Class conversations, short readings, and pattern practice also assist students in acquiring facility in the language, as well as informational aspects of the culture. Students who have experience equivalent to GRM 111 may contact the instructor for permission to waive the prerequisite.

www.wccnet.edu

Washtenaw Community College – Programs and Services 2010 - 2011
GDT 214 Advanced Photoshop 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; GDT 140
40 lecture, 20 lab, 0 clinical, 0 other, 60 total contact hours
This course covers advanced features and uses of the image-editing software Adobe Photoshop. Exercises and production projects using the current version of Photoshop focus on developing skills and understanding of such topics as getting good scans, color spaces and profiles, tonal image correction, removing color casts, clipping paths, task automation and more. A good basic working knowledge of Photoshop is an essential course prerequisite. Students with equivalent experience may contact the instructor for permission to waive the prerequisite.

GDT 220 Publication Design 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; GDT 100 and GDT 112, minimum grade “C”
60 lecture, 0 lab, 0 clinical, 30 other, 90 total contact hours
This is a graphic design digital studio course that focuses on layout and design of publications. Students continue development of skills in the application of design and typographic principles and practices, and produce a variety of single- and multiple-page publications in black and white, spot and process color.

GDT 239 Imaging and Illustration 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; GDT 112 and GDT 139
60 lecture, 0 lab, 0 clinical, 30 other, 90 total contact hours
In this course, the student develops skills with advanced digital tools, methodologies and concepts for communicating visual solutions with real world relevance. A variety of projects may include information graphics, rendering, editorial and interpretive illustration, spot illustration, and promotional illustration.

GDT 245 Computer-Aided Painting 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
In this course, students explore the world of digital art where the computer screen is transformed into an electronic canvas offering virtually limitless creative possibilities. Working with traditional themes, hands-on exercises and an array of simulated painting media and surfaces, students produce computer-generated images that have expressive and dynamic characteristics. Proficiency with the Macintosh computer is essential. Students with experience equivalent to GDT 105 may contact the instructor for permission to waive the prerequisite.

GDT 252 Advanced Digital Studio 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; GDT 220
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course offers advanced techniques and applications in computer-based imaging and publication design. Topics include design, illustration, and electronic file preparation for offset printing involving integration of several professional graphics software programs. Advanced techniques in software such as Adobe Photoshop, Adobe Illustrator, and QuarkXpress emphasize creative, real-world applications for graphic design production. Students who have equivalent experience may contact the instructor for permission to waive the prerequisite.

GDT 259 Graphic Communication II 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; GDT 112, GDT 139 and GDT 140, minimum grade “C”
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course is an investigation into the process of visual communication; an interweaving of the graphic message, its theory, practice, technology, invention, and function with the desire to create, design, and illustrate. Students investigate the topics of nature, music, vernacular expression, and statistical data as stimuli for solving industry-related types of assignments.

GDT 270 Website Design 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; INP 140, INP 176 and either GDT 140 or INP 182, all courses minimum grade “C”
60 lecture, 0 lab, 0 clinical, 30 other, 90 total contact hours
Using current industry-standard image editing, Web authoring, and 2D animation software; students plan, design, produce, and publish Web design deliverables on the World Wide Web. Students analyze “client” need and target audience, and utilize principles of visual proposals and functional Websites that communicate content effectively.

GDT 274 GDT Co-op Education II 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain further skills from continued experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience.

GDT 290 Professional Practices 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; 48 credits in Graphic Design program; consent required
45 lecture, 0 lab, 0 clinical, 45 other, 90 total contact hours
This class prepares students for seeking employment in graphic design and illustration. Topics covered include graphic design and illustration career options/specialties, job hunting skills/techniques, freelancing, resume preparation, portfolio preparation and includes professional review of student portfolios. This course should be taken during the final semester prior to graduation. This course was previously GDT 230.

Health Science

HSC 100 Basic Nursing Assistant Skills 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 3
37 lecture, 27 lab, 26 clinical, 0 other, 90 total contact hours
This state approved 90 hour (3 weekdays or 5 evenings per week) program prepares students for employment in a variety of health care settings from nursing homes, hospitals or home health care agencies where they will work as a nursing assistant. After the class is successfully completed, the student will be eligible to take the state clinical and knowledge tests for certification. Certification is required for employment as a nursing assistant in long-term care facilities.

HSC 101 Healthcare Terminology 1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This course is designed to introduce healthcare professionals to terminology used in the workplace. Lecture material is supplemented by independent student computer assignments.

HSC 102 Introduction to Physical Therapy 1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This course examines careers in physical therapy with an emphasis on the physical therapist assistant. It provides an overview of the educational requirements, the state law regarding delivery of physical therapy services, the role of the physical therapist assistant as a member of the health care team, and the career opportunities for the physical therapist assistant. This course also allows students to explore the physical therapist assistant career and gain experience from entering the college environment.
HSC 115  Medical Office and Laboratory Procedures  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
37.5 lecture, 22.5 lab, 0 clinical, 0 other, 60 total contact hours
This course consists of lecture on office examining room procedures, sterile
techniques, medical emergencies, specimen collection and minor surgery.
Labroatory experience applies course material from the lectures.

HSC 131  CPR/AED for the Professional Rescuer and First Aid  1 credit
Level I Prerequisites: No Basic Skills
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This American Red Cross CPR/AED first aid training program prepares students to
respond to injuries and sudden illness. This course provides students with
the knowledge and skills necessary to prevent, recognize, and provide basic
care for injuries and sudden illness. The course includes adult CPR/AED, child
and infant CPR, and first aid.

HSC 131B  CPR/AED for the Professional Rescuer - Review .5 credit
Level I Prerequisites: No Basic Skills
7.5 lecture, 0 lab, 0 clinical, 0 other, 7.5 total contact hours
This American Red Cross CPR/AED is a training program to prepare students to
respond to sudden illness. This course provides students with the knowledge and
skills necessary to prevent, recognize, and provide basic care for sudden
illness. The course includes adult CPR/AED and child and infant CPR.

HSC 138  General and Therapeutic Nutrition  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course presents normal nutrition and its relationship to health. It includes a
study of the nutrients and nutrition planning guides. Nutritional needs throughout
the lifecycle are studied. Concepts of general nutrition are applied to various
diet therapies prescribed from common disease states in clinical practice.
This course contains material previously taught in HSC 118 and HSC 128.

HSC 147  Growth and Development  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ENG 107 or
ENG 111, minimum grade “C”, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course covers physical, cognitive and psychosocial changes of individuals
from birth until death. The role of the family and theories of death and mourning
also are included. This course meets the nursing program requirements and is
also open to the general population.

Health, Ventilation, and Air Conditioning  HVA

HVA 101  Heating, Ventilating, and Air Conditioning I  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic
Math Level 2
75 lecture, 15 lab, 0 clinical, 0 other, 90 total contact hours
This course introduces the concept of thermodynamics and principles of refriger-
ation. Major units covered include HVAC mathematics, refrigeration systems,
refrigerants, refrigerant tables, contaminants, dryers, moisture in the air, refriger-
ation components (i.e. compressors, condensers, evaporators, metering device
motors and accessories) and defrost systems. The components and operation
of residential furnaces will be discussed. An overview of heating and AC systems
and components will be provided from an operation and service perspective.

HVA 102  HVAC Sheet Metal Fabrication  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic
Math Level 2
60 lecture, 0 lab, 0 clinical, 0 other, 90 total contact hours
This course offers an introduction to layout, design and fabrication of sheet metal with an emphasis on residential HVAC applications. Topics will include safety, sheet metal tools and equipment, fabricating HVAC duct using patterns and drawings, and installation techniques, standards and good practices. This course was previously TRI 103.

HVA 103  Heating, Ventilation, and Air Conditioning II  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic
Math Level 2
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
This course covers basic electrical theory as applied to heating, ventilation, air
conditioning and refrigeration systems. Students solve electrical problems, construct and troubleshoot series-parallel circuits, identify and troubleshoot electrical components, apply alternating current principles, identify, test and troubleshoot motors and motor control circuits, and interpret electrical diagrams and use them to troubleshoot HVAC systems.

HVA 105  Residential and Light Commercial Heating Systems  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic
Math Level 2 or MTH 067 may enroll concurrently; HVA 101 and HVA 103,
minimum grade “C”; HVA 101 may enroll concurrently
75 lecture, 15 lab, 0 clinical, 0 other, 90 total contact hours
This course builds on the heating system skills and knowledge learned in pre-
requisite courses. Major units covered include HVAC mathematics, service and
preventative maintenance for residential electric, gas, oil or hydronic, and heat
pump systems. Students get an overview of indoor air quality, air distribution
and installation concepts and techniques. The title of this course was previously Heating, Ventilation, and Air Conditioning III.

HVA 107  Residential and Light Commercial Air Conditioning Systems  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic
Math Level 2; HVA 101 and HVA 103, minimum grade “C”
75 lecture, 15 lab, 0 clinical, 0 other, 90 total contact hours
This course offers a review of basic electrical and refrigeration principles needed
for maintaining and troubleshooting equipment. Sequence of operational,
mechanical and electrical failures are covered for residential and light commercial
equipment. This includes logical diagnostic techniques which are simulated on
both computer simulators and live lab equipment. The title of this course was previously Heating, Ventilation, and Air Conditioning IV.

HVA 108  Residential HVAC Competency Exams and Codes  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic
Math Level 2; HVA 105 and HVA 107, minimum grade “C”
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Students will learn the relevant codes to residential heating, ventilation, and air
conditioning. Other topics include residential air conditioning requirements,
proper operating conditions, and servicing requirements. Students will take a
nationally recognized competency exam upon completion of the course.
HVA 201 Energy Audits 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HVA 101 and HVA 103, minimum grade “C”
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This course prepares students to conduct an energy audit on residential, commercial and industrial structures and HVAC systems. Students gain an understanding of the current energy, building, and HVAC standards put out by organizations such as ASHRAE, and the U.S. Green Building Council’s “LEED” program. Students will also be introduced to topics such as commissioning, heat recovery, thermal storage and energy waste elimination.

HVA 202 Air System Layout and Design 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HVA 101 and HVA 103, minimum grade “C”
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This course provides an overview of duct systems, air flow, design, and analysis of indoor air quality issues. This includes components of air distribution systems, fan principles and sizing, noise troubleshooting, and system pressure losses.

HVA 203 Refrigeration Systems 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HVA 108 minimum grade “C”
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This course covers commercial refrigeration systems. This includes system operation, installation, maintenance and troubleshooting. Topics covered include: types of commercial refrigeration systems, evaporators, compressors, condensers, expansion devices, defrost, controls and cold storage principles.

HVA 204 Central Heating Plants 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HVA 201 and HVA 202
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
This course provides an introduction to large boiler system operations. Topics covered include: low and high pressure boilers; boiler heat exchangers; fuels; combustion; heat exchangers; pumps; large boiler control systems; water treatment; air handling equipment; maintenance; and troubleshooting.

HVA 205 Hydronic Systems 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HVA 108 minimum grade “C”
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This course covers an overview of hydronics which includes boilers and chilled water systems. Major components are identified: safety and control systems are analyzed and inspected. Flow characteristics are examined for proper calculation of piping and radiator sizes.

HVA 206 Central Cooling Plants 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HVA 201 and HVA 202
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
This course provides an introduction to large scale cooling operations. Topics covered include: absorption systems including ammonia and lithium bromide; water chillers; cooling towers; air handling systems; pumps; control systems; maintenance; and troubleshooting.

HVA 207 Commercial Industry Standards with Competency Exams 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 3; HVA 203 and HVA 205, minimum grade “C”
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Students will learn the relevant codes to commercial heating, ventilation, air conditioning and refrigeration systems. Other topics include commercial air conditioning and refrigeration installation requirements, proper operating conditions, and servicing requirements. Students will take nationally recognized competency exams.

HVA 208 Codes and Industry Standards with Industrial ICE 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HVA 201 and HVA 202
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
This course reviews various electrical, plumbing, and mechanical codes as well as HVACR industry standards for design, operation, and maintenance of HVACR equipment and systems in relation to industrial systems. The Industrial Industry Competency Exam (ICE) is also administered.
HST 201 United States History to 1877 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course traces the development of the United States from its earliest beginnings up through the cataclysm of the Civil War and the subsequent Reconstruction Era. The approach is largely chronological, stressing cause and effect relationships, the roles played by prominent people, and the ways in which the events of the past have shaped contemporary society and its institutions.

HST 202 United States History Since 1877 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course traces the development of the United States from the end of the Reconstruction Era through the late 20th century. The approach is largely chronological, stressing cause and effect relationships, the roles played by prominent people, and the ways in which the events of the past have shaped contemporary society and its institutions.

HST 210 U.S. Women's History 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course examines the political, economic, social, and cultural contributions of women to the development of the United States, as well as the changing role of women in the formation of the nation's identity. The course also considers the ways in which race and ethnicity shape the differing experiences of women in American society.

HST 215 History of U.S. Foreign Relations 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course traces the history of U.S. foreign policy from the Revolutionary era to the present. It will address the relationship between the American economic, social, and political systems and the conduct of the nation's foreign policy. The role played by race, economics, ideology, and "national interest" will be assessed. Emphasis will be placed on the conduct of diplomacy immediately before, during, and immediately after periods of military conflict. The conduct of the Cold War will be reviewed in detail.

HST 216 U.S. Military History, Colonial Times to Present 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course traces the American military from its pre-colonial origins to the present. It addresses the relationship between the American economic and social systems and the nation's military, and addresses the effect of the nation's geography on the mission and organization of the military. Key conflicts such as the American Revolution, the Civil War, the Second World War, and the Vietnam conflict are addressed in detail in an effort to discern if there is a unique "American Way of War."

HST 220 The Civil War Era, 1845 - 1877 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course deals with the causes, conduct, and impact of the American Civil War. It focuses on the political, social, economic, and racial background to the conflict, the conduct battles and campaigns, the formulation of strategy, the mobilization of the nations' societies and economies, wartime diplomacy and politics, and the numerous issues surrounding Reconstruction. The course will assess the impact of the war on the nation's society, political system, and economy.

HST 230 History of the Holocaust 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course investigates the origins, development, and legacies of the Nazi onslaught against the European Jews from 1933 to 1945.

HST 235 African History 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
The African History course is a survey of the development of African society, its culture and institutions, with emphasis on the 13th century to the present. It will address the effects of Christianity, Islam, the slave trade and colonialism on the African continent. Emphasis will also be placed on the process of decolonization and industrialization of modern Africa.

HST 240 The History of the Modern Middle East, 1798 - Present 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides an introduction to the history of the modern Middle East from the end of the eighteenth century to the present, focusing on the territories of the Ottoman Empire and its successor states. Major topics and themes will include Ottoman and Islamic institutions, the decline of the Ottoman and Persian empires and the rising influence of European powers, the emergence of Arab nationalism, the origins and development of the Arab-Israeli conflict, the emergence of radical Islamic movements, and contemporary events.

HST 251 War in the Modern World, 1500 - Present 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course deals with war and military institutions in Europe and North America since the beginnings of modern states (about 1500), while placing particular emphasis on the more recent period, from just before the American and French Revolutions to the present time. Its focus is on the interaction of warfare - a changing set of techniques and technologies - with the broader political, social, economic, and intellectual aspects of war as well as with the aftermath of war. Some attention is given to particular military campaigns and battles, but mainly to make clear the technical aspects of war and to illustrate important trends and patterns. The approach of the course is comparative, between the differing histories of nation-states, and between the divergent military experiences of Europe and North America. While touching on the global experience of war during the last four centuries, the course aims to explain the central role played by war in the history of the modern Western world.

HST 260 History of England to 1688 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course will provide the student with framework for understanding the various ways in which the English have influenced American history and culture by examining the essential social, cultural, political, economic, and religious developments in the British Isles from ancient times to 1688. While focusing on England, the course will also address important developments in Ireland, Scotland, and Wales.

HST 270 History of China 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course offers an introduction to the political, economic, social, and cultural history of China. After addressing the Ancient and Imperial periods, the emergence of modern China in the 20th century is examined in detail. The course also considers the factors leading to China's emergence as a global power in the 21st century.
Human Services Worker

HSW 100 Introduction to Human Services 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is an introduction to basic human service work, including discussion of the various target populations, the types of professions and careers, social organizations and systems, history, professional roles, ethics, and legal considerations. Students are challenged through group discussions to determine whether the field is suitable for them, and whether their values are congruent with values espoused by human service professions.

HSW 150 Helping Approaches for Groups 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HSW 100
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course introduces the beginning helper to using groups to promote change. The student learns how to screen candidates for groups, prepare potential members to use the group productively, use basic group techniques, attend to group process, and use specific activities and techniques to achieve desired outcomes. Students with experience equivalent to HSW 100 may contact the instructor for permission to waive the prerequisite.

HSW 200 Interviewing and Assessment 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HSW 100 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course introduces the student to basic interviewing skills in the helping profession, as well as the process of individual needs assessment. Students will learn both attending and influencing skills. In addition, they will learn how to write goals, objectives and program notes in the context of a client intervention strategy.

HSW 225 Family Social Work 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HSW 100 or SOC 100, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course introduces students to the theory and practice of social work with families. Students will learn how to analyze American families as social systems, and to identify common patterns in their structure and functioning. Common problems and special circumstances in family functioning will be addressed. Students will learn how to engage families and how to conduct a family intake assessment. Beginning theory on how to intervene with families will be addressed.

HSW 230 Field Internship and Seminar I 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HSW 100, HSW 200, and SOC 220, minimum grade “C”
15 lecture, 0 lab, 0 clinical, 180 other, 195 total contact hours
This course integrates students into the working world by having them complete field work in a human service agency. The student will have the opportunity to progress from observations in directly supervised client contact to indirectly supervised client contact. The field work will be integrated with course work during a one hour seminar. Learning objectives will be individualized according to the field internship and career goals of each student.

HSW 232 Field Internship and Seminar II 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; HSW 100, HSW 200, HSW 230, and SOC 220, minimum grade “C”
Corequisites: HSW 220
15 lecture, 0 lab, 180 clinical, 0 other, 195 total contact hours
This course integrates students into the working world by having them complete field work in a human service agency. The student will complete this internship at a different agency from the internship held in HSW 230, or will hold a significantly different role in the same agency. The field work will be integrated with course work during a one hour per week seminar. Learning objectives are individualized according to the field internship and career goals of each student.

Humanities

HUM 101 Humanities I - Ancient to Medieval Times 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: Basic Computer Literacy is required: Blackboard, e-mail, Internet research, typing
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is an inquiry into a culture or a period through the creative disciplines of human artistic output focusing on the Western World. Class instruction will cover all periods through at least three media. The periods covered include: Prehistoric, Egypt Mesopotamia, Aegeans, Greece, Rome, and the Middle Ages. The media used includes: history, visual arts (painting, sculpture, architecture), literature, philosophy, music, and religion.

HUM 102 Humanities II - Renaissance to Modern Times 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: Basic Computer Literacy is required Blackboard, e-mail, Internet research, typing
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is an inquiry into a culture or a period through the creative disciplines of human artistic output focusing on the Western World. Class instruction will cover all periods through at least three media. The periods covered include: Renaissance, Baroque, 18th, 19th, and 20th Centuries up to WWII. The media used includes: history, visual arts (painting, sculpture, architecture), literature, philosophy, music, and religion.

HUM 103 Introduction to Humanities - 20th Century 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course focuses on the arts and cultural achievements of the 20th century in the Western world. It explores the political, social, and cultural ramifications of various events (i.e. World War I and II, Freud, technological advances etc.) on the arts. The student will understand the world around them by exploring the arts of the previous century.

HUM 145 Comparative Religions 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course will examine the basic beliefs and practices of a variety of Eastern and Western religious traditions. During this examination, the central elements or concepts of these traditions will be explored, as will the role of religious practice in society and the lives of human beings.
HUM 146 Mythology 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course presents myths from around the world and it explores the relationship
between the development of a culture and its myth. The course also focuses on the
similarities of the mythologies of all cultures, while touching on key points
from other disciplines including psychology, science, and literature. Influences of
these myths into Western culture will also be traced.

HUM 150 International Cinema 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides a survey of important foreign films and film makers
(primarily, though not exclusively, European). The films viewed in class are
discussed in terms of film techniques as well as in terms of content. No foreign
language ability is assumed.

HUM 160 American Film 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
The development of American cinema from its beginnings in 1896 to the pres-
ent is studied. The films, viewed in class, are discussed in terms of technique
as well as in terms of content. The course relates American cinema to themes
in American culture.

HUM 170 Montreal World Film Festival 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This brief course will be held at the Montreal World Film Festival in late August.
Students travel to Montreal to attend screenings of films at the Festival. This
course will appeal to those with an interest in film or in cross-cultural travel as
it offers both intensive film-viewing and an introduction to the largest French-
speaking community in North America. The course fee will cover round-trip train
travel from Windsor, hotel accommodations in Montreal, passes to ten Festival
films and the Festival program guide.

HUM 175 Arts and Cultures of Middle East
(3000 BCE - 1800 CE) 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course focuses on the arts and cultural achievements of the middle east
from ancient times through the Ottoman Empire. It explores the political, social,
and cultural ramifications of various events in the arts, literature, music, phil-
osophy, and architecture of the area, with an emphasis on the Islamic period.
The student explores the human experience in Middle Eastern culture through
the evolution of artistic expressions.

HUM 185 The Horror Film 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is a study of the horror film with emphasis on cultural relevance
and aesthetic qualities. The student will explore cinematic expressions of the
horror genre in terms of technique as well as content. Both feature films and
documentaries will be viewed and analyzed.

Interior Design
IDN 111 Interior Design Studio I 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
This course is the first in a series for interior design studios. The students will
learn how to read construction drawings and related specifications as they
apply to interior design planning. Students will obtain working knowledge of
all residential and commercial construction material that affects interior design
planning. Interior design students will learn how to integrate their profession
with the architects and builders and create drawings and sketches of interior
design spaces that conform to industry standards.

IDN 113 Theory of Interior Design I 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Students will investigate basic design elements and principles, as they relate to
the design of interior spaces. Design elements and principles included in this
course are form, function, balance, harmony, variety, contrast, focus, unity,
and rhythm. Attention to scale and proportion is also covered. These elements
and principles will be utilized as the basic toolbox of interior design projects.

IDN 114 Human Needs in Design 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course introduces human needs as a factor in interior design. The principles
of ergonomics and anthropometrics and how they influence the design of interior
spaces will be discussed. The main focus of this course is on the physical, social
and psychological factors that influence human behaviors and their impact on
environmental design.

IDN 122 Interior Design Studio II 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; IDN 111,
IDN 113, and IDN 114, minimum grade “C”
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
This course is the second in a series for interior design studios. The students will
utilize both team and individual problem-solving skills to design interior spaces
for both residential and commercial sites. Application of anthropometrics, ergo-
nomic, and appropriate building codes and regulations shall be demonstrated
in design. Further development of interior design graphic presentation skills are
emphasized in this course.

IDN 133 Theory of Interior Design II 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; IDN 113
minimum grade “C”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course continues the application of psycho-sociological theories to the
design of interior spaces. Students will learn how to use the perception of color,
the effects of light, and environmental and behavior theories as they apply to
the design of interior spaces.

IDN 137 Interior Design Materials 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course covers the various materials used in the design of interior spaces
including both organic and inorganic supplies and resources. Specific materials
may include fabrics, ceramics, wood, plastics, steel, and other materials. Attention
to sustainable and durable materials and textiles will be addressed in this course.
Interior Design (IDN) – Internet Professional (INP)

IDN 201 Building Systems for Interior Design 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; IDN 122 minimum grade “C”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course explores existing construction methods and building systems that affect the design of interior spaces. Students will be able to distinguish between the various framing/structural methods that create both load bearing and non-load bearing walls. Students will learn about common mechanical, electrical, data communications and plumbing systems that influence the layout of interior spaces.

IDN 211 Interior Design Studio III 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; IDN 122, IDN 133, and IDN 224, minimum grade “C”; IDN 224 may enroll concurrently
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
This course is the third in a series for interior design studios and builds upon skills developed in the second studio course. In this studio, students will be designing more complex interior spaces that have historical theme requirements. Complex interior spaces may include retail floor space and residential spaces that may be restricted by historical district guidelines and regulations.

IDN 222 History of Interior Design I 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course presents the history of interior design from prehistoric times through the Renaissance period, focusing primarily on the various developments in architecture, interiors, decorative items, furniture, and fine arts. Topics will include the social and political climates, the relationship of applied arts to the fine arts, and technological innovations that had major impacts on materials used for the design of interior spaces and furniture.

IDN 224 History of Interior Design II 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; IDN 224 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course presents the history of interior design from the Baroque period to the present, focusing primarily on European and American furniture and interior design movements and pioneering interior and furniture designers. Topics will include the social and political climates, the relationship of applied arts to the fine arts, and technological innovations that had major impacts on materials used for the design of interior spaces and furniture.

IDN 240 Interior Design Building Codes 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; IDN 122 and IDN 137, minimum grade “C”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course takes an in-depth look at regional, municipal, fire and national building codes that are applicable to the interior space. Other jurisdictional statutes, regulations, national standards, and guidelines will also be consulted for the design of interior spaces. Green standards and sustainable design issues will be addressed.

Internet Professional

INP 140 Building a Website 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course takes students through the process of planning and organizing a Website, as well as creating Web pages using an industry standard tool (such as Dreamweaver). Students will learn basic HTML, CSS and how to publish Web pages on a Web server. This course is for students with no knowledge of HTML, but who need to understand the basics of Web publishing. It is not intended for those intending to become Web developers.

INP 150 Web Coding I 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is an introduction to the fundamentals, tools and techniques of Web interface design. Students will gain an understanding of Web graphic design and production, including creating, manipulating and optimizing images and interfaces for the Web. Industry-standard software applications for Web design will be used in a PC-based classroom. Previous Photoshop experience is required to successfully complete this class. During the first week of class, student must demonstrate competency using Photoshop. This course was previously INP 143.

INP 152 Web Graphics I 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is an introduction to the fundamentals, tools and techniques of Web interface design. Students will gain an understanding of Web graphic design and production, including creating, manipulating and optimizing images and interfaces for the Web. Industry-standard software applications for Web design will be used in a PC-based classroom. Previous Photoshop experience is required to successfully complete this class. During the first week of class, student must demonstrate competency using Photoshop. This course was previously INP 143.

INP 153 Designing User Experience I 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course students learn the principles and practices of user-centered design, as well as the fundamentals of information architecture and interface design for the Web. The focus will be on critical evaluation of existing Websites, and creating deliverables that a user experience professional would typically produce. Upon completion of this course, students will have a working knowledge of approaches, tools, and techniques pertaining to a variety of Web topics such as content design, interface design, navigation, organization, labeling, and site mapping.

INP 170 Web Coding II 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; INP 150 minimum grade “C” or INP 150 Test minimum score 70%
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course focuses on advanced client-side coding for the Web. Various approaches to coding graphical layouts are the primary emphasis and students will be creating valid, standards-compliant pages that render properly cross-browser and cross-platform. Additional topics include accessible markup, media-specific styling, filters and image replacement. XML and related languages are also considered.

266 Washtenaw Community College – Programs and Services 2010 - 2011 www.wccnet.edu
INP 174  Internet Professional Co-op I  1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required
Level II Prerequisites: Complete two INP core courses and two courses in the option
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Co-op courses provide the student with worksite skills and experience in an approved, compensated position related to their chosen field of study. Together with an instructor, an employer, and the Workplace Learning Center, the student determines work assignments and learning objectives to connect classroom learning with career-related work experience. Registration for a cooperative education course requires attendance at a co-op orientation.

INP 176  Web Animation I  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; GDV 152 or INP 152, minimum grade “C”; GDV 153 may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course introduces students to the basic skills and techniques used to create animation for the Web. The class will use the latest industry-standard software to create simple animated Web presentations, Websites, and interactive games. Students will gain an understanding of all aspects of animating for the Web from concept and storyboarding, to final production and implementation. This course was previously INP 272.

INP 182  Web Graphics II  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; INP 152, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course focuses on intermediate Web interface and design techniques that focus on whole-site design, alternative layout styles and the preparation of images for Web development. Topics include designing for specific clients and audiences, alternate layout strategies and intermediate graphic and interface design strategies. This class challenges students to incorporate different design strategies, technologies and style into Web interfaces. Industry-standard software applications for Web design will be used in a PC-based classroom.

INP 203  Designing User Experience II  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; INP 153, minimum grade “C-”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course students will gain experience with various methods for evaluating and improving Website usability and accessibility, as well as learn about technologies and techniques for presenting and managing Web content. In exploring the area of accessibility, the students will use adaptive technology to better understand how users with disabilities experience Websites. Students will also research recent developments in the user experience field and explore opportunities for employment and further education in the field.

INP 212  Web Graphics III  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; INP 182, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course focuses on experimental and non-traditional Web interface design. Students will identify non-traditional, experimental Web design styles and apply them to Web deliverables. Students will also learn emerging professional layout styles and develop interfaces based on audience, design research and emerging technology. Software applications for Web design and development will be used in a PC-based classroom.

INP 233  Web Analytics and SEO  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; INP 150 and INP 153, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students will learn about the technologies and techniques used to increase Website traffic, as well as how to track user activity and evaluate the impact of Website changes via analytics. Search engine optimization and the role of social and interactive media in driving user behavior are given significant focus.

INP 253  Designing User Experience III  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; INP 203, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students will learn user experience best practices for a wide variety of Web environments and topics, including mobile devices, internationalization, AJAX, and content management systems. Students will prototype user interfaces based on these best practices and document specifications in use cases.

INP 271  Web Coding III  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; INP 170, minimum grade “C-”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course focuses on Web application development using JavaScript and the Document Object Model. Accessible, unobtrusive, and standards-compliant coding techniques are stressed. Asynchronous JavaScript and XML (AJAX) approaches are also considered.

INP 274  Internet Professional Co-op II  1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; INP 174, consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Co-op courses provide the student with worksite skills and experience in an approved, compensated position related to their chosen field of study. Together with an instructor, an employer, and the Workplace Learning Center, the student determines work assignments and learning objectives to connect classroom learning with career-related work experience. Registration for a cooperative education course requires attendance at a co-op orientation.

INP 275  Web Database  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; INP 271, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides an introduction to database concepts and the implementation of database-driven Web applications, such as shopping carts, using ASP.Net. Students will learn C# and SQL and will use industry standard development tools and databases. Students will also gain some experience in configuring an ASP.Net Web server. No prior database experience is required. This course was previously INP 283.

INP 276  Web Animation II  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; GDV 152 and INP 176, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course students will learn advanced animation techniques for the Web, with a focus on creating effective, interactive user interfaces. The class will combine both interface design concepts and basic programming using ActionScript to create animated Web presentations, interactive Websites and advanced games. This course is intended for students interested in enhancing their Flash skills and gaining a basic knowledge of object-oriented programming concepts.
INP 281 Web Coding IV  
3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; INP 271 minimum grade “C-”  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This course provides an introduction to server-side scripting languages for the Web. PHP and Ruby are given the greatest focus, with consideration also given to frameworks such as Ruby on Rails. Core server-side concepts are stressed, including data storage and retrieval as well as template-based Web development.

INP 284 Web Graphics IV  
4 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6; INP 212 minimum grade “C”  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
This course is an introduction to the methods and philosophies of information design as they apply to interface design. By using the principles and practices of information design, such as sequencing, memory strings, wayfinding and wayfinding, students will create Web information that is both accessible and usable. This course is designed to step students through a typical information design project from pre-testing to prototype development and post-testing.

Iron Workers of America  
IWA

IWA 120 Introduction to Ironwork  
3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This course is an introduction to ironworking for new apprentices. Course topics include job safety and health, blueprints and mathematics for ironworkers. Students will be introduced to oxy-acetylene cutting and safety in the classroom before completing hands-on assignments. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 122 Ironworker - General Rigging  
2 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
This course introduces scaffold erecting, scaffold dismantling, and basic rigging along with cranes and other rigging power equipment. Topics include safety, signals, calculations, fiber and wire ropes, hardware, slings and reeving. Students will use differing tools and devices for rigging including cranes, fork trucks, tuggers, gantries and truck loading. Load security and student safety is emphasized. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 131 Introduction to Metal Building  
2 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
This course provides an overview to metal building erection and finishing for new apprentices. Topics include primary and secondary framing and wall sheeting. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 141 Introduction to Reinforcing Ironwork  
3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This course is an overview of reinforcing ironwork for new apprentices. Topics include material property and related CRSI and ACI codes and specifications. Students will develop additional blueprint reading skills specific to reinforcing steel. Various types of structures will be reviewed and students will be introduced to splicing and coupling. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 151 Rigging/Machinery Mover I  
3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This course focuses on advanced rigging skills including machinery moving, disconnecting power and hydraulic lines and the basics of reinforced steel. Students will practice loading, hauling, unloading, setting, aligning, laser leveling and grouting. Emphasis will be placed on reading and interpreting blueprints for proper positioning and application to different types of reinforced steel structures. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 155 Rigging/Machinery Mover II  
3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This course introduces conveyor systems, their uses, and maintenance requirements. Terminology, systems components, basic installation, devices and mechanisms will be covered. Rigging as it applies to different types of structural details will be emphasized. This course prepares students to take the Crosby Master Rigging and CDL Certification tests. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 161 Introduction to Architectural and Ornamental Ironwork  
2 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours  
This course covers architectural wall systems. Students will learn about curtain wall systems, window wall systems, sloped walls, cable walls, skylights and testing. Students will gain experience erecting storefronts, entranceways and glass rails. Students will be introduced to sealants and glazing systems. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 172 Introduction to Structural Features  
4 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
This course provides an overview of the structural features of a building. Students will also be introduced to instruments, tools and fasteners with a focus on leveling and anchors. Topics include erecting columns, band beams, joists and trusses, plumbing and aligning, decking and various types of bolts. Classroom training will be supplemented with hands-on experience. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 191 Reinforced Iron and Structures for Rigging  
4 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours  
This course is an overview of reinforcing ironwork for new apprentices. Reinforcing iron topics include material property and related CRSI and ACI codes and specifications. Structural topics include erecting columns and beams, joists and trusses, plumbing and aligning, decking and various types of bolts. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 201 Introduction to Welding  
3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours  
This course continues the theory and practice of welding. Students learn Oxy-Acetylene cutting and welding in addition to shielded arc welding. Students receive instruction in welding symbols, details, procedures, codes, qualifications, inspections and FEMA requirements. Related safety is covered. Students are encouraged to take and pass the SMAW certification test. This course is only available for Ironworker apprentices through the Local 25 training center.
IWA 224 Labor and Trade History 1 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
The history and future of labor and trade unions with particular emphasis on Ironworkers will be discussed. Students will be introduced to skills and practices needed to be a foreman for ironworkers. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 235 Advanced Metal Building 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course provides hands-on experience in metal building erection and finishing. Students will install insulation, siding, metal roofing, flashing and trim. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 241 Advanced Reinforcing Ironwork 7 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
105 lecture, 0 lab, 0 clinical, 0 other, 105 total contact hours
This course continues training for reinforcing ironwork with emphasis on ACI codes 318 and 117 and the CRSI Manual of Standard Practices. Students will focus on unboxed mono-strand and bonded post tensioning installations, stressing, blueprints and troubleshooting. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 265 Advanced Architectural and Ornamental Ironwork 6 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
90 lecture, 0 lab, 0 clinical, 0 other, 90 total contact hours
This course continues training for architectural and ornamental ironworkers. Students will install several different mock-up systems focusing on correct installation of metal and composite wall panel systems, associated trim and openings. The selection of wall systems based on structural and metal building types will be discussed. This course is only available for Ironworker apprentices through the Local 25 training center.

IWA 272 Advanced Structural Features 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course covers topics such as bridges, towers, wind turbines, stair stringers and other unique layouts. This course is only available for Ironworker apprentices through the Local 25 training center.

Journalism

JRN 111 Introduction to Journalism 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this introductory course, students begin by examining, discussing and analyzing news stories delivered in various forms, identifying fundamental elements of style, tone, content. Students progress to interviewing live sources, writing news articles, and reviewing relevant rules of grammar. Examination of interview techniques and newsroom organization is also included. This course was previously ENG 101.

JRN 216 News Writing and Reporting 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; JRN 111 minimum grade “C”; may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students write news articles suitable for publication in print or electronic media. Conventions of newspaper writing are emphasized, including neutral tone, fair and balanced reporting, summary leads, feature leads, nut graphs and appropriate use of quotations. Students also examine legal and ethical concerns and may cover speeches, courts and government. Students will perform research for their stories using interviews, Internet resources and electronic databases. This course was previously ENG 216.

JRN 217 Feature Writing 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; JRN 111 minimum grade “C”; may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students write articles suitable for publication as features for print, web or other media. Human interest stories, profiles, obituaries, law and ethics, narrative technique and online reporting/media convergence are among the topics examined. Students practice research techniques as a part of each writing assignment. This course was previously ENG 217.

JRN 218 Sports Writing and Reporting 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ENG 111 or JRN 111, minimum grade “C”; JRN 216 or JRN 217, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students write basic game, advance and feature stories for sports journalism. Column writing is explored as well, along with the fundamentals of covering a sports beat for print and web-based reporting. Students will also study the techniques of successful sportswriters and learn how to develop and interact with sources.

JRN 220 Journalism for the Web 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; JRN 111 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students explore ways to report news and information digitally. Students use social media, digital images, and digital video along with text to report stories they gather and post on web-based blogging platforms--while continuing to observe the ethical and legal conventions of quality journalism.

Machine Tool Technology

MTT 102 Machining for Auto Applications 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
20 lecture, 40 lab, 0 clinical, 0 other, 60 total contact hours
This course provides an introduction to basic machine tool operations. Much emphasis is placed on shop safety. Topics covered include: inch and metric precision measurement tools, tool identification, cutting speed calculations, drilling and tapping. Lab projects cover the basic operation of horizontal band saw, contour band saw, vertical milling machine, surface grinder, lathe, and threading on lathe. Machining contours is demonstrated on a CNC machining center.
Machine Tool Technology (MTT) – Mathematics (MTH)

MTT 105 Machine Tool Skills Laboratory 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MTT 102 or MTT 111, minimum grade “D”
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
This class is designed to give students enrolled in other courses an opportunity to use the machine shop with faculty instruction. Many classes on campus require students to build or modify parts. For example, classes such as robotics require students to design and build working manufacturing cells. Lecture, along with demonstration, will be used to make students aware of various machine tool setups. Students who want to maintain their machine tool skills can select from dozens of projects available.

MTT 111 Machine Shop Theory and Practice 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 2
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course provides an introduction to machine tool operation. Much emphasis will be placed on shop safety. Other topics that will be covered include: basic measurement, drawings, hand tools, feeds and speeds and rotary tools. In addition to the above, students will gain valuable “hands on” experience learning basic operations on the sawing machines, engine lathes, milling machines, and grinding machines.

MTT 174 MTT Co-op Education I 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MTT 202; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Students are placed in an approved work experience to gain skills and knowledge offered by the employer. Together with the instructor and the employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experiences. Students with experience equivalent to MTT 202 may contact the instructor for permission to waive the prerequisite.

MTT 203 Advanced Machine Tool Operations 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MTH 151 and MTT 111, minimum grade “C-”
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course teaches advanced machine tool skills required by industry. Topics include: carbide tooling identification and uses, threading and thread forms, cutting internal and external tapers, precision measurement, advanced layout and set-up techniques and grinding. Students will attain a higher comprehension level for set-up and tooling requirements needed for CNC programming and CAD/CAM classes.

MTT 240 Mechanical Trades 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
This course addresses mechanical fundamentals for students in the millwright and mechanical trades. Topics include safety, safe working loads for ropes and cables, structural materials/applications, types/applications of lubricants, bearings, belts, chains, sprockets, sheaves, fasteners, conveyor systems, cranes, and power lifts. Projects apply plant layout and material handling methods, manufacturing sequencing, line balancing, flow requirements, workstation layout, ergonomic and space requirements. This course contains material previously taught in MTT 140.

MTT 274 MTT Co-op Education II 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MTT 174; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Students are placed in an approved work experience to gain skills and knowledge offered by the employer. Together with the instructor and the employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experiences.

Mathematics

MTH 067 Foundations of Mathematics 4 credits
Level I Prerequisites: Academic Reading Level 4; no minimum writing level; Academic Math Level 1
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This is the first of two courses in the developmental math sequence. The focus of this course is to develop students’ problem-solving and basic algebra skills. Topics for this course include applications involving integers, decimals and fractions, as well as applications of percents, proportions and consumer credit, algebraic expressions, algebraic properties, algebraic operations and multi-step equation-solving. The Cartesian Coordinate system and applications of algebra are also introduced. Students who complete this course, and demonstrate competency on an exit test, are eligible to enroll in the second course.

MTH 097 Foundations of Algebra 4 credits
Level I Prerequisites: Academic Reading Level 4; no minimum writing level; Academic Math Level 2
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This is the second of two courses in the developmental math sequence. The scope and content of this course is equivalent to a first-year high school algebra course. Topics include the real number system, algebraic operations, solving equations, practical applications, graphing, systems of equations, polynomial expressions, introduction to roots and radicals, and quadratic equations. Students who complete this course are prepared for college-level mathematics.

MTH 125 Everyday College Math 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 2
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is intended to further students’ mathematical knowledge of concepts and applications they might encounter in everyday adult life. Students will read and understand college-level readings of mathematical topics. Topics will include three main subject areas: advanced consumer math and formulas (mortgage interest, compound interest, loans and credit cards), Logic and Sets (sets and operations, Venn Diagrams, basic logic) and statistics (probability, measures of center and spread, the normal curve).

MTH 148 Functional Math for Elementary Teachers I 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 3
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is the first in a two-course sequence presenting the mathematical concepts and problem-solving techniques necessary for success in a teaching career at the elementary school level. It is not a course solely for math teachers; rather it provides a general mathematical background for teachers of all subjects. Topics include problem-solving, sets, numeration systems, number theory and the whole, integer, and rational number systems.
Mathematics (MTH)

MTH 149 Functional Math for Elementary Teachers II 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MTH 148 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is the second in a two-course sequence presenting the mathematical concepts and problem-solving techniques necessary for success in a teaching career at the elementary school level. It is not a course solely for math teachers; rather it provides the general mathematical background for teachers of all subjects. Topics include probability, an introduction to statistics, introductory geometry, congruence and similarity, and measurement concepts.

MTH 151 Technical Algebra 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 2
75 lecture, 0 lab, 0 clinical, 0 other, 75 total contact hours
This course introduces algebraic, geometric, and trigonometric concepts in an applied setting and is primarily for trade and technical students. Topics, which emphasize applications, include: a review of the fundamentals of fractions, decimals and percents; terminology and applications of geometry; measurements and conversions; algebraic expressions, equations, and formulas; ratio and proportions; summary graphs and charts; and an introduction to right triangle trigonometry.

MTH 157 Geometry and Trigonometry 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 3
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is a course in the measurement of geometric shapes. Topics include: general measurement principles; perimeter; area; volume; and the measurement of length and angle (in general and applied settings). A two-line scientific calculator is required for this course. See the time schedule for current brand and model. This course contains material previously taught in MTH 107 and MTH 152.

MTH 160 Basic Statistics 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 3
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course provides students with a general understanding of statistical concepts dealing with the processing and interpretation of numerical information. Topics covered include describing a numerical data set, central tendency, variability, probability distributions, inference, and hypothesis testing. A graphing calculator is required for this course. See the time schedule for current brand and model.

MTH 166 Math for Radiography 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 3
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is intended for students who plan to participate in the radiography program at WCC. It satisfies the math requirement of that program. Students will prepare for radiography concepts through arithmetic and algebraic applications, working with proportions and the square laws, and interpreting graphical and statistical information.

MTH 167 Math Applications for Health Science 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 3
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course reviews the mathematical and algebraic skills required to solve calculations in health-related fields. This course relates these skill applications in the nursing field. The topics which emphasize applications in the nursing field include: mathematics through algebra; the metric, apothecary, and household systems; proportions, conversion factors, and an introduction to statistics.

MTH 169 Intermediate Algebra 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 3
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Intermediate Algebra is the second course in the algebra sequence. The following functions will be studied: quadratic, rational, radical, logarithmic and exponential. A graphing calculator is required for this course. See the time schedule for the current brand and model.

MTH 176 College Algebra 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 4
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course provides the necessary background for pre-calculus. Topics include graphs of functions including transformations, function composition, variation, polynomial functions of degree two and higher, polynomial and synthetic division, roots of polynomials, complex numbers, rational functions and equations, non-linear equations and inequalities, inverse functions, exponential functions equations and models, logarithmic functions equations and models, and applications. A graphing calculator is required for this course. See the time schedule for the current brand and model. This course was formerly MTH 179.

MTH 178 General Trigonometry 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 4 or MTH 169 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides a rigorous background in trigonometry. Topics include: trigonometric functions, inverse trigonometric functions, radian measure, trigonometric graph, identities, solutions of trigonometric equations, solution of triangles, rotation, and vector triangles. A graphing calculator is required for this course. See the time schedule for current brand and model.

MTH 180 Precalculus 5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 5
75 lecture, 0 lab, 0 clinical, 0 other, 75 total contact hours
This course provides the necessary background in analytic geometry, trigonometry and advanced algebraic topics for calculus. Topics include trigonometric functions, identities and graphs, the conic sections, sequences and series and the binomial theorem. A graphing calculator is recommended for this course. See the time schedule for the current brand and model.

MTH 181 Mathematical Analysis I 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 4
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course teaches the methods and applications of finite mathematics applied to social science and business. Topics covered include solution to linear equations and inequalities, mathematics of finance, matrices, linear programming, sets, probability and statistics. To confirm transfer equivalency, consult a counselor or check the Web page of the college to which you are transferring. A graphing calculator is required for this course. See the time schedule for current brand and model.
Mathematics (MTH) – Motorcycle Service Technology (MST)

MTH 182 Business Calculus 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 5
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course teaches the elementary methods of calculus applied to social science and business. Topics covered include functions, differentiation of algebraic functions, optimization, constrained optimization, exponential functions and logarithmic functions and their derivatives, integration, the definite integral as accumulation, and an introduction to multivariate calculus. This course emphasizes applications and problem setup. A TI-83 or TI-84 graphing calculator is required. The title of this course was previously Mathematical Analysis II.

MTH 191 Calculus I 5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 7
75 lecture, 0 lab, 0 clinical, 0 other, 75 total contact hours
This is first-semester college calculus of one variable. Topics include: limits, continuity, derivatives, applications of derivatives, elementary integration, and transcendental functions. A graphing calculator is required for this course. See the time schedule for current brand and model.

MTH 192 Calculus II 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MTH 191 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This is a second semester college calculus course of one variable. Topics include applications of integration, integration techniques, L’Hospital’s Rule, improper integrals, infinite series, parametric equations and polar coordinates. A graphing calculator is required. See the time schedule for current brand and model. This course transfers to four-year institutions.

MTH 197 Linear Algebra 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MTH 191 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This is an introductory college course in linear algebra. Topics include linear systems of equations, properties of vectors and matrices, determinants, vector spaces, linear transformations, eigenvalues, and applications. A graphing calculator is required for this course. See the time schedule for current brand and model.

MTH 293 Calculus III 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MTH 192 minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This is the third-semester college calculus of more than one variable. Topics include geometry in the plane and in space, vector-valued functions, partial derivatives, multiple integrals, and an introduction to vector calculus. To confirm transfer equivalency, consult a counselor or check the Web page of the college to which you are transferring. A graphing calculator is required for this course. See the time schedule for current brand and model.

MTH 295 Differential Equations 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MTH 197 and MTH 293, minimum grade “C”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course provides an introduction to the concept of differential equations which is necessary for students in engineering, physics, and other science majors. Topics include methods for solving ordinary differential equations, numerical methods, Laplace transforms, and techniques for solving systems of linear differential equations and their applications. A graphing calculator is required for this course. See the time schedule for current brand and model.

Motorcycle Service Technology MST

MST 110 Motorcycle Service Technology I 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours
This entry-level course provides an understanding of the operation of a motorcycle service department. It will instruct the student in the proper use of hand and shop tools. The theory, operation, tolerances, and specification of basic internal combustion engines will be covered. Included in this class are the proper procedures for new vehicle set up and mileage-based maintenance and installation of accessories.

MST 120 Motorcycle Service Technology II 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MST 110 minimum grade “C”
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours
Students learn to identify and explain the operational theory of motorcycle drivelines, to diagnose, service and repair primary and final drive systems, clutch assemblies, transmissions, wheels, brakes, and front and rear suspension components. They also learn the theory of frame geometry and design.

MST 130 Motorcycle Service Technology III 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MST 120 minimum grade “C”
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours
This course focuses on problem-solving strategies for isolating defective components and the troubleshooting and repair of: wiring harnesses, charging systems, ignition systems, and starting systems. The principles, components, operation, troubleshooting, service, and repair of both carbureted and fuel-injected systems will be covered.

MST 140 Motorcycle Service Technology IV 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MST 130, MTT 102 and WAF 105, minimum grade “C”
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours
Through the use of manufacturer’s service and parts manuals, the student learns the proper procedure for preparing complete and accurate damage repair estimates. Using a combination of classroom and hands-on skills training, students learn to diagnose, service, and repair single- and multiple-cylinder engines.

MST 210 Performance Engine Technology 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MST 140 minimum grade “C”
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours
The student learns to identify the theory and components of a performance engine. They also learn the advantages and disadvantages of raising the level of peak performance of an engine. The course will supply the knowledge to design and install a performance enhancement package.

MST 220 Dynamometer Operations 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MST 140 minimum grade “C”
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours
Students learn to identify the components and operation of a load control dynamometer. The primary emphasis is on the student learning to use the dynamometer as a diagnostic, data acquisition, and tuning tool. The course will instruct the student in the design and application of various tuning technologies used in current custom fuel and ignition mapping. The student will develop the skills to become proficient in tuning carbureted vehicles.
MST 225 Advanced Dynamometer Tuning Systems 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MST 220 minimum grade “C”
45 lecture, 60 lab, 0 clinical, 0 other, 105 total contact hours
Students will be taught the skills to operate a load control dynamometer as an advanced tuning tool. The primary emphasis is on the student learning to use the dynamometer to troubleshoot and tune fuel injection systems on motorcycles and ATV’s. They will learn the application of various technologies used by both the OEM’s and aftermarket companies.

MST 230 Advanced Motorcycle Fabrication 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
This course begins the integration of the knowledge and skills acquired in the Motorcycle Service Technology programs and from coursework in Welding and Fabrication and Machine Tool Technology. Students will practice design skills including pattern development, mechanical drawing and fastener selection in the creation of a custom motorcycle frame, swing arm or billet accessory. Designs will be fabricated using welding, milling machine and lathe operation skills on various types of building materials including body sheet metal.

MST 235 Advanced Motorcycle Fabrication II 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
This is the second course in advanced motorcycle fabrication. This course expands on the knowledge acquired in Motorcycle Service Technology, Welding and Fabrication and in Machine tool Technology. Areas of study will include all aspects of the complete design and fabrication of a custom motorcycle.

MUS 103 WCC Jazz Orchestra 2 credits
Level I Prerequisites: No Basic Skills
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
WCC Jazz Orchestra is a performance-oriented course for woodwinds, brass, percussion and string instruments, as well as electronic keyboards and vocalists. There is an emphasis on musical phrasing, blending, style and improvisation. This course will focus on melodic, harmonic and rhythmic skills necessary for performing in a big-band setting. The class will perform in the community and on campus. The lessons focusing on musical skills vary depending on the musical selections, which change each semester; therefore, the course can be repeated a maximum of four times for credit.

MUS 104 Top 40 Combo 2 credits
Level I Prerequisites: No Basic Skills
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This class will put emphasis on performing the type of music that is popular with dance, wedding receptions, and nightclub audiences. It will examine the different elements that make songs popular and more appropriate for dancing. The instrumentation in this type of combo will consist of lead and rhythm guitars, electric bass guitar, piano and synthesizers, drums, saxophone, trumpet and vocals. This class will perform in different venues throughout the community.

MUS 105 Basic Combo and Improvisation 2 credits
Level I Prerequisites: No Basic Skills
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This is a basic performance skills class for instrumental and vocal solo or small group expression. Students learn basic improvisation and listening skills, how to express their original ideas through the acquisition of chord and scale relationships, and communication and group interaction skills. Students must demonstrate basic competency on their instruments.

MUS 106 Jazz Combo and Improvisation 2 credits
Level I Prerequisites: No Basic Skills
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course is designed for the musician with some degree of competency to gain experience and skill in performance and improvisation of different styles of jazz music. This is a performance group which offers concerts at WCC and in the community-at-large.

MUS 133 Beginning Guitar 2 credits
Level I Prerequisites: No Basic Skills
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course is a beginning guitar class focusing on playing chord changes, fingerstyle techniques and beginning and intermediate chord progressions found in popular and folk music. This course was previously MUS 233.

MUS 134 Intermediate Guitar 2 credits
Level I Prerequisites: No Basic Skills; MUS 133 minimum grade “C”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course covers advanced chord formations (Major 7th, Minor 7th, and Dominant 7th chords) and how to apply them in a song. It also covers Major and Minor Scales in every key and how to use them in songs by playing the melody. Advanced stages of the class will cover improvisation. Musical expression will also become an important factor. The students will be introduced to the term “the art of self expression.” Students with experience equivalent to MUS 133 may contact the instructor for permission to waive the MUS prerequisite. This course was previously MUS 236.

MUS 136 Gospel Chorus 2 credits
Level I Prerequisites: No Basic Skills
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course in vocal studies covers ensemble and solo singing in the gospel music tradition. Vocal and breathing exercises, rehearsal techniques, improvisation, gospel vocal arranging skills, and a brief history of gospel music will be covered. Class performances will be presented each semester.

MUS 140 Music Theory I 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to give prospective musicians (hobby to professional) a basic foundation in the reading, writing, and understanding of musical notation. Students will explore the basic concepts of musical form, rhythm, meter, pitch notation, and creative use of music as it relates to their individual goals. Students should have some prior experience in performing with an instrument, creating music, or have a desire to perform or study music further.
Music (MUS)

MUS 142 Music Theory II 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MUS 140
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to provide musicians (hobby to professional) a more advanced knowledge of music composition and performance vocabulary. Students will work on ear training, music notation, and analysis of creative composition of music techniques. Students will learn to make career and music theory plans and to implement these plans.

MUS 146 Songwriting and Creative Improvisation 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
For the prospective song writer, this class deals with lyric writing and musical accompaniment. Students collaborate using their talents to produce songs and also become acquainted with musical styles through recordings and demonstrations. Music industry procedures concerning how to get a song published and recorded is discussed. Other areas of study include recording, the recording studio, record pressing and copyright procedures.

MUS 147 Entertainment Law 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This is a course for the serious music student and professional musician covering basic agreements, contracts, royalties, copyrights and other legal aspects in the music industry. Students who intend to perform for an audience, publish or record need this important information.

MUS 154 Functional Piano I 2 credits
Level I Prerequisites: No Basic Skills
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This class is designed for those who wish to learn the fundamentals of playing the piano, including the ability to read and execute keyboard music harmonically and melodically. The course covers basic musicianship, piano technique fundamentals, elementary keyboard harmony, sight-reading, pedal technique and keyboard facility for use in support of other music classes. The course also offers an introduction to how the piano works, its development, and composers and pianists in various styles. This course was previously MUS 210.

MUS 155 Functional Piano II 2 credits
Level I Prerequisites: No Basic Skills; MUS 154 minimum grade “C”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course is a continuation of functional piano, providing studies beyond the beginning stage. It focuses more on individual development in terms of technique, expression, and performance, as well as providing further keyboard skills, historical and theoretical background. This course was previously MUS 211.

MUS 162 Music Sequencing and Programming 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This class demonstrates how to compose songs using a MIDI keyboard workstation and focuses on making the recording process a one-person operation. The student will record and edit original compositions using multiple tracks and will quantize rhythms and simulate instruments such as piano, drums, guitar, and bass guitar. The class will include string and horn arranging.

MUS 170 Computer Applications in Music 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course uses computer applications to provide basic instruction in the theory of computer-aided composition and sequencing. Terminology and theory in MIDI, digital audio, keyboard synthesis, and sequencing are covered. Students will complete individual and group projects.

MUS 175 Audio Recording Technology I 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to provide students with the fundamentals necessary for a career-oriented study in creative audio recording. Audio-visual and hands-on experience (professional recording studio access) is provided, as is lecture and studio experience on multimedia recording and mixing techniques.

MUS 180 Music Appreciation: Our Musical World 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is an active participation course that will use music as a means for learning about the world around us. The course emphasizes the potential creative, critical thinking and socio-cultural factors as they may best enhance the students’ lives and careers. Many of the world’s musical styles and geographic regions are considered.

MUS 204 Voice I 3 credits
Level I Prerequisites: No Basic Skills
0 lecture, 0 lab, 0 clinical, 45 other, 45 total contact hours
This course is a beginning course in voice, enabling the student to effectively sing with proper technique as well as perform beginning repertoire in class. The course covers fundamentals of vocal technique, basic anatomy and physiology of the voice, basic music terminology, and exposure to various vocal styles and genres. A significant amount of class time is spent on individual performance in a studio class setting.

MUS 205 Voice II 3 credits
Level I Prerequisites: No Basic Skills
Level II Prerequisites: MUS 204 minimum grade “C”
0 lecture, 0 lab, 0 clinical, 45 other, 45 total contact hours
This course is a continuation of MUS 204, providing studies beyond the beginning stage. It focuses more on individual development in terms of technique, repertoire, and performance. The course also further develops the student’s knowledge of theory, sight-singing and basic musicianship as they apply to the singer. Students with experience equivalent to MUS 204 may contact the instructor for permission to waive the prerequisite.

MUS 209 Musical Theatre Song Performance Seminar 2 credits
Level I Prerequisites: No Basic Skills; MUS 204
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course is a studio/seminar on song performance in the musical theatre genre, and is intended for students with background in voice. Vocal technique, diction, performance techniques, and development of repertoire are emphasized in a studio class setting. Students perform frequently in class and receive coaching from the instructor as well as feedback from their classmates. It is suggested that this course be taken the first time in conjunction with DRA 209, Acting for Musical Theatre. Students with experience equivalent to MUS 204 may contact the instructor for permission to waive the prerequisite. Course may be repeated up to three times for credit.
MUS 237 Finger-Style Blues and Slide Guitar 2 credits
Level I Prerequisites: No Basic Skills; MUS 133 and MUS 134, minimum grade “C”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course draws from the history of the musicians from the Delta regions of Mississippi in the 1930’s to the present. It will focus on the finger-picking techniques and the alternate tunings used by the great blues artists who inspired the blues tradition from Robert Johnson to Stevie Ray Vaughn. Students will execute various right hand techniques, such as alternating bass rhythms, shuffle bass rhythms, and Delta strumming rhythms. Left hand techniques will include advanced chord formations associated with blues theory, chord formations associated with the alternate tunings as well as techniques associated with the use of bottleneck slide. The student will also illustrate and explore blues theory and progressions.

MUS 239 Jazz Guitar I 3 credits
Level I Prerequisites: No Basic Skills; MUS 134 minimum grade “B”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This class will focus on the styling of jazz guitar greats such as Wes Montgomery, Kenny Burrell and Joe Pass. It will examine chord melody solos, the melodic content and playing with octaves. Through this study, the student will learn the importance of the dynamics and sensitivity. The class will give insight into improvisational playing of chords and walking bass lines simultaneously.

MUS 240 Jazz Guitar II 3 credits
Level I Prerequisites: No Basic Skills; MUS 239 minimum grade “B”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This class will further explore the styling of jazz guitar greats such as Wes Montgomery, Kenny Burrell and Joe Pass. It will examine chord melody solos, the melodic content and playing with octaves. Through this study the student will learn the importance of dynamics and sensitivity. The class will give insight into playing chords and walking bass lines simultaneously.

MUS 245 Music Producing and Arranging 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MUS 175 minimum grade “C”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This class covers string and horn arranging with emphasis on arranging a rhythm section (guitar, bass guitar, drums, piano and keyboards). Also covered, is the role of the producer and the skills necessary for creating a finished recording product for the commercial market. The student should have some knowledge of general music theory.

MUS 248 Sound Reinforcement for Stage 3 credits
Level I Prerequisites: No Basic Skills
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course covers all aspects of theatrical amplification from the spoken word to musical performances. It will demonstrate how to equalize sound in order to amplify it. The class emphasizes the importance of monitoring the stage and mixing console while making volume and equalization adjustments for diverse musical and theatrical events.

MUS 251 Classical Piano I 3 credits
Level I Prerequisites: No Basic Skills; MUS 154 or MUS 155, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to introduce students to proper techniques of classical piano. Techniques include hand position, tone, dynamics, phrasing, and meter. The student will also learn music theory (form, chord structures, voice leading) and history as it pertains to the music. Short preludes and etudes and other appropriate repertoire will be introduced to further develop technique and reinforce an understanding of classical style. The student will have an opportunity to study works of master classical composers such as Bach, Beethoven, Mozart and Chopin.

MUS 252 Classical Piano II 3 credits
Level I Prerequisites: No Basic Skills; MUS 251 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is a continuation of the Classical Piano I course and is designed to move the student to the next level of study. The student will move on to advanced study of the classical piano focusing on advanced techniques for the left and right hand, tone, dynamics, phrasing and meter. The student will study works of master classical composers such as Beethoven, Mozart, J.S. Bach, Tchaikovsky, Chopin and others.

MUS 275 Audio Recording Technology II 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MUS 175 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is a career-oriented course for advanced audio technology recording. Students apply basic theory and recording skills to progressive recording of solo instrumental, small group and finally multi-track large ensembles. Students are assigned projects to record both students and professional groups within the college or externally.

MUS 280 Voice III - Classical Voice 3 credits
Level I Prerequisites: No Basic Skills; MUS 204 and MUS 205, minimum grade “C+”; MUS 205 may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course will expose students to the techniques and fundamental principles involved in the preparation and study of classical vocal repertoire. The class will assume knowledge of vocal production and stage presence from Voice I and Voice II. The curriculum will include the provision of theoretical vocal and musical concepts, as well as the application of classical voice principles through studio and/or outside performances.

MUS 285 Self Management for Working Artists 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students will learn how to market themselves or others in the music industry. Students will focus on developing interpersonal skills; preparing a portfolio; booking performances; preparing, analyzing and negotiating contracts; and determining the monetary value of the work of a musician. Students will explore how to manage their business while creating a multi-faceted career.

Numerical Control

NCT

NCT 101 Introduction to Computerized Machining (CNC) - I 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
This is the first course of the numerical control series. It is a beginning level course. Students are exposed to various aspects of automated machining centers used in automated manufacturing. Studies include an introduction to: controllers, fundamentals of set-up and operation, programming CNC controllers, CAD CAM software, and simulation software. This course contains material previously taught in NCT 112.
Numerical Control (NCT) – Nursing (NUR)

NCT 110 Introduction to Computerized Machining (CNC) - II 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NCT 101 minimum grade “C”
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
This course is a continuation of NCT 101. This class focuses on the set-up and operation of CNC mills and lathes in the laboratory. Different parts will be machined, to specification, though variations of set-up and interactions with the machine tool controllers. Students will be able to operate the CNC vertical mills and CNC lathes in the lab after successful completion of this class. This class prepares students for the manual programming and advanced programming classes where students will be required to set-up and cut various parts. This course contains material previously taught in NCT 112.

NCT 121 Manual Programming and NC Tool Operation 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; MTT 111, NCT 101, and NCT 110, minimum grade “C-”; NCT 101 and NCT 110, may enroll concurrently
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
This is the first in a two-course study of manual programming of CNC milling and turning centers. Students experience the entire process of part manufacturing by processing working drawings of sample parts, writing and editing of programs, set up and operation of CNC machine tools, and inspection of the finished products. Feeds and speeds, fixed cycles, program editing, set up procedures, and tape preparation are major topics presented. Laboratory time is required outside of class time. Students with experience equivalent to NCT 101 and NCT 110 may contact the instructor for permission to waive the prerequisites.

NCT 174 NCT Co-op Education I 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NCT 221; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
This is the second of a two-course study of manual programming and CNC Machine Tool Operation. Complex cutter path generation, cutter compensation, repetitive programming, multi-quadrant circular interpolation, three axis interpolation, threading, and other advanced programming techniques are practiced. Geometry creation using CAD/CAM software will be presented and used in this class. The class format is similar to that of NCT 121. Students with experience equivalent to NCT 121 may contact the instructor for permission to waive the prerequisites.

NCT 221 Advanced Manual Programming and NC Tool Operation 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NCT 121 minimum grade “C”
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
This is the second of a two-course study of manual programming and CNC Machine Tool Operation. Complex cutter path generation, cutter compensation, repetitive programming, multi-quadrant circular interpolation, three axis interpolation, threading, and other advanced programming techniques are practiced. Geometry creation using CAD/CAM software will be presented and used in this class. The class format is similar to that of NCT 121. Students with experience equivalent to NCT 121 may contact the instructor for permission to waive the prerequisites.

NCT 249 CAD/CAM CNC Programming 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NCT 221 minimum grade “C-”, may enroll concurrently
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Students learn to use CAD/CAM software to design parts and generate CNC machine tool programs for part manufacture. Students practice the input of geometry as the basis for tool path generation. Both 2D and 3D wireframe geometry are practiced. Various methods of surface creation are presented and practiced. CNC machine tool programs are created for the manufacture of parts within the software. Drilling pocketing and contour milling are typical 2D machining applications presented. Students are provided time in the CNC machine tool laboratory.

NCT 274 NCT Co-op II 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NCT 174; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
Students are placed in an approved industrial work experience to gain skills and knowledge offered by the employer. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two possible co-op courses.

Nursing (NUR)

NUR 039 NCLEX-RN Preparation 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 231, NUR 271 and NUR 281, minimum grade “C-”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course assists nursing program graduates in preparing for the NCLEX-RN (National Council Licensure Examination for RNs). Emphasis is placed on reviewing learned materials and on taking national comprehensive examinations. Departmental approval needed if not a graduate of WCC’s APNURS program. Grading uses the satisfactory/unsatisfactory system.

NUR 100 Introduction to Nursing - Care of Healthy Older Adults 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Registered Nursing program
15 lecture, 22.5 lab, 22.5 clinical, 0 other, 60 total contact hours
This course provides the foundation for the entire nursing program. Topics include philosophy and history of nursing, and nursing core competencies. Professional behaviors and communication are emphasized. Principles of self-care for healthy, non-institutionalized older adults are addressed, such as: accommodations to normal changes of aging, commonly encountered challenges to health achievement, and disease prevention and health maintenance programs in the community. This course contains material previously taught in NUR 101 and NUR 104.

NUR 102 Fundamentals of Nursing 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Registered Nursing program
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course builds on knowledge previously taught in NUR 101 and NUR 104. Students will learn the procedures and rationales for specific basic nursing skills, based on the nursing process as the organizing framework for nursing practice and provides the foundation for other nursing courses. Topics related to patients’ basic needs are emphasized including teaching/learning, communication, pain, sleep, psychosocial and cultural factors, holistic healing and alternative therapies, and end-of-life issues. This course builds on knowledge gained in prerequisite courses.

NUR 103 Fundamentals of Nursing - Lab and Clinical Practice 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Registered Nursing program
0 lecture, 60 lab, 60 clinical, 0 other, 120 total contact hours
Students are placed in an approved industrial work experience to gain skills and knowledge offered by the employer. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two possible co-op courses.

NUR 104 Fundamentals of Nursing - Lab and Clinical Practice 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Registered Nursing program
0 lecture, 60 lab, 60 clinical, 0 other, 120 total contact hours
Students are placed in an approved industrial work experience to gain skills and knowledge offered by the employer. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two possible co-op courses.

NUR 231 NCLEX-RN Preparation 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 271 and NUR 281, minimum grade “C-”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course assists nursing program graduates in preparing for the NCLEX-RN (National Council Licensure Examination for RNs). Emphasis is placed on reviewing learned materials and on taking national comprehensive examinations. Departmental approval needed if not a graduate of WCC’s APNURS program. Grading uses the satisfactory/unsatisfactory system.

NUR 300 Intro to Nursing: Making the Decision to Study Nursing 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Registered Nursing program
15 lecture, 22.5 lab, 22.5 clinical, 0 other, 60 total contact hours
This course provides the foundation for the entire nursing program. Topics include philosophy and history of nursing, and nursing core competencies. Professional behaviors and communication are emphasized. Principles of self-care for healthy, non-institutionalized older adults are addressed, such as: accommodations to normal changes of aging, commonly encountered challenges to health achievement, and disease prevention and health maintenance programs in the community. This course contains material previously taught in NUR 101 and NUR 104.

NUR 303 Intro to Nursing: Making the Decision to Study Nursing 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Registered Nursing program
15 lecture, 22.5 lab, 22.5 clinical, 0 other, 60 total contact hours
This course provides the foundation for the entire nursing program. Topics include philosophy and history of nursing, and nursing core competencies. Professional behaviors and communication are emphasized. Principles of self-care for healthy, non-institutionalized older adults are addressed, such as: accommodations to normal changes of aging, commonly encountered challenges to health achievement, and disease prevention and health maintenance programs in the community. This course contains material previously taught in NUR 101 and NUR 104.
NUR 115 Pharmacology  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to APNURS or APNURT program is required; BIO 212 and MTH 167, minimum grade “C-”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course includes basic principles of pharmacology and major drug classifications using a body systems approach and the nursing process. Pharmacology builds on previous knowledge of Pathophysiology and drug dosage calculation. General mechanisms of drug action, clinical indications for use, common adverse reactions, general nursing implications and significant drug interactions are discussed. This is a required course in the WCC Nursing Programs, but may also be taken for transfer into second career BSN programs with consent of the instructor after submission of required documentation.

NUR 122 Nursing as a Societal and Interpersonal Profession  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Nursing Transfer program; consent required
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
The purpose of this course is to provide students with a foundation in the social and ethical dimensions of nursing as a discipline and a health profession. Students will examine the historical development of nursing and assess the impact of that development on contemporary nursing. Cultural variables and personal values will be examined by the student. Finally, the social context within which nursing is practiced is reviewed, providing the student with an appreciation of the health care system, with particular emphasis on legal and ethical frameworks.

NUR 123 Acute Care Nursing I  
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 102, NUR 115, minimum grade “C-” and NUR 103 with grade “P”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course uses the nursing process to understand the care of adults and their families during health and illness. Principles of nursing care for adults experiencing and adapting to health deviations in the following areas are covered: cardiovascular, respiratory, urinary, endocrine, and hemato logic. This course builds on knowledge gained in prerequisite courses and is the first of two medical-surgical nursing courses.

NUR 124 Acute Care Nursing I - Clinical Practice  
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 123 minimum grade “C-”, may enroll concurrently
0 lecture, 12 lab, 78 clinical, 0 other, 90 total contact hours
This medical-surgical clinical experience builds on knowledge and basic skills from previous courses. The lab component covers advanced nursing skills associated with the acutely ill adult. In the clinical component, students gain increased competence in assessment skills and medication administration. Using the nursing process, students learn to care for one (1) patient with moderately complex medical-surgical needs in the acute care setting. Pre-clinical assessment time is required prior to and outside of the scheduled clinical hours.

NUR 130 Health Promotion and Risk Reduction  
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Nursing Transfer programs (UM-SoN and EMU-SON) and NUR 122 minimum grade “B”
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
In this course, students gain an understanding of the concepts of health, healthy behavior, health promotion, levels of prevention, diversity and risk; factors that influence health and healthy lifestyle behaviors; basic dynamics of behavioral change; and substantive content in nutrition, physical activity and psychological well-being. Theoretical and empirical support for promoting health and reducing risk behaviors are examined as a basis for understanding ways that diverse individuals can positively influence their own health and wellness. The role of professional nursing in promoting health behavior is examined. Using substantive content, exemplar behaviors of nutrition, physical activity and coping and adaptive behaviors will be examined from the student’s perspective to gain an understanding of their contribution to health and wellness. Underlying dynamics, such as self-efficacy and resilience, will be examined in the context of the theoretical and empirical literature and standards for the nursing profession. Students will examine potential strategies for influencing health behavior change.

NUR 131 Nursing of the Childbearing Family  
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 100, NUR 102, and NUR 115 minimum grade “C-” and NUR 103 with grade “P”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course uses the nursing process to understand basic nursing care of the family during the childbearing process, including the antepartum, intrapartum, postpartum, and normal newborn period. Topics of fertility, infertility, and deviations from the normal maternity and newborn experience will be addressed. This course builds on knowledge previously gained in prerequisite courses.

NUR 132 Nursing of the Childbearing Family - Clinical Practice  
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 131 minimum grade “C-”, may enroll concurrently
0 lecture, 12 lab, 78 clinical, 0 other, 90 total contact hours
Students use the nursing process to provide care for the childbearing family within the lab and hospital setting. Emphasis is placed on health teaching to assist the family in adapting to parenting and recovery from childbirth. Some experience with high-risk mothers and newborns is provided.

NUR 222 Health Assessment Throughout the Lifespan  
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 102, minimum grade “B”; and NUR 103, with grade “P”; both courses may enroll concurrently
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course provides the beginning knowledge needed to assess the health status of individuals from infancy through old age, including physical, developmental, psychological, cultural and spiritual dimensions. The laboratory experience, focused on the adult client, provides students the opportunity for skill acquisition in history taking, assessment skills and documentation of findings. Individuals holding an RN or LPN may request an override of the course prerequisites.

www.wccnet.edu
Nursing (NUR)

NUR 223 Acute Care Nursing II 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 123 and NUR 131, minimum grade “C-”; and NUR 124 and NUR 132, with grade “P”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is the second course of the two-part medical-surgical nursing sequence that uses the nursing process to understand the care of adults and their families during health and illness. Principles of nursing care for adults experiencing and adapting to health deviations in the following areas are covered: gastrointestinal, integumentary, nervous, musculoskeletal, reproductive, and immune. This course builds on knowledge gained in prerequisite courses.

NUR 224 Acute Care Nursing II - Clinical Practice 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 223 minimum grade “C-”, may enroll concurrently
0 lecture, 12 lab, 78 clinical, 0 other, 90 total contact hours
This medical-surgical clinical experience builds on knowledge and skills from previous courses, with emphasis on progressive development of technical skills, time management, and prioritization of patient care. Using the nursing process, students learn to care for two (2) patients with moderately complex medical-surgical needs in the lab and acute care settings. Pre-clinical assessment time is required prior to and outside of the scheduled clinical hours.

NUR 231 Nursing of Children 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 223 and NUR 255, minimum grade “C-”; and NUR 224 and NUR 256, with grade “P”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course uses the nursing process to focus on the care of children and their families during health and illness. Concepts learned in the previous semesters are applied to develop nursing interventions to care for this population. Principles of nursing care for children of all age groups experiencing health deviations and their adaptation to the stressors of hospitalization are addressed. Promoting health and fostering normal growth and development are emphasized.

NUR 232 Nursing of Children - Clinical Practice 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 231 minimum grade “C-”, may enroll concurrently
0 lecture, 6 lab, 84 clinical, 0 other, 90 total contact hours
This course uses the nursing process to focus on care of hospitalized children and support of their families in the acute care setting. Students focus on incorporating growth and development assessment, as well as response to illness, into the development of nursing interventions appropriate for the specific child and family. Opportunities for interaction with the well child are provided. Pre-clinical assessment time is required prior to and outside of scheduled clinical hours.

NUR 255 Mental Health Nursing 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 123 and NUR 131, minimum grade “C-”; NUR 124 and NUR 132, with grade “P”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course uses the nursing process to understand basic mental health nursing care for selected individuals in the hospital and community. The central focus is to help the student become more sensitive to human behavior and to act in a therapeutic manner. Understanding disturbed patterns of coping, prevention of mental illness, and maintenance and restoration of mental health are discussed. This course builds upon knowledge gained in prerequisite courses.

NUR 256 Mental Health Nursing - Clinical Practice 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 255 and PSY 100, minimum grade “C-”, may enroll concurrently
0 lecture, 4 lab, 86 clinical, 0 other, 90 total contact hours
This course uses the nursing process to apply mental health nursing concepts for individuals and families in hospital and community settings. Students gain experience with current methods of prevention, maintenance, and treatment when caring for at least two (2) moderately complex individuals with disturbed patterns of coping. Pre-clinical assessment time is required prior to and/or outside of the scheduled clinical hours.

NUR 271 Advanced Topics in Medical-Surgical Nursing 1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 223 and NUR 255, minimum grade “C-”; NUR 224 and NUR 256, with grade “P”
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This course contains material previously taught in NUR 261.

NUR 272 Advanced Topics in Medical-Surgical Nursing - Lab Practice .5 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 271 minimum grade “C-”, may enroll concurrently
23 lecture, 0 lab, 0 clinical, 0 other, 23 total contact hours
This advanced lab experience is intended to expose students to complex, life-threatening patient scenarios in a structured simulation environment that would not normally be encountered on general medical-surgical units. Students will demonstrate the ability to respond to these situations by integrating principles of nursing practice and prioritization learned in the related class. This course contains material previously taught in NUR 262.

NUR 281 Transition to the Registered Nurse Role 1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 223 and NUR 255, minimum grade “C-”; NUR 224 and NUR 256, with grade “P”
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This course addresses fundamental concepts of leadership and management as they apply to the registered nurse, as well as preparing students for the transition from classroom to workforce. Leadership principles emphasized include: resource management and cost effectiveness, prioritization and delegation, risk management and conflict resolution, quality improvement, laws and regulations, and the role of research in nursing practice. This course builds on knowledge gained in prerequisite courses. This course contains material previously taught in NUR 261.

NUR 282 Transition to the Registered Nurse Role - Clinical Practice 2.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; NUR 281 minimum grade “C-”, may enroll concurrently
0 lecture, 0 lab, 112 clinical, 0 other, 112 total contact hours
This capstone medical-surgical clinical experience is intended to socialize students into the role of a professional nurse, which includes the roles of delegator and team leader. Using the nursing process, students manage care for three (3) patients with moderately complex medical-surgical needs in the acute care setting. Experience is provided for each student to function collaboratively with members of the health care team. This course contains material previously taught in NUR 262.
Pharmacy Technology

PHT 100 Introduction to Pharmacy and Health Care Systems 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Pharmacy Technology program
Corequisites: PHT 103 and PHT 140 and PHT 150
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
In this course, students are introduced to our healthcare system and various pharmacy practice settings. The technician's role of assisting the pharmacist, maintaining the pharmacy, and controlling inventory is emphasized. Students learn drug information skills, computerized pharmacy business practices, and the application of the HIPPA. Discussion includes legal and ethical responsibilities and the importance of pharmaceutical organizations for the advancement of the pharmacy technician profession.

PHT 101 Pharmacology for Pharmacy Technicians 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PHT 100, PHT 103, PHT 140, and PHT 150, minimum GPA 2.0
Corequisites: PHT 198
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Students learn the purposes, actions, side effects, precautions and significant interactions of major drug classes with special attention on dosage forms and commonly used drug names. The student learns to describe the use of these agents in the management of disease states and their effects on body systems.

PHT 103 Pharmaceutical Calculations 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Pharmacy Technology program
Corequisites: PHT 100 and PHT 140 and PHT 150
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
Applications of pharmaceutical dosage calculation are presented in this course. Accuracy of calculations is stressed to assure that the patient receives the correct dose. This course prepares students for second semester laboratory and clinical course work.

PHT 106 Introduction to Pharmacy Technology 1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
The course examines the role of the pharmacy technician in various pharmacy settings. It provides an overview of the educational requirements, the state law regarding delivery of pharmacy technician services, the role of the pharmacy technician as a member of the health care team, and the career opportunities for pharmacy technicians.

PHT 140 Pharmacy Prescription Processing 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Corequisites: PHT 100 and PHT 103 and PHT 150
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course is an introduction to the operation of a pharmacy dispensing system. Students participate in practical exercises pertaining to prescription processing on a computer, relative to the pharmacy environment.

PHT 150 Pharmacy Operations and Compounding 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Corequisites: PHT 100 and PHT 103 and PHT 140
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students will gain knowledge and hands-on experience in sterile and nonsterile compound product preparation, institutional pharmacy policies and procedures, drug information resources, telephone communication skills, fitting durable medical equipment, assessment of patient blood pressures and basic principles of robotic technology. Emphasis is on aseptic technique and parenteral product preparation where students develop skills in manipulation of parenteral drug products.

PHT 174 PHT Co-op Education I 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PHT 100, PHT 101, PHT 103, PHT 140, PHT 150, and PHT 198; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course students gain skills from a new experience in an approved, compensated position related to their chosen field of study. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two possible co-op experiences courses.

PHT 198 Pharmacy Experience 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PHT 100, PHT 103, PHT 140, and PHT 150, minimum GPA 2.0
Corequisites: PHT 101
0 lecture, 0 lab, 360 clinical, 0 other, 360 total contact hours
Skills and knowledge acquired in the first semester of the Pharmacy Technology program are applied in pharmacy practice settings. All experience is under the supervision of a registered pharmacist. Students will obtain experience with ambulatory care and acute care pharmacy skills that can be applied to a wide variety of pharmacy practice. The student will spend 3 days per week, 8 hours per day in each experience site assignment. This course is graded on a pass/no pass grading system.

PHT 274 PHT Co-op Education II 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PHT 100, PHT 101, PHT 103, PHT 140, PHT 150, PHT 174, and PHT 198
Level II Prerequisites: consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, the student gains skills from a new experience in an approved, compensated position related to the chosen field of study. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two possible co-op experiences courses.

Philosophy

PHL 101 Introduction to Philosophy 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course will examine the discipline of philosophy from a topical perspective. Major figures and concepts in this discipline will be studied in the context of central problems or issues in the history of philosophy. Issues or topics to be studied may include: the meaning of life, free will and determinism, the mind-body problem, moral realism v. moral relativism, moral theory or the nature of moral judgment, metaphysics or the study of reality, epistemology or the study of knowledge, the question of the existence of God or ultimate reality as well as the rationality of religious belief.
This course is designed to provide and foster an environment within which students can learn the basic principles of reasoning at the introductory level, and how to use these principles in informal discourse and argumentation. Although students will be introduced to some basic deductive (formal) argument forms, the focus of the course will be on inductive (informal) argumentation, since inductive reasoning is the form of argumentation that is most prevalent in our contemporary discourses, including philosophical, political, legal, ethical, and religious discourse. Consequently, the student, by learning the principles of inductive argumentation, can learn how to think and argue in critically appropriate and successful ways about important topics and themes.

PHL 205 Ethics 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is offered as an introductory ethics course, where students are introduced to at least four of the main classical ethical theories within the Western tradition, as well as two of the most prevalent theories of justice. Although additional theories and approaches may be covered, such as Feminist Ethics, Moral Egoism, or Eastern Ethical Theories, the study of the following classical theories will provide the course’s main foci: Ethical Relativism, Virtue Ethics, Deontological (duty) Ethics, Utilitarian Ethics, the Utilitarian Conception of Social Justice, and Justice as Fairness.

PHL 240 Social-Political Philosophy 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is an introductory social-political philosophy course, within which students shall be introduced to various classical and contemporary social-political philosophies and the conceptions of human nature that underlie them. The following movements will be discussed: Political Naturalism, Social Contract Theory, Utilitarianism, Marxism, Contemporary Political Liberalism, and Feminist Political Theory.

PHL 244 Ethical and Legal Issues in Health Care 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides an introduction to issues arising from the application of philosophical ethics or moral theory to the health care context. Different models of ethical decision-making will be used to examine current issues in health care. The course also provides an overview of legal theory and responsibility as it applies to the health care context with an emphasis placed on professional negligence. Topics to be discussed may include: patient’s rights, informed consent, confidentiality, medical research or experimentation, genetics, treatment of impaired newborns, end of life care, HIV/AIDS, and moral/legal responsibilities toward colleagues.

PHL 245 Philosophy of Religion 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is offered as an introductory philosophy of religion course, where students are introduced: (1) to various forms of Theism, Atheism, and Agnosticism, emphasis will be given to their theoretical-philosophical justifications, and (2) to some of the basic concepts, belief systems, and practices of various religions, including those of Christianity, Judaism, Islam, Hinduism, Buddhism (and perhaps others), where the focus will involve an examination of the theoretical-philosophical defenses or justifications of the traditions.

PHL 250 Logic 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course offers an introduction to the discipline of philosophical logic. Emphasis will be placed on the distinction between deductive/formal reasoning and inductive/informal reasoning. With regard to the former, the course will examine different methods for the evaluation of deductive/formal arguments or reasoning. With regards to the latter, the course will again explore methods of evaluation, highlighting common mistakes in informal or everyday reasoning.

PHL 123 Critical Thinking 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides an introduction to issues arising from the application of philosophical ethics or moral theory to the health care context. Different models of ethical decision-making will be used to examine current issues in health care. The course also provides an overview of legal theory and responsibility as it applies to the health care context with an emphasis placed on professional negligence. Topics to be discussed may include: patient’s rights, informed consent, confidentiality, medical research or experimentation, genetics, treatment of impaired newborns, end of life care, HIV/AIDS, and moral/legal responsibilities toward colleagues.

PHO 090 General Photography 2 credits
Level I Prerequisites: Academic Reading Level4 or REA 070 or REA 071, may enroll concurrently; Academic Writing Level 6 or ENG 090 or ENG 091, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is a course for students wishing to understand basic photography and its processes. Primary emphasis is on understanding and using the camera and related equipment, picture taking, composition, lighting, film, etc. Students should own or have the use of some type of camera. No darkroom work is included in this course.

PHO 103 History of Photography 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is a survey of the history of photography as a technology and art form. Areas of investigation include historic and contemporary photographic processes, artistic trends and the social uses of the medium since its inception.

<td>This course offers students an opportunity to explore digital capture abroad. Through a series of on-location shoots, lectures, critiques, and digital imaging demonstrations, students will create portfolios of photographs revealing their impressions of the chosen location and culture. Digital workflow issues will be addressed throughout the course. An online portfolio will be used as an integral part of the course to exhibit current work. Basic photographic and computer skills are required. Digital cameras will be available for use during the course or students may use their own.</td>

| PHO 110     | Introduction to the Darkroom                         | 1       |
|             | Level I Prerequisites: Academic Reading and Writing Levels of 6; PHO 111 minimum grade “C-”, may enroll concurrently |
|             | 15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours |
|             | This course provides a hands-on introduction to darkroom-based photography. Students will shoot, process and print B & W film, develop an awareness of pre-digital working methods, and learn about areas of photography where darkroom work is still in practice. Cameras and all necessary supplies will be provided. |

| PHO 111     | Photography I                                        | 4       |
|             | Level I Prerequisites: Academic Reading and Writing Levels of 6 |
|             | 45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours |
|             | This is a first-term course in basic photography. Areas of study include: camera operation, lighting and composition, laboratory equipment and procedures, image processing, printing and final presentation techniques. Students must have their own manually adjustable camera and anticipate additional costs for materials for the course. Some sections are film based and are for students with 35mm film cameras. Other sections are digitally based and are for students with digital cameras. See the time schedule to choose the appropriate section. |

| PHO 116     | Studio Portraits                                     | 3       |
|             | Level I Prerequisites: Academic Reading and Writing Levels of 6 |
|             | Level II Prerequisites: PHO 117                      |
|             | 30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours |
|             | This is an introductory, hands-on course in commercial and illustrative portrait photography to create expressive portraits of people. Students learn to effectively utilize artificial light sources and examine the advantages of various camera formats, including high-end digital image capture. Students also experience a deeper exploration of color E-6 process films, C-41 process films, black and white films, filters, gels, diffusion, and light modulation tools. Business and legal issues regarding reproduction rights are also discussed. |

| PHO 117     | Introduction to the Studio                           | 4       |
|             | Level I Prerequisites: Academic Reading and Writing Levels of 6; PHO 111 minimum grade “C-” |
|             | Level II Prerequisites: PHO 127 minimum grade “C-” |
|             | 30 lecture, 0 lab, 0 clinical, 60 other, 90 total contact hours |
|             | This course is a comprehensive overview of photo-studio lighting with an emphasis on technical systems, which is inclusive of medium-format cameras, tungsten lights, and electronic strobes. Photo assignments incrementally investigate the tools of lighting along with color-photo media such as Polaroid films, E-6 films, and digital cameras. Emphasis is placed on studio-based compositional skills. |

| PHO 122     | Darkroom Techniques                                  | 4       |
|             | Level I Prerequisites: Academic Reading and Writing Levels of 6; PHO 111 minimum grade “C-” |
|             | 45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours |
|             | This course teaches advanced methods for controlling tone and contrast using film, fiber-based paper and darkroom processes. Darkroom Techniques teaches students the craft of creating high-quality darkroom prints which maximize the expressive qualities of the original camera images and the resulting film negatives. Prior film and/or darkroom experience is not required. |

| PHO 127     | Digital Photo Imaging I                              | 4       |
|             | Level I Prerequisites: Academic Reading and Writing Levels of 6; PHO 111 minimum grade “C-” |
|             | 45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours |
|             | This course is a comprehensive overview of current digital photographic technologies. Students utilize image input devices, such as scanners and digital cameras, and imaging software applications to optimize output for print and electronic publication. Assignments investigate color theory, a variety of technical controls in Photoshop, and color management. |

| PHO 129     | Black and White Digital Imaging                      | 4       |
|             | Level I Prerequisites: Academic Reading and Writing Levels of 6; PHO 127 minimum grade “C-” |
|             | 45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours |
|             | This course explores a variety of methods and strategies for making monochrome and toned black and white images using digital processes. Students learn to prepare images for printing, digitize film for monochrome processing, use digital cameras to create black and white photographs, convert color images to monochrome, and utilize a variety of modern printing technologies. |

| PHO 174     | PHO Co-op Education I                                | 1-3     |
|             | Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required |
|             | Level II Prerequisites: PHO 111                      |
|             | 0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours |
|             | Students are placed in an approved industrial work experience to gain skills and knowledge offered by the employer. Together with the instructor and the employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experiences. This is the first of two possible co-op experiences. |

| PHO 204     | Color Photo Design                                   | 3       |
|             | Level I Prerequisites: Academic Reading and Writing Levels of 6; PHO 111 and PHO 127, minimum grade “C-” |
|             | 30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours |
|             | This is a continuation of color image workflow to produce images with strong color, composition, and impact. Students increase their proficiency with film and/or digital SLR camera systems and implement techniques of how to see, approach, and capture the dynamics of subject matter and color at different times of day. Emphasis is placed on output, creating images in-camera, and digitally processing them with a minimal amount of post-production manipulation, compositing, or collage. This course was previously PHO 124. |
Photography (PHO)

**PHO 210 Alternative Processes** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: PHO 122
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This course is an investigation of alternative processes and new technologies currently in use by commercial and artistic photographers. Students employ a variety of traditional and non-traditional darkroom techniques including digital image manipulation, to create new and exciting photographs. Emphasis is placed on the exploration of new techniques to develop a broad sense of options in visual problem-solving. Students are required to purchase photographic supplies.

**PHO 211 Large Format Photography** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PHO 111 minimum grade “C-”
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
This course introduces students to monorail and flatbed large format cameras. Students learn to load and process sheet film, Polaroid film and learn to print large format negatives. Students also learn the use of perspective and depth of field controls and other topics unique to large format photography. Assignments will be completed both in black and white and color.

**PHO 212 Large Format Photography II** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PHO 211 minimum grade “C-”
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
This course continues the exploration of the technical and visual components of large format photography, with a strong emphasis on developing a personal project. Demonstrations include the use of roll film adapters, formats other than 4x5, focus and perspective enhancement with view camera movements, contact printing, the integration of digital technology with large format photography. Students are expected to develop an individual large format project in this course.

**PHO 216 Environmental Portraiture** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: PHO 117
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
This is an introductory course in commercial and illustrative portrait techniques to create expressive portraits of people on location. Students learn to effectively utilize natural and artificial light sources and examine the advantages of various camera formats. Students also experience a deeper exploration of color E-6 films, process films, C-41 process films, black and white films, alternative process films, filters, and light modulation tools.

**PHO 219 Photographic Design** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: PHO 111
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
This is an intensive review of photographic composition and design techniques with emphasis on design in the photographic image through lecture, demonstration, critique, and darkroom practices. Included is a survey of contemporary photographers and new directions in modern photographic images and design.

**PHO 220 Advanced Studio Techniques** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: PHO 117 and PHO 127
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
This course is a deeper exploration of medium and large format cameras utilized in a commercial studio with film and digital image capture technologies. An emphasis is placed on logistical coordination of the components needed to produce an image. Assignments range from studio still life to on-location fashion work, yet individual choice of subject is also encouraged.

**PHO 227 Photojournalism** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PHO 111 and PHO 127, minimum grade “C-”
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This course covers the fundamental principles of communicating newsworthy events, contemporary social issues and human interest stories through still photography. Students become acquainted with specialized shooting skills, industry standards and ethics associated with photojournalism.

**PHO 228 Digital Photo Imaging II** 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: PHO 127
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course provides an advanced level of investigation into digital photographic tools and techniques. Students will expand their understanding of digital input devices, photo imaging software, and output devices. Students will be encouraged to work toward developing their own creative style. Students with experience equivalent to PHO 127 may contact the instructor for permission to waive the prerequisite.

**PHO 230 Portfolio Projects** 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PHO 117 and PHO 228, minimum grade “C-”
Level II Prerequisites: PHO 122 or PHO 129, minimum grade “C-”
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This course offers students the opportunity to work on an extended photographic project of the individual's choosing. Emphasis is placed on developing a personal style. Students improve their visual problem-solving skills through researching the technical and aesthetic concerns for their projects and through individual and group critiques. Recommended as a corequisite with Portfolio Seminar.

**PHO 231 Portfolio Seminar** 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PHO 117 and 6 additional PHO courses 100 level or above; minimum grade “C-” all PHO courses
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
This course is a capstone experience for students completing the photography program. Students will produce a professional portfolio, self-promotional materials and publish their portfolios on the Web. Professional critiques will be conducted on individual portfolios. Students will make contacts with potential employers, clients, or transfer schools. PHO 230 may be taken concurrently by students seeking additional emphasis on the production of their final portfolios.

**PHO 274 PHO Co-op Education II** 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PHO 174; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain skills from a new experience in an approved, compensated, industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the second of two co-op courses.
<table>

<tr>
<th>Physical Education Activity</th>
<th>PEA</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>PEA 102 Cardiovascular Training</strong></td>
<td>1 credit</td>
</tr>
<tr>
<td>Level I Prerequisites: No Basic Skills</td>
<td></td>
</tr>
<tr>
<td>0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours</td>
<td></td>
</tr>
<tr>
<td>The purpose of this course is to develop a basic understanding of the equipment and physical requirements necessary for improved cardiovascular endurance and body fat reduction (caloric expenditure). Students are provided with an exercise recommendation based upon American College of Sports Medicine (ACSM) guidelines. Equipment includes treadmills, stairmasters, Nordic tracks, rowing ergometers, airdynes, bicycle ergometers, and elliptical machines.</td>
<td></td>
</tr>
</tbody>
</table>

| **PEA 103 Beginning Golf** | 1 credit |
| Level I Prerequisites: No Basic Skills |
| 0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours |
| This course is designed for the beginning player who wants to learn the basics of golf. Priority is given to the general golf swing, chipping, putting, and course management. Students are given information about type of equipment to use and how to use it, including proper warm up and stretches. Students in this course will pay greens fees and provide their own clubs. |

| **PEA 104 Intermediate Golf** | 1 credit |
| Level I Prerequisites: No Basic Skills; PEA 103 |
| 0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours |
| This course is designed for the intermediate player who wants to learn more about golf. Priority is given to golf etiquette, course management skills, golfing strategies, and golfing for conditions. Students will practice a variety of trouble shots and more advanced shots. Students in this course will pay greens fees and provide their own clubs. It is recommended that students have a golf score of 110 or less for 18 holes or have had PEA 103 before registering for this course. |

| **PEA 105 Weight Training - Cybex/Free Weights** | 2 credits |
| Level I Prerequisites: No Basic Skills |
| 0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours |
| The purpose of this course is to develop basic weight training skills. Using Cybex and free weight equipment, students develop an understanding of the basic weight training exercises associated with each major muscle group. Emphasis is placed on understanding the proper form and technique necessary to train safely and effectively. (Free weight training is optional.) |

| **PEA 109 Beginning Tennis** | 1 credit |
| Level I Prerequisites: No Basic Skills |
| 0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours |
| The purpose of this course is to introduce students to the game of tennis. The fundamentals of the game are taught in a progressive learning experience. Students are instructed in the areas of skill development and scoring. A tennis racquet and tennis shoes are required. |

| **PEA 115 Health and Fitness Experience** | .5 credit |
| Level I Prerequisites: No Basic Skills; Minimum of 18 years of age; Student must be enrolled in at least 3 other credit hours. During the spring/summer semester, students may use winter semester hours to meet spring/summer requirements. |
| 0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours |
| Providing access to the Health & Fitness Center at Washtenaw Community College, this course encapsulates the benefits of regular and varied physical fitness activities. Students must be 18 years of age and enrolled in a minimum of 3 credits in the term of enrollment. Students who wish to register for spring/summer may apply 3 credits of enrollment in either spring/summer or the previous winter term (same calendar year) to meet this restriction. This course may be repeated for credit five (5) times for a total of 3 credits. |

</table>

| **PTA 150 Therapeutic Procedures I** | 3 credits |
| Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Physical Therapist Assistant program |
| 15 lecture, 60 lab, 0 clinical, 0 other, 75 total contact hours |
| This course introduces the physical therapist assistant student to the fundamental procedures of patient care and management. It prepares the student to safely and appropriately administer these procedures. Emphasis is on the development of decision-making and problem-solving skills while performing patient care activities. Content includes but is not limited to bed mobility, transfers, body mechanics, wheelchairs and wheelchair management and aseptic techniques. |

| **PTA 160 Therapeutic Procedures II** | 2 credits |
| Level I Prerequisites: Academic Reading and Writing Levels of 6; PTA 150 minimum grade “C” |
| 15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours |
| This course provides the physical therapist assistant student with patient care and patient management skills for safe and appropriate use with patients. Lecture, demonstrations, lab practice, and patient simulations will be used to develop decision-making and problem-solving skills with an emphasis on safety. Topics include wound management and muscle performance, but are not limited to, gait training with assistive devices, accessibility, pulmonary hygiene, and orthotics and prosthetics. |

| **PTA 180 Clinical Kinesiology** | 4 credits |
| Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Physical Therapist Assistant program |
| 30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours |
| This course studies human movement and includes the principles of basic physics and biomechanics. It examines the relationship of structures (skeletal, joint, neural, muscle) to function and examines normal and abnormal movement. Emphasis is on functional application to provide a foundation and rationale for therapeutic interventions necessary for the physical therapist assistant student. Laboratory experiences correlate to the lectures which include the study of the head and trunk, extremities, posture and gait. This course contains material previously taught in PTA 180 and PTA 190. |

| **PTA 195 Introduction to Disease** | 2 credits |
| Level I Prerequisites: Academic Reading and Writing Levels of 6; PTA 180 minimum grade “C” |
| 30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours |
| This course introduces the study of disease and disease processes in humans. Emphasis is on the impact on body systems, development, and rehabilitation. Lecture and student presentations will describe diagnosis and pathology, treatment, medication, prognosis, and implications for physical therapy treatment by the PTA under the direction and supervision of a licensed physical therapist. |
Physical Therapist Assistant (PTA) – Physics (PHY)

PTA 198  Soft Tissue Management  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PTA 220
minimum grade “C”
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
This course applies and builds on the knowledge of human anatomy and clinical
kinesiology and instructs the PTA student in the safe and appropriate use of
soft tissue techniques. These include, but are not limited to, basic soft tissue
massage and compression to be performed under the direction and supervision
of a licensed physical therapist. Lecture, demonstration, lab practice and patient
simulations will be used to develop problem-solving and technical skills needed
for clinical application.

PTA 200  Therapeutic Modalities  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PTA 180
minimum grade “C”
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
This course introduces the physical therapist assistant student to the principles
and skills necessary for the safe and appropriate administration of physical therapy
modalities under the guidance and direction of a licensed physical therapist.
Correlating lecture and laboratory experience topics will include therapeutic
heat and cold, and select physical agents and modalities.

PTA 220  Therapeutic Exercise I  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PTA 180
minimum grade “C”
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
This course introduces the PTA student to the theory, principles, and procedures
of therapeutic exercise providing the basis for safe and appropriate selection,
administration, monitoring, and adjustment of exercise programs (including
balance, strengthening, and posture). Students develop a rationale for the
selection and use of basic exercise equipment and practice the development,
demonstrations and clinical application.

PTA 225  Therapeutic Exercise II  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PTA 220
minimum grade “C”
Corequisites: PTA 198 and PTA 240
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
This course continues the study and application of theory, principles, and procedures
necessary for patient treatment using goal-directed exercise as a treatment
modality, under the direction and supervision of a licensed physical therapist.
General exercise as well as exercise for specific populations and diagnoses will
be included. Students will practice instruction, progression, and justification of
exercise programs as well as monitoring and documenting patient performance
and/or simulated patient interaction. Laboratory activities will correlate with
lectures and will include practice, patient simulations, and demonstrations.

PTA 230  Clinical Education I  1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6; PTA 220
minimum grade “C”, may enroll concurrently
0 lecture, 0 lab, 48 clinical, 0 other, 48 total contact hours
This course provides the qualified physical therapist assistant student with the
opportunity to observe and participate in structured and supervised experiences
in health care settings. Students will be placed by their program clinical education
coordinator in off-site locations and given limited opportunity to safely and
appropriately apply therapeutic interventions. This initial clinical experience will
also provide the background and foundation for future coursework. This course is
graded on a pass/no pass grading system.

PTA 240  Clinical Education II  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PTA 230
with grade “P”
0 lecture, 0 lab, 120 clinical, 0 other, 120 total contact hours
This second clinical experience provides the qualified physical therapist assistant
student with supervised clinical learning experiences and the opportunity
to further develop and practice necessary clinical decision-making, treatment,
documentation skills. Students will be assigned to varied off-site health care
settings for 3 weeks, 40 hours/week, under the supervision of a licensed
PT or PTA from an accredited two-year program. This course is graded on a
pass/no pass grading system.

PTA 250  Clinical Education III  5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; PTA 240
with grade “P”
0 lecture, 0 lab, 480 clinical, 0 other, 480 total contact hours
This third clinical experience consists of full-time clinical placements in off-site
health care settings. Qualified physical therapist assistant students will perform
activities of supervised patient care, documentation, and family instruction, acting
as a member of the health care team with the purpose of achieving entry-level
competency. This course is graded on a pass/no pass grading system.

PTA 280  Clinical Concepts  1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6; PTA 240
with grade “P”
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
This course reviews and builds upon classroom and clinical education experiences
to examine ethical considerations in patient care relationships, communication
between Physical Therapists and Physical Therapist Assistants, preparation for
employment, professional growth after graduation, departmental organization
and critical review of published research.

Physics

PHY 100  Physics for Elementary Teachers  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
60 lecture, 30 lab, 0 clinical, 0 other, 90 total contact hours
In this course students study the basic laws governing the physical universe.
This course helps prospective educators learn to explain everyday physical
phenomena in elementary terms. Prospective educators will also learn to select
materials and provide instruction for hands-on activities that help students
construct a picture of our physical universe.

PHY 105  Conceptual Physics  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic
Math Level 3
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Designed for both transfer and vocational students with no previous physics
experience, but desiring a working knowledge of physics, Physics 105 surveys
the major topics of Newtonian mechanics, heat, vibration and waves, electromagnetism,
and light using a conceptual approach with a minimum of mathematics.

PHY 110  Applied Physics  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic
Math Level 3
45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours
Technical-Vocational students with no previous experience with physics should
take this course to fulfill their program requirements. Topics covered are: mechanics
(kinematics, forces and torque, work-energy, machines), static fluids and
properties of matter and heat. Laboratory exercises give students an opportunity
to test theoretical principles.
The course will examine the immediate needs of its citizens for an investigation of the challenges of decision-making and governance in emphasis on the governments of Michigan and Washtenaw County provides Non-federal (state and local) governments will be examined in this course.

Level I Prerequisites: Academic Reading and Writing Levels of 6; PLS 150

45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours

This is the first of a two-course sequence in algebra-trigonometry based Newtonian physics for pre-professional and liberal art students. Physics 111 introduces and develops the concepts of kinematics, forces, work-energy, impulse-momentum (translational and angular), fluids, vibration and waves, and heat. Laboratory exercises are included to assist students in understanding the above topics.

PHY 122 General Physics II

Level I Prerequisites: Academic Reading and Writing Levels of 6; PHY 111 minimum grade “C”

45 lecture, 45 lab, 0 clinical, 0 other, 90 total contact hours

Physics 122 is the second part of a two-course sequence in algebra-trigonometry based physics for pre-professional and liberal arts students. Physics 122 covers the concepts of electricity, magnetism, light and modern physics extending the students’ knowledge of physics learned in PHY 111. Laboratory exercises are included to assist students in understanding the above topics.

PHY 211 Analytical Physics I

Level I Prerequisites: Academic Reading and Writing Levels of 6; high school physics or PHY 105 or PHY 111 and MTH 191; minimum grade “C” all MTH, PHY, and high school requirements

60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours

This is the first of a two-course sequence in calculus-based Newtonian physics for students intending to major in science or engineering. Physics 211 develops the concepts of mechanics (kinematics, forces, work-energy, impulse-momentum, translational and angular, fluids), vibration (and waves) and fundamental thermodynamics. Laboratory exercises are included to assist students in understanding the above topics and to develop skills in data analysis methods.

PHY 222 Analytical Physics II

Level I Prerequisites: Academic Reading and Writing Levels of 6; PHY 211 minimum grade “C”

60 lecture, 45 lab, 0 clinical, 0 other, 105 total contact hours

This second part of a two-course sequence in calculus-based physics covers the concepts of electricity, magnetism, light, and modern physics.

Political Science

PLS

PLS 112 Introduction to American Government

Level I Prerequisites: Academic Reading and Writing Levels of 6

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This class studies the forms and functions of American government with emphasis on national government. The decision-making process in Congress, the Presidency and the federal court system are studied. The course also examines the relationship of political parties and public opinion to the electoral process.

PLS 150 State and Local Government and Politics

Level I Prerequisites: Academic Reading and Writing Levels of 6

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

Non-federal (state and local) governments will be examined in this course. Special emphasis on the governments of Michigan and Washtenaw County provides for an investigation of the challenges of decision-making and governance in addressing the immediate needs of its citizens.

PLS 211 Introduction to Comparative Government

Level I Prerequisites: Academic Reading and Writing Levels of 6

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This class surveys the political systems of Great Britain, France, Italy, Germany, the former Soviet Union, and China. It is recommended that students take one course from the ANT, GEO, HST, or PLS disciplines or contact the instructor for permission before registering for this course.

PLS 220 Politics and the Media

Level I Prerequisites: Academic Reading and Writing Levels of 6; PLS 112 minimum grade “C”

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course is an introduction to the role of the mass media in the political process. It critically examines the role of the mass media in shaping American political life, focusing on the historical development of the mass media in American society, the economic and political forces that shape news coverage of political leaders and institutions, the influence of the mass media on the American public, and normative assessments of how well the media promotes public deliberation in a democracy.

PLS 250 Campaigns and Elections

Level I Prerequisites: Academic Reading and Writing Levels of 6

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course is an introduction to campaigns and elections in the United States. The purpose is to provide students with an intellectual understanding and practical working knowledge of the electoral process. The course will examine key actors in the electoral system: candidates, parties, interest groups, voters, and the mass media. Although the focus will be on national elections, both congressional and presidential, state and local elections will also be examined. This course will provide students with the knowledge that will equip them to become more informed and effective citizens in the electoral process.

PLS 260 Introduction to Political Thought

Level I Prerequisites: Academic Reading and Writing Levels of 6; PLS 112 minimum grade “C”

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course presents an overview of political thought, or theory, from the early Greeks through the 19th century works of Marx, Mills and Thoreau. The focus will be on the evolution of political thought as well as the different objectives and values that have driven the quest for the “ideal” form of government.

PLS 285 American Psychological Framing

Level I Prerequisites: Academic Reading and Writing Levels of 6

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course is organized around the premise that there is a distinctive Afro-American psychological frame of reference that is evident in the behavior and lifestyles of African Americans. This course aims to build a conceptual model to help analyze and explain the psychological behavior of African Americans.

</tbody>
</table>

**Module 1: Psychology of Parenting (PSY 117)**

Level I Prerequisites: Academic Reading and Writing Levels of 6

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

The focus of this course is to facilitate successful parenting. Using examples from prenatal through adolescence, the student will identify the characteristics of constructive and destructive parenting. Students will discuss psychological theory as the explanation for improved parent-child interaction and communication.

**Module 2: Psychology of Work (PSY 150)**

Level I Prerequisites: Academic Reading and Writing Levels of 6

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course provides knowledge, tools, and experiences to facilitate students entering an organization and comprehending their role in it. Students will learn about the interdependency of the organization and the individual. The foundation of this course is based in Organizational Development, I/O Psychology, General Psychology, Social Psychology, and Personality Theory.

**Module 3: Child Psychology (PSY 200)**

Level I Prerequisites: Academic Reading and Writing Levels of 6

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course provides an overview of the psychology of human behavior from conception to adolescence. It includes the study of psychological processes involved in physical, cognitive, and social personality development. Major theories of human development are reviewed and contrasted. The course is especially constructed and taught to be of value to those entering the fields of social work, elementary or secondary education, or nursing and various allied health fields.

**Module 4: Life Span Developmental Psychology (PSY 206)**

Level I Prerequisites: Academic Reading and Writing Levels of 6

60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours

This course provides an overview of the biological, cognitive, social, and affective domains of human growth and development from the prenatal period until death. The course emphasizes the relationship of growth and development to behavior through the life span. Major theories of human development, as well as research methods, are reviewed and contrasted. The course is especially constructed and taught to be of value to those entering the fields of social work, elementary or secondary education, or nursing and various allied health fields.

**Module 5: Adolescent Psychology (PSY 207)**

Level I Prerequisites: Academic Reading and Writing Levels of 6; PSY 100 minimum grade “C-”

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course covers the full spectrum of introductory topics in adolescent psychology. The area of greatest emphasis is on the psychological development of the adolescent. Major topics covered also include peer and adult interactions, self-image, teenage suicide, drugs, and depression. Resolution of the child/adult conflict, which is the essence of this developmental stage, is also discussed.

**Module 6: Psychology of Adjustment (PSY 209)**

Level I Prerequisites: Academic Reading and Writing Levels of 6

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course is a study of the processes involved in the adjustment of the individual to the problems of everyday living. Emphasis is given to the study of the development of techniques or adjustment to meet conflict situations in the social environment. It includes consideration of adjustment mechanisms of major societal institutions.

**Module 7: Behavior Modification (PSY 210)**

Level I Prerequisites: Academic Reading and Writing Levels of 6; HSW 100 or PSY 100

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course covers basic behavioral principles and their applications to individuals with mental illness, developmental disabilities, closed head injuries, problems with aging, and problems of daily living. Students will learn to conduct psychosocial rehabilitation and psycho-educational groups.

**Module 8: Human Development and Learning (PSY 220)**

Level I Prerequisites: Academic Reading and Writing Levels of 6

60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours

This course covers developmental topics including cognitive, psychological and social development from birth through adolescence. Primary focus is on the role of parents and teachers in fostering learning and development. The topics of readiness to learn, windows of opportunity, brain-based teaching and learning techniques, learning theory, classroom management and planning and assessment of learning outcomes are addressed. For students planning to transfer to EMU, it is recommended that FETE 201 is taken at Eastern Michigan University concurrently with PSY 220.

**Module 9: Psychology of Women (PSY 232)**

Level I Prerequisites: Academic Reading and Writing Levels of 6; PSY 100

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

The goals of this course include: Analyzing psychological theories and research concerning women and gender; examine multiple potential causes of gender differences (e.g. biology, socialization) identify sexist bias in the research process and American culture. Students will develop critical thinking skills that will allow them to assess, describe and recognize gender bias in society and how it affects women from a political, social, economic and medical perspective.

**Module 10: Drugs, Society, and Human Behavior (PSY 240)**

Level I Prerequisites: Academic Reading and Writing Levels of 6

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

The purpose of this course is to provide an overview of the use and abuse of legal and illicit drugs from a psychological perspective. The course covers the prevalence of use and abuse of psychoactive drugs, both historically and currently; the physiological mechanisms of action of different categories of psychoactive drugs; the individual and societal determinants and consequences of drug use; and the relevance of these issues to prevention and treatment programs. It is recommended that PSY 100 and/or BIO 102 be taken before or concurrently with this course. This course contains material previously taught in PSY 130.

**Module 11: Education of Exceptional Children (PSY 251)**

Level I Prerequisites: Academic Reading and Writing Levels of 6; CCP 101, PSY 100, PSY 200, PSY 206 or HSC 147, minimum grade “C”

45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course presents an overview of the major categories of exceptionality. Methods for identifying and working with children in child care, recreational and educational settings are explored. Working with an interdisciplinary team and partnering with parents is a major focus. A working knowledge of resources, a comfort level for working with exceptional children and their families, and exploring the roles of professionals who work with exceptional populations are stressed.

Radiography (RAD)

RAD 150 Clinical Education 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Radiography program and RAD 120 minimum grade “C-”
0 lecture, 0 lab, 367 clinical, 0 other, 376 total contact hours
This course provides structured clinical experience in the application of knowledge and skill in positioning the chest and thorax, abdomen, spinal column, upper and lower extremities and related anatomy while working in general, portable and fluoroscopic radiography. The course also provides students with an opportunity to learn and demonstrate professional ethics, courtesy and empathy in handling patients, radiation safety, film processing/imaging plate (IP) handling and image archiving and radiographic equipment manipulation.

RAD 190 Physical Foundations of Radiography 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; RAD 110 minimum grade “C-”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course covers the theoretical and practical application of radiation physics with an emphasis on electromagnetic radiation, electricity, magnetism, x-ray circuitry, radiation production, and radiation’s interaction with matter. This course was previously RAD 200.

RAD 215 Radiography of the Skull 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; RAD 150 and RAD 217, minimum grade “C-”; RAD 217 may enroll concurrently
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to teach the student how to obtain quality radiographic images of the skull. Students will also be able to critically analyze the radiographic images of the skull and identify the pertinent anatomy. Laboratory sessions are included to provide the student with experience in skull positioning.

RAD 217 Clinical Education 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; RAD 150 minimum grade “C-”
0 lecture, 0 lab, 336 clinical, 0 other, 336 total contact hours
This course provides structured clinical experience in the application of knowledge and skill in positioning the skull and related anatomy. This course continues the discussion of professional ethics, courtesy and empathy in handling patients, radiation safety, film processing/imaging plate (IP) handling and image archiving and radiographic equipment.

RAD 218 Radiation Biology and Protection 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; RAD 120 minimum grade “C-”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course will present the principles of radiobiology and radiation protection. Students will analyze the basic theories of the biological, genetic, and somatic effects of radiation on human cells and tissue and learn the current radiation protection standards and practices used in the healthcare setting to protect themselves, patients, and others from exposure to radiation.

RAD 222 Pharmacology in Diagnostic Imaging 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; RAD 217 minimum grade “C-”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course provides the student with an introduction to pharmacology and contrast media administration as it relates to the medical imaging profession. Students gain an understanding of diagnostic contrast media and the effects of these agents on the human body. Students also receive instruction in basic techniques of venipuncture, appropriate patient care practices during drug administration, and management of medical emergencies in the diagnostic imaging department.

RAD 223 Sectional Anatomy 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; RAD 217 minimum grade “C-”
30 lecture, 0 lab, 0 clinical, 0 other, 30 total contact hours
This course will present an introduction to sectional anatomy. Students will learn the basic protocols for obtaining and analyzing sectional images. The sectional anatomy of the head, neck, chest, abdomen, pelvis, spine and joints will be studied.

RAD 225 Clinical Education 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Radiography program: RAD 217 minimum grade “C”
0 lecture, 0 lab, 336 clinical, 0 other, 336 total contact hours
This course provides continued structured clinical experience in the application of knowledge and skills for positioning the upper and lower extremities, chest, abdomen, spinal column and skull during contrast studies, surgical procedures and portable radiography. Students will demonstrate their mastery in the design and operational characteristics of equipment and accessories in diagnostic radiography.

RAD 226 Radiographic Quality Assurance 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; RAD 217 minimum grade “C-”
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
This course introduces the student to the basic concepts of quality assurance as it relates to diagnostic imaging equipment. The evaluation of radiographic equipment to assure consistency in the production of diagnostic images is investigated. Students perform test and management procedures in the radiography lab to gain a better understanding of the theories and practices associated with quality assurance programs in the diagnostic imaging department. This course contains material previously taught in RAD 113.

RAD 235 Pathology for Radiographers 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; RAD 150 minimum grade “C-”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is a survey of basic pathology and includes a study of the disease process and how various diseases alter the appearance and function of human organisms, including infectious diseases, tumors, chemical injuries and the conditions of illness involving the systems of the body. This course was previously RAD 135.

RAD 240 Clinical Education 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Radiography program and RAD 225 minimum grade “C-”
0 lecture, 0 lab, 224 clinical, 0 other, 224 total contact hours
This course provides structured clinical experience in the application of knowledge and skill in positioning the chest and thorax, abdomen, spinal column, skull, upper and lower extremities and related anatomy while working in general, portable and fluoroscopic radiography. The course also provides students with an opportunity to learn and demonstrate professional ethics, courtesy and empathy in handling patients, radiation safety, film processing/imaging plate (IP) handling and image archiving and radiographic equipment manipulation.

RAD 290 International Studies in Radiography 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; RAD 120 minimum grade “C-”
5 lecture, 25 lab, 0 clinical, 0 other, 30 total contact hours
This course offers students in radiography the opportunity to use their radiography training in a new and exciting venue. Each year, students will travel to Peru to do field work and research on mummies, human and animal bones, pottery and other artifacts. The students will have the opportunity to compare cultural differences between Peru and the United States. The students will visit various historical sites within Peru.
### Reading (REA) – Robotics (ROB) 2010 - 2011

</tr>
</tbody>
</table>

This course continues the robotic series and includes additional information on the types of robots, application of flexible automation, open and closed loop control systems, tooling and various types of sensors and their operation. Integrating the use of inputs and outputs (I/O) and counters into structured robot programs is also covered. Field trips to local manufacturing firms that use robotic equipment will help the students understand and witness concepts presented in class. This course contains material previously taught in ROB 121. ROB 110 is generally offered in the second 7 1/2 week session.
ROB 171 Introduction to FIRST Robotics 1 credit
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 0 lab, 0 clinical, 0 other, 15 total contact hours
In this course, students prepare to participate in the FIRST (For Inspiration and Recognition in Science and Technology) Robotics program and competition. Students are presented with the vision and the ethos of FIRST (Gracious Professionalism) including activities necessary for successful robotics competition. This course contains material previously taught in ROB 170.

ROB 172 FIRST Robotics Competition 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 60 lab, 0 clinical, 0 other, 60 total contact hours
In this course, students prepare to participate in the FIRST (For Inspiration and Recognition in Science and Technology) Robotics program and competition. Students are presented with the vision and the ethos of FIRST (Gracious Professionalism) including activities necessary for successful robotics competition. This course contains material previously taught in ROB 170.

ROB 174 ROB Co-op Education I 1-3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; consent required
0 lecture, 0 lab, 0 clinical, 120 other, 120 total contact hours
In this course, students gain skills from a new experience in an approved, compensated industry-related position. Together with the instructor and employer, students set up work assignments and learning objectives to connect classroom learning with career-related work experience. This is the first of two possible co-op experiences.

ROB 212 Robotics II 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ROB 101 and ROB 110
30 lecture, 60 lab, 0 clinical, 0 other, 90 total contact hours
This class concentrates on programming techniques for industrial robots. Students learn how to program different types of robots incorporating inputs and outputs into their programs. The course is based on a series of student projects that, step by step, introduce each new command or concept. Students spend most of the class time in the lab and are expected to spend extra hours during scheduled open labs. Students with experience equivalent to ROB 101 and ROB 110 may contact the instructor for permission to waive the prerequisite.

ROB 222 Robotics Simulation 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Corequisites: ROB 223
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
This course provides an introduction to Robotic Simulation using the IGRIP software. Students learn how to build computer simulated models of robotic workcells. Programming and running these simulations are also covered. Hands-on use of the software is an integral part of the course.

ROB 223 Robotics III 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; ROB 212
Corequisites: ROB 222
15 lecture, 30 lab, 0 clinical, 0 other, 45 total contact hours
Students learn to work with peripheral devices in various robotic workcells. Labs include part recognition, sorting, counting, measuring, and palletizing. Programmable controllers are used to interface robots with other automated equipment. Students are introduced to automated conveyors, vision systems, bar coding, and automated welding. It is recommended that students complete ELE 224 Programmable Controllers before taking this course.

SCI 101 The Nature of Science 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course allows students to acquire an appreciation of the importance of the natural sciences to everyday life. The emphasis is on science as a way to evaluate the validity of scientific information in the media and on the Internet. The goal is for students to be able to apply the basic laws, concepts, and themes that underlie our natural world in order to place important public issues such as the environment, energy, and medical advances in a scientific context.

SCI 102 Applied Science 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Member of the United Association
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This course prepares members of the pipe trades to accurately apply principles of physics to their work. Five major areas are studied: water and steam; hydraulics and pneumatics; mechanics; metals, alloys, synthetics; and corrosion. Within each of these areas, apprentices will develop their understanding of the concepts underlying the various aspects of their trade so that they can perform to accepted standards. This course is open only to apprentices in the United Association.

SOC 100 Principles of Sociology 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course examines the foundation of sociology as the basis of group behavior in a society, which includes social interaction, social control, social inequality, as well as social change. Emphasis is placed on the impact of social institutions on the self.
<table>

</tr>
</tbody>
</table>

This course offers a critical analysis of Hip-Hop culture through an application of sociological and psychological concepts. Theories will be applied to current ethical and social issues as expressed through Rap lyrics. Topics to be examined include race, class, gender, materialism, alienation, crime, religion, sex, and misogyny. Biographical studies of Rap artists will investigate the relationship between Hip-Hop culture and the larger society.

This course examines the social and historical development of racial and ethnic stratification, and the legacy of inter-group conflict, racism, and discrimination. It covers sociological approaches to understanding the patterns of ethnic relations in the United States and other countries. Additionally, it analyzes the complex nature of social, economic, and power inequalities stemming from the intersection of social class, religion, and gender within and among racial-ethnic groups. This course requires an understanding of sociological concepts.

This course introduces students to the theory and practice of social work with families. Students will learn how to analyze American families as social systems, and to identify common patterns in their structure and functioning. Common problems and special circumstances in family functioning will be addressed. Students will learn how to engage families and how to conduct a family intake assessment. Beginning theory on how to intervene with families will be addressed.

<td>Beginning Conversational Spanish II</td>
<td>2</td>
<td>Academic Reading and Writing Levels of 6; SPN 101 or one semester of college Spanish</td>
</tr>
</tbody>
</table>

This is a continuation of SPN 101. This course is designed to further develop the skills acquired in Spanish 101. It is for students interested in expanding their speaking and comprehension skills, and their knowledge of Spanish grammar and Hispanic culture. This course does not satisfy four-year college language requirements. This course was previously SPN 121.

<td>First Year Spanish I</td>
<td>5</td>
<td>Academic Reading and Writing Levels of 6; Score of 269 or less on the Spanish placement exam. A higher score will require placement in an upper level course</td>
</tr>
</tbody>
</table>

This course emphasizes basic conversation tools and grammatical structures. Class work includes written, oral and audio exercises for students to develop their speaking and comprehension tools and grammatical structures. Students are expected to spend significant time outside of class and actively participating in class discussion. Cultural aspects of the Spanish-speaking world are also highlighted. The course is transferable to several four-year colleges.
TAX 101 Income Taxes for Individuals 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is a beginning course in Individual Tax Return preparation covering both Federal and Michigan taxes that affect individuals. Students receive practical experience in preparation of an income tax return, both manually and using tax return computer software. The course is the beginning of a series of courses designed for those seeking employment as paraprofessionals in the tax field. Individuals who simply wish to understand their own taxes can benefit as well. Students must be able to work with numbers and computer applications. It is recommended that students complete MTH 125 or have a minimum Academic Math Level of 3.

Union Approved Supervision  UAS

UAS 111 Construction Supervision I: Motivating Employees 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Construction Supervision program
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course provides an introduction to the study of organizational behavior for students enrolled in the United Association Construction Supervision certificate and associate degree programs. As the first in a series of courses, it emphasizes concepts and principles on which future courses will build. Topics such as learning, motivation, personality, conflict, communication, group dynamics, and leadership are highlighted.

UAS 122 Construction Supervision II 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Construction Supervision program and UAS 111 minimum grade “C”, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is one of the series of five courses for students enrolled in the Construction Supervision certificate and associate degree programs. This course teaches students practical and operational supervisory skills specifically in the areas of planning, organizing, leading and controlling construction projects.

UAS 210 Construction Supervision III: Legal and Personnel Aspects 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Construction Supervision program and UAS 111 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is one of the series of courses for students enrolled in the Construction Supervision certificate and associate degree programs. This course introduces students to contract law, labor agreements, and other legal relationships as they apply to the construction industry. Students will examine issues related to managing human resources such as recruiting, pay incentives, evaluations, and training. Various aspects of career management will be highlighted.

UAS 222 Construction Supervision IV: The Construction Project 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Construction Supervision program and UAS 122
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course examines the various stakeholders of the construction project and their relationship to each other, with an emphasis on the balance maintained among the competing needs of these parties. Students become familiar with the basic functions of a project and how the activities performed contribute to the overall profitability and health of the project as a whole. The course prepares students to handle conflict in the workplace. Emphasis is on the impact at work and how to choose and apply approaches for resolving conflict. The course examines problem-solving techniques and methods.

UAS 230 Construction Supervision V: Scheduling and Project Management 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; UAS 111, UAS 122, UAS 210, and UAS 222, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is the last course of a series for students enrolled in the United Association Construction Supervision certificate and associate degree programs. This course introduces students to the various processes used to develop and manage the schedule of a project. Additionally, in this course students will examine various tools used to assist in scheduled development and management. Finally, students will explore the desktop scheduling software Microsoft Project.
United Association Sprinkler Fitters (UAR)

UAR 160  Introduction to Sprinkler Fitter Practices  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
This course covers introductory topics for new Sprinkler fitter apprentices including: job safety and health, heritage in the pipe trades, and use and care of tools. Limited to United Association students.

UAR 162  Basic Drawing and Introduction to Automatic Sprinklers  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
Basic drawing covers preparation of working drawings including orthographic projection, dimensioning, illustrating pipe threads, section views and isometric drawings. Introduction to Automatic Sprinklers includes the fundamentals of sprinkler protection and the standards governing systems. Topics also include the hazard categories specified in NFPA 13, wet and dry systems, flushing sprinkler systems, and the fundamentals of inspecting and testing systems. Limited to United Association students.

UAR 164  Reading Automatic Sprinkler Piping Drawings  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
This course familiarizes the student with the drawings most often found in the sprinkler trade. Topics include standard sprinkler system drawings, common symbols, and abbreviations found on the drawings. Limited to United Association students.

UAR 164R  Reading Residential Blueprints for Sprinkler Systems  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
This course familiarizes the student with the drawings most often found in the residential sprinkler trade. Topics include the standard drawings used by residential sprinkler fitters and abbreviations and symbols found on those drawings. Limited to United Association students.

UAR 166  Installation of Sprinkler Systems  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
This course covers the installation regulations governing fire protection systems, which includes design, installation and testing. Other topics include the regulations with respect to piping, fittings, and other appurtenances for fire protection systems. Limited to United Association students.

UAR 166R  Installation of Residential Fire Sprinkler Systems  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
This course presents the detailed rules and regulations governing the design, installation, and testing of automatic firesprinkler systems. This course emphasizes the rules that sprinkler fitters must satisfy on the job and also explains the principles of older, existing systems. This course references the NFPA code manuals. Limited to United Association students.

UAR 168  Architectural Working Drawings and Blueprint Reading for Sprinkler Fitters  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
Architectural Working Drawings and Blueprint Reading covers reading the types of prints found in a complete set of working drawings. The course includes correcting or compensating for inconsistencies found in drawings. Limited to United Association students.

UAR 170  Sprinkler Water Supply and The Automatic Sprinkler  2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
The Automatic Sprinkler portion of the course includes how sprinklers operate, regulations applicable to sprinklers, recognizing and installing the proper sprinkler, modifying sprinklers to address specific needs. The Water Supply portion of this course addresses water supply requirements for sprinkler systems. Topics include the relationship of occupancy classifications to water supply requirements, the installation of fire service mains, pumps, controllers, and tanks. Limited to United Association students.

UAR 172  Types of Fire Protection Systems and Alarms  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
This course covers various types of fire protection systems which include wet pipe and anti freeze systems. Topics include the design principles, specification, installation, and operation of fire protection systems. Limited to United Association students.

UAR 174  Special Application Sprinkler Systems and Hydraulics  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
The Special Application Sprinkler Systems course addresses a wide range of systems found in the field. The course covers: latch clapper and differential type valves, pilot line systems, and preaction systems. The hydraulics portion of the course covers pressure, total force, specific gravity/density, pressure generation, flow rate, sprinkler system design, pressure loss and calculated systems. Limited to United Association students.

UAR 176  Human Relations  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
This course is an overview of the most important aspects of the role of foreman. Topics include the primary duties of the foreman, understanding what it takes to work well with others, and communicating effectively with others. Limited to United Association students.

UAR 178  Technical Writing  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours
Technical Writing covers the basic reports and forms used in the fire protection industry. Topics include specific instructions on how to complete reports and forms in a manner acceptable to others in the fire protection industry. Limited to United Association students.

Advanced Air Conditioning and Refrigeration 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours

This course presents special topics in air conditioning and refrigeration. Topics may include introduction to building automation, load calculations, duct sizing, Universal CFC certification, and air distribution. Limited to United Association students.

Air and Water Balancing and Motor Alignment 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours

This course covers principals of balancing forced air systems, balancing flow in hydronic loops, pumps, principles of alignment, and vibration elimination. Limited to United Association students.

Advanced HVACR Practices 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 0 other, 0 total contact hours

Special topics covered in this course may include advanced building automation, leadership/supervision, customer relations, importance of clear and concise reporting (work orders), and safety. Limited to United Association students.

Advanced Electronics and DDC Systems 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course will present advanced control theory concepts and provide a thorough understanding of the operation of commercial controls for HVACR systems. Due to the complexity and proprietary nature of Direct Digital Control (DDC) systems, both generic and specific information on DDC systems will be introduced and studied. A basic introduction to DDC and the terms used in the industry will be followed with detailed information of DDC system architectures, hardware components and software requirements. Comprehensive specific information regarding input and output types and the processes of DDC systems will be covered. Limited to United Association students.

Environmental Technology in HVACR 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

In today's environmentally conscious business climate, many industries are looking to ensure that their business is reducing their impact on the environment. The HVACR industry is poised to make considerable contributions to reducing these impacts. This course will discuss the utilization of sustainable and environmental “green” technologies in the HVACR field. There will be discussion on the general concepts and practical applications regarding the proper use of these technologies within the HVACR industry. In addition, discussion will occur on the increasing use of sustainable products and their use in the HVACR field. Limited to United Association students.

UA/MCA Foreman Certification 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course covers methods of teaching about becoming a foreman. With the UA and the Mechanical Contractors’ Association (MCA) recognizing the need for effective leaders this course introduces current and potential foreman to the topics that are critical in the workplace. It focuses on leadership functions, commitment, people skills, communications, teamwork, and organization. Students will be strongly urged to implement this Foreman Certification Program at the local union level. Limited to United Association program participants.

Introduction to Industrial Teacher Training 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Industrial Training program
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course will focus on the principles of learning, elements of trade teaching and the methods of teaching an applied technical skill. Limited to United Association program participants.

Industrial Teacher Training II 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Industrial Training program
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course will focus on developing instructional objectives, planning and presenting related information lessons and the methods of teaching a second applied technical skill. Limited to United Association program participants.

Industrial Teacher Training III 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Industrial Training program
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course will focus on the development of written tests, an elective professional skill, and a third teaching demonstration in a technical skill area. Limited to United Association program participants.

Industrial Teacher Training IV 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Industrial Training program
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course will focus on discussion and interaction techniques, an elective professional skill and the teaching methods in a fourth technical skill area. Limited to United Association program participants.

Industrial Teacher Training V 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Industrial Training program
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course will focus on innovations and problems in trade teaching, an elective professional skills, and methods of teaching in a fifth technical skill area. Limited to United Association program participants.

Technical Seminar 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Industrial Training program
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course will focus on the methods of teaching a technical skill area. Special approval required and will replace UAT 121, 131, 141, 151. Limited to United Association program participants.

Professional Seminar 3 credits

Level I Prerequisites: Academic Reading and Writing Levels of 6; Admission to Industrial Training program
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours

This course will focus on instructional methodology and practices for the trade-related instructor. Special approval required and will replace UAT 121, 131, 141, or 151. Limited to United Association program participants.
UAT 201  Advanced Instructor Training I  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed for graduates of the 5-year UA instructor training program. Trade teachers will expand their skills and knowledge in teaching techniques and methodologies, as well as technological concepts. The student will select one 45 hour module or two 22 1/2 hour modules from unit one or unit two. Limited to United Association program participants.

UAT 202  Advanced Instructor Training II  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: UAT 151
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed for graduates of the 5-year UA instructor training program. Trade teachers will expand their skills and knowledge in teaching techniques and methodologies, as well as technological concepts. The student will select one 45 hour module or two 22 1/2 hour modules from unit one or unit two. Limited to United Association program participants.

UAT 203  Advanced Instructor Training III  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: UAT 151
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed for graduates of the 5-year UA instructor training program. Trade teachers will expand their skills and knowledge in teaching techniques and methodologies, as well as technological concepts. The student will select one 45 hour module or two 22 1/2 hour modules from unit one or unit two. Limited to United Association program participants.

UAT 204  Advanced Instructor Training IV  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: UAT 151
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed for graduates of the 5-year UA instructor training program. Trade teachers will expand their skills and knowledge in teaching techniques and methodologies, as well as technological concepts. The student will select one 45 hour module or two 22 1/2 hour modules from unit one or unit two. Limited to United Association program participants.

UAT 205  Advanced Instructor Training V  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Level II Prerequisites: UAT 151
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed for graduates of the 5-year UA instructor training program. Trade teachers will expand their skills and knowledge in teaching techniques and methodologies, as well as technological concepts. The student will select one 45 hour module or two 22 1/2 hour modules from unit one or unit two. Limited to United Association program participants.

UAT 207  Using UA Resources  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
The focus of this course is to provide students with the knowledge and skills to use technology to teach with Blackboard and Microsoft Office and to use everything available to them through UANET. This course will focus on the apprentice registration process, the UA Smart System, and state and federal grants. Students taking this course should have a working knowledge of how to operate a computer. Limited to United Association program participants.

UAT 210  Public Speaking  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
20 lecture, 2.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course is designed to help students acquire essential speaking and listening skills for the classroom. In-class exercises focus on the delivery of lecture material and conducting demonstrations. Students polish organization and delivery skills, as well as gain a heightened awareness of the relationship between a speaker and an audience. Students are encouraged to bring materials from classes they are currently teaching as reference for class exercises. Limited to United Association program participants.

UAT 211  Trade Teaching Overview  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This introductory professional course provides students with an understanding of trade education in the American education system, goals of trade education, the uniqueness of trade education, and the responsibilities good trade teachers have in structuring a learning environment where change takes place. Students will recognize differences in learning outcomes, and design instruction to meet different learning needs. Limited to United Association program participants.

UAT 212  Structures for Learning  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about structured learning. The purpose of this course is to provide tools to help UA instructors develop new courses or modify existing ones. The course focuses on: the purposes of trade education; the role of setting objectives for daily instruction; the nature of behavioral objectives; identifying the elements of behavior/skills; and identifying consistent standards of performance; and the principles of evaluating learner progress. Limited to United Association program participants.

UAT 213  Planning and Presenting Lessons  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about planning and presenting two types of lessons: skills and information. Students will learn to use traditional and UA electronic resources for planning lessons, managing courses, and teaching. Students will learn to choose methods, techniques, and technologies appropriate to a particular class and situation. Working together, students will develop a lesson plan, deliver a brief lecture, and demonstrate a task. Limited to United Association program participants.

UAT 214  Techniques in Classroom Interaction  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This covers methods of teaching teachers about how to create interactive classroom discussions and the techniques associated with developing individualized instruction. Topics include: the process of creating interactive discussions in trade teaching; guidelines for conducting classroom discussions; issues related to group dynamics; and concerns about teaching a diverse group of students. Limited to United Association program participants.

UAT 215  Problem-Solving in Trade Teaching  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 4 lab, 0 clinical, 6.5 other, 22.5 total contact hours
This course covers methods of teaching problem resolution and innovation implementation in the local UA school. Topics include analyzing and solving teaching problems, recognizing student learning disabilities, evaluating student performance, and implementing innovative solutions in the local school. Students should come prepared to share innovative ideas from their local school. Limited to United Association program participants.
UAT 219 Introductory ATR Training 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
35 lecture, 0 lab, 0 clinical, 10 other, 45 total contact hours
This course covers methods of teaching about the fundamentals of the UA Welder Certification Program. Participants will be able to perform the duties and responsibilities of an authorized testing representative (ATR) as defined in the program, from administrative functions to performing visual inspections of welded coupons to determining their acceptability and verifying compliance of radiographic examinations. Limited to United Association program participants.

UAT 220 Pipe Trades Applied Mathematics 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours
This course covers methods of teaching about pipe trades applied mathematics. Topics to be covered include: teaching styles and methods, creating exam questions, and applying mathematics to the plumbing and pipefitting industry. There will be a refresher on some important math functions, such as offsets, metric systems, and calculator usage. On the final day of class students will be required to demonstrate a basic math lesson to the class. Limited to United Association program participants.

UAT 221 Gas and Oil Burner Service 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours
This course covers methods of teaching about gas and oil burner service. Topics to be covered include: gas installations, gas and oil burner design flame safeguard controls, and burner set-up, maintenance and repair. Curriculum presentation techniques, application of ideas to local classroom situations, and training mock-ups will also be discussed. On the final day of class students will be required to give a basic presentation to the class. Limited to United Association program participants.

UAT 222 Basic Computer for the Trade Teacher 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course introduces the basics of computers. Students will learn to produce documents using a word processor, create electronic spreadsheets to help prepare budgets and manage numerical information, prepare presentation graphics, and learn search techniques on the Internet. Topics include: hardware and software, Windows operating system, Word, spreadsheet, creating course handouts, PowerPoint, and Internet navigation. Limited to United Association program participants.

UAT 223 Centrifugal Water System Analysis 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 10.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about the theoretical and practical analysis of various chilled water systems. A thorough review of P/E diagrams, basic thermodynamics, and system design will be covered. Troubleshooting of common problems found in chilled water systems will be discussed as well as refrigerant handling, recovery, maintenance, and operation. Limited to United Association program participants.

UAT 224 OSHA for the Construction Industry 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course covers methods of teaching about OSHA standards. The course is designed for “new” students only and emphasis will be placed upon those areas in construction that are most hazardous. OSHA standards that apply to the construction industry will be used as a guide. Students will be briefed on effective instructional approaches and the effective use of visual aids and handouts. After completion of course, students will receive a certificate from the Department of Labor. Limited to United Association program participants.

UAT 225 Plumbing Fixtures 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours
This course covers methods of teaching about the various types of plumbing fixtures. Topics to be covered include: the history of plumbing fixtures; the theory of design; the principles of installation and operation of these fixtures; the fixture controls; and related appliances. Students taking this class should have a working knowledge of plumbing fixtures. Limited to United Association program participants.

UAT 226 PowerPoint for Instructors 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; UAT 222
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
Microsoft PowerPoint is a flexible tool for creating and delivering class presentations and handouts. This course will cover methods in developing instructional presentations and related student materials. Basic topics will include adding text, selecting appropriate fonts and colors, inserting graphics, using master slides and displaying a slide show. Advanced topics will include adding tables and charts, inserting hyperlinks, adding animations, customizing slide shows and using the drawing tools. This is a hands-on computer class. Limited to United Association program participants.

UAT 227 Geothermal Heat Pump Installation 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This training session will provide the necessary skills to train your local members as IGSHPA certified installers. This training emphasizes the importance of the effort in bringing energy independence and environmental security to our nation by installing this renewable space conditioning system. Upon completion of this training program and the passing of the required exam, a card and certificate will be issued to the student instructor certifying them as an UA/IGSHPA certified installer trainer. Limited to United Association program participants.

UAT 228 Online Teaching Techniques 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
7.5 lecture, 15 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers the use of the Internet as a teaching tool. Forums, chat rooms, online testing, online assignments, using external links, and other Internet features will be explained and demonstrated. Methods for converting traditional class materials into an online format will be emphasized. Procedures and standards for class page creation and maintenance will be presented. Students will have hands-on practice in creating online course materials. Students taking this course should be familiar with using an Internet browser and must have an email account. Limited to United Association program participants.
UAT 229 Introduction to Variable Frequency Drives 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about how to provide the Local Union instructor with the necessary presentation materials and teaching techniques to introduce a Variable Frequency Drives (VFD) class in their curriculum. Students taking this course should have a good understanding of AC induction motors, and be working in the HVAC service field. Installation, setup/programming and troubleshooting techniques will be covered. Limited to United Association program participants.

UAT 230 3D Computer-Aided Drafting (CAD) 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
20 lecture, 25 lab, 0 clinical, 0 other, 45 total contact hours
This course covers methods of teaching about 3D Computer Aid Drafting (CAD). Topics to be covered include: the 3D CAD environment; creation of 3D piping; 3D pipefitting; and other complex solids; creating surfaces; editing solids; and utilizing AutoCAD and Quickpen Pipe Designer 3D software. Limited to United Association program participants.

UAT 231 UA Green Awareness Certification 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about “Green” awareness. It emphasizes concepts and principles related to the specification, purchase, and application of energy efficient products. Upon successful completion of this course and certification exam, students will receive a certification that attests to their knowledge of the emerging trends, terminologies, systems, and products that are considered green. Limited to United Association program participants.

UAT 232 Drainage 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12.5 lecture, 10 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about drainage. Topics to be covered include: history of the plumbing system; private and public sewage disposal systems; sewers and drains; grading; compaction; building drainage systems; the plumbing trap; and venting the drainage system. Limited to United Association program participants.

UAT 233 CAD for the Piping Trade 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about the efficient and productive implementation of computer-aided drafting to the piping drawing production environment. Utilizing AutoCAD software, issues relating to maximizing the efficiency of on the job CAD drafting production are addressed, such as configuration of peripheral equipment and AutoCAD software configuration. Students taking this course should have working knowledge of basic drafting. Limited to United Association program participants.

UAT 234 Online Recruiting and Promotion 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours
This course will demonstrate how to create a local union Website, promote the local union through radio, television and the Internet for the purpose of advertising and mass media recruiting. Upon completion of this course, the instructor will have created a working Website for their local union, will have purchased their own domain name (dot-com address), and have their site published on the World Wide Web. The instructor will have gained sufficient knowledge to publish a complete dynamic Website. Instructors will also be exposed to various strategies for promoting their local union, and learn about recruiting using the Internet and mass media. Limited to United Association program participants.

UAT 235 Power Piping 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
18 lecture, 0 lab, 0 clinical, 4.5 other, 22.5 total contact hours
This course covers methods of teaching about the fundamentals in the design of ASME B31.1 Power Piping. It focuses on the installation of proper fittings, pipe supports, history of the ASME codes, material science, mechanical behaviors, piping metallurgy, welding metallurgy, metal failures, and proper material acquisitions. Basic fossil-fired plant steam-water cycle, feed-water cycle, and piping hanging loads will be covered. Limited to United Association program participants.

UAT 236 Coyne First Aid for the Trades 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12.5 lecture, 2 lab, 0 clinical, 8 other, 22.5 total contact hours
This train-the-trainer course will certify the student instructors to teach/cooperate the Coyne basic life support/first aid training program. To be covered include: providing basic life support for adults, infants, and children; performing first aid for musculoskeletal injuries and burns; using the automated external defibrillator; and administering proper care in diabetic emergencies, seizures, and near drowning. Limited to United Association program participants.

UAT 237 Geothermal Certification 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This train-the-trainer course will certify the student instructors to teach geothermal heating and cooling. Topics to be covered include: principles of geothermal heating and cooling; design and material options; energy independence; and environmental security. Upon completion of the training program and passing the exam, students will be issued IGSHPA accreditation and be certified as a UA/IGSHPA trainer/installer. Limited to United Association program participants.

UAT 238 Methods of Teaching Downhill Welding 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 10.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course is designed for the welding instructor who will be teaching apprentices and journey workers in the technique of Downhill Welding. The welding instruction will be given on large diameter pipe. Classroom instruction on how and what to teach will be presented. This class will include joint preparation, line up on coupons and hands-on welding. Limited to United Association program participants.

UAT 239 AWS-CWI Certified Welding Inspector 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This is an intensive seven day course designed to prepare a candidate to successfully complete the American Welding Society (AWS) Certified Welding Inspector (CWI) Examination. Limited to United Association program participants.

UAT 240 Applied Electrical Fundamentals 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours
This course covers methods of teaching about applied electrical fundamentals. It deals with the application of the fundamental electrical principles to the electrical controls commonly used in the pipe trades. How to use simple test equipment safely will be stressed as the students learn to make checks on circuits and to measure voltage, amperage, and resistance. Limited to United Association program participants.
United Association Training (UAT)

UAT 241 Advanced Water Supply 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours  
This course covers methods of teaching about advanced potable hot water and water supply. The focus of the course is to provide students with a background in water supply and the installation and maintenance of domestic water heating equipment. Topics to be covered include: water mains and services; building water supply systems; and cross connections, valves, and pumps. Limited to United Association program participants.

UAT 242 Advanced Centrifugal Water Chillers 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours  
This course covers methods of teaching about centrifugal overhaul procedures, precision measuring techniques, teardown techniques, start-up, and chiller analysis. Compressor component functionality will be stressed in order to give the student a good working knowledge of centrifugal compressor design and operation, including a step-by-step centrifugal teardown procedure. There will be 2 days of hands-on training at which time a centrifugal compressor shall be completely disassembled and rebuilt. Limited to United Association program participants.

UAT 243 Operation of the Green Trailer 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
12 lecture, 10.5 lab, 0 clinical, 0 other, 22.5 total contact hours  
Instructors taking this class will learn how to present classes covering the basics of Sustainable (Green) Technology as it applies to the mechanical and plumbing systems installed and serviced by UA members. Students will learn best practices for teaching with the Hampden Green Training equipment on the UA Green Training Trailer. Trailer and equipment safety, proper trailer setup, operation of the onboard generator, rear projection system, fuel, electrical, and water hookup will be covered. Some of the training demonstrators onboard the trailer are: fuel cell trainer, wind power generation, green plumbing system trainer, solar heating system, solar photovoltaic system, geothermal system trainer and a high efficiency gas furnace. UA Green Training Trailer event scheduling and transportation policies will be covered. Limited to United Association program participants.

UAT 243B Operation of the UA Welding Trailer 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours  
The purpose of this course is to instruct the student in the methods and techniques utilized in the site selection, transport, installation of required utilities and equipment operation and maintenance for the UA Welding Training Trainer. Upon completion of the course, the student will be able to request the trailer, take receivership (setup and pack for shipping), give tours of the trailer and provide training at the local union facility. The training will also involve operation of welding equipment, tools and video training devices installed in the trailer. Limited to United Association program participants.

UAT 243C UA Pipe Trades Trailer Operations 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours  
The purpose of this course is to instruct the student in the methods and techniques utilized in the site selection, transport, installation of required utilities and equipment operation and maintenance of the UA pipe trades training trailers. The trade trailers are outfitted with the very latest equipment utilized in the plumbing, pipelining, HVAC and sprinkler fitting industries for the purpose of training apprentices and journey persons of the United Association. Limited to United Association program participants.

UAT 244 Fund of Variable Frequency Drives 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
12 lecture, 10.5 lab, 0 clinical, 0 other, 22.5 total contact hours  
This course will provide the local union instructor with the necessary presentation materials and teaching techniques to introduce a VFD class in their curriculum. Students taking this course should have a good knowledge base of electrical controls and AC induction motors, and be working in the HVAC service field. Each participant will receive ample literature in PDF format, multiple power point presentations and a detailed course outline. Installation, setup/programming and troubleshooting techniques will be covered along with associated hands-on. Limited to United Association program participants.

UAT 245 Teaching with Exam View 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
16 lecture, 6.5 lab, 0 clinical, 0 other, 22.5 total contact hours  
This course teaches best practices of how to use Exam View test creation software. Instructors will create and administer classroom and on-line quizzes and exams using supplied question banks. There will be a demonstration on creating question banks based on the assignments which correspond to UA textbooks. Students will learn how to convert their existing testing material into the Exam View format. Converting tests for use with Blackboard on-line classes will also be required. Limited to United Association program participants.

UAT 246 Concepts of Controlled Bolting 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
12 lecture, 10.5 lab, 0 clinical, 0 other, 22.5 total contact hours  
This course trains instructors in teaching concepts of achieving integrity in a bolted joint. The bolted flange assembly continues to be the most overlooked piece of equipment in a piping system. Although much preparation goes into commissioning a piping system little thought goes into tightening the joints in a controlled fashion. This course presents the theory of how a bolted connection works dynamically as a piece of equipment, the calculations required to tighten a flange to insure maximize joint life and integrity and the practical means to achieve preload including the use of hydraulic torque wrenches and hydraulic bolt tensioners. Limited to United Association program participants.

UAT 247 ASME B31.1 Code 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours  
This course covers methods of teaching about ASME B31.1 Power Piping Code. Topics include: B31.1 scope, code history, material selection and use, fabrication rules and their bases, inspection, weld & base metal discontinuities, NDE and testing requirements. Provide examples of problems that develop from not understanding the Code requirements. Cover the development of Quality Control Manuals for Code use, and the application for an ASME Pressure Piping Stamp and its renewal requirements. Limited to United Association program participants.

UAT 248 Valves 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
12.5 lecture, 10 lab, 0 clinical, 0 other, 22.5 total contact hours  
This course covers methods of teaching about plumbing and pipelining valves. Topics to be covered include: valve designs, valve functions, multi-turn valves, check valves, ball valves, butterfly valves, and typical valve failures. The material of valve construction and the specifications and standards governing their construction and use will also be discussed. Students taking this course should have a working knowledge of valves. Limited to United Association program participants.
UAT 249  Methods in Teaching Arc Welding  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12.5 lecture, 0 lab, 0 clinical, 10 other, 22.5 total contact hours
This course covers methods of teaching about the fundamental theories and practical applications of arc welding. Topics to be covered include: principles of basic welding, metallurgy, shielded metal arc welding, gas tungsten arc welding, gas metal arc welding, flux core arc welding, and Oxyfuel cutting. Students taking this course should have working knowledge of arc welding. Limited to United Association program participants.

UAT 250  Advanced Applied Drawing  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 7.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about advanced plan reading and related drawing. Topics to be covered include: principles of drawing, proper drawing techniques, sleeve and piping sketches, coordinated drawing, deck layout, and piping systems design. Limited to United Association program participants.

UAT 251  Related Science  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12.5 lecture, 10 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about the principles of science for plumbing and pipelining tradespeople. Topics to be covered include: properties and characteristics of water and steam, hydraulics and pneumatics, mechanics, metals, alloys, synthetics, and corrosion. This course is designed to assist students with generating ideas for their own classrooms and understanding the science related to both the plumbing and pipelining trades. Limited to United Association program participants.

UAT 252  Introduction to Computer-Aided Drafting  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed as an introduction to computer-aided drafting (CAD) and the CAD environment. Emphasis is placed upon the fundamentals of CAD software and the creation of two-dimensional CAD piping drawings. AutoCAD drafting software and Windows 2000 or Windows XP operating systems are utilized. It is suggested that each student bring a USB thumb drive to use with this course. Limited to United Association program participants.

UAT 253  Copper Piping Systems  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12.5 lecture, 10 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about the copper piping systems. Topics to be covered include: copper production; standards and codes regulating the manufacture, specification and installation of copper systems; soldering and brazing of copper to copper and copper to dissimilar metals; alternative joining systems including roll-grooving, press-connect, push-connect and mechanically formed tees; and installation-related field failure troubleshooting and prevention. Limited to United Association program participants.

UAT 254  Centrifugal Water Chiller Controls  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours
This course covers methods of teaching about centrifugal water chiller - controls, including electrical and electronic applications. It covers the fundamentals of microprocessors in relation to control of solid state starters, frequency drives, and control systems associated with centrifugal water chillers. Carrier, Trane, and York demonstrator panels and labs will be utilized for hands-on training. Those attending should have knowledge of refrigeration principles. Limited to United Association program participants.

UAT 255  Fundamentals of Rigging  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours
This course covers methods of teaching about the basic fundamentals of rigging. Topics to be covered include: rigging safety in basic knots and their uses, wire ropes, web slings and their applications in the trades. Also, signaling methods and practical, safe uses in every day installations in the piping industry will be discussed. Limited to United Association program participants.

UAT 256  Pneumatic Controls  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
14.5 lecture, 8 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about the fundamentals of pneumatic control. Topics to be covered include: basic control theory and definition; control loops and the air supply; control valves; velocity reset control; calibration; single and dual thermostats; transmitters; auxiliary devices; single and dual receiver controls; and control dampers. Limited to United Association program participants.

UAT 257  Hydronic Heating and Cooling  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours
This course covers methods of teaching about hydronic heating and cooling. Topics include: low pressure boilers, heat exchangers, system controls and accessories, one, two, three and four pipe systems, two-way and three-way control valves, centrifugal pumps and pump curves, system curves, primary and secondary pumping, balancing, venting, zoning, water chillers, chilled and condenser water systems, cooling towers, and water source heat pump systems. Limited to United Association program participants.

UAT 258  Advanced Residential Plumbing  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 7.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about advanced residential plumbing. Topics to be covered include: multi-unit housing installations, phases of work, job planning, layout, prefabrication, tools and equipments, residential work advantages, myths about residential plumbing, and residential service. Students taking this course must have experience in the plumbing field. Limited to United Association program participants.

UAT 259  Backflow Repair and Maintenance  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 7.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about the repair and maintenance of large diameter backflow assemblies from various manufacturers. The main topics covered include troubleshooting and repairing the assemblies and following appropriate safety measures. Students who wish to be certified as “Backflow Repair and Maintenance Instructors” must receive a passing grade on the written and practical examinations, and must have a current backflow prevention certificate. Limited to United Association program participants.

UAT 260  Advanced Steam Technology  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
20 lecture, 2.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about advanced steam technology. Topics to be covered include: behavior of steam and condensate; removing condensate; air and non-condensable gases; piping design considerations; live steam; operation of steam traps; and heat exchange coils. Limited to United Association program participants.
United Association Training (UAT)

UAT 261 Thermoplastic Fusion 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
11 lecture, 11.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about thermoplastic fusion. Topics to be covered include: thermoplastic fusion technology and methods used in the semiconductor, pharmaceutical, and chemical processing industries; hands-on operation of the IR (infrared) 63, IR 225, BCF Plus, and socket fusion machines; and the Weld Inspection Program. Students taking this course are expected to wear appropriate work clothes. Limited to United Association program participants.

UAT 262 Pipe Trades Advanced Drawing 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
7.5 lecture, 15 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about pipe trades applied drawing. Topics to be covered include: three view, plan view, and elevation view drawings; graphic symbols for pipe fittings and valves; interpretation of technical diagrams and piping drawings; and building specifications. Limited to United Association program participants.

UAT 263 Fundamentals of Building Automation 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 7.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about the basic fundamentals of direct digital control. An overview of different building automation system applications, as applied to the HVAC & R industry will supply students with the necessary information to be knowledgeable about this topic. Students attending this course should have HVAC & R control experience. Limited to United Association program participants.

UAT 264 Electronic Controls 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
16 lecture, 6.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers the basic fundamentals of electronic controls pertaining to the HVAC industry and the commercial and industrial refrigeration industries. The objective of the course is to familiarize students with the application and teaching principles of electronic controls commonly used in the pipe trades industry. Students taking this course should have knowledge of electrical controls and should currently work in the air conditioning and refrigeration fields. Limited to United Association program participants.

UAT 265 HVACR Apprenticeship Practicum 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 7.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching the Five-Year Heating, Ventilating, Air Conditioning, and Refrigeration apprentice training program. Special emphasis is placed on how to teach aspects of classroom instruction. The use of pressure-enthalpy diagrams will be stressed. This course will also prepare students to reach an introductory HVAC & R familiarization course to apprentices and journey-people who have limited HVAC & R experience. Limited to United Association program participants.

UAT 266 Air and Water Balance 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 4 lab, 0 clinical, 3.5 other, 22.5 total contact hours
This course covers methods of teaching about air and water balance. The principles of heat transfer and fluid flow as related to hydronic balancing and system performance as well as electrical testing and measurement will be covered. The application and operation of system components such as fans, pumps, duct systems, and hydronic piping systems will also be discussed. Limited to United Association program participants.

UAT 267 Advanced HVAC & R Troubleshooting 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
17 lecture, 4 lab, 0 clinical, 1.5 other, 22.5 total contact hours
This course covers methods of teaching about Electrical and Refrigerant Controls as they apply to heating ventilation, air conditioning and refrigeration technologies. This course demonstrates the use of the psychrometric properties of air in practical troubleshooting applications and various skills will be demonstrated in the classroom and on working equipment. Several psychrometric charts will be presented to clarify theory and practical applications. Limited to United Association program participants.

UAT 268 Technical Classes for Sprinkler Fitters 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
18 lecture, 0 lab, 0 clinical, 4.5 other, 22.5 total contact hours
This course covers methods of teaching about the mechanics, protocols, and proper techniques of sprinkler fitting. It also addresses how to adapt to the various codes and product changes in the fire sprinkler industry. Other topics to be covered include: fire sprinkler alarms, fire sprinkler spray patterns, sprinkler inspections, lift training, technical changes to NFPA, and water mist. Students who wish to be enrolled in this course must have prior experience with sprinkler fitting. Limited to United Association program participants.

UAT 269 Medical Gas 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course covers methods of teaching about the codes and standards that govern medical gas, medical-surgical vacuum piping systems installation and testing, requirements for installer qualification, and requirements for brazer qualification in accordance with ASME Section IX. A written exam will be administered at the end of the course. General and specific information needed to develop local medical gas training programs throughout the UA will be provided. Limited to United Association program participants.

UAT 269C Canadian Medical Gas Instructor Training 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course is designed to certify medical gas instructors in the delivery of the content required by the Canadian Standards Association (CSA) Code Z-7396.1.09. This code is required for all medical gas installations in Canada to be undertaken by licensed Plumbers or Steamfitters who must show documented proof of training in the CSA code. Limited to United Association program participants.

UAT 270 Properties of Metals 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12.5 lecture, 10 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about the properties and characteristics of metals commonly used in the pipe trades. Emphasis will be given to explaining the nature of ferrous and non-ferrous metals in both their raw and manufactured form, the physical and mechanical properties of common metals, and the processes used to create desired changes. Limited to United Association program participants.

UAT 271 Steam Heating Systems 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about steam heating systems. Topics to be covered include: the identification, modification, installation, and troubleshooting of steam heating systems; properties of saturated steam; piping of heat exchange equipments; and fluid draining. Boiler basics, cogeneration, and the role steam plays in the production of electricity will also be discussed. Limited to United Association program participants.
UAT 272 Wire Feed Orbital Welding 3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
20 lecture, 20 lab, 0 clinical, 5 other, 45 total contact hours  
This course covers methods of teaching about wire feed orbital welding. Topics to be covered include: wire feed orbital equipment capacity/capabilities and their accessories; installation and set-up of equipments; machine and weld head calibrations; weld joint design; tack-up; weld preparation; and welding parameters. Students taking this class should already be well versed in orbital tube welding. Limited to United Association program participants.

UAT 273 Introduction to the Transit and Level 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
10 lecture, 4.5 lab, 0 clinical, 8 other, 22.5 total contact hours  
This course covers methods of teaching about the fundamental use of the Transit, the Builder’s Level, the Rotating Laser Level, the Pipe Laying Laser Level, and the relationship to other surveying equipment. Practical job applications will be covered, such as learning how to set up and use the instruments, transferring of elevations, running a level net to prove that elevations are correct, and the proper set-up of pipe and rotating lasers. Limited to United Association program participants.

UAT 274 Oxy-Acetylene Cutting and Welding 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
15 lecture, 7.5 lab, 0 clinical, 0 other, 22.5 total contact hours  
This course covers methods of teaching about oxy-acetylene safety, welding, layout and cutting procedures. Experts will demonstrate the techniques and procedures employed in successfully teaching this subject. Each student will have the opportunity to try the methods being discussed. This course will cover the technical aspects as well as the practice of cutting and welding pipe with oxy-acetylene. Students selecting this course should come to class in safe working clothes. Limited to United Association program participants.

UAT 275 Trade Related Trigonometry 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
12.5 lecture, 0 lab, 0 clinical, 10 other, 22.5 total contact hours  
This course covers methods of teaching about trade related trigonometry applications to first-year apprentices and journey-people. The majority of class time will consist of performing assignments in class. Teaching techniques will be addressed and problematic areas will be discussed to provide student instructors with intimate course knowledge. Limited to United Association program participants.

UAT 276 Orbital Tube Welding 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
15 lecture, 7.5 lab, 0 clinical, 0 other, 22.5 total contact hours  
This course covers methods of teaching about orbital fusion welding as used in semiconductor, food and beverage, pharmaceutical and biotechnology industries. This course is designed for students with a TIG welding background. Limited enrollment permits extensive hands-on welding time on the equipment. Students selecting this course should come to class in safe working clothes. Limited to United Association program participants.

UAT 277 GTAW - Wire Feed Machine Welding 3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
35 lecture, 10 lab, 0 clinical, 0 other, 45 total contact hours  
This course provides the welder/operator a basic understanding of the orbital pipe welding process. The course introduces the theory of operation, technology comparison of analog and microprocessor-controlled systems, equipment set-up, and safety issues. The course features the Liburd/Dimetric GTAW wire fed machine welding equipment. Limited to United Association program participants.

UAT 278 GTAW Wire Feed Welding 3 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
35 lecture, 10 lab, 0 clinical, 10.5 other, 55.5 total contact hours  
This course covers methods of teaching about the Gold Trac GTAW wire feed machine pipe welding process at the local level. This course introduces the operation, technology, comparison of analog and microprocessor-controlled systems, hot wire welding, and equipment set-up and safety issues. Additionally, the course covers process variables, system programmer control functions, weld parameter selection and development, and Dimetrics power supplies such as GT2. Limited to United Association program participants.

UAT 279 UA Certified Machine Cutting, Severing, and Beveling 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
15 lecture, 7.5 lab, 0 clinical, 0 other, 22.5 total contact hours  
This course is designed to teach the Journeyperson how to machine the many different joint designs used in our industry today. Each student is required to have a calculator, ruler, paper and pencil, safety glasses, and attend class in safe working clothes. To receive UA certification in this course, each journeyperson is required to pass a practical and written exam. Limited to United Association program participants.

UAT 280 Aluminum Pipe Welding (GTAW) 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
12.5 lecture, 10 lab, 0 clinical, 0 other, 22.5 total contact hours  
This course covers methods of teaching aluminum pipe welding utilizing the Gas Tungsten Arc Welding (GTAW) Process. The main focus will be on welding aluminum pipes in all positions. This course is supported by various technical presentations of industry representatives. Enrollment shall be limited to those who have a minimum of five years of GTAW experience. Limited to United Association program participants.

UAT 281 Gas Installations 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
10 lecture, 12.5 lab, 0 clinical, 0 other, 22.5 total contact hours  
This course covers methods of teaching about gas installations. The focus of this course is to examine gas trainers that simulate the operation of appliances and electrical control systems. Topics to be covered include: the Gas Codes, burner management, flame sensing systems, valves and regulators, and electrical control systems. Limited to United Association program participants.

UAT 282 Plastic Welding 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
10 lecture, 12.5 lab, 0 clinical, 0 other, 22.5 total contact hours  
This course covers methods of teaching plastic welding process. The main focus will be on welding plastic pipes in all positions. Topics to be covered include: welding flat plate in horizontal and vertical positions; welding schedules in stationary position; backwelding glued joints; and welding in 5G position. Limited to United Association program participants.

UAT 283 Art of Tube Bending 1.5 credits  
Level I Prerequisites: Academic Reading and Writing Levels of 6  
12 lecture, 10.5 lab, 0 clinical, 0 other, 22.5 total contact hours  
This course covers methods of teaching about the parts of a bender, the bending process, setbacks as they relate to any bend, and the layout of bends. This course will cover the triangular position; backwelding glued joints; and welding in 5G position. Limited to United Association program participants.
United Association Training (UAT)

UAT 284 Gas Metal Arc Welding 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 6 lab, 0 clinical, 4.5 other, 22.5 total contact hours
This course covers methods of teaching about the technique of gas metal arc welding (GMAW). This course emphasizes set-up of GMAW equipment, selection of project consumables, selection of the proper gases, and troubleshooting techniques. Hands-on welding instruction will be given on plate and pipe in all positions. Specialized applications of flux core, metal core, aluminum, and pulse mig will also be presented. Limited to United Association program participants.

UAT 285 ASME B31.3 Process Piping 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
16.5 lecture, 0 lab, 0 clinical, 6 other, 22.5 total contact hours
This course covers methods of teaching about the ASME B31.3 Process Piping Code. The course will cover B31.3 scope, materials, fabrication & erection, inspection, examination and testing. The course will also cover mechanical behavior, welding metallurgy, basic piping design, cathodic protection, and piping for Category M Fluid Service. Students selecting this course should have a strong background in metallurgy, welding, and piping fabrication. Limited to United Association program participants.

UAT 286 Industrial Refrigeration Trainer 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12.5 lecture, 10 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about how to use the Hampden Industrial Refrigeration Trainer (IRT) as a teaching tool in presenting basic commercial refrigeration concepts. Topics to be covered include: operating and servicing large industrial systems requiring water-cooled condensers; electric and hot gas defrost systems; cooling towers; hot bypass capacity control systems; crankcase pressure regulators; crankcase heaters; and pressure pumps. Limited to United Association program participants.

UAT 287 R410A Safety and Training 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
11 lecture, 6.5 lab, 0 clinical, 5 other, 22.5 total contact hours
This course covers methods of teaching about providing training and certification for the proper safety, handling, and application of R410A refrigerant. Students will be informed of how they can become a proctor as well as how to administer the Universal R410A Safety & Training Exam in their home Local Union. Topics to be covered include: R410A test preparation, thorough knowledge of the R410A equipment, and use of the online Esco Institute webpage for proctors. Limited to United Association program participants.

UAT 288 Shielded Metal Arc Welding 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
8.5 lecture, 8 lab, 0 clinical, 6 other, 22.5 total contact hours
This course covers methods of teaching about Shielded Metal Arc Welding (SMAW) and Oxy-Fuel Cutting & Welding. Topics to be covered include: welding shop safety, types and proper operation of the welding machines used in SMAW, and welding types of electrodes and their make-up. Class size will be limited to allow as much rod time as possible. Students selecting this course must come to class in safe working clothes. Limited to United Association program participants.

UAT 289 Electrical Diagrams in HVAC 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
16.5 lecture, 6 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about alternative methods for teaching electrical diagrams in HVAC. This course is designed around a software program called “The Constructor.” Participants will learn how this software works, how to interpret electrical diagrams using this new software, and how to apply it in teaching HVAC apprentices. Limited to United Association program participants.

UAT 290 Gas Tungsten Arc Welding 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
8.5 lecture, 8 lab, 0 clinical, 6 other, 22.5 total contact hours
This course covers methods of teaching about Gas Tungsten Arc Welding. It consists of welding pipe in the 2G, 5G, and 6G positions. The course covers the use of consumable inserts and the cup-walking technique on carbon and stainless steel. Square Butt Fusion procedures, used in the food and drug industry, will also be discussed. Enrollment will be limited to experienced welding students only. Students selecting this course must come to class in safe working clothes. Limited to United Association program participants.

UAT 291 Residential Refrigeration UA STAR 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching how to conduct a review for the Residential and Light Commercial Refrigeration UA STAR exam. All of the categories covered by the exam will be reviewed. Students will use the UA Interactive On-Line Curriculum to download the Commercial Refrigeration UA STAR review materials. Web-based STAR review classes will also be discussed. Limited to United Association program participants.

UAT 292 Pipefitting Layout 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
5 lecture, 17.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about piping layout. This class will teach students a unique way to layout pipe and fittings in the field without using math or manuals. This is a hands-on class so students are encouraged to wear jeans as you will be working on the floor. This class will also cover the manner of pipes and fittings and the fabrication of specialty tools for the trade. Limited to United Association program participants.

UAT 293 Commercial Refrigeration UA STAR 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about how to conduct a review for the Commercial Refrigeration UA STAR exam. All of the categories covered by the exam will be reviewed. Students will use the UA Interactive On-Line Curriculum to download the Commercial Refrigeration UA STAR review materials. Web-based STAR review classes will also be discussed. Limited to United Association program participants.

UAT 294 Plumbing Service 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12.5 lecture, 10 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about plumbing service. The course will cover the operational, installation, and safety aspects including trouble shooting and repair of fixtures, flush valves sewer systems, faucets, appliances, and electronics in the plumbing industry. Aspects of customer relations and marketing will be reviewed. This course will address the employer, employee relationships, and standard company policies of the plumbing industry. Limited to United Association program participants.

UAT 295 UA STAR Plumbing Review 1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
18 lecture, 4.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about how to conduct the Plumbing UA STAR Certification Exam. All of the categories covered by the exam will be reviewed. Students will use the UA Interactive On-Line Curriculum to download the UA STAR plumbing review materials. Web-based STAR review classes will also be discussed. The final 4 hours of the class will be an actual NITC proctored UA STAR Plumbing exam. Limited to United Association program participants.
UAT 296  UA STAR HVACR Review  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
18 lecture, 4.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about how to conduct a review for the HVAC & R UA STAR Plumbing certification exam. All of the categories covered by the exam will be reviewed. Students will use the UA Interactive On-Line Curriculum to download the HVAC & R UA STAR review materials. Web-based STAR review classes will also be discussed. The final 4 hours of the class will be an actual NITC proctored HVAC & R UA STAR Plumbing exam. Limited to United Association program participants.

UAT 297  Sprinkler Fitter UA STAR  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about how to conduct a review for the Sprinkler Fitter UA STAR exam. All of the categories covered by the exam will be reviewed. Students will use the UA Interactive On-Line Curriculum to download the Sprinkler Fitter UA STAR review materials. Web-based STAR review classes will also be discussed. Limited to United Association program participants.

UAT 298  UA STAR Pipefitting Review  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
14 lecture, 4.5 lab, 0 clinical, 4 other, 22.5 total contact hours
This course covers methods of teaching about how to conduct an 18.5 hour review for the UA STAR Steamfitting/Pipefitting certification exam. All categories covered by the exam will be reviewed. Using the UA interactive online curriculum to download the review materials and practice exams will be covered. Web-based STAR review classes will also be discussed. The final 4 hours of the class will be an actual NITC proctored UA STAR Steamfitting/Pipefitting exam. Limited to United Association program participants.

UAT 299  ATR Refresher Training  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
10 lecture, 8 lab, 0 clinical, 4.5 other, 22.5 total contact hours
This course covers methods of teaching about how to conduct an Authorized Testing Representative (ATR) refresher training for the UA Welder Certification Program. Emphasis will be placed on program changes and their effects on Local Unions' implementation of the system requirements. A written examination will be administered to evaluate students' understanding and capability to implement program requirements. Limited to United Association program participants.

UAT 305C  Canadian Green Building  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course includes four main topics: Leadership in Energy and Environmental Design, understanding high efficiency buildings and sustainable design, development of a training program for delivery of up-to-date local membership skills for the green building revolution, methods and strategies for identification and targeting of work in the green building sector for the future. Limited to United Association Instructor Training program graduates.

UAT 307  Interactive Teaching  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This class will build on the professional classes offered during the first five years of the UA Instructor Training Program specific to fire sprinkler fitter instructors. The class will help our instructors combine presentation skills with technical knowledge. Topics include new and more effective techniques on how to: effectively engage their audience, create individual and group discussion, structure classroom set-up to be more conducive to individual participation, disengage problematic or disruptive participants, manipulate the lesson plan to fit a set time frame and create participant interaction. Limited to United Association Instructor Training program graduates.

UAT 308  Industrial Refrigeration Market  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This class will cover the set-up, planning, organization and instruction related to the industrial/commercial refrigeration industry. Topics covered will include system design and utilization, case-cooler-end product refrigerating principles, system troubleshooting and start-test and balance. Of important inclusion will be the EPA's new "GreenChill" (supermarket refrigeration) program and its move into the industry, and how field technicians can assist the customers in qualifying and re-certifying buildings for the program. Limited to United Association Instructor Training program graduates.

UAT 309  Combustion Analysis  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This sustainable energy course is designed to educate UA instructors on the essential information required to train apprentices and journeymen on achieving higher fuel efficiencies, better system performance and reduced greenhouse gas emissions by performing and understanding combustion analysis. It is necessary to perform a combustion analysis on all combustion systems to ensure safe operation at peak efficiency. Upon successful completion and assessment, participants will receive a certification that attests to their knowledge of combustion analysis and carbon monoxide safety. Limited to United Association Instructor Training program graduates.

UAT 310  Setting Up HVACR Programs  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 10.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course trains instructors in procedures for starting up new HVACR programs at the local school. Topics include the scope of the industry, the market requirements of the geographical areas and the physical equipment, tools, supplies and manpower requirements for a HVACR program to be successful. Limited to United Association Instructor Training program graduates.

UAT 311  Confined Space  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 15 lab, 0 clinical, 0 other, 45 total contact hours
This five-day training is a combination of OSHA's (#2260) 3-day classroom-based confined space course on OSHA's General Industry Standard with CPWR's 2-day hands-on simulated entry training. The OSHA 2260 course is designed to direct students to first determine if a space is a confined space, then to properly classify each confined space as either permit-required or a non-permit space. Topics include legal issues, permit programs, ventilation and rescue. Course features workshops on confined space hazards and classification of spaces. CPWR's Hands-on training includes air monitoring, ventilation, supplied-air respirator (SARs), self-contained breathing apparatus (SCBAs), entry procedures, retrieval and other aspects of permit-required confined space entry. Participants who complete the course will receive: an OSHA 2260 Certificate; a CPWR 16-hr Confined Space Certificate; and a CPWR Train the Trainer Certificate. Limited to United Association Instructor Training program graduates.

UAT 312  Energy Auditing and Retrofit  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course will cover how the sustainable energy movement is using the energy retrofit process to meet the goal of making buildings efficient. All steps in the energy retrofit process will be covered with emphasis on the audit and Energy Conservation Measures (ECM) portion of the process. Also, the instruments used in the audit process as well as the engineering concepts of developing ECM will be covered. Limited to United Association Instructor Training program graduates.
UAT 320  History of the Labor Movement  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours
This course covers methods of teaching about the history and heritage of the Labor Movement. It is built on the narratives of working people and their leaders creating enduring institutions. It is a story of crises, courage, and innovation that spans approximately 350 years from organized colonial craftsmen to workers confronting the global economy in the 21st century. Limited to United Association Instructor Training program graduates.

UAT 321  Labor History and the UA: 1920 to Present  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
18.5 lecture, 0 lab, 0 clinical, 4 other, 22.5 total contact hours
This course covers methods of teaching about the labor history and the UA from the 1920s to the present. This course is a continuation of the narratives of working people and the leaders who created enduring labor institutions. Course UAT320, History of the Labor Movement, is a prerequisite for taking this course. Limited to United Association Instructor Training program graduates.

UAT 322  Labor History in the UA 1800 to Present  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
Labor History and the UA is a class covering the struggles of the labor movement from 1800 to present. It is built on the narratives of working people and their leaders creating enduring institutions. It is the story of crises, courage and innovations that spans 350 years from colonial craftsmen into the twenty-first century. There is special attention paid to more recent history from the 1920’s to the present day. This class will cover events and people through time that have played an important role in labor history. Limited to United Association Instructor Training program graduates.

UAT 325  Industrial Rigging  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
37 lecture, 0 lab, 0 clinical, 8 other, 45 total contact hours
This course covers methods of teaching about industrial rigging. This course has a theoretical and a practical component covering the best rigging practices, calculating centers of gravity, sling stress, crane set up, and the use of tuggers, jacks, and rollers. There will be a written exam along with the performance exam, which upon passing the student will receive a UA/EPRI certification for industrial rigging as well as a rigging course CD and example workbook. Limited to United Association Instructor Training program graduates.

UAT 351  Plumbing Codes  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
14.5 lecture, 0 lab, 0 clinical, 8 other, 22.5 total contact hours
This course covers methods of teaching about the development, technical comparison, interpretation and practical application of the model plumbing and mechanical codes. The UA Plumbing Code Manual will be used as the base document. Limited to United Association Instructor Training program graduates.

UAT 353  ASME Section IX Welding Code  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course is designed to provide individuals with an understanding of welding procedures specifications and welder qualifications in accordance with Section IX of the ASME Code. Participants will be able to apply the rules of Section IX as they pertain to the development of welding procedure specifications and the qualification of welders. A logical approach to compliance with Section IX is discussed and implemented in an open workshop environment. Limited to United Association Instructor Training program graduates.

UAT 358  Cross Connection Control  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course covers methods of teaching about surveys and inspections for cross connection control. Topics include: identifying cross-connections; understanding how backflows occur; methods used to control backflows; recommended applications for each type of backflow assembly; interpreting plumbing codes and local ordinances; and inspecting a facility for cross-connections. Exercises include reviewing plans and going to an actual site to do a survey inspection for cross-connection control. Limited to United Association Instructor Training program graduates.

UAT 362  Valve Repair Recertification  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
8.5 lecture, 8 lab, 0 clinical, 6 other, 22.5 total contact hours
This course covers methods of teaching about how to conduct a Valve Repair Recertification Program using the Quality System Manual. Emphasis will be placed on comprehending new industry standards on valve maintenance and repair techniques; precision measuring devices; hands-on review of valve disassemble; and documentations used for quality control. A written examination will be administered to evaluate students’ understanding and capability to implement program requirements. Limited to United Association Instructor Training program graduates.

UAT 367  Advanced Air and Water Analysis  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 7.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about advanced air and water analysis. It is designed for students who have Start, Test and Balance experience. Topics include: advanced studies of psychrometrics, pump and fan design, electrical power analysis, and the use of variable frequency drives. Students will engage in classroom activities and perform practical exercises on different operating equipment in a mechanical area. Limited to United Association Instructor Training program graduates.

UAT 369  Advanced Residential Training  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 7.5 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about administrative procedures for implementing this program in the various local areas. Students will learn how the recruiting, promoting, and training differs from the regular apprentice training programs. This course covers the installation, maintenance, and servicing of plumbing, heating, air conditioning, and the sprinkler systems installed in residential applications. Limited to United Association Instructor Training program graduates.

UAT 390  Operation of a UA Training Program  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours
This course covers methods of teaching about how to provide local union coordinators, directors, and Joint Apprenticeship Training Committee members with the background and knowledge necessary to operate today’s UA’s local training programs as well as to provide policy and guidance developing local standards of apprenticeship for approval and registration. Limited to United Association Instructor Training program graduates.
UAT 391  Coordinators’ Yearly Update  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This course covers methods of teaching about important administrative concerns and issues affecting the local union Joint Apprenticeship and Training Committee. Each section addresses current events and new concepts in the area of training. Students are encouraged to bring questions concerning their local union Joint Apprenticeship and Training Committee for discussion. Limited to United Association Instructor Training program graduates.

UAT 393  Canadian Coordinators’ Update  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
12 lecture, 0 lab, 0 clinical, 10.5 other, 22.5 total contact hours
This course is designed to provide Canadian Local Union Directors/Training Coordinators with information about important administrative updates, concerns, and issues affecting the local unions so that they will be able to share this knowledge with others. Each course module addresses the impact of current events and new regulations on apprenticeship training. Students are encouraged to bring questions concerning their local union Joint Apprenticeship and Training Committee for discussion. Limited to United Association Instructor Training program graduates.

UAT 395  UA Administrative Resources  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
The focus of this course is to teach Training Coordinators/Directors how to use technology to teach with Blackboard and Microsoft Office and to use everything available to them through the UANET. This course will focus on the apprentice registration process, the UA Smart System, and state and federal grants. Students taking this course should have a working knowledge of how to operate a computer. Limited to United Association Instructor Training program graduates.

UAT 397  Coaching Students with Challenges  1.5 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
22.5 lecture, 0 lab, 0 clinical, 0 other, 22.5 total contact hours
This teach-the-teachers course focuses on how to coach adult learner students who are coping with life’s challenges. Topics to be covered includes: how to recognize students who are struggling academically or personally; how to offer support to students and refer them to appropriate personnel; and how to adapt to students’ needs and learning styles. Participants will learn how to apply useful principles to course design as well as to address common, student-related issues that arise during classroom instruction. Limited to United Association Instructor Training program graduates.

Video Production  

VID 101  Video Production I  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Corequisites: VID 110
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This is an introductory course that teaches the basics of video production. Basic videography, lighting, storyboarding, composition, and audio will be covered. Students are guided through a series of demonstrations and hands-on exercises to develop their skills. A brief overview of the history and language of production is included.

VID 102  Video Production II  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; VID 101 and VID 110
Corequisites: VID 112
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to develop and expand skills learned in VID 101. More in-depth study of storyboarding, shot lists, scripting, budgeting, videography, lighting, audio, and more advanced production techniques are covered. Through a combination of lecture and hands-on exercises, students develop skills to produce various styles of productions. Depending on the students’ interest, they may produce a finished informational, public service, advertisement, narrative, or artistic video production.

VID 110  Digital Video Editing I  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
Corequisites: VID 101
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course introduces students to non-linear digital editing (computer editing). A brief overview of the editing process is covered. Students learn the basics of importing (digitizing) video, basic editing techniques, trimming clips, basic effect palettes, overlaying audio with video, recording narration and music, and saving the finished production to digital tape as well as QuickTime file.

VID 112  Digital Video Editing II  4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; VID 101 and VID 110
Corequisites: VID 102
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
Students learn advanced editing techniques using Final Cut Pro software on a Mac G4 computer. Students study and develop skills in system configuration and language, rough cut editing, editing for effect, match frame editing, printing to video/multimedia or web, as well as editing their own footage from VID 102. A combination of lecture and hands-on experience are combined to develop editing skills.

VID 200  Lighting  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; VID 101 and VID 110
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course, students gain hands-on experience with lighting for video through the exploration and application of multiple lighting effects. Specific areas covered are: color temperatures of light, white balance, manipulation of light using filters, exposure latitudes and light ratios, use of light meters, diffusers, flags, electrical demands, safety procedures as well as many other topics consistent with improving the ability to communicate more effectively using lighting in video.

VID 203  Web Video  3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; VID 102 and 112, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course students produce video presentations for the Web. From the original concept to Web-ready video clips, students address the technical as well as the aesthetic steps necessary to produce Web-ready digital video. Topics range from commercial, to educational, to entertainment applications.
VID 255 Video Studio/Green Screen Effects 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; VID 102 and VID 112
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to give students the necessary skills to produce effective, professional productions using one of the most popular and cost-effective ways to place subjects or objects in virtually any location or environment imaginable. Until very recently this process was only possible for feature film studios. Students produce a variety of video productions emphasizing the use of green screen effects.

VID 270 Documentary and Reality Videos 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; VID 102 and VID 112, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course will trace the two main approaches to documentary video production—recording behavior and re-creating past events. The student will be introduced to pivotal historical as well as present-day documentary filmmaking. Student productions explore the process from conceptualization, recording, to the final digital documentary production.

VID 276 Advanced Video Graphics I 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; VID 112 or GDT 140, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 15 other, 60 total contact hours
This course introduces students to motion graphics composition for film/video and internet distribution. Students learn the role of motion graphics in these media. Adobe After Effects is used as the main tool to create motion graphics compositions. Students learn the basics of visual effects terminology, effect keying and transparency, keyframing, synchronizing compositions to music, compression codecs required for output optimization, and saving the finished composition to a variety of film/video and internet ready formats such as Apple QuickTime. Lecture, hands-on experience and creative mentoring are combined to develop motion graphics composing skills. Students gain a working knowledge of After Effects and are exposed to examples of work from industry professionals for inspiration. This course was previously VID 295.

VID 277 Advanced Video Graphics II 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; VID 276 minimum grade “C”
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
In this course students expand upon the basic skills learned to produce advanced motion graphics compositions. Adobe after Effects is used as the main tool to create motion graphics compositions. Students will create original work based on advanced concepts such as color-screen keying, particle effects, three- dimensional space, and geometric motion. Students will expand their ability to create motion graphics through critical review of work from industry professionals.

VID 280 DVD Authoring 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 2; GDT 140, INP 152, or PHO 127, minimum grade “C”
45 lecture, 0 lab, 0 clinical, 15 other, 60 total contact hours
DVD authoring will give students the skills to create interactive DVD’s using digital video, graphic files, photographs and any other multi-media formats. With the use of menus, buttons, subtitles, alternate languages and sound tracks, this course will be an excellent way for students to create a portfolio and add an additional skill on their resume.

VID 295 Professional Portfolio 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; VID 102 and VID 112; and one of the following: VID 200, VID 255, VID 270 or VID 277, may enroll concurrently
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is designed to provide students an opportunity to assemble a professional portfolio. The portfolio is a compilation of projects that demonstrate students skills in such areas as audio, lighting, editing, special effects, as well as the incorporation of music, design and/or photography. A DVD is the final product, and is designed for purposes of self-promotion for students seeking employment, clients, or transfer to a college or university.

Welding & Fabrication WAF

WAF 100 Fundamentals of Welding 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
This is a basic combination welding course dealing with oxy-acetylene and arc welding designed to meet the needs of students enrolled in auto body repair, auto mechanics, detailer draftsman, etc. Typical applications are made in a lab setting.

WAF 101 Acetylene Welding 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Designed for students who need a knowledge of oxy-acetylene welding and a degree of skill required by industry. Primarily for students whose occupations are associated with welding.

WAF 102 Basic ARC Welding 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
This introductory course in arc welding covers theory and practice, and proper procedures for various welding positions. Topics include A.C. and D.C. welding, electrode identification, classification and proper applications to typical operations.

WAF 103 Heli-ARC Welding 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
Instruction is given in tungsten, inert gas, and shielded arc welding. Manually operated torches are used on such metals as aluminum, stainless and mild steels; includes theory directly related to the composition and properties of these metals.

WAF 104 Soldering and Brazing 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
This course is designed to provide basic knowledge of soft soldering, brazing, silver soldering, copper tubing and fittings, brazing of steel, silver soldering of copper and stainless. Practical application included.

WAF 105 Welding for Art and Engineering 2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
15 lecture, 45 lab, 0 clinical, 0 other, 60 total contact hours
This is a basic welding class. No welding experience is necessary. Oxyacetylene (welding and cutting), arc welding and soldering and brazing are explored with hands-on training provided. Students work on class competencies, at their own pace, beginning with safety practices and set-up in each area. The welding lab has individual work stations for a no waiting to work and a safe atmosphere. Students are given personalized instruction on every class objective to help with their mastery of the art of welding.
WAF 106 Blueprint Reading for Welders 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This class is designed for the welders who are responsible for properly locating weld on the weldment and determining weld size, contour, length, type of filler metal and any applicable welding procedures.

WAF 111 Welding I Oxy-Acetylene 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
This course focuses on the use of oxy-acetylene equipment to perform such operations as butt, lap, and fillet welds using filler rods; flame cutting, brazeing and silver soldering. Safety procedures and practices of gas welding are emphasized.

WAF 112 Welding II Basic ARC 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
This course involves the use of arc welding equipment both A.C. and D.C. to perform such operations as butt, lap and fillet welds using bare and shielded electrodes, all-purpose and special electrodes. Study of electrical welding, power supplies and electrodes is included. Safety procedures are stressed.

WAF 123 Welding III Advanced Oxy-Acetylene (OAW) 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Advanced instruction is provided in oxy-acetylene welding with emphasis on out of position welded joints. Procedures are covered and put in practice for fabricated welded joints on steel plate and pipe. Related theory is included.

WAF 124 Welding IV Advanced ARC (SMAW) 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
Advanced instruction is provided in arc welding using both A.C. and D.C. arc welding equipment. Emphasis is on out of position welded joints in mild steel, alloy steels and procedures covered for cutting, beveling and fabricating various welded joints. Related theory, codes and standards are included.

WAF 200 Layout Theory Welding 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 45 lab, 0 clinical, 0 other, 75 total contact hours
This course involves layout problem-solving for the welder including techniques using layout dye, combination squares, protractors, center heads, dividers, and straight edges. Template making for pipe cutting and joining is emphasized. A basic math review and the properties of a circle such as radius, chords, and degrees of angularity for jobs done in the field are included.

WAF 201 Special Topics in Welding 1-8 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; WAF 105, WAF 111, WAF 112, or WAF 227
0 lecture, 0 lab, 15 clinical, 120 other, 135 total contact hours
The focus of this course varies, depending on students' individual goals and objectives. Some students may use this course to construct a project, others may wish to brush up their skills for a welding certification. Credits and contact hours will vary for each student. Students complete a “plan of work” during the first class.

WAF 205 Plumbing and Pipefitting I 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; Academic Math Level 2
45 lecture, 0 lab, 0 clinical, 0 other, 45 total contact hours
This course is a practical study of plumbing and pipefitting fundamentals as well as the classifications and functions of boilers, steam, and hot water heating systems. Heating code is also covered.

WAF 206 Plumbing and Pipefitting II 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; WAF 205
60 lecture, 0 lab, 0 clinical, 0 other, 60 total contact hours
This course is a continuation of Plumbing and Pipefitting I. Participants learn about water supply, waste disposal, drainage, venting, unit sanitation equipment, and plumbing codes. Students with equivalent experience may contact the instructor for permission to waive the prerequisite.

WAF 210 Welding Metallurgy 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
This course focuses on identification of metal properties through testing. It also covers the effects of alloying elements, specification use, and application of steel alloys and stainless steel. The principles of heat treatment of metals in various welding applications are included.

WAF 215 Welding V Advanced GTAW and GMAW 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
This course involves tungsten-inert gas shield arc welding with manually operated torch on such metals as aluminum, mild steel and stainless steel. Technical theory directly related to TIG welding including the composition and properties of metals.

WAF 226 Specialized Welding Procedures 4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; WAF 123, WAF 124, and WAF 215, minimum grade “C”
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
This course involves specialized oxy-acetylene welding, inert gas-shield arc and GMAW MIG welding. Emphasis is given to aluminum, stainless steel, high alloy steels and cast iron. Procedures for welding of the exotic metals such as titanium, columbium, zirconium, and molybdenum are included.

WAF 227 Basic Fabrication 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; WAF 105
30 lecture, 30 lab, 0 clinical, 0 other, 60 total contact hours
For advanced welders planning to use their welding skills in manufacturing, this class teaches the skills necessary to design, cut and fit pieces to be welded. Welders are trained in the use of modern machines for bending, punching, cutting and shaping. Each student takes a self-chosen project and carries it through from blueprints to actual assembly. Estimation of material and labor costs is included.

WAF 229 Shape Cutting Operations 3 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
45 lecture, 15 lab, 0 clinical, 0 other, 60 total contact hours
Students learn the shape-cutting process with oxy-acetylene and plasma cutting torches. With the use of the optical eye and Burny IV N.C. control, students learn how to cut mild steel, aluminum and stainless steel parts.
Welding and Fabrication (WAF) – Yoga (YOG)

**WAF 289 MIG Welding**
4 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
30 lecture, 90 lab, 0 clinical, 0 other, 120 total contact hours
This course focuses on the use of MIG equipment to perform such operations as BUTT, LAP, and fillet welds. The course emphasizes all weld positions using solid and flux cored wires.

**Yoga**

**YOG 101 Yoga I**
2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course introduces and applies fundamental disciplines and postures in yoga. The title of this course was previously Introduction to Hatha Yoga.

**YOG 102 Yoga II**
2 credits
Level I Prerequisites: Academic Reading and Writing Levels of 6; YOG 101 minimum grade “C”
0 lecture, 0 lab, 0 clinical, 30 other, 30 total contact hours
This course is a continuation of the introduction and application of fundamental disciplines and postures in yoga. The title of this course was previously Philosophy and Practice of Yoga.

Faculty/Professional Staff

Abbotts, Tammy 2008
Supervisor Building Services
A.D. - Oakland Community College
B.B.A. - Baker College

Abella, Mohammed 1999
Faculty: Mathematics
B.S. - University of Bradford, England
M.S. - University of Miami
Ph.D. - University of Miami

Abrams, Terry 1990
Faculty: Visual Arts Technology
B.F.A. - Maryland Institute College of Art and Design
E.D.M. - Boston University
Certificate - Agfa-Gevaert

Adler, Sally 1993
Faculty: Public Service Careers
B.S. - Pennsylvania State University
M.S. - Pennsylvania State University
Certificate - PA Dept of Education

Aeilts, Larry 1999
Registrar
B.B.A. - Cleary College
M.S. - Walsh College

Albach, Suzanne 2007
Faculty: Physical Sciences
B.A. - Bowling Green State University
B.S. - Eastern Michigan University
M.S. - Mississippi State University

Anderson, Laurice A. 1998
Faculty: Performing Arts
B.A. - Butler University
M.F.A. - University of Michigan

Arnett, Bonnie 2006
Faculty: Reading
B.S. - Eastern Michigan University
M.A. - Eastern Michigan University

Atkinson, John H. 1997
Faculty: Public Service Training
B.A. - University of Michigan
M.P.A. - Eastern Michigan University
J.D. - Detroit College of Law

Avinger, Charles 1992
Faculty: English/Writing

M.A. - University of Alabama

Babcock, H. Lind 1994
Faculty: Visual Arts Technology
B.F.A. - Michigan State University
M.A. - Central Michigan University
M.F.A. - Kent State University

Bai, Jing 2005
Systems Analyst I
B.S. - Beijing Shifan University
M.S. - University of Detroit Mercy

Baker, Jennifer L. 1995
Faculty/Department Chair: Visual Arts Technology
A.D. - Washtenaw Community College
B.A. - University of Michigan
M.F.A. - Rhode Island School of Design

Barth, Paula 2001
Career Education Coordinator
B.S. - Wayne State University

Batell, Mark F. 1984
Faculty: Mathematics
B.A. - Knox College
M.A. - University of Michigan

Benin, Michelle 1998
Labor and Employment Relations Specialist
C.L.R.P. Certificate – Certified Labor Relations Professional – Michigan State
Bennett, Victoria  
**Academic Administrative Associate**  
B.S. - Grand Valley State University  
2006

Bhattacharyya, Nilotpal  
**UNIX Administrator**  
B.M.S. - University of Guwahati  
1999

Billick, Christopher  
**Manager Web Services**  
B.F.A. - University of Michigan  
2008

Bishop, Todd  
**Manager Construction Project**  
Management Certificate - State of Michigan  
2001

Blair, Dena  
**Faculty: Communication and Broadcast Art**  
B.A. - Adrian College  
M.A. - Eastern Michigan University  
Certificate - Specs Howard School of Broadcast Arts  
2006

Members of program Advisory Committees work closely with WCC faculty to improve the curriculum, keep instructors current on market trends and provide advice for updating equipment and facilities. These individuals, all local community volunteers, represent a wide and diverse spectrum of the business, industry, professional and educational agencies of the region. The College depends on the advice and assistance of these representatives to continually maintain the highest quality educational programs, courses and services. Deans and Department chairs are ex-officio members of committees in their areas.

Program Advisory Committees
2010 - 2011

Automotive Services Advisory Committee
Don Apple, AVL Engineering
Bill Dehn, Sidestreet Garage
Jay Drouillard, Attorney
Ross Edgar, Toyota Technical Center
Kevin Ferguson, LaFontaine Dodge
Russ Ferguson, Washtenaw Community College
Dan Hoffenbecker, Sidestreet Garage
Brian Hogue, Hoover Street Auto
Mike Lewkowicz
Jack Miller, Ypsilanti Automotive Heritage Museum
Tim Pott, Renntech
Chuck Reavis, RCTC Ypsilanti
Michael Reseka, Reseka Restoration
George Riehl, Lotus Engineering, Inc.
John Russell, Ann Arbor School System, Retired
Tim Schriner, Toyota Technical Center
Jason Trib, Kalitta Motorsports
David Vella, Toyota Technical Center
Larry Webster, Popular Mechanics Magazine
Rick Weid, NATEF ETL - Retired
Ron Weston, Hartland High School
Ryan Wood, Toyota Technical Center
Don Wright, Engineering Group Manager Validation HVAC PTC
John Wright

Business Advisory Committee
Amelia Chan, Eastern Michigan University
Susan Ederer, Zingerman's
Bill Grimes, Washtenaw Community College
Ida Hendrix, Briarwood Mall
Betty Hite, McNaughton and Gunn, Inc.
Marisa Liedeke, NuStep, Inc.
Toni Morell, Zingerman's
Dilip Mullick, East West Industrial Engineering
Nicole Paine, Robert Half Co.
Charles Penner, Small Business Technology Development Center
Candice Shavalia, Busch's Inc.
Deedra Springgay, Eastern Michigan University

Business Office Systems
Artemis Alex, Ypsilanti High School
Lynn Allison, Washtenaw Community College
Lillie Carter, University of Michigan Health Systems
Neil Gudsen, Washtenaw Community College
Camille Moberg, Sallie Hamilton Personnel
Shelly Smitowski, University of Michigan
Carol Sturtevant, University of Michigan Health Systems
Darcelle D. White, Eastern Michigan University
Wendy Willford, Manpower Inc. of Southeast Michigan
Rosemary Wilson, Washtenaw Community College
Sandra Worrell, Washtenaw Community College
Program Advisory Committees

**Child Care Advisory Committee**
Sally Adler, Washtenaw Community College
Carrie Anderson, Morning Star Child Care Center
Dr. Martha Baiyee, Eastern Michigan University
Kathleen Burchi, Child Care Network
Linda Coon, Consultant
Sian Owen-Cruise, Washtenaw Success by 6
Liz Galimore, Saline High School
Phyllis Grzegorczyk, Washtenaw Community College
Laura Griswold, Gretchen’s House Child Care Centers
Trudi Hagen, Washtenaw Community College
Dr. Seong Hong, University of Michigan – Dearborn
Michael Kerr, Consultant
Rick Leyshock, Washtenaw Intermediate School District
Shannon Lockhart, High Scope Educational Research Foundation
Vicki Malcolm, Ann Arbor Public Schools
Jessica Schairer, Child Time Learning Center
Diane Sheffrey, St. Francis School
Martha Showalter, Washtenaw Community College
Kathleen Strnad, Washtenaw Community College
Ruth Walsh, Washtenaw Community College

**Culinary and Hospitality Advisory Committee**
Catherine Ackerman, Gandy Dancer Restaurant
Jillaine Beauchamp, Washtenaw Community College
Jo Carter, Ikea Corp.
Ani Carvalho, Holiday Inn
Erin Cebulski, Kensington Court Hotel
Bill Collins, Barton Hills Country Club
Jane Cuthbert, Holiday Inn North
Corbett Day, Lenawee Skills Center
Carol Calder Deinzer, Washtenaw Community College
Alicia Gannon-Boss, Regional Career and Technical Center
Debbie Hanchett, Senior Living
Cheryl Hanewich, Mainstreet Ventures
John Helmbreck, Jackson Area Career Center
Terri Herrera, Washtenaw Community College
Todd Hershberger, Glacier Hills Retirement Community
Kevin Hill, Howell High School
David Kabat, Haabs Restaurant
Laura Kokkales, University of Michigan
Robin Lewis, Campus Inn Hotel
Joanie Mallory, Zingerman’s Roadhouse
Paul McPherson, Washtenaw Community College
Michael J. Maynard, Angel Food Catering
Bonnie Miles, Ann Arbor Convention and Visitors Bureau
Sam Musto, South and West Consortium
Joe Nader, Ford Field
Leronica Roberts, Chartwell’s Dining Services
Lenny Sims, Sysco Food Services of Detroit
Marilyn Suter, Pioneer High School
Sue Symington, Huron High School
Aaron Taylor, Comfort Inn
Mike Thayer, Silver Maples of Chelsea
Chris Troiano, Washtenaw Community College
Chuck Usztics, Romulus High School
Andrew Willis, Whole Foods Market
Laura Zischke, Mainstreet Ventures
Mary Sue Zucchero, Ypsilanti Visitors and Convention Bureau

**Computer Information Systems Advisory Committee**
Aydin Akcasu, Software Consultant
Victoria Bennett, Washtenaw Community College
Daniel Bethuy, Booth Newspapers
Denis Carmichael, Cumulus
Clif Flynt, Noumena Corporation
Terry Gliedt, University of Michigan
Neil Gudsen, Washtenaw Community College
Nancy Howard, Washtenaw Community College
Brent Jones, Entertainment Publications
Khaled Mansour, Washtenaw Community College
Roy Schmidt, Software Consultant
Pat Schumaker, Schumaker and Company
Richard Sheridan, Menlo Innovations
David Thibault, IT Strategy Partners
Victor Volkman, Loving Healing Press
Program Advisory Committees

Dental Assisting Advisory Committee
Gwen Graham-Feldkamp, Michigan Prison Systems
Heidi Hall, Kay L. Wilson, D.D.S.
Ronald Heys, D.D.S.
DeAnna Keith, Ray Maturo, D.D.S.
Arthur P. Lawrence, D.D.S.
Matthew Matuszak, D.D.S.
Natalie McGraw, D.D.S.
Kristina Sprague, Washtenaw Community College
Mary Stahle, D.D.S.
Kathleen Weber, Washtenaw Community College
Pamela Young, Steven F. Shwedel, D.D.S.

Heating, Ventilation, and Air Conditioning Advisory Committee
Gregory Alvarado, Alvarado Mechanical
Timothy Cross
Paul Johnson, Washtenaw Community College
Dale Mack, Washtenaw Community College
Bob Oltersdorf, Carrier Great Lakes
Les Pullins, Washtenaw Community College
Jill Trinklein, Ferris State University

Human Services Advisory Committee
Brenda Bolzman, Dawn Farm
Starr Burke, Washtenaw Community College
Nan K. Holmes
Linda King, Washtenaw Community College
Yvonne Murawski, Judson Center
Kristy Norris, Washtenaw Community College
David Oblak, Washtenaw County District Court
Lehman Powell
Aaron Pressel, Community Action Network
John Rinke, Washtenaw Community College
Martha Showalter, Washtenaw Community College
Chris Siehl, Washtenaw Community College
Sylvia Weinberg, Eastern Michigan University
David Wildfong, Washtenaw Community College
Kathy Winterhalter, SafeHouse Center

Industrial Technology Advisory Committee
David Braun, General Motors
Jeff Donahay, Washtenaw Community College
Ed Grabow, Robotic Concepts, Inc.
Eric Knight, Kawasaki Robotics
Tom Penird, Washtenaw Community College
Dale Petty, Washtenaw Community College
Eric Ruby, Madison Electric
Gary Schultz, Washtenaw Community College

Internet Professional Advisory Committee
Ken Estell, Cengage Learning
Keith Kopinski, PWB Marketing Communications
Catherine Hayes, Inner Circle Media
Ritu Khanna, University of Michigan Health System
Austin McLean, ProQuest Information and Learning
Ellen Meiselman, University of Michigan Health System
Dave Mitropoulos-Rundus, Usability and Interaction Design
Derick Montague, Title Source, Inc.
Serena Rosenhan, ProQuest Information and Learning
Joanne Smith, Enlighten
Sandro Tuccinardi, Washtenaw Community College

Nursing Program Advisory Committee
Rod Collin
Rita Ferguson, St. Joseph Mercy Healthcare System
Lisa Friedman, St. Joseph Mercy Healthcare System
Valerie Greaves, Washtenaw Community College
Nancy Higgins, Eastern Michigan University
Debbie Kelly, Saline Evangelical Home
Anna Lettang-Visioni, Washtenaw Community College
Linda Lukiewski, Washtenaw Community College
Pamela McCoy, Veterans Administration Health Care System
Angela Poppe, Washtenaw Community College
Heather Poucher, University of Michigan Healthcare System
Linda Seek, Veterans Administration Health Care System
Roberta Towne, Eastern Michigan University
Susan Travis, Washtenaw Community College
Sr. Judith Vanderveen, Washtenaw Community College
Gloria Velarde, Washtenaw Community College
Program Advisory Committees

Physical Therapist Assistant Advisory Committee
Annamarie Asher, University of Michigan Health System
Kathleen A. Cook, Washtenaw Community College
Connie Foster, Washtenaw Community College
Patricia Hill, Washtenaw Community College
Brenda House, Home Care and House Call
Douglas C. Julius, St. Joseph Mercy Hospital
Jose Kottoor, University of Michigan Medical Center
Granville Lee, Washtenaw Community College
Maryann Metzger, St. Joseph Mercy Health System
Alexandra Sciaky, Veterans Administration Ann Arbor Healthcare System
Susan Travis, Washtenaw Community College

Police Academy Advisory Committee
John Atkinson, Washtenaw Community College
Darnell Blackburn, MCOLES
Paul Bunten, Saline Police Department
Jerry Clayton, Washtenaw County Sheriff’s Department
Matt Harshberger, Pittsfield Department of Public Safety
Larry Jackson, Washtenaw Community College
Barnett Jones, Ann Arbor Police Department
Jeffrey Lewis, Milan Police Department
Brian Mackie, Washtenaw County Prosecuting Attorney
Kenneth Magee, University of Michigan Department of Public Safety
Greg O’Dell, Eastern Michigan University Department of Public Safety
Martha Showalter, Washtenaw Community College
Ed Toth, Chelsea Police Department
Henry Townsend, Washtenaw Community College
Amy Walker, Ypsilanti Fire Department

Radiography Advisory Committee
Betty Allen, Veterans Administration Hospital
John Arini, Veterans Administration Hospital
Susan Aris, Chelsea Community Hospital
Lori Baird, Children’s Hospital of Michigan
Dawn Baker, Annapolis Hospital
Joy Baker, Monroe Mercy Memorial Hospital
Judy Balyeat, Saline Community Hospital
Nancy Blanton, Chelsea Community Hospital
Cindy Corredine, St. Mary Mercy Hospital
Jody Dennison, Wyandotte General Hospital
Karen Hartman, St. Joseph Mercy Hospital
Amy Helton, Allegiance Hospital
Sheila Law, St. Joseph Mercy Hospital
Willie McLaughlin, Veterans Administration Hospital
Bernadette Nareski, Wyandotte General Hospital
Dianna Redman, Monroe Mercy Memorial Hospital
Martine Ripley, Veterans Administration Hospital
Tracey Santure, Saline Community Hospital
Lisa Springsteen, St. Joseph Mercy Livingston Hospital
Dorene Stegink, University of Michigan Health Service
Jamie Stichler, Annapolis Hospital
Athalious Tinsley, St. Joseph Mercy Hospital

Technical Writing
Nancy Allen, Eastern Michigan University
Steve Benninghoff, Eastern Michigan University
Ann Blakeslee, Eastern Michigan University
Maryann Bowen, Independent Contractor
Jenn Burchill, Arbor Networks
Andrea Frazier, Thomson Reuters
Erin Moulton, Independent Contractor
Sally Paul, Thomson Reuters
Deborah Stacy, Thomson Reuters
Academic Caution
The first step in the Academic Intervention Program. Students must work with a counselor before they will be allowed to register, or drop/add. Students who improve and meet the criteria of the Program will move out of the Academic Intervention Program and into Good Standing. Otherwise, students will remain in Academic Caution or move into Academic Warning, depending on their performance.

Academic Honors
Honors bestowed upon a student who has achieved a high level of academic success. Honors may be based upon performance over one or more semesters (Deans’ List) or for cumulative performance at the time of graduation (Graduation Honors).

Academic Intervention Program
A program designed to identify and assist students who are showing signs of significant academic struggle. Students in this program must work with a counselor to develop an academic plan before they will be allowed to register. After three semesters, students who make no progress will be suspended.

Academic Suspension
Students involved in the Academic Intervention Program who have been unsuccessful at improving their performance will be suspended for the Fall or Winter semester or for an Academic year, in keeping with the criteria of the Program. Academic Suspension would occur no sooner than the end of the student’s third semester.

Academic Warning
The second step in the Academic Intervention Program. Students must work with a counselor before they will be allowed to register, or drop/add. Students whose grades improve and meet the criteria of the Program will move out of Academic Warning and either up to Academic Caution status or back into Good Standing. Otherwise, students will remain in Academic Warning or be put on Academic Suspension, depending on their performance.

Accreditation
Recognition that the College or a College program has met standards or requirements set up by an external organization.

Add
Adding a class to the student’s schedule by registering for it by the Add deadline for the session.

Admission
Acceptance of an applicant for enrollment in the College.

Articulation
The process of arranging instructional programs so that students may progress from one educational level to another without loss of credit.

Assessment
The process of determining a student’s interests or level of competence.

Audit
To enroll in a College academic credit-bearing course on a non-credit basis. Such credits as the course normally carries are not included as part of the total credit load, however, tuition is assessed like a credit registration. An audit (“AU”) grade is issued and posted to the transcript.

College Work-Study
An award of employment (an opportunity to work for paid wages on the campus) given to a student based on financial need.

Continuing Education Units (CEUs)
A nationally recognized recording device for substantive non-credit learning experiences. One CEU is defined as ten contact hours of participation in an organized continuing education experience with responsible sponsorship, capable direction, and qualified instruction.

Co-Requisite
An additional course which is required to be taken during the same semester with another course.

Course Load/Overload
WCC has three semesters per year: Fall, Winter, and Spring/Summer. A student’s course load is the total number of credit hours a student is officially registered for in a given semester, regardless of the length of the session within the semester. A Full-time Student is one who enrolls in 12 or more credit hours per semester; a Part-time Student is one who enrolls in less than 12 credit hours per semester; a Half-time Student is a Part-time student enrolled in at least 6 credit hours per semester. Students enrolling in 18 or more credit hours per semester are considered to be carrying a Course Overload.

Credit Hours
The number of hours of credit granted for a particular course. The number of credit hours is normally equal to the number of lecture hours that a class meets each week e.g., a 3-credit-hour class will meet for 3 hours each week for a 15-week semester.
Glossary

Cumulative Grade-Point Average
A measure of a student’s scholastic success, which includes all coursework attempted at the College. The average is obtained by dividing the total grade points by semester hours of credit attempted.

Curriculum
A group of courses, sequences of subjects, or planned learning experiences.

Drop
Term used when a student removes a class from his/her schedule by the 100% refund deadline for the session. The refund deadlines are published in the printed Academic Class Schedule and on the Web. The student receives a refund for tuition paid minus any fee that may apply to the particular class. This class will not show on the student transcript. Students on financial aid may owe the government money back if they drop a course.

Educational Goal
A student’s statement of the goal he/she intends to achieve by attending WCC.

Elective Course
A course which a student may choose to take from a number of alternative courses in order to fulfill a program requirement (see Open Elective and Restricted Elective).

Emeritus Program
A program for county residents who are at least 65 years of age (at the start of the credit semester) which offers tuition-free participation in WCC credit and credit-free courses, workshops and seminars.

Fees
Charges assessed to students other than tuition charges.

Financial Hold
Students are placed on financial hold when they have not met their financial obligations to the College. Students placed on financial hold are not allowed to register for courses, cannot receive their College Certificate, Associate Degree or transcript and are not eligible to receive College services of any kind.

Freshman/First Year Student
A student who has completed fewer than 31 credit hours.

GED Examination
The General Education Development examination is a comprehensive test used to appraise the educational development of adults who have not completed a high school education. By achieving satisfactory scores on the GED, adults may earn a high school equivalency certificate.

General Education Requirements
A body of learning areas which are incorporated into every WCC degree program of study. At WCC these areas include writing, speech, mathematics, natural sciences, social and behavioral sciences, arts and humanities, and computer information literacy.

Grade-Point Average
The number of grade points earned divided by the semester hours of credit attempted.

Grant
An award of money given to a student based on financial need. Grants do not need to be repaid.

Instructor Permission
If an instructor grants a student permission to register for a class, the instructor will issue the approval electronically so that the student can register online by the published Add deadline. Notification of approval to register will be sent to the student’s WCC email account.

Level Change
Moving from one level of a course to another level because of a recommendation by an instructor. For instance, an instructor may recommend a move from Math 097 to Math 067 or vice versa.

Loan
An award of money given to a student based on financial need. Loans must be repaid once a student leaves the College or does not continue at the College on at least a half-time basis.

Open Elective
A course that may be chosen from any credit course numbered 100 or above offered at WCC and applied to a program of study. The credit hours for elective courses will be counted toward the total hours required for program or certificate completion.

Orientation
Online and campus presentations for new WCC students to acquaint them with College facilities, programs, services and procedures.

Post-Secondary Education
Education beyond the high school level.

Prerequisite
Requirements that must be met or courses which must be successfully completed prior to enrolling in a specific course or program.

Program Advisory Committees
A committee made of local community volunteers representing business, industry, professional and educational agencies that provide advice and assistance to WCC’s educational programs.

Registration
The process of officially enrolling in a course (or courses). Upon registration and payment, the course(s) are entered onto the student’s permanent record unless the student drops or is dropped by the refund deadline.

Residency
The official home address of a student which is used to determine the tuition rate charged and, if applicable, program admission priority. Residency classifications are In-District, Out-of-District, Out-of-State, and Out-of-Country.
Glossary

Restricted Elective
A course that must be chosen from a specific list or a specific discipline in order to fulfill program requirements. The credit hours for elective courses will be counted toward the total hours required for program or certificate completion.

Scholarship
An award of money and/or special recognition given to a student for certain types of proficiency, such as academic, or because of financial need. Scholarship monies do not need to be repaid.

Sophomore/Second-Year Student
A student who has completed 31 or more credit hours but has not received an Associate Degree or has not qualified for upper division classification in a four-year college or university.

Transfer Agreements
Written agreements between WCC and four-year institutions, which specify transferring of WCC earned credits to the specific four-year institution.

Transfer Credit
Credit that has been taken at another accredited academic institution that is accepted by the College for use toward a College Certificate or Associate Degree.

Transcript
A transcript lists all courses taken by a student, showing the final grade received for each course. The official transcript is housed in the Enrollment Services Office, and an unofficial version can be accessed by the student in MyWCC on the WCC Website.

Tuition
The monetary charge a student must pay at the time of registration for each semester hour of academic credit. With the exception of Distance Learning classes, the tuition rate is based on the student’s residency classification.

Undergraduate
A student in a higher education institution who has not yet achieved the Bachelor’s, or first professional, degree in a field of study.

Waitlist
The waitlist is created when a particular section of a class is full and students add themselves to the waitlist during the online registration process. The student may gain a space in the class if another student drops, the class size is increased, another section is opened, or if the instructor grants electronic permission to register.

Withdrawal
Term used when a student removes a class from his/her schedule after the 100% refund deadline for the session. The refund deadlines are published in the printed Academic Class Schedule and on the Web. The student is responsible for all of the tuition and fees associated with the course, and the course will be listed on the student transcript with a W (Withdrawal). Students on financial aid may owe the government money back if they withdraw from a course. Withdrawing from a course may also jeopardize the student’s status related to the Academic Intervention Program; and any students receiving financial aid may not achieve the required Satisfactory Academic Progress.
